

Design, Launch, and Scale IoT Services

A Practical Business Approach

Barry Haughian

Apress®

Table of Contents

- About the Authorxi**
- Acknowledgmentsxiii**
- Prefacexv**

- Chapter 1: Introduction..... 1**
 - The Business of IoT..... 2
 - Ecosystems 3
 - As a Service 4
 - A Brief History of the Internet of Things..... 4
 - Evolution M2M: IoT..... 6
 - Data Reuse 6
 - The IoT Hype..... 8
 - Conclusion 9

- Chapter 2: Creating IoT Services 11**
 - A Service Approach..... 14
 - Commercial Layer: Service Definition 14
 - Service Description 15
 - Service Level Agreement..... 18
 - Fees and Payment 19
 - Acceptance Criteria 20
 - Business Strategy..... 21

TABLE OF CONTENTS

Technical Layer: Service Implementation	27
Solution Description	27
Design Documents	28
Operations Layer: Service Delivery and Operations	29
Operational Model	29
Responsibility Matrix	30
Procedures Manual.....	31
Chapter 3: IoT Technology	33
Application Layer	34
Application Development Tools.....	37
Service Access Portal	39
Administration Portals.....	40
Marketplace.....	41
Platform Layer.....	43
Public/Private Cloud	45
Regulation	46
Quality of Service	46
Data Management Costs	47
Platform Layer Components	48
Communication Layer	59
Short Range.....	64
Long-Range Cellular 2G, 3G, LTE (4G), 5G	65
Low Power Wide Area.....	69
Device Layer	71
Devices	73
Volumes.....	76
Design	77

Industry 4.0	78
Life Cycle Management	80
Key Technology Business Decisions	81
Partnering Architecture Components	81
Service of Services.....	83
Outsourcing Layers and Components.....	86
Platform as a Service	89
Distributed Design	92
Multitenancy	93
Scaling and Customizing in IoT	95
Security	97
Data Protection.....	102
Chapter 4: The Service Organization	105
Service Business Owners	107
Sales	111
Commercial Management	111
Sales Teams.....	112
Service Delivery and Operations.....	114
Service Management.....	115
Development and Operations (DevOps)	117
Research and Development	118
Agile Development.....	119
Scrums	119
Requirements Management.....	120
Business Support Tools	121
Trouble Tickets and Service Requests.....	122
Monitoring Services.....	123

TABLE OF CONTENTS

Billing Systems.....	124
Service Level Performance.....	124
Security	125
Customer Relationship Management	125
Key Operational Issues.....	126
Customer Certification.....	126
Training.....	127
Offshore Operations to Customer	128
Offshore Deployment.....	129
Automation	129
Chapter 5: IoT Assets.....	131
Data.....	131
Data Reuse	133
APIs.....	133
Algorithms.....	134
Patents	134
Devices	135
Manage IoT Assets.....	136
Chapter 6: IoT Ecosystems	137
IE Business School Industry Ecosystem Challenge.....	139
Transportation Ecosystem.....	143
Innovation with Ecosystem Partners.....	145
Conclusion	146
Chapter 7: IoT Enablers	147
Service Providers	147
AWS	150
Microsoft IoT Azure.....	151

Huawei	152
PTC/ThingWorx	153
IBM	154
Ericsson	155
IoT Enablers: Professional Services	155
Presales Support	157
Transition Management	158
Customized Reporting	159
Business Consulting	159
Device and Application Verification	160
Data Migration	160
Application Development and Maintenance	161
Operations Service Desk and Field Services	161
Systems Integration.....	162
Chapter 8: IoT Industries	163
Industry Disruption.....	165
Smart City	166
Smart Home	170
Transportation.....	173
Connected Vehicle Cloud	174
Connected Transport Cloud.....	175
Energy	176
Manufacturing.....	178
Media	180
Public Safety	181
Health.....	182

TABLE OF CONTENTS

Chapter 9: Business Model 185

- The “As a Service” Business Model 185
- Understanding AaS vs. Capex 187
- Keys for Success in an IoT Business 190
- Key Challenges for a Successful IoT Business..... 191

Chapter 10: The Current and Future Status of the IoT 193

- Nokia: Grant Marshall, VP of Supply Network and Engineering 193
 - Where are we with IoT? Is it fulfilling your expectations?..... 193
 - How will it impact Industry 4.0?..... 194
 - How will AR and AI evolve with the IoT?..... 194
 - What are the biggest challenges? 195
 - What are the implications of 5G for the IoT? 195
 - What is the role of ecosystems in the IoT?..... 196
- Microsoft: Luis (Tayo) Carvalhal, Global Black Belt IoT 196
 - Where are we with the IoT? Is it fulfilling your expectations?..... 196
 - What are the technology challenges for IoT growth?..... 197
 - How are cloud services supporting the IoT revolution? 197
 - What are the implications of AI and AR advances for IoT services?..... 197
 - How will 5G impact IoT services? 198
 - What do you expect for the future of connected devices? 198
- Ericsson: Miguel Blockstrand, Head of IoT DCP 198
 - What are the key benefits of connectivity management? 198
 - What are the key challenges for IoT services? 199
 - What is the future of the IoT? 199
 - What is one key learning from your IoT journey? 199
- The Future..... 200

Appendix A: Service Description203

- Intelligent Transport Services 203
 - Introduction 203
- ITS Enterprise Services 206
 - ITS Enterprise Fleet Management Service 206
 - Automated Fare Collection Service 207
 - Real-Time Passenger Information 208
- ITS Management Services 209
 - Service Management Function 209
 - Business Support Services 210
- Initial Setup Services 210
- Service Access 212
 - Service Demarcation Points 212
 - Service Security Management 212
 - Security Policy 213
 - Hours of Operation 213
- Definitions, Acronyms, and Abbreviations 213

Appendix B: Service Level Agreement215

- Service Performance 215
 - Key Performance Indicators 216
 - Main KPI Specification 216
- Reporting and Service Availability KPIs 219
 - Reporting 220
 - Excluded from KPI Measurements 220
 - ITS Onboard Service Availability KPIs 221
 - ITS Service Management KPIs 222
 - ITS Billing KPIs 224
