# Contents

Preface	iv
Acknowledgments	vii
About the Authors	viii

## Introduction 1

---

The Case for Participating in Decisions about Information Systems	2
What If a Manager Doesn't Participate?	5
Skills Needed to Participate Effectively in Information Technology Decisions	6
Basic Assumptions	8
Economics of Information versus Economics of Things	12
Social Business Lens	14
Summary	15
Key Terms	16

## 1 The Information Systems Strategy Triangle 17

---

Brief Overview of Business Strategy Frameworks	19
Business Models versus Business Strategy	21
Brief Overview of Organizational Strategies	25
Brief Overview of Information Systems Strategy	26
Social Business Lens: Building a Social Business Strategy	27
Summary	28
Key Terms	29
Discussion Questions	29
Case Study 1-1 Lego	30
Case Study 1-2 Google	31

## 2 Strategic Use of Information Resources 33

---

Evolution of Information Resources	34
Information Resources as Strategic Tools	36
How Can Information Resources Be Used Strategically?	37
Sustaining Competitive Advantage	43
Social Business Lens: Social Capital	47
Strategic Alliances	47
Risks	49
Geographic Box: Mobile-Only Internet Users Dominate Emerging Countries	50
Co-Creating IT and Business Strategy	50

Summary	51
Key Terms	51
Discussion Questions	51
Case Study 2-1 Groupon	52
Case Study 2-2 Zipcar	53

### **3 Organizational Strategy and Information Systems 55**

---

Information Systems and Organizational Design	58
Social Business Lens: Social Networks	63
Information Systems and Management Control Systems	63
Information Systems and Culture	66
Geographic Lens: Does National Culture Affect Firm Investment in IS Training?	70
Summary	71
Key Terms	71
Discussion Questions	71
Case Study 3-1 The Merger of Airtran by Southwest Airlines: Will the Organizational Cultures Merge?	72
Case Study 3-2 The FBI	73

### **4 Digital Systems and the Design of Work 75**

---

Work Design Framework	77
How Information Technology Changes the Nature of Work	78
Social Business Lens: Activity Streams	84
Where Work Is Done and Who Does It: Mobile and Virtual Work Arrangements	86
Geographic Lens: How Do People Around the World Feel About Working Remotely?	88
Geographic Lens: Who Telecommutes? A Look at Global Telecommuting Habits	89
Gaining Acceptance for IT-Induced Change	94
Summary	96
Key Terms	97
Discussion Questions	97
Case Study 4-1 Trash and Waste Pickup Services, Inc.	97
Case Study 4-2 Social Networking: How Does IBM Do It?	98

### **5 Information Systems and Business Transformation 99**

---

Silo Perspective versus Business Process Perspective	100
Building Agile and Dynamic Business Processes	104
Changing Business Processes	105
Workflow and Mapping Processes	107
Integration versus Standardization	109
Enterprise Systems	110
Geographic Lens: Global vs. Local ERPs	113
Social Business Lens: Crowdsourcing Changes Innovation Processes	118
Summary	119
Key Terms	120

- Discussion Questions 120
- Case Study 5-1 Santa Cruz Bicycles 121
- Case Study 5-2 Boeing 787 Dreamliner 122

## 6 Architecture and Infrastructure 124

---

- From Vision to Implementation 125
- The Leap from Strategy to Architecture to Infrastructure 126
- From Strategy to Architecture to Infrastructure: An Example 133
- Architectural Principles 135
- Enterprise Architecture 136
- Virtualization and Cloud Computing 137
- Other Managerial Considerations 139
- Social Business Lens: Building Social Mobile Applications 143
- Summary 144
- Key Terms 144
- Discussion Questions 145
- Case Study 6-1 Enterprise Architecture at American Express 145
- Case Study 6-2 The Case of Extreme Scientists 146

## 7 Security 147

---

- IT Security Decision Framework 149
- Breaches and How They Occurred 151
- The Impossibility of 100% Security 154
- What Should Management Do? 155
- Summary 162
- Key Terms 163
- Discussion Questions 163
- Case Study 7-1 The Aircraft Communications Addressing and Reporting System (ACARS) 163
- Case Study 7-2 Sony Pictures: The Criminals Won 164

## 8 The Business of Information Technology 165

---

- Organizing to Respond to Business: A Maturity Model 167
- Understanding the IT Organization 168
- What a Manager Can Expect from the IT Organization 168
- What the IT Organization Does Not Do 170
- Chief Information Officer 171
- Building a Business Case 173
- IT Portfolio Management 175
- Valuing IT Investments 176
- Monitoring IT Investments 177
- Funding IT Resources 182
- How Much Does IT Cost? 184
- Summary 187

Key Terms	188
Discussion Questions	188
Case Study 8-1 KLM Airlines	189
Case Study 8-2 Balanced Scorecards at BIOCO	190

## 9 Governance of the Information Systems Organization 191

---

IT Governance	192
Decision-Making Mechanisms	199
Governance Frameworks for Control Decisions	200
Social Business Lens: Governing the Content	204
Summary	205
Key Terms	205
Discussion Questions	205
Case Study 9-1 IT Governance at University of the Southeast	205
Case Study 9-2 The “MyJohnDeere” Platform	207

## 10 Information Systems Sourcing 208

---

Sourcing Decision Cycle Framework	209
Social Business Lens: Crowdsourcing	214
Geographic Lens: Corporate Social Responsibility	220
Outsourcing in the Broader Context	224
Summary	225
Key Terms	225
Discussion Questions	225
Case Study 10-1 Crowdsourcing at AOL	225
Case Study 10-2 Altia Business Park	226

## 11 Managing IT Projects 228

---

What Defines a Project?	230
What Is Project Management?	231
Organizing for Project Management	232
Project Elements	233
IT Projects	239
IT Project Development Methodologies and Approaches	240
Social Business Lens: Mashups	247
Managing IT Project Risk	247
Summary	253
Key Terms	254
Discussion Questions	254
Case Study 11-1 Implementing Enterprise Change Management at Southern Company	254
Case Study 11-2 Dealing with Traffic Jams in London	255

## 12 Business Intelligence, Knowledge Management, and Analytics 258

---

- Competing with Business Analytics 259
- Knowledge Management, Business Intelligence, and Business Analytics 260
- Data, Information, and Knowledge 261
- Knowledge Management Processes 264
- Business Intelligence 264
- Components of Business Analytics 265
- Big Data 268
- Social Media Analytics 269
- Social Business Lens: Personalization and Real-Time Data Streams 271
- Geographic Lens: When Two National Views of Intellectual Property Collide 272
- Caveats for Managing Knowledge and Business Intelligence 274
- Summary 274
- Key Terms 275
- Discussion Questions 275
- Case Study 12-1 Stop & Shop's Scan It! App 275
- Case Study 12-2 Business Intelligence at CKE Restaurants 276

## 13 Privacy and Ethical Considerations in Information Management 278

---

- Responsible Computing 280
- Corporate Social Responsibility 283
- PAPA: Privacy, Accuracy, Property, and Accessibility 284
- Social Business Lens: Personal Data 289
- Geographic Lens: Should Subcultures Be Taken into Account When Trying to Understand National Attitudes Toward Information Ethics? 292
- Green Computing 292
- Summary 293
- Key Terms 294
- Discussion Questions 294
- Case Study 13-1 Ethical Decision Making 295
- Case Study 13-2 Midwest Family Mutual Goes Green 297

Glossary 299
