That status quo again and how to challenge it

Summary

Food for thought

References

3 People and sustainability

Introduction

Human behaviour and unsustainability

The complexities of human behaviour

Our tragedy of the commons and our social dilemmas

Bring in the Flintstones

Promoting sustainable behaviour

Focus on what we do know

Mind the different values

Combine approaches

Tap into our Stone Age brain

Shaping hospitality contexts that favour sustainability

Summary

Food for thought

References

4 Identity and sustainability

Introduction

Hospitality experiences, identity and values

Consumption and identity

Values

Your (sustainability) identity as a company

Understand your brand prism

Create a coherent sustainability brand/identity

A coherent and transparent message

Do not forget your own people!

Sending the right message

Create the message together with staff

Summary

Food for thought

References

5 Your role in the community

Introduction

Reasons for a local orientation

Concerted action is not happening

Hospitality as a natural stakeholder

The local is your and your customers' context

The only way is (bottom-)up!

Communities and networks

Local orientation: a practical perspective

The reasons revisited

Practical examples

Summary

Food for thought

References

6 Your business model and competencies

Introduction

Business models for sustainability

Sustainable business models

Sustainable hospitality business models

Competencies for sustainability

Your role as a hospitality professional

Sustainable hospitality competencies

Summary

Food for thought
