Contents

List of figures vii
List of tables ix
Preface xi
Editor and contributor biographies xiii

Introduction 1
VAHID ARYADOUST AND MICHELLE RAQUEL

SECTION I
Test development, reliability, and generalizability 13

1 Item analysis in language assessment 15
RITA GREEN

2 Univariate generalizability theory in language assessment 30
YASUYO SAWAKI AND XIAOMING XI

3 Multivariate generalizability theory in language assessment 54
KIRBY C. GRABOWSKI AND RONGCHAN LIN

SECTION II
Unidimensional Rasch measurement 81

4 Applying Rasch measurement in language assessment: unidimensionality and local independence 83
JASON FAN AND TREVOR BOND

5 The Rasch measurement approach to differential item functioning (DIF) analysis in language assessment research 103
MICHELLE RAQUEL

6 Application of the rating scale model and the partial credit model in language assessment research 132
IKKYU CHOI

7 Many-facet Rasch measurement: implications for rater-mediated language assessment 153
THOMAS ECKES

SECTION III
Univariate and multivariate statistical analysis 177

8 Analysis of differences between groups: the *t*-test and the analysis of variance (ANOVA) in language assessment 179
TUĞBA ELIF TOPRAK

9 Application of ANCOVA and MANCOVA in language assessment research 198
ZHI LI AND MICHELLE Y. CHEN

10 Application of linear regression in language assessment 219
DAERYONG SEO AND HUSEIN TAHERBHAI

11 Application of exploratory factor analysis in language assessment 243
LIMEI ZHANG AND WENSHU LUO
