PART I Computer Fundamentals

1. Introduction to Computers	3	Time-sharing System 33	
Evolution of Computers	4	Distributed System 33	
Data and Information	4	Real-time Systems 34	
Numbering System in a Computer	4	Major Operating Systems	34
System	5	MS-DOS 34	
Components of a Computer System	5	Microsoft Windows 40	
Basic Computer Organization	6	Linux 47	
Input Unit 6		Programming Language	48
Storage Unit 9		Classification 48	
Control Unit 12		3. Microsoft Office 2003	55
Output Unit 12			
Classification of Computers	15	Microsoft Office Suite	56
Classification According to Purpose 16		Word Processing 56	
Classification According to Technology 16		Spreadsheet 56 Presentation 56	
Classification According to Size 16		Database Management 56	
Classification According to		MS Word 2003	56
Generation 17			58
Characteristics of Computers	18	Major Components of MS Word Window Working 60	20
Limitations of Computers	19	Operations Performed 60	
Types of Information	19	Mail Merge	69
2. Software Concepts and Operating		Getting Ready for Mail Merge 69	09
Systems	26	Mail Merge Wizard 70	
•	27	Features 75	
Classification of Software	41	MS Excel 2003	76
System Software 27		Applications 76	70
Application Software 28	29	Structure 76	
Operating System	29	Starting MS Excel 77	
Functions 29		Components 78	
Measuring System Performance 31	31	Operations Performed 79	
Classification Single User-Single Processor System 31	31	Features of Spreadsheets 90	
- 13.1 21.1 21.3.1		MS Powerpoint 2003	91
Multi-user System 31 Batch Processing System 31		Starting MS PowerPoint 91	-1
Multiprogramming System 32		Components 92	
Multitasking System 32		Operations Performed 93	
Multiprocessing System 32		Features 103	
2.2p. decising a javin 22			

MS Access 2003	104	Network Software 135	
Starting MS Access 104		Network Applications 135	
Components 105		Wireless Technology	130
Operations Performed 106		4G Technology 136	
Working with Forms 112		2G and 3G Technology 136	
	440	Wireless Local Area Networks 136	
4. Internet	118	Wi-Max 137	
History of Internet	118	Multi-hop Wireless Network 137	
Equipment Needed to Connect to the		E-Commerce	137
Internet	119	Commerce on the Internet 137	
Basic Internet Services	119	Popularity of E-commerce 137	
Electronic Mail 119		E-commerce in India 138	
File Transfer Protocol 120		Internet Security	138
Telnet 120		Virus 139	
Usenet 121		Worm 139	
World Wide Web 121		Firewall 139	
Search Engine 121		Antivirus Software	139
Internet Relay Chat 121		McAfee 140	
Uses of Internet	122	Kaspersky 140	
Basic Components of World Wide Web	122	Norton Antivirus System 140	
Hypertext 122		5. Introduction to DBMS	146
Hyperlink 122			
Web Page 123		Database	148
Website 123		Database Model 148	4.46
Browser 123		Database Management	148
Portal 124		Database Management System	149
Uniform Resource Locator 125		Database Types	149
Protocol 125		On basis of Localization 149	
Domain Name 125		On basis of Access Methods 150	
Client-Server Architecture 126		On basis of Applications 151	
Network and Data Communication	126	On basis of Data Model 152	
Network 126		Database Users	150
Data Communication 126		Main Components of DBMS	150
Terminology Used in Networks	128	Microsoft Visual Foxpro 6.0	157
Network Topology	129	Features 157	
Bus Network 129		Starting FoxPro 158	
Star Network 130		Components 158	
Ring Network 130		Creating Tables 162	
Completely Connected Network 131		Data Types in FoxPro 163	
Multi-access Bus Network 131		Rushmore Technology 168	
Hybrid Network 132		FoxPro Commands 172	
Classification of Networks	133	Fox:Pro Programming 173	
Local Area Network 133		FoxPro Language 173	
Metropolitan Area Network 134		Planning FoxPro Programs 173	
Wide Area Network 134		Creating Programs 175
