

# Translation and Web Localization

Miguel A. Jiménez-Crespo

# CONTENTS

LIST OF ILLUSTRATIONS	viii
ACKNOWLEDGEMENTS	x
LIST OF ABBREVIATIONS	xi
<b>Introduction</b>	<b>1</b>
Guide to chapters	2
<b>PART I: TECHNOLOGY, LOCALIZATION AND TRANSLATION: EVOLVING CONCEPTUALIZATIONS</b>	<b>5</b>
<b>1 The emergence of localization</b>	<b>7</b>
Technology and the emergence of localization	7
The origins of localization	8
The Internet, the WWW and web localization	10
Defining localization	11
Localization within Translation Studies	20
Summary	23
Further reading	23
<b>2 The web localization process: from GILT to web usability</b>	<b>24</b>
The localization process and GILT	24
Localization types: software, web, videogame and small device localization	28
The web localization process	29
Web localization and cultural adaptation	31
Localization levels and cultural adaptations	33
Localization and web usability	36

Summary	38
Further reading	39
<b>PART II: CURRENT ISSUES IN LOCALIZATION RESEARCH</b>	<b>41</b>
<b>3 Web localization and text</b>	<b>43</b>
Localization, translation and text	43
Linguistics and the definition of text	44
Defining text in TS	46
Texts, segmentation and translation technology	51
The death of the source text?	54
Localization and hypertext	54
Hypertext in the translation process	62
Summary	65
Further reading	65
<b>4 Web localization and digital genres</b>	<b>66</b>
Localization and digital genres	66
Genres and text types: from initial confusion to consolidation	68
Genres in Applied Linguistics and Translation Studies	71
The emergence of digital genres	76
Towards a framework for analysing digital genres: from print to screen	80
Proposed taxonomy of web genres for empirical research and translation purposes	95
Summary	100
Further reading	100
<b>5 Web localization and quality</b>	<b>102</b>
Localization and translation quality	102
Quality in the localization (and translation) industry	104
Quality in Translation Studies	115
Different approaches, different outcomes: where do we go from here? Towards a real-world model of web quality	126
A proposed framework for evaluating web localization	127
Quality made to order	131
Summary	132
Further reading	132

<b>6</b>	<b>Web localization and empirical research</b>	<b>133</b>
	Researching web localization	133
	Web localization and interdisciplinary research	134
	Placing localization research within Translation Studies	136
	Applying research models and paradigms in Translation Studies to web localization research	142
	Planning research in web localization: research methodologies and research design	147
	Planning research into web localization: a summary and checklist	151
	Main challenges in localization research	152
	Summary	156
	Further reading	156
	<b>PART III: LOCALIZATION AND THE FUTURE</b>	<b>159</b>
<b>7</b>	<b>Web localization and training</b>	<b>161</b>
	Web localization and training	161
	Localization and the translation profession	164
	Translation competence, competence-acquisition and expertise in translation (and localization) training	165
	Towards a model of localization competence	172
	Different gateways into localization training	179
	Localization competence as a model for training	182
	Planning localization programmes	184
	Summary	186
	Further reading	187
<b>8</b>	<b>Future perspectives in localization</b>	<b>188</b>
	Looking ahead in web localization	188
	Professionalization	191
	Crowdsourcing	193
	Machine translation and post-editing	197
	Uncertain perspectives	201
	Summary	201
	Further reading	201
	NOTES	203
	REFERENCES	208
	INDEX	228
