Contents

| | |
|--|------|
| Foreword | x |
| Notational Conventions | xvii |
| Part A <i>The Speech Community</i> | 1 |
| 1 The Darwinian Paradox | 3 |
| 1.1 The social effects of language change | 4 |
| 1.2 The parallels between biological and linguistic evolution | 6 |
| 1.3 Earlier proposals for the causes of sound change | 15 |
| 1.4 Different kinds of sound change | 25 |
| 1.5 The narrow interface between language and society | 28 |
| 1.6 The social location of the innovators | 29 |
| 1.7 Individual, group, community | 33 |
| 2 The Study of Linguistic Change and Variation in Philadelphia | 35 |
| 2.1 Sampling the community | 37 |
| 2.2 The city of Philadelphia | 41 |
| 2.3 The exploratory phase | 48 |
| 2.4 The Neighborhood Study | 49 |
| 2.5 The telephone survey | 69 |
| 3 Stable Sociolinguistic Variables | 74 |
| 3.1 The necessary background for the study of change in progress | 74 |
| 3.2 Variables to be examined in this chapter | 78 |
| 3.3 The stability of stable variables | 85 |
| 3.4 The sociolinguistic sample of Philadelphia | 93 |
| 3.5 Cross-tabulation of (dh) by class and style | 95 |
| 3.6 Cross-tabulation by age | 101 |
| 3.7 Cross-tabulations by age and social class | 106 |
| 3.8 Second regression analysis | 110 |
| 3.9 An exploration of social class indicators | 113 |
| 3.10 Conclusion | 119 |

| | | |
|---|--|-----|
| 4 | The Philadelphia Vowel System | 121 |
| 4.1 | The Philadelphia dialect area | 121 |
| 4.2 | A general framework for the description of the Philadelphia vowel system | 124 |
| 4.3 | Earlier records of the Philadelphia vowel system | 128 |
| 4.4 | The Philadelphia vowel system in the 1970s | 133 |
| 4.5 | Development of sound changes in apparent time | 142 |
| Part B <i>Social Class, Gender, Neighborhood, and Ethnicity</i> | | 147 |
| 5 | Location of the Leaders in the Socioeconomic Hierarchy | 149 |
| 5.1 | The data set | 149 |
| 5.2 | Accuracy and sources of error | 150 |
| 5.3 | First regression: age correlations | 164 |
| 5.4 | First tabulation of social class | 166 |
| 5.5 | Second regression: age and social class | 168 |
| 5.6 | Third regression: re-analyzing the age dimension | 169 |
| 5.7 | The centralization of (ay) before voiceless consonants | 172 |
| 5.8 | The telephone survey | 173 |
| 5.9 | Components of the socioeconomic index | 180 |
| 5.10 | An overview | 186 |
| 5.11 | Further observations of class distributions | 188 |
| 5.12 | The curvilinear pattern and the causes of change | 190 |
| 5.13 | Are sound changes part of an adaptive process? | 190 |
| 6 | Subjective Dimensions of Change in Progress | 193 |
| 6.1 | Field methods for the study of subjective reactions to language change | 193 |
| 6.2 | The Philadelphia Self-Report Test | 197 |
| 6.3 | The Philadelphia Subjective Reaction Test | 206 |
| 7 | Neighborhood and Ethnicity | 224 |
| 7.1 | The relation of local differentiation to linguistic change | 226 |
| 7.2 | The Belfast neighborhoods | 229 |
| 7.3 | The relation of neighborhood to social class in Philadelphia | 232 |
| 7.4 | Results of the fourth regression analysis: adding neighborhoods | 233 |
| 7.5 | An overview of neighborhood effects | 243 |
| 7.6 | Ethnicity | 245 |
| 7.7 | (r) in Philadelphia | 250 |
| 7.8 | Other unexplained adstratum effects | 256 |
| 7.9 | Ethnic effects on Philadelphia vowel changes | 257 |
| 7.10 | The role of neighborhood and ethnicity in linguistic change | 259 |

| | | |
|--|---|-----|
| 8 | The Gender Paradox | 261 |
| 8.1 | Gender differentiation of stable sociolinguistic variables in Philadelphia | 263 |
| 8.2 | The general linguistic conformity of women | 266 |
| 8.3 | Gender differentiation of changes from below | 279 |
| 9 | The Intersection of Gender, Age, and Social Class | 294 |
| 9.1 | The case of (ay0) | 300 |
| 9.2 | Developments over time by gender | 303 |
| 9.3 | A gender-asymmetrical model of linguistic change | 306 |
| 9.4 | Nearly completed and middle-range changes in Philadelphia | 309 |
| 9.5 | The punctuating events | 314 |
| 9.6 | The male-dominated variable: (ay0) | 315 |
| 9.7 | Conclusion | 319 |
| Part C <i>The Leaders of Linguistic Change</i> | | 323 |
| 10 | Social Networks | 325 |
| 10.1 | The sociolinguistic use of social networks | 325 |
| 10.2 | Social networks in Belfast | 329 |
| 10.3 | Social networks in Philadelphia | 334 |
| 10.4 | The two-step flow of influence | 356 |
| 10.5 | A general view of fashion and fashion leaders | 360 |
| 10.6 | Who leads the leaders? | 363 |
| 11 | Resolving the Gender Paradox | 366 |
| 11.1 | The conformity paradox | 366 |
| 11.2 | The strategy of this chapter: combining stable variables with changes in progress | 367 |
| 11.3 | Correlations between stable sociolinguistic variables and changes in progress | 371 |
| 11.4 | The relation of (dha) to linguistic changes for women of different social classes | 373 |
| 11.5 | Combined male and female analysis | 379 |
| 11.6 | Incremental and saccadic leaders | 382 |
| 12 | Portraits of the Leaders | 385 |
| 12.1 | Celeste S. | 386 |
| 12.2 | Teresa M. | 395 |
| 12.3 | The Corcorans | 396 |
| 12.4 | Rick Corcoran | 402 |
| 12.5 | Individuals as regression variables | 405 |
| 12.6 | The leaders of palatalization in Cairo Arabic | 408 |
| 12.7 | The leaders of linguistic change | 409 |

| | | |
|--------|---|-----|
| Part D | <i>Transmission, Incrementation, and Continuation</i> | 413 |
| 13 | Transmission | 415 |
| | 13.1 The transmission problem | 415 |
| | 13.2 The transmission of stable sociolinguistic variables | 417 |
| | 13.3 The transmission of change | 421 |
| | 13.4 Directional language change among Philadelphia children | 427 |
| | 13.5 Transmission among adolescents in Detroit | 432 |
| 14 | Incrementation | 446 |
| | 14.1 Stabilization | 446 |
| | 14.2 A model of linear sound change | 447 |
| 15 | Continuation | 466 |
| | 15.1 Continued change in the Philadelphia dialect | 466 |
| | 15.2 The incrementation of sound change in North America | 475 |
| 16 | Conclusion | 498 |
| | 16.1 The linguistic basis for continuation | 498 |
| | 16.2 The social location of the leaders of change | 500 |
| | 16.3 Transmission and incrementation | 502 |
| | 16.4 The social basis of linguistic change | 503 |
| | 16.5 Global polarities of socially motivated projection | 511 |
