

Edward Saja Sanneh

# Systems Thinking for Sustainable Development

Climate Change and the Environment

 Springer

# Contents

<b>1</b>	<b>Introduction</b> . . . . .	1
1.1	Background . . . . .	1
1.2	Compartmentalization Approach . . . . .	2
1.3	Climate Change Adaptation . . . . .	2
1.4	Environmental Sanitation . . . . .	3
1.5	Lack of Electricity Supply . . . . .	4
1.6	Inadequate Drinking Water Supply and Poor Water Quality . . . . .	5
1.7	Poor Access to Health Care . . . . .	5
1.8	Systems Thinking Approach . . . . .	6
1.9	Systems Thinking for Sustainable Future . . . . .	8
	References . . . . .	10
<b>2</b>	<b>Renewable and Sustainable Energy</b> . . . . .	13
2.1	General Background . . . . .	13
2.2	Optimizing the Use of Renewable Energy . . . . .	19
2.2.1	Aurore, India. Solar Power for Communities, Farmers and Market Traders Across India . . . . .	19
2.2.2	Barefoot College, India . . . . .	19
2.2.3	Zara Solar Ltd, Tanzania Mohamed Rafik Parpia . . . . .	20
2.2.4	Rural Solar Photovoltaic Electrification Project (Morocco) . . . . .	20
2.3	Enabling Environment . . . . .	21
2.4	Water Pumps . . . . .	21
2.5	Hybrid Systems . . . . .	22
	References . . . . .	23
<b>3</b>	<b>Access to Safe Drinking Water</b> . . . . .	25
3.1	General Background . . . . .	25
	References . . . . .	31

<b>4</b>	<b>Access to Basic Health Care in Communities</b> .....	33
4.1	General Background .....	33
	References.....	39
<b>5</b>	<b>Climate Change Adaption</b> .....	41
5.1	General Background .....	41
	References.....	52
<b>6</b>	<b>Sustainable Development</b> .....	55
6.1	General Background .....	55
	References.....	62
<b>7</b>	<b>Introduction of a Recycling System for Sustainable Municipal Solid Waste Management</b> .....	65
7.1	General Background .....	65
	References.....	74
<b>8</b>	<b>Shipment of Used ICT Products to Developing Countries</b> .....	75
8.1	General Background .....	75
8.2	E-waste Dilemma.....	82
8.3	Sustainable Production and Consumption.....	86
	References.....	87
<b>9</b>	<b>Underground Storage Tank System (USTs) Environmental Management and Petroleum Pollution Control</b> .....	89
9.1	General Background .....	89
	References.....	96
<b>10</b>	<b>Conclusion and Suggestions</b> .....	97
	<b>Appendices</b> .....	101
