# Stochastic Processes and Calculus

An Elementary Introduction  
with Applications

 Springer

---

# Contents

<b>1</b>	<b>Introduction</b> .....	1
1.1	Summary .....	1
1.2	Finance .....	1
1.3	Econometrics .....	3
1.4	Mathematics .....	6
1.5	Problems and Solutions .....	7
	References .....	10
 <b>Part I Time Series Modeling</b>		
<b>2</b>	<b>Basic Concepts from Probability Theory</b> .....	13
2.1	Summary .....	13
2.2	Random Variables .....	13
2.3	Joint and Conditional Distributions .....	22
2.4	Stochastic Processes (SP) .....	29
2.5	Problems and Solutions .....	35
	References .....	42
<b>3</b>	<b>Autoregressive Moving Average Processes (ARMA)</b> .....	45
3.1	Summary .....	45
3.2	Moving Average Processes .....	45
3.3	Lag Polynomials and Invertibility .....	51
3.4	Autoregressive and Mixed Processes .....	56
3.5	Problems and Solutions .....	68
	References .....	75
<b>4</b>	<b>Spectra of Stationary Processes</b> .....	77
4.1	Summary .....	77
4.2	Definition and Interpretation .....	77
4.3	Filtered Processes .....	84
4.4	Examples of ARMA Spectra .....	89
4.5	Problems and Solutions .....	95
	References .....	101

<b>5</b>	<b>Long Memory and Fractional Integration</b> .....	103
5.1	Summary .....	103
5.2	Persistence and Long Memory .....	103
5.3	Fractionally Integrated Noise .....	108
5.4	Generalizations .....	113
5.5	Problems and Solutions .....	118
	References .....	125
<b>6</b>	<b>Processes with Autoregressive Conditional Heteroskedasticity (ARCH)</b> .....	127
6.1	Summary .....	127
6.2	Time-Dependent Heteroskedasticity .....	127
6.3	ARCH Models .....	130
6.4	Generalizations .....	135
6.5	Problems and Solutions .....	142
	References .....	148
 <b>Part II Stochastic Integrals</b>		
<b>7</b>	<b>Wiener Processes (WP)</b> .....	151
7.1	Summary .....	151
7.2	From Random Walk to Wiener Process .....	151
7.3	Properties .....	157
7.4	Functions of Wiener Processes .....	161
7.5	Problems and Solutions .....	170
	References .....	177
<b>8</b>	<b>Riemann Integrals</b> .....	179
8.1	Summary .....	179
8.2	Definition and Fubini's Theorem .....	179
8.3	Riemann Integration of Wiener Processes .....	183
8.4	Convergence in Mean Square .....	186
8.5	Problems and Solutions .....	190
	References .....	197
<b>9</b>	<b>Stieltjes Integrals</b> .....	199
9.1	Summary .....	199
9.2	Definition and Partial Integration .....	199
9.3	Gaussian Distribution and Autocovariances .....	202
9.4	Standard Ornstein-Uhlenbeck Process .....	204
9.5	Problems and Solutions .....	207
	Reference .....	211
<b>10</b>	<b>Ito Integrals</b> .....	213
10.1	Summary .....	213
10.2	A Special Case .....	213
10.3	General Ito Integrals .....	218

---

10.4	(Quadratic) Variation .....	222
10.5	Problems and Solutions .....	229
	References .....	237
<b>11</b>	<b>Ito's Lemma</b> .....	239
11.1	Summary .....	239
11.2	The Univariate Case .....	239
11.3	Bivariate Diffusions with One WP .....	245
11.4	Generalization for Independent WP .....	250
11.5	Problems and Solutions .....	254
	Reference .....	258
 <b>Part III Applications</b>		
<b>12</b>	<b>Stochastic Differential Equations (SDE)</b> .....	261
12.1	Summary .....	261
12.2	Definition and Existence .....	261
12.3	Linear Stochastic Differential Equations .....	265
12.4	Numerical Solutions .....	272
12.5	Problems and Solutions .....	273
	References .....	282
<b>13</b>	<b>Interest Rate Models</b> .....	285
13.1	Summary .....	285
13.2	Ornstein-Uhlenbeck Process (OUP) .....	285
13.3	Positive Linear Interest Rate Models .....	288
13.4	Nonlinear Models .....	292
13.5	Problems and Solutions .....	296
	References .....	302
<b>14</b>	<b>Asymptotics of Integrated Processes</b> .....	303
14.1	Summary .....	303
14.2	Limiting Distributions of Integrated Processes .....	303
14.3	Weak Convergence of Functions .....	310
14.4	Multivariate Limit Theory .....	317
14.5	Problems and Solutions .....	321
	References .....	329
<b>15</b>	<b>Trends, Integration Tests and Nonsense Regressions</b> .....	331
15.1	Summary .....	331
15.2	Trend Regressions .....	331
15.3	Integration Tests .....	336
15.4	Nonsense Regression .....	341
15.5	Problems and Solutions .....	344
	References .....	352

---

<b>16 Cointegration Analysis</b> .....	353
16.1 Summary.....	353
16.2 Error-Correction and Cointegration.....	353
16.3 Cointegration Regressions.....	358
16.4 Cointegration Testing.....	365
16.5 Problems and Solutions.....	373
References.....	381
<b>References</b> .....	383
<b>Index</b> .....	389
