Preface..... xv
About the Authors..... xix

Chapter 1 Introduction to Human Factors 1

- 1.1 Chapter Objectives 3
- 1.2 What Is Human Factors? 3
 - 1.2.1 The Application of Psychological Science 3
 - 1.2.2 Human Factors Has an Engineering Emphasis 5
 - 1.2.3 Other Areas Related to Human Factors 6
 - 1.2.4 Applications to Special Populations 9
- 1.3 History of Human Factors 9
 - 1.3.1 Before WWII 10
 - 1.3.2 During and After WWII 12
 - 1.3.3 Current Directions in Human Factors 16
- 1.4 The Importance of Systems Theory 18
- 1.5 Case Studies: Examples of Human Factors Applications 21
 - 1.5.1 Case Study 1: Portable Defibrillators 21
 - 1.5.2 Case Study 2: Election Processes and Materials 22
- 1.6 Education and Employment of Human Factors Specialists 24
 - 1.6.1 Education 24
 - 1.6.2 Accreditation, Certification, and Continuing Education 24
 - 1.6.3 Work Settings 25
- 1.7 Summary 26
- 1.8 List of Key Terms 27
- 1.9 Chapter Exercises 28
- Suggested Readings 28
- Bibliography 29

Chapter 2 Research Methods 33

- 2.1 Chapter Objectives 34
- 2.2 What Is the Scientific Method? 34
 - 2.2.1 Hypothesis Testing 35
- 2.3 Basic Versus Applied Research 36
- 2.4 Terms and Concepts 37
 - 2.4.1 Studies, Experiments, and Quasi-Experiments 37
 - 2.4.2 Populations and Samples 38
 - 2.4.3 Independent and Dependent Variables 41
 - 2.4.4 Operationalizing Your Variables 43
 - 2.4.5 Variable Reliability and Validity 43
 - 2.4.6 Assessing Reliability and Validity 44

2.5	Descriptive Versus Inferential Methods	46
2.5.1	Descriptive Methods	47
2.5.2	Inferential Methods	49
2.5.3	Generalizability of the Results.....	51
2.6	Ethics	53
2.6.1	Nuremberg Code and Belmont Principles.....	53
2.6.2	Determining Whether a Study or Experiment Is Ethical	54
2.6.2.1	Ethical Principles of Psychologists.....	54
2.6.2.2	Informed Consent	56
2.6.2.3	Risk/Benefit Ratio	56
2.6.2.4	Use of Deception and Debriefing	57
2.6.2.5	Institutional Review Boards (IRBs).....	57
2.7	Applications to Special Populations.....	57
2.8	Summary	58
2.9	Supplement: A Quick Review of Descriptive and Inferential Statistics.....	59
2.9.1	Descriptive Statistics	59
2.9.2	Inferential Statistics.....	62
2.10	List of Key Terms	63
2.11	Chapter Exercises	63
	Suggested Readings.....	66
	Bibliography	67
Chapter 3	Visual, Tactile, and Olfactory Displays.....	69
3.1	Chapter Objectives	69
3.2	What Are Displays?.....	70
3.3	Visual Displays.....	70
3.3.1	Static Displays	70
3.3.1.1	Conspicuity	70
3.3.1.2	Visibility	70
3.3.1.3	Legibility	71
3.3.1.4	Readability.....	72
3.3.1.5	Symbolic	72
3.3.1.6	Text	73
3.3.2	Dynamic Displays	76
3.3.2.1	Analog and Digital Displays.....	78
3.3.2.2	Display Location and Arrangement.....	79
3.3.2.3	Quantitative Displays.....	79
3.3.2.4	Navigation Displays and Maps	80
3.3.3	Sum-Up of Visual Displays	82
3.4	Vision.....	82
3.4.1	The Physical Properties of Light.....	82
3.4.2	Structure of the Eye.....	82

3.4.3	Duplex Visual System	84
3.4.3.1	Dark Adaptation	84
3.4.3.2	Detection Thresholds of the Rod and Cone Visual Systems	84
3.4.3.3	Cone Spectral Sensitivity Functions	86
3.4.4	Human Visual Capabilities	87
3.4.4.1	Visual Acuity	87
3.4.4.2	Color Vision	90
3.4.5	Sum-Up of Vision	92
3.4.6	Size and Distance Perception	92
3.4.6.1	Static Cues to Depth	93
3.4.6.2	Dynamic Cues to Depth	93
3.4.6.3	Kinesthetic Cues to Depth	94
3.4.6.4	Binocular Cues to Depth	94
3.4.6.5	Effects of Illumination and Distance on Depth Perception	94
3.5	Tactile Displays	95
3.5.1	Tactile Sensitivity	96
3.6	Olfactory Displays	98
3.7	Applications to Special Populations	98
3.7.1	Older Drivers and Highways Signs	99
3.7.2	Modern Technology and Color Deficiency	100
3.8	Summary	101
3.9	List of Key Terms	102
3.10	Chapter Exercises	102
	Suggest Readings	103
	Bibliography	103
Chapter 4	Audition and Vestibular Function	107
4.1	Objectives	107
4.2	What Is Sound?	108
4.3	Measuring Sound Intensity	108
4.4	Complex Sounds	109
4.5	The Human Ear	111
4.6	The Vestibular System	112
4.6.1	Motion Sickness	113
4.7	Human Sensitivity to Sound	115
4.7.1	Coding of Loudness and Frequency by the Cochlea	115
4.7.2	Auditory Sensitivity	116
4.7.3	Sensitivity to Pitch	117
4.7.3.1	Pitch Perception and the Missing Fundamental	118

4.8	Masking	119
4.9	Relationship between Intensity and Loudness	119
4.10	Sound Localization.....	121
4.11	Precedence Effect.....	122
4.12	Summary of Auditory Sensory Thresholds.....	123
4.13	Auditory Displays.....	124
4.13.1	Design of Warning and Alarm Signals	126
4.13.2	Auditory Icons, Earcons, and Sonification.....	126
4.14	Noise.....	128
4.15	Speech Communication.....	129
4.15.1	Evaluating Speech Quality.....	129
4.15.1.1	Speech Intelligibility	129
4.15.1.2	Articulation Index.....	131
4.15.2	Effects of Environmental Factors on Speech Intelligibility.....	132
4.15.3	Effect of Vocabulary Set Size	132
4.15.4	Role of Context.....	133
4.15.5	Contribution of Vision to Speech Perception	134
4.16	Applications to Special Populations.....	136
4.17	Summary	139
4.18	List of Key Terms	139
4.19	Chapter Exercises	140
	Suggested Readings.....	140
	Bibliography	141
Chapter 5	Methods of Evaluation	145
5.1	Chapter objectives	145
5.2	What Are Methods of Evaluation and Why Do We Study Them?.....	146
5.3	Methods of Evaluation.....	146
5.4	User-Centered Design.....	146
5.4.1	Interviews	147
5.4.2	Questionnaires.....	149
5.4.3	Focus Groups and Contextual Inquiry	153
5.4.4	Assimilating User-Centered Design Information.....	155
5.5	Task Analysis.....	155
5.6	User Profile.....	157
5.7	Card Sorting	160
5.8	Design Evaluation.....	161
5.8.1	Heuristic Evaluation	161
5.8.2	Usability Testing.....	163
5.8.2.1	Measures to Assess Usability	166
5.8.2.2	Variations to Traditional Usability Testing.....	169

5.9	Applications to Special Populations	170
5.10	Summary	171
5.11	List of Key Terms	171
5.12	Chapter Exercises	171
	Suggested Readings.....	172
	Bibliography	173
Chapter 6	Attention, Memory, and Multitasking	175
6.1	Chapter Objectives	175
6.2	What Are the Major Stages of Human Information Processing?	176
6.2.1	Sensory Registers	177
6.2.1.1	Iconic Register	177
6.2.1.2	Echoic Register	178
6.2.2	Short-Term Memory	178
6.2.3	Baddeley's Model of Working Memory	179
6.2.4	Long-Term Memory	180
6.3	Attention	182
6.3.1	Varieties of Attention	183
6.3.1.1	Selective Attention.....	183
6.3.1.2	Divided Attention	187
6.3.2	Controlled Versus Automatic Processes	188
6.3.2.1	Interference.....	190
6.3.3	Sustained Attention (Vigilance).....	192
6.4	Applications to Special Populations.....	195
6.5	Summary	195
6.6	List of Key Terms	196
6.7	Chapter Exercises	196
	Suggested Readings.....	197
	Bibliography	197
Chapter 7	Decision-Making	201
7.1	Chapter Objectives	201
7.2	What Is Decision-Making and Why Do We Study It?	202
7.3	Approaches to Decision-Making.....	203
7.3.1	Normative Approach to Decision-Making.....	203
7.3.1.1	Expected Value Theory	204
7.3.1.2	Subjective Expected Utility	205
7.3.2	Descriptive Models of Decision-Making	206
7.3.2.1	Noncompensatory Strategies	206
7.3.2.2	Heuristics	207
7.3.3	Naturalistic Decision-Making	208
7.4	Problems in Decision-Making	211
7.4.1	Decision Biases	211

	7.4.1.1	Confirmation Bias.....	211
	7.4.1.2	Hindsight Bias	212
	7.4.2	Anchoring and Adjustment	213
	7.4.3	Overconfidence.....	214
7.5		Decision Quality and Strategy	215
7.6		Expert Versus Novice Decision-Makers.....	216
	7.6.1	Limitations of Experts.....	218
7.7		Improving Decision-Making	220
	7.7.1	Training	220
	7.7.2	Decision Aids	220
	7.7.2.1	Bias in Use of Decision Aids	221
7.8		Applications to Special Populations	222
7.9		Summary	222
7.10		List of Key Terms	222
7.11		Chapter Exercises	223
		Suggested Readings.....	223
		Bibliography.....	224
Chapter 8		Motor Skills and Control.....	227
8.1		Chapter Objectives	227
8.2		What Are Motor Skills and Control?	228
8.3		Rapidity of Control.....	228
	8.3.1	Reaction Time	228
	8.3.1.1	Hick–Hyman Law	230
	8.3.2	Movement Time	230
	8.3.2.1	Speed/Accuracy Trade-Off.....	231
	8.3.2.2	Fitts’ Law	231
8.4		Accuracy of Movement.....	233
	8.4.1	Closed-Loop Control.....	233
	8.4.2	Open-Loop Control	235
8.5		Controls	237
	8.5.1	Types of Controls	237
	8.5.2	Coding of Controls	237
	8.5.2.1	Shape Coding.....	238
	8.5.2.2	Texture Coding	239
	8.5.2.3	Color Coding	239
	8.5.2.4	Size Coding.....	239
	8.5.2.5	Location Coding.....	239
	8.5.2.6	Mode of Operation Coding.....	240
	8.5.2.7	Label Coding	241
	8.5.3	Resistance in Controls.....	241
	8.5.4	Computer Controls	242
8.6		Impact of Compatibility on Performance.....	244
	8.6.1	Spatial Compatibility	244
	8.6.2	Movement Compatibility.....	245

8.6.3	Control–Display Ratio.....	246
8.7	Tracking.....	247
8.7.1	Control Dynamics	249
8.7.1.1	Position Control	249
8.7.1.2	Velocity Control.....	249
8.7.1.3	Acceleration Control.....	250
8.7.2	Lag.....	250
8.7.3	Tracking Displays.....	251
8.8	Applications to Special Populations.....	252
8.9	Summary	254
8.10	List of Key Terms	254
8.11	Chapter Exercises	254
	Suggested Readings.....	255
	Bibliography.....	255
Chapter 9	Anthropometry and Biomechanics	257
9.1	Chapter Objectives	258
9.2	What Is Anthropometry?.....	258
9.2.1	Common Measurement Terms	258
9.3	The Need for Anthropometric Measures	261
9.3.1	Design Criteria	261
9.3.1.1	Clearance, Reach, and Limiting Users	262
9.3.1.2	Maintaining Appropriate Posture.....	263
9.3.1.3	Strength.....	264
9.4	Anthropometric Tools and Measurement.....	264
9.4.1	Anthropometric Tools	264
9.4.2	Anthropometric Data Collection Methods.....	265
9.4.2.1	Static Versus Dynamic Measures	266
9.4.2.2	Fitting Trials	267
9.4.3	Anthropometric Data Tables	268
9.5	Common Measures Used in Anthropometric Analyses.....	269
9.5.1	Range, Mean, and Standard Deviation.....	269
9.5.2	Percentiles	269
9.5.3	Method of Limits.....	271
9.5.4	Corrections	272
9.5.4.1	Clothing	272
9.5.4.2	Secular Growth	272
9.6	Design for Adjustability	272
9.7	Standards	273
9.8	Seating.....	274
9.8.1	General Criteria for Good Seating Design.....	274
9.8.2	Design for Adjustable Seating.....	277
9.9	Work Surface Height	277
9.9.1	Work Surface Heights when Standing	278
9.9.2	Work Surface Heights when Seated	278

9.10	Controls and Hand Anthropometry.....	278
9.11	Biomechanics.....	279
	9.11.1 Types of Motions.....	279
	9.11.2 Hand Biomechanics and Hand Tools.....	279
	9.11.3 Manual Materials Handling.....	284
9.12	Workspace Design.....	286
	9.12.1 Reach Envelope.....	286
	9.12.2 Line of Sight.....	288
	9.12.3 Computer Workspace Design.....	288
9.13	Applications to Special Populations.....	289
9.14	Summary.....	289
9.15	List of Key Terms.....	290
9.16	Chapter Exercises.....	291
	Suggested Readings.....	292
	Bibliography.....	292
Chapter 10	Environmental Design.....	295
10.1	Chapter Objectives.....	295
10.2	What Is the Environment?.....	296
10.3	Environmental Temperature.....	296
	10.3.1 Measures of Temperature.....	296
	10.3.2 Heat Exchange.....	297
	10.3.2.1 Process of Heat Exchange.....	298
	10.3.2.2 Clothing Effect.....	298
	10.3.2.3 Impact of Humidity.....	299
	10.3.2.4 Impact of Air Velocity.....	301
	10.3.3 Excessive Heat Gain or Heat Loss.....	301
	10.3.3.1 Heat Stress or Heat Illness.....	301
	10.3.3.2 Cold Stress.....	301
	10.3.4 Acclimation and Acclimatization.....	302
	10.3.5 Impact of Temperature on Cognitive Performance.....	302
	10.3.5.1 Heat and Cognitive Performance.....	302
	10.3.5.2 Cold and Cognitive Performance.....	304
	10.3.5.3 General Impact of Heat and Cold on Cognitive Performance.....	305
10.4	Environmental Lighting.....	307
	10.4.1 Lamps and Luminaires.....	308
	10.4.2 Glare and Reflectance.....	309
	10.4.3 Task Lighting.....	310
	10.4.4 Light distribution.....	310
10.5	Environmental Noise.....	312
	10.5.1 Hearing Protection.....	312
	10.5.2 Sounds, Noise, and Performance.....	313
10.6	Arrangement and Design of the (Interior) Environment.....	315

- 10.6.1 Link Analysis 316
- 10.6.2 Open-Plan Versus Cellular Offices 318
- 10.6.3 Windows and Views 319
- 10.6.4 Environmental Color 319
- 10.6.5 Wayfinding 320
- 10.7 Applications to Special Populations 323
- 10.8 Summary 323
- 10.9 List of Key Terms 324
- 10.10 Chapter Exercises 325
- Suggested Readings..... 326
- Bibliography 326

Chapter 11 Human Error 331

- 11.1 Chapter Objectives 332
- 11.2 What Is Human Error? 332
- 11.3 Human Error Classifications 334
 - 11.3.1 Errors of Omission and Commission 334
 - 11.3.2 Slips, Lapses, and Mistakes 334
 - 11.3.3 Skill-, Rule-, and Knowledge-Based Errors 336
 - 11.3.4 Generic Error-Modeling System 336
- 11.4 Human Reliability 338
 - 11.4.1 Human Reliability Analysis 339
- 11.5 Errors, Near Misses, and Accidents 342
 - 11.5.1 Accident and Error Reporting 344
 - 11.5.2 Error Detection and Correction..... 345
- 11.6 Factors Contributing to Errors..... 345
 - 11.6.1 Individual Factors..... 346
 - 11.6.1.1 Expertise Level 346
 - 11.6.1.2 Sleep Deprivation 346
 - 11.6.1.3 Stress..... 348
 - 11.6.2 System Factors..... 349
- 11.7 Reducing Errors..... 350
 - 11.7.1 Individual Factors..... 350
 - 11.7.1.1 Expertise 350
 - 11.7.1.2 Optimal Stress and Training..... 350
 - 11.7.1.3 Checklists 351
 - 11.7.2 System Factors..... 353
 - 11.7.2.1 Task Redesign 353
 - 11.7.2.2 Warnings..... 354
 - 11.7.3 Safety Management..... 358
 - 11.7.3.1 Occupational Safety and Health Association and National Institute for Occupational Safety and Health 358
 - 11.7.3.2 Product Liability 359
- 11.8 Applications to Special Populations 360

- 11.9 Summary 361
- 11.10 List of Key Terms 362
- 11.11 Chapter Exercises 362
- Suggested Readings..... 363
- Bibliography 364

- Chapter 12 Future Trends in Human Factors..... 369**
 - 12.1 Chapter Objectives 370
 - 12.2 What Are Future Trends in Human Factors? 370
 - 12.3 Medicine: A Modern Example of the Need for Human Factors 371
 - 12.3.1 Sociotechnical Systems in Medicine..... 372
 - 12.3.2 Transitions of Care: Communication, Teamwork, and Handovers 374
 - 12.3.2.1 Developing Handoff Protocols 375
 - 12.3.3 Teams, Teamwork, and Team Training..... 375
 - 12.3.4 Telemedicine and HRI..... 377
 - 12.3.5 Electronic Medical Records 377
 - 12.4 Automation 378
 - 12.4.1 Automation Trust or Mistrust..... 382
 - 12.4.2 Automation as an Enabler 383
 - 12.5 Emerging Technologies 383
 - 12.6 Applications to Special Populations 384
 - 12.6.1 Brain Control Interfaces 384
 - 12.6.2 Neuroergonomics 386
 - 12.7 Summary 386
 - 12.8 List of Key Terms 387
 - 12.9 Chapter Exercises 387
 - Suggested Readings..... 389
 - Bibliography 389

- Index..... 393**
