

# Statistics for the Social Sciences

**A General Linear Model Approach**

**RUSSELL T. WARNE**

Utah Valley University

# Contents

Preface	ix
Acknowledgements	xiii
List of Examples	xv
<b>Chapter 1</b> Statistics and Models	1
<b>Chapter 2</b> Levels of Data	21
<b>Chapter 3</b> Visual Models	35
<b>Chapter 4</b> Models of Central Tendency and Variability	77
<b>Chapter 5</b> Linear Transformations and z-Scores	103
<b>Chapter 6</b> Probability and the Central Limit Theorem	127
<b>Chapter 7</b> Null Hypothesis Statistical Significance Testing and z-Tests	151
<b>Chapter 8</b> One-Sample $t$ -Tests	181
<b>Chapter 9</b> Paired-Samples $t$ -Tests	215
<b>Chapter 10</b> Unpaired Two-Sample $t$ -Tests	241
<b>Chapter 11</b> Analysis of Variance	275
<b>Chapter 12</b> Correlation	329
<b>Chapter 13</b> Regression	369
<b>Chapter 14</b> Chi-Squared Test	403
<b>Chapter 15</b> Applying Statistics to Research, and Advanced Statistical Methods	443
Appendix A1	485
Appendix A2	494
Appendix A3	497
Appendix A4	500
Appendix A5	503
Appendix A6	506
Glossary	508
Answer Key	524
References	548
Name Index	564
Subject Index	569
