Contents

1	The Role of Logistics in the Economy and Organization	1
	Introduction	2
	Definition of Logistics Management	2
	Development of Logistics	5
	Military Logistics	5
	Deregulation	6
	Competitive Pressures	6
	Information Technology	6
	Channel Power	7
	Profit Leverages	7
	Systems Approach/Integration	7
	Global Box: Hewlett-Packard's Systems Approach to Inventory Management	9
	The Role of Logistics in the Economy	10
	The Role of Logistics in the Organization	11
	Logistics Supports Marketing	11
	Product	14
	Price	14
	Promotion	14
	Place	14
	Total Cost Concept	15
	Key Logistics Activities	15
	Customer Service	17
	Demand Forecasting/Planning	17
	Inventory Management	17
	Logistics Communications	18
	Materials Handling	18
	Order Processing	18
	Packaging	19

- Parts and Service Support 19
- Plant and Warehouse Site Selection 19
- Procurement 20
- Return Goods Handling 20
- Reverse Logistics 20
- Traffic and Transportation 20
- Warehousing and Storage 21
- The Relationship of Logistics Activities to Logistics Costs 21
 - Customer Service Levels 22
 - Transportation Costs 22
 - Warehousing Costs 22
 - Order Processing/Information Systems Costs 22
 - Lot Quantity Costs 23
 - Inventory Carrying Costs 23
- Developing Logistics Strategy 24
- Future Challenges and Areas for Logistics Performance Improvement 25
 - Strategic Planning and Participation 25
 - Total Quality Management 26
 - Just-in-Time 28
 - Quick Response 28
- Technology Box: Quick Response, Canadian Style 29**
 - Efficient Consumer Response 30
 - Logistics as a Competitive Weapon 30
 - Accounting for Logistics Costs 31
 - Logistics as a Boundary-Spanning Activity 31
 - Global Logistics 32
 - Increasing Skill Requirements 33
 - Logistics Information Systems 34
 - Outsourcing, Partnering, and Strategic Alliances 34
 - Technology 35
 - Green Marketing 35
- Creative Solutions Box: Delivering the Goods 36**
- The Distribution Challenge! Torn in the U.S.A. 38

2 Customer Service 39

- Introduction 40
- Customer Service Defined 40
 - A Recent View of Customer Service 41
 - TQM and Customer Service 42
- Box 2-1: L.L. Bean: Customer Service Excellence 43**
 - Elements of Customer Service 43
 - Importance of Customer Service for Gaining Strategic Advantage 48
- Technology Box: Delivery Speed Keeps Electronic Boutique at the Top of Its Game 49**

How to Establish a Customer Service Strategy	50
Customer Reactions to Stockouts	51
Cost/Revenue Trade-Offs	52
ABC Analysis/Pareto's Law	54
The Customer Service Audit	56
Developing and Reporting Customer Service Standards	64
Box 2-2: Whirlpool and ERX: Partners in Customer Service	65
Impediments to an Effective Customer Service Strategy	65
Global Customer Service Issues	67
Global Box: Surviving and Thriving in an Era of Unprecedented Change:	
A Japanese Study	68
Improving Customer Service Performance	69
Creative Solutions Box: Quality in Logistics	71
The Distribution Challenge! A Chilling Dilemma	74
3 Logistics Information Systems	75
Introduction	76
Customer Order Cycle	76
How Do Customer Orders Enter the Firm's Order Processing Function?	80
The Path of a Customer's Order	80
Advanced Order Processing Systems	83
Inside Sales/Telemarketing	84
Electronic Data Interchange	84
EDI Standards	85
Types of EDI Systems	85
Impact of Internet on VANs	87
Benefits of EDI Implementation	87
Specific EDI Applications	87
Global Box: Canadian National Railroad Stays on Track with EDI	89
Electronic Mail and the Internet	89
Integrating Order Processing and the Company's Logistics Management Information System	90
Basic Need for Information	90
Designing the Information System	91
Financial Considerations	94
Technology Box: Frito-Lay: Integration of Information Systems Supports Integrated Logistics	95
Using Logistics Information Systems to Support Time-Based Competition	96
Bar Coding	96
Point-of-Sale Data	97
Total Quality Management	98
Decision Support Systems	98
Artificial Intelligence and Expert Systems	100
Box 3-1: What Is an Expert System? The Case of ABC Scientific	102

Natural Language Recognition 104
Neural Networks 104
Database Management 104
Creative Solutions Box: Using EDI to Reengineer the Business Process between a
Hospital Products Manufacturer and Its Distributor 106
The Distribution Challenge! Eve of Destruction 110

4 Inventory Concepts 111

Introduction 112
Basic Inventory Concepts 112
 Why Hold Inventory? 112
 Types of Inventory 116
Global Box: Benetton Uses Postponement to Improve Global
 Inventory Management 120
Basic Inventory Management 120
 Measures of Inventory Management Effectiveness 120
 Impact of Demand Patterns on Inventory Management 122
Technology Box: Reengineering Inventory Management at Motorola's Information
 Systems Group (ISG) 123
 Inventory Management under Conditions of Certainty 123
 Fixed Order Point versus Fixed Order Interval Policy 128
 Inventories and Customer Service 128
 Production Scheduling 130
Creative Solutions Box: Improving Inventory Management at General Mills 132
Appendixes 137
 4-A: Inventory Management under Uncertainty 138
 4-B: Calculating Safety Stock Requirements 139
 4-C: Derivation of Economic Order Quantity 146

5 Inventory Management 147

Introduction 148
Financial Aspects of Inventory Strategy 148
 Inventory and Corporate Profitability 148
Global Box: Changing Inventory Holding Patterns to Improve Performance at
 Atlas Copco Tools 150
 Inventory and Least Total Cost Logistics 150
Inventory Carrying Costs 152
 Calculating Inventory Carrying Costs 153
Technology Box: To Use Technology Properly, You Must Understand It! 161
 An Example from the Consumer Packaged Goods Industry 161
The Impact of Inventory Turnover on Inventory Carrying Costs 165
Symptoms of Poor Inventory Management 168

Improving Inventory Management	169
ABC Analysis	169
Forecasting	172
Order Processing/Inventory Systems	172
Box 5-1: Nabisco Uses Continuous Replenishment to Manage Inventory	174
Box 5-2: Integrating Systems to Improve Inventory Management at Kendall Healthcare Products	175
Impact of an Inventory Reduction on Corporate Profit Performance	175
Creative Solutions Box: Heavy Equipment Manufacturers Use Inventory Management to Improve Profitability	177
The Distribution Challenge! One for the Books	180

6 Managing Materials Flow 181

Introduction	182
Scope of Materials Management	183
Purchasing and Procurement	185
Production Control	185
Inbound Logistics	185
Warehousing and Storage	186
Data and Information Systems	187
Inventory Planning and Control	187
Materials Disposal	188
Forecasting	188
Total Quality Management	190
Administration and Control of Materials Flow	194
Global Box: Certifying Quality with ISO 9000	195
Kanban/Just-in-Time Systems	197
Box 6-1: Harley-Davidson Embraces Just-in-Time (JIT) and TQM Concepts	198
Box 6-2: Kanban Card Procedure	202
JIT II	203
MRP Systems	203
DRP Systems	207
Technlogy Box: Seven Benefits of Information Technology	208
The Logistics/Manufacturing Interface	208
Box 6-3: How DRP Forecasts Demand: A Case History	210
Creative Solutions Box: Excellence in Logistics Strategies	211

7 Transportation 215

Introduction	216
Time and Place Utility	217
Transportation/Logistics/Marketing Interfaces	217
Factors Influencing Transportation Costs and Pricing	217

- Carrier Characteristics and Services 219
 - Motor 219
 - Rail 221
- Box 7-1: Outsourcing Truckload Fleet Helps Baxter Healthcare Cut Supply Chain Costs** 222
 - Air 223
 - Water 224
 - Pipeline 226
- Global Box: The Birth of Containers** 227
 - Third Parties 228
- Box 7-2: How Sears Leverages Its LTL Transportation** 232
 - Small-Package Carriers 233
 - Intermodal Services 233
- Global Issues 237
- Regulatory Issues 239
 - Forms of Regulation 239
 - Legally Defined Forms of Transportation 239
 - Impact of Deregulation 241
- Carrier Pricing and Related Issues 245
 - Rates and Rate Determination 245
 - FOB Pricing 246
 - Delivered Pricing 248
 - Quantity Discounts 248
 - Allowances 249
 - Pricing and Negotiation 249
- Logistics and Traffic Management 250
 - Inbound and Outbound Transportation 250
 - Carrier-Shipper Contracts 251
 - Carrier-Shipper Alliances 251
 - Private Carriage 252
 - Mode/Carrier Selection Decision Process 253
 - Routing and Scheduling 255
 - Service Offerings 255
 - Computer Technology 256
- Technology Box: More Traffic Jumps on the Web** 257
 - Transportation Productivity Issues 258
- Creative Solutions Box: Goodyear Tire & Rubber Company Takes a New Approach to Carrier Productivity** 259
- The Distribution Challenge! Peaks and Valleys 263

8 Warehousing 265

- Introduction 266
 - Nature and Importance of Warehousing 268
- Box 8-1: Warehousing in the High-Fashion Goods Industry** 271
 - Types of Warehousing 273

Warehousing Operations: Three Functions	275
Movement	275
Box 8-2: How Moore Keeps Its Operations in Top Form	276
Storage	279
Information Transfer	279
Public versus Private Warehousing	280
Advantages and Disadvantages of Public Warehousing	280
Advantages and Disadvantages of Private Warehousing	283
Facility Development	285
Size and Number of Warehouses	285
Location Analysis	290
Warehouse Layout and Design	294
Box 8-3: Target Stores Discover There Is More to Site Selection Than Running the Right Models	295
International Dimensions of Warehousing	297
Warehouse Productivity Measurement	298
Global Box: BBN Communications Serves Customers Worldwide	299
Improving Warehouse Productivity	300
Methods-Related Programs	300
Equipment-Related Programs	300
Technology Box: Radio to the Rescue	301
Systems-Related Programs	301
Training/Motivation-Related Programs	301
Financial Dimensions of Warehousing	302
Activity-Based Costing	302
Levels of Sophistication in Warehouse Accounting and Control	303
Creative Solutions Box: Less Warehousing, Better Distribution	304
The Distribution Challenge! How Are We Doing?	308

9 Materials Handling, Computerization, and Packaging Issues 309

Introduction	310
Materials Handling Equipment	310
Manual or Nonautomated Materials Handling Systems	310
Automated Materials Handling Systems	317
Global Box: Providing Integrated Solutions through Computers and Automation	319
Warehousing in a Just-in-Time Environment	327
Packaging	328
Functions of Packaging	330
Effects of Packaging on Costs and Customer Service	331
Box 9-1: Green Manufacturing Has Major Implications for Logistics	333
Box 9-2: Carriers Get into the Packaging Act	335
Computer Technology, Information, and Warehouse Management	335
Box 9-3: Texas Instruments Uses Bar Coding to Reduce Warehouse Space	337
Technology Box: Parts to Go!	338

Creative Solutions Box: A Call to Greatness 340
The Distribution Challenge! A Break in the Chain 343

10 Purchasing 345

Introduction 346
The Role of Purchasing in the Supply Chain 346
Purchasing Activities 347
 Development of the Purchasing Function 348
 The Role of Purchasing in Total Customer Satisfaction 349
 The Strategic Role of Purchasing 349
 Supplier Selection and Evaluation 352
 Total Quality Management 357
Global Box: Kodak Uses Total Cost Analysis to Leverage Global Purchases through Computers and Automation 358
Just-in-Time 359
Purchase Agreements 361
Value Analysis 361
“Loose” Engineering Specifications/Early Supplier Involvement 361
Control of Inbound Transportation 362
Supplier Development 362
Box 10-1: Supplier Development: The Extended Enterprise at Chrysler 363
 JIT II 363
Box 10-2: Steps in JIT II Information Flow 364
Purchasing Research and Planning 364
Purchasing Cost Management 365
 Cost-Reduction Programs 366
 Price Change Management 368
 Forward Buying versus Speculative Buying 369
 Volume Contracts 369
 Stockless Purchasing 370
Technology Box: Texas Instruments Simplifies Low-Dollar Purchases 371
Managing Supplier Relationships 371
 Types of Partnerships 372
 The Partnership Model 373
Creative Solutions Box: Reengineering Purchasing at Public Utilities 377
The Distribution Challenge! The Center of Attention 380

11 Global Logistics 381

Introduction 382
International Distribution Channel Strategies 383
 Exporting 386
 Licensing 387
 Joint Ventures 387

Box 11–1: Adapting McDonald’s to Japan’s Market	388
Direct Ownership	389
Importing	390
Countertrade and Duty Drawbacks	390
Managing Global Logistics	392
Cost-Service Trade-Off Analysis	392
Guidelines in Developing a Global Logistics Strategy	393
Organizing for Global Logistics	394
Financial Aspects of Global Logistics	395
Global Box: “Localized” Global Distribution	396
The Global Marketplace	398
Management of the Export Shipment	404
Export Facilitators	404
Documentation	406
Terms of Trade	408
Free Trade Zones	410
Logistics Characteristics of Global Markets	411
North America	411
Technology Box: NAFTA and Technology Combine to Cut Customs Delays	412
Western Europe	414
The Commonwealth of Independent States and Eastern Europe	418
Box 11–2: Wanted: Creative, Do-It-Yourself Shippers	420
The Pacific Rim: China	421
The Pacific Rim: Japan	422
Box 11–3: Is Japan Beginning to Adopt Western Supply Chain Management Concepts in Its Retail Distribution Systems?	423
Creative Solutions Box: Xerox’s European Logistics Success	425
The Distribution Challenge! The Blame Game	429

12 Organizing for Effective Logistics 431

Introduction	432
Box 12–1: No Longer in the Shadows	433
Importance of an Effective Logistics Organization	434
Box 12–2: IBM: Reorganizing to Regain Competitive Advantage	435
Global Box: Organizing for the 21st Century	436
Types of Logistics Organizational Structures	436
Development of Business Structures	437
Functional Silos	439
Generic Logistics Strategies	440
Logistics Coordination	441
Committees	444
Teams	446
Using Teams and Committees	447
Decision-Making Strategies in Organizing for Logistics	448
Mission Statements	448

Components of an Optimal Logistics Organization 450
An Approach to Developing an Optimal Logistics Organization 453
Technology Box: New Technologies Are Changing the Way We Work 457
Measuring the Effectiveness of the Logistics Organization 460
Box 12–3: Measure It to Manage It 461
Creative Solutions Box: Yellow Freight Reorganizes to Improve Customer Focus
and Profits 464

13 Methods to Control Logistics Performance 467

Introduction 468
Importance of Accurate Cost Data 468
Total Cost Analysis 469
Types of Cost Data Needed 469
Controlling Logistics Activities 471
Limitations of Current Profitability Reports 473
Solving the Problem of Insufficient Cost Data 474
Box 13–1: The Effect of Average Freight Costs on Customer
or Product Profitability 475
Standard Costs and Flexible Budgets 476
Budgetary Practices 479
Box 13–2: Control Deficiencies 481
Productivity Standards 482
Statistical Process Control 485
Logistics Costs and the Corporate Management Information
System (MIS) 489
Box 13–3: Inability to Distinguish between Fixed and Variable Costs 490
Activity-Based Costing 491
Technology Box: Software Helps Manage Financial and Service Issues 492
The Role of the Order Processing System 493
Box 13–4: The Pitfalls of Cost Allocation 494
Cost Justification of Logistics System Changes 495
Global Box: When a Global Supply Chain Doesn't Work 496
Creative Solutions Box: Open Book Contract Warehousing
at Quantum Chemicals 498
The Distribution Challenge! All SKU'ed Up 501

14 Supply Chain Management 503

Introduction 504
What Is a Channel of Distribution? 506
Why Do Channels of Distribution Develop? 507
The Evolution of Marketing Channels 507
The Discrepancy of Assortment and Sorting 507

Routinization of Transactions	508
Searching through Marketing Channels	509
Channel Structure	509
Outsourcing	510
Postponement and Speculation	511
Box 14-1: Third Parties Support Postponement	512
Time to Market Pressures	513
Other Issues in Channel Structure	513
Flows in the Channel of Distribution	513
Product and Information Flows	513
Communication Linkages	515
Marketing Strategy	515
Channel Separation	515
Box 14-2: AMD Takes Control of Its Distribution Channel	516
Channel Design	516
The Manufacturer's Perspective	518
The Wholesaler's Perspective	518
The Retailer's Perspective	518
Considerations of Channel Design	519
Market Coverage Objectives	519
Product Characteristics	520
Customer Service Objectives	522
Profitability	523
Channel Performance Measurement	528
Potential Qualitative Measures	528
Cost Trade-Off Analysis	528
Box 14-3: Supply Chain Management Pitfalls	530
Automation and Integration of Systems within the Supply Chain	530
Processes of Integrated Supply Chain Management	531
Customer Relationship Management	533
Customer Service Management	533
Demand Management	533
Technology Box: The Value Chain Initiative	534
Customer Order Fulfillment	534
Manufacturing Flow Management	534
Procurement	535
Product Development and Commercialization	535
Returns Channel	535
Global Box: Localizing Generic Products at Hewlett-Packard	536
Goals of Managing the Supply Chain Processes	537
Reengineering Improvement into the Supply Chain	538
Implementing Integrated Supply Chain Management	540
Creative Solutions Box: How Milliken Drives Supply Chain Integration	542
The Distribution Challenge! Quality on the Run	546

15 Implementing Logistics Strategy 547

- Introduction 548
 - What Are Strategy and Strategic Planning? 548
 - Mission Statements 548
 - Why Strategy Is Important to Logistics 548
 - Why Plan? 549
- The Hierarchy of Planning 549
 - Strategic Plan 549
 - Tactical Plan 550
 - Operating Plan 550
- Linking Logistics Strategy with Corporate Strategy 551
- The Organizational Planning Process 551
- Box 15–1: Levi’s Moves Logistics in a Strategic Direction** 552
- The Strategic Logistics Plan 555
 - Evaluation and Selection of Channel Members 557
- Technology Box: Sara Lee Hosiery Uses Information Technology to Support Its Logistics Strategy** 558
 - Ongoing Channel Evaluation and Improvement 558
 - Developing a Strategic Logistics Plan 559
 - The Logistics Plan 564
- Future Challenges and Critical Issues in the Strategic Planning Process 565
 - Supply Chain Management 566
- Global Box: Create a Global Buying Strategy** 567
- Box 15–2: Benetton: A Supply Chain Leader** 568
 - Total Quality Management 570
 - Just-in-Time 571
 - Information Systems 572
 - Reengineering 572
 - Time-Based Competition 573
 - Environmental Issues/Reverse Logistics 573
- Logistics as a Source of Distinctive Competitive Advantage 575
- Creative Solutions Box: U.S. West Understands Strategic Importance of Logistics** 577
- Appendix 15A: Customer Service/Order Administration Audit 579
- The Distribution Challenge! Power to Spare 580
