An Introduction to Business Statistics | 1

Displaying Descriptive Statistics | 21

Calculating Descriptive Statistics | 77

Introduction to Probabilities | 147

Discrete Probability Distributions | 193

Continuous Probability Distributions | 247

Sampling and Sampling Distributions | 289

Confidence Intervals | 333

Hypothesis Testing for a Single Population | 383

Hypothesis Tests Comparing Two Populations | 437

Analysis of Variance (ANOVA) Procedures | 501

Chi-Square Tests | 575

Hypothesis Tests for the Population Variance | 625

Correlation and Simple Linear Regression | 651

Multiple Regression and Model Building | 709

Forecasting | 767

Decision Analysis (online) | 17-1

Nonparametric Statistics (online) | 18-1

**Appendix A: Tables** | 827

**Appendix B: Answers to Selected Even-Numbered Problems** | 865

**Credits** | 933

**Index** | 935

# TABLE OF Contents

Preface | **xi**

Acknowledgments | **xvi**

Dear Students | **xx**

Index of Applications | **xxi**

**1**

## An Introduction to Business Statistics | **1**

**1.1** Business Statistics and Their Uses 2

**1.2** Data 4

**1.3** Descriptive and Inferential Statistics 11

**1.4** Ethics and Statistics—It’s a Dangerous World of Data Out There 14

Summary 16 | Key Terms 17 | Problems 17 | Solutions to **YOUR TURN** 19

**2**

## Displaying Descriptive Statistics | **21**

**2.1** The Role Technology Plays in Statistics 23

**2.2** Displaying Quantitative Data 25

**2.3** Displaying Qualitative Data 42

**2.4** Contingency Tables 55

**2.5** Stem and Leaf Display 59

**2.6** Scatter Plots 61

Summary 66 | Key Terms 67 | Problems 67 | Solutions to **YOUR TURN** 73

**3**

## Calculating Descriptive Statistics | **77**

**3.1** Measures of Central Tendency 78

**3.2** Measures of Variability 91

**3.3** Using the Mean and Standard Deviation Together 101

**3.4** Working with Grouped Data 112

**3.5** Measures of Relative Position 116

**3.6** Measures of Association Between Two Variables 126

Summary 132 | Key Terms 133 | Equations 134 | Problems 137 |  
Solutions to **YOUR TURN** 141

**4**

## Introduction to Probabilities | **147**

**4.1** An Introduction to Probabilities 148

**4.2** Probability Rules for More Than One Event 156

**4.3** Counting Principles 176

Summary 183 | Key Terms 184 | Equations 184 | Problems 186 |  
Solutions to **YOUR TURN** 189

## 5 Discrete Probability Distributions | 193

- 5.1 Introduction to Discrete Probability Distributions 195
- 5.2 Binomial Distributions 207
- 5.3 Poisson Distributions 218
- 5.4 The Hypergeometric Distribution 229

Summary 235 | Key Terms 236 |  
Equations 236 | Problems 237 |  
Solutions to **YOUR TURN** 242

## 6 Continuous Probability Distributions | 247

- 6.1 Continuous Random Variables 248
- 6.2 Normal Probability Distributions 250
- 6.3 Exponential Probability Distributions 269
- 6.4 Uniform Probability Distributions 273

Summary 279 | Key Terms 280 |  
Equations 280 | Problems 281 |  
Solutions to **YOUR TURN** 286

## 7 Sampling and Sampling Distributions | 289

- 7.1 Why Sample? 290
- 7.2 Types of Sampling 291
- 7.3 Sampling and Nonsampling Errors 298
- 7.4 The Central Limit Theorem 301
- 7.5 The Sampling Distribution of the Proportion 317

Summary 323 | Key Terms 324 |  
Equations 325 | Problems 325 |  
Solutions to **YOUR TURN** 329

## 8 Confidence Intervals | 333

- 8.1 Point Estimates 334
- 8.2 Calculating Confidence Intervals for the Mean when the Standard Deviation ( $\sigma$ ) of a Population Is Known 335
- 8.3 Calculating Confidence Intervals for the Mean when the Standard Deviation ( $\sigma$ ) of a Population Is Unknown 347

- 8.4 Calculating Confidence Intervals for Proportions 354

- 8.5 Determining the Sample Size 359

- 8.6 Calculating Confidence Intervals for Finite Populations 366

Summary 371 | Key Terms 372 |  
Equations 372 | Problems 375 |  
Solutions to **YOUR TURN** 378

## 9 Hypothesis Testing for a Single Population | 383

- 9.1 An Introduction to Hypothesis Testing 384

- 9.2 Hypothesis Testing for the Population Mean When  $\sigma$  Is Known 390

- 9.3 Hypothesis Testing for the Population Mean when  $\sigma$  Is Unknown 403

- 9.4 Hypothesis Testing for the Proportion of a Population 412

- 9.5 Type II Errors 416

Summary 425 | Key Terms 426 |  
Equations 426 | Problems 427 |  
Solutions to **YOUR TURN** 432

## 10 Hypothesis Tests Comparing Two Populations | 437

- 10.1 Comparing Two Population Means with 439

- Independent Samples
- Known Population Standard Deviations ( $\sigma_1$  and  $\sigma_2$ )

- 10.2 Comparing Two Population Means with 448

- Independent Samples
- Unknown Population Standard Deviations ( $\sigma_1$  and  $\sigma_2$ )

- 10.3 Hypothesis Testing With Dependent Samples 464

- 10.4 Comparing Two Population Proportions with Independent Samples 474

Summary 484 | Key Terms 485 |  
Equations 485 | Problems 489 |  
Solutions to **YOUR TURN** 494

## 11 Analysis of Variance (ANOVA) Procedures | 501

- 11.1 One-Way ANOVA: Examining the Effect a Single Factor Has on the Means of Populations 503
- 11.2 Randomized Block ANOVA: Examining the Effects of a Single Factor by Blocking a Second Factor 523
- 11.3 Two-Way ANOVA: Examining the Effects Two Factors Have on the Means of Populations 540  
Summary 557 | Key Terms 559 | Equations 560 | Problems 563 | Solutions to **YOUR TURN** 568

## 12 Chi-Square Tests | 575

- 12.1 Comparing Two or More Population Proportions 577
- 12.2 Determining If Observed Frequencies Follow a Known Probability Distribution 585
- 12.3 Testing the Independence of Two Variables 605  
Summary 612 | Key Terms 613 | Equations 613 | Problems 614 | Solutions to **YOUR TURN** 619

## 13 Hypothesis Tests for the Population Variance | 625

- 13.1 Testing the Variance of a Single Population 626
- 13.2 Comparing the Variances of Two Populations 634  
Summary 644 | Equations 644 | Problems 645 | Solutions to **YOUR TURN** 648

## 14 Correlation and Simple Linear Regression | 651

- 14.1 Dependent and Independent Variables 653
- 14.2 Correlation Analysis 653
- 14.3 Simple Linear Regression Analysis 660

- 14.4 Using a Regression to Make a Prediction 672
- 14.5 Testing the Significance of the Slope of the Regression Equation 679
- 14.6 Assumptions for Regression Analysis 684
- 14.7 A Simple Regression Example with a Negative Correlation 687
- 14.8 Some Final (but Very Important) Thoughts 696  
Summary 697 | Key Terms 698 | Equations 699 | Problems 701 | Solutions to **YOUR TURN** 704

## 15 Multiple Regression and Model Building | 709

- 15.1 Developing the Multiple Regression Model 710
- 15.2 Explaining the Variation of the Dependent Variable 717
- 15.3 Inferences about the Independent Variables 726
- 15.4 Using Qualitative Independent Variables 732
- 15.5 Model Building 739  
Summary 756 | Key Terms 757 | Equations 758 | Problems 759 | Solutions to **YOUR TURN** 761

## 16 Forecasting | 767

- 16.1 Introduction to Forecasting 768
- 16.2 Smoothing Forecasting Methods 770
- 16.3 Forecasting with Regression Analysis 783
- 16.4 Forecasting with Seasonality 797  
Summary 814 | Key Terms 815 | Equations 816 | Problems 817 | Solutions to **YOUR TURN** 820

**17** Decision Analysis (online) | **17-1**

- 17.1** Introduction to Decision Analysis 17-2
- 17.2** Constructing a Decision Table 17-3
- 17.3** Decision Making Under Uncertainty 17-6
- 17.4** Decision Making Under Risk 17-12
- 17.5** Decision Making Using Decision Trees 17-16
- 17.6** Using Bayes' Theorem to Calculate Posterior Probabilities 17-27
  - Summary 17-32 | Key Terms 17-33 |
  - Equations 17-34 | Problems 17-34 |
  - Solutions to **YOUR TURN** 17-37

**18** Nonparametric Statistics (online) | **18-1**

- 18.1** Introduction to Nonparametric Statistics 18-2
- 18.2** The Sign Test 18-4
- 18.3** The Wilcoxon Rank-Sum Test for Two Independent Samples 18-14
- 18.4** The Wilcoxon Signed-Rank Test for Two Dependent Samples 18-22
- 18.5** The Kruskal-Wallis One-Way ANOVA 18-27
- 18.6** The Spearman Rank-Order Correlation Coefficient 18-31
- Appendix C:** Tables for Chapter 18 18-48
  - Summary 18-37 | Key Terms 18-38 |
  - Equations 18-39 | Problems 18-40 |
  - Solutions to **YOUR TURN** 18-44

Appendix A | **827**

- Table 1** Binomial Probabilities | **827**
- Table 2** Poisson Probabilities | **838**
- Table 3** Cumulative Probabilities for the Standard Normal Distribution | **843**
- Table 4** Cumulative Probabilities for the Standard Normal Distribution | **844**
- Table 5** Student's *t*-distribution | **845**
- Table 6** *F*-distribution | **848**
- Table 7** Critical Values of the Studentized Range, *Q* | **858**
- Table 8** Chi-Square Distribution | **861**
- Table 9** Critical Values for the Durbin-Watson Statistic | **862**

Appendix B: Answers to Selected Even-Numbered Problems | **865**Credits | **933**Index | **935**
