Chapter 1: I Have An Idea!	1
Introduction.....	1
Software Products and Ideas Behind Them	4
Different Models.....	7
Research and Development.....	8
Knowledge Sharing Platform	10
Minimum Viable Product.....	12
Summary.....	13
Chapter 2: Roles, Responsibilities, and Methodologies	15
Roles and Responsibilities	16
Business Owner.....	17
Product Manager	18
Designers	19
Backend.....	20
Frontend	21
Quality Assurance (QA)	23
DevOps (development + operations)	24
It's Normal to be Confused About Roles!	24

TABLE OF CONTENTS

- Methodologies 27
 - Scrum 29
 - Kanban 37
 - Ok, But What Should I Use? 39
- Our Team and Process 42
- Summary..... 44
- Chapter 3: Requirements, Commitment, and Deadlines 47**
 - Product Manager 47
 - Interview With Product Manager..... 48
 - How People Become Product Managers and What They Deal With..... 48
 - Differences Between Product Owner and Product Manager 49
 - Involvement on the Path From Idea to Product 50
 - Managing Products of Different Business Areas 51
 - The Biggest Screw-Up..... 51
 - The Biggest Success 52
 - Preparation 52
 - Requirements and Roadmap..... 52
 - Kick-Off 55
 - Commitment and Deadline..... 57
 - Requirements for Our MVP..... 59
 - Summary..... 63
- Chapter 4: User-Centered Design..... 67**
 - Design Journey—Its Start and End 68
 - Personas and User Stories..... 71
 - Types of Design..... 72
 - User Interface and User Experience..... 74
 - Design Process—How Designers Run It..... 82
 - Designing Our Online Education Platform 90
 - Initial Brainstorming..... 90
 - Wireframes..... 92

Usability Testing	94
Visual Design	97
Interview With a Product Designer.....	98
Summary.....	99
Chapter 5: Backend Development.....	101
About the Stack.....	102
Defining Backend Applications	102
Bootstrapping the Project	103
Build Automation Tool: Maven	104
Database	108
Pros	109
Cons.....	109
Authentication.....	115
Development.....	118
Database	120
Persistence Layer	120
Service Layer.....	120
Service API	120
REST API and Transformation Layer	121
Implementing the Registration	121
Testing.....	129
Summary.....	131
Chapter 6: Frontend Development	133
Let's Code!	134
Where Does Frontend Start?	136
Markup and DOM	138
Document Object Model	139
Headings.....	141
Hyperlinks.....	141
Images.....	142

TABLE OF CONTENTS

- Forms 144
- Inline and Block Elements 146
- Style 149
- Layout..... 155
- Design Systems..... 158
- Pre-Processors and Template Engines 158
- Dynamic Content..... 161
- Development Tools Console..... 162
- Variables..... 163
- Including JavaScript..... 163
- Functions..... 166
- Frameworks 168
- Contract Between Frontend and Backend 172
- Creating the Frontend Application for Our Platform..... 177
- IDEs 179
- Summary..... 180
- Chapter 7: Testing Our Product..... 181**
- Different Types of Testing..... 181
- Unit Testing 181
- Integration Testing..... 183
- System Testing 185
- Acceptance Testing..... 186
- Regression Testing 187
- Who Is Testing What? 188
- Manual QA Tester..... 189
- Automation QA Tester 190
- From Manual to Automation Tester..... 191
- Tools, Platforms, and Frameworks..... 193

Testing Our Product.....	200
Manual Testing	200
Unit Tests for the Frontend	203
Summary.....	206
Chapter 8: Let's Go Live!	209
How to Publish Your Software Project?.....	210
When Do We Start Thinking About Deployment?.....	213
Where Do I Put My Code?.....	214
Continuous Integration and Automated Tests.....	216
Continuous Delivery and Deployment	218
Who Does What and How?	220
Interview With DevOps.....	221
Monitoring and Alerting.....	227
Analytics	228
Hosting and Creating a CI/CD for Our Platform	229
Hosting	229
Continuous Integration and Deployment	232
Summary.....	235
Chapter 9: Maintaining and Improving Your Software	237
Maintaining	238
Backups.....	238
Replication.....	239
Natural Disasters and Cosmic Rays.....	240
Improving	242
Scaling.....	243
Handling Feedback.....	246
Bug Fixing.....	247
Refactoring, Rewriting, and Technical Debt.....	252
Redesigning and Rebranding	255
Summary.....	257

TABLE OF CONTENTS

- Chapter 10: Wrapping Up With Some Tips and Tricks 259**
 - Development Tips..... 259
 - Choosing Programming Languages or Frameworks 260
 - Code Style Guidelines 260
 - Code Reviews and Pair Programming 261
 - Quality Assurance Tips 263
 - DevOps Tips 264
 - What About My Idea? 265
 - Project and Product Management Tips 269
 - Time Management Tips 271
 - Team Management Tips 272
 - Trust..... 274
 - Appreciate 277
 - Invest in Education 278
 - Be the Best to Hire the Best 280
 - Reflect on Everything 281
 - Create YOUR Thing..... 282
 - Summary..... 283

- Index..... 285**
