Health

THIRTEENTH
EDITION

THE
BASICS

Rebecca J. Donatelle

Pearson

330 Hudson Street, NY NY 10013

BRIEF CONTENTS

PART ONE

Finding the Right Balance

- 1 Accessing Your Health 1

FOCUS ON

DIFFERENCE, DISPARITY, AND HEALTH: ACHIEVING HEALTH EQUITY 26

- 2 Promoting and Preserving Your Psychological Health 38

FOCUS ON

CULTIVATING YOUR SPIRITUAL HEALTH 61

- 3 Managing Stress and Coping with Life's Challenges 72
- 4 Improving Your Sleep 99
- 5 Preventing Violence and Injury 118

PART TWO

Creating Healthy and Caring Relationships

- 6 Connecting and Communicating in the Modern World 142

FOCUS ON

UNDERSTANDING YOUR SEXUALITY 163

- 7 Considering Your Reproductive Choices 178

PART THREE

Avoiding Risks from Harmful Habits

- 8 Recognizing and Avoiding Addiction and Drug Abuse 209
- 9 Drinking Alcohol Responsibly and Ending Tobacco Use 238

PART FOUR

Building Healthy Lifestyles

- 10 Nutrition: Eating for a Healthier You 270
- 11 Reaching and Maintaining a Healthy Weight 300

FOCUS ON

ENHANCING YOUR BODY IMAGE 325

- 12 Improving Your Personal Fitness 337

PART FIVE

Preventing and Fighting Disease

- 13 Reducing Your Risk of Cardiovascular Disease and Cancer 363

FOCUS ON

MINIMIZING YOUR RISK FOR DIABETES 395

- 14 Protecting Against Infectious Diseases and Sexually Transmitted Infections 407

FOCUS ON

REDUCING RISKS FOR CHRONIC DISEASES AND CONDITIONS 439

PART SIX

Facing Life's Changes

- 15 Making Smart Health Care Choices 450

FOCUS ON

UNDERSTANDING COMPLEMENTARY AND INTEGRATIVE HEALTH 468

FOCUS ON

AGING, DEATH, AND DYING 478

- 16 Promoting Environmental Health 492

APPENDIX A: POP QUIZ ANSWERS A-1

PART ONE | FINDING THE RIGHT BALANCE

1 Accessing Your Health 1

Why Health, Why Now? 2

- Choose Health Now for Immediate Benefits 2
- Choose Health Now for Long-Term Rewards 3
- Your Health Is Linked to Societal Health 4

What Is Health? 5

- Models of Health 5
- Wellness and the Dimensions of Health 6

What Influences Your Health? 7

- Individual Behavior 8
- Biology and Genetics 9
- Social Factors 9
- Access to High-Quality Health Services 9
- Policymaking 10

How Does Mindfulness Influence Health? 10

- Definitions of Mindfulness 10
- Health Benefits of Mindfulness 10
- How to Practice Mindfulness 11

How Does Behavior Change Occur? 12

- Health Belief Model 12
- Social Cognitive Model 12
- Transtheoretical Model 13

How Can You Improve Your Health Behaviors? 13

- Step One: Increase Your Awareness 14
- Step Two: Contemplate Change 14
- Step Three: Prepare for Change 16
- Step Four: Take Action to Change 17
- Let's Get Started! 19

ASSESS YOURSELF 20

STUDY PLAN 23

FOCUS ON Difference, Disparity, and Health: Achieving Health Equity 26

Why Has Health Equity Become a Critical Issue in America? 27

- Health Equity Is Attainment of the Highest Level of Health for All 27

America: A Country of Increasing Diversity 27

Our Response to Difference Can Lead to Disparities in Health 28

Certain Population Groups Are More Vulnerable to Health Disparities 28

Health Disparities Incur Enormous Costs 29

How Do the Social Determinants of Health Influence Health Disparities in America? 29

- Economic Stability and Educational Attainment 30
- Social Interactions and Community Context 31
- Neighborhood and Built Environment 32

How Can Your Actions Contribute to Health Equity? 32

- Use Mindfulness to Examine Your Assumptions and Biases 32
- Affirm the Benefits of Diversity 32
- Learn to Communicate across Differences 33
- Advocate for Yourself and Others 33

How Can Systemic Change Lead to Health for All? 33

- Increase Access to Health Care 34
- Reduce the Social Determinants That Contribute to Health Disparities 34
- Examples of Initiatives to Increase Health for All 35

ASSESS YOURSELF 36

STUDY PLAN 37

2 Promoting and Preserving Your Psychological Health 38

What Is Psychological Health? 39

- Mental Health 41
- Emotional Health 41
- Social Health 41
- Spiritual Health 42

Keys To Enhancing Psychological Health 43

- Self-Efficacy and Self-Esteem 43
- Emotional Intelligence 43
- Personality 44
- Lifespan and Maturity 44
- Happiness and the Mind–Body Connection 44

When Psychological Health Deteriorates 45

- Mental Health Threats to College Students 45
- Mood Disorders 46
- Anxiety Disorders 48
- Obsessive–Compulsive Disorder 49
- Posttraumatic Stress Disorder 49

Personality Disorders 50
Schizophrenia 50

Suicide: Giving Up On Life 52

Risk Factors for Suicide 52
Warning Signs of Suicide 53
Preventing Suicide 53

Seeking Professional Help 53

Mental Illness Stigma 53
Getting Evaluated for Treatment 54
Mental Health Professionals 54
What to Expect in Therapy 54
Pharmacological Treatment 55

ASSESS YOURSELF 57

STUDY PLAN 59

**FOCUS ON Cultivating Your
Spiritual Health 61**

What Is Spirituality? 62

Spirituality and Religion 62
Relationships, Values, and Purpose 63
Spiritual Intelligence 64

The Benefits Of Spiritual Health 64

Physical Benefits 64
Psychological Benefits 65

Cultivating Your Spiritual Health 66

Tune in to Yourself and Your Surroundings 66
Train Your Body 68
Reach Out to Other People 69

ASSESS YOURSELF 70

STUDY PLAN 71

**3 Managing Stress and Coping with
Life's Challenges 72**

What Is Stress? 74

Your Body's Stress Response 75

Physiology/Systems Theory: The General Adaptation Syndrome 75
Psychological Theory: The Transactional Model of Stress and Coping 77
Minority Stress Perspective 77
Yerkes-Dodson Law of Arousal 77
Do Men and Women Respond Differently to Stress? 77

Physical Effects of Stress 77

Stress and Cardiovascular Disease 78
Stress and Weight Gain 78
Stress and Hair Loss: A Little Known Fact 78

Stress and Diabetes 78
Stress and Digestive Problems 78
Stress and Impaired Immunity 79

When Overwhelm Strikes: Threats To Mental Health 79

Stress, Memory, and Concentration 79
Psychological Effects of Stress 79

What Causes Stress? 79

College Students: Adjusting to Change 80
Hassles: Little Things That Bug You 80
Stress: The Toll of Relationships 80
Money and Stress 80
Stress, Frustration, and Conflict 81
Overload 81
Stressful Environments 81
Bias and Discrimination 83

Individual Factors That Affect Your Stress Response 83

Appraisal 83
Self-Esteem 83
Self-Efficacy 84
Type A and Type B Personalities 84
Type C and Type D Personalities 85
Shift and Persist 85

Managing Stress in College: Dealing With Overwhelm 85

A Mindful Approach to Stress 86
Developing a Support Network 87
Cultivating Your Spiritual Side 87
Managing Emotional Responses 87
Taking Physical Action 88
Managing Your Time 90
Consider Downshifting 91
Relaxation Techniques for Stress Management 91

ASSESS YOURSELF 94

STUDY PLAN 97

4 Improving Your Sleep 99

Sleepless in America 100

Sleepless on Campus: Tired and Dragged-Out Students? 101
Why Are We So Sleep Deprived? 101

The Importance of Sleep 102

Sleep and Health 102

The Processes of Sleep 104

Stages and Cycles of Sleep 105
Your Sleep Needs 106

Sleep Disorders 107

Insomnia 107
Sleep Apnea 109
Restless Legs Syndrome 109
Narcolepsy 110
Other Parasomnias 110

- Getting a Good Night's Sleep 111**
 - Create a Sleep-Promoting Environment 111
 - Adjust Your Daytime Habits 113
 - Avoid Common Sleep Disruptors 114

ASSESS YOURSELF 115

STUDY PLAN 116

5 Preventing Violence and Injury 118

What is Violence? 119

- Violence Overview 119
- Violence on U.S. Campuses 120

Factors Contributing to Violence 121

- What Makes Some Individuals Prone to Violence? 121
- How Much Impact Do the Media Have? 122

Interpersonal and Collective Violence 123

- Homicide 123
- Hate Crimes and Bias-Motivated Crimes 123
- Gang Violence 125
- Cybercrime 125
- Terrorism 126
- Intimate Partner and Domestic Violence 126
- Child Abuse and Neglect 127
- Elder Abuse 128

Sexual Victimization 128

- Sexual Assault and Rape 128
- Sexual Harassment 131
- Traditional and Tech-Facilitated Stalking 131
- Child Sexual Abuse 132

Preventing Violence 132

- Self-Defense against Personal Assault and Rape 132
- Campus-Wide Responses to Violence 133
- Community Strategies for Preventing Violence 134

Unintentional Injuries 134

- Motor Vehicle Safety 134
- Cycling Safety 136
- Stay Safe in the Water 136
- Safety at Home 137

ASSESS YOURSELF 138

STUDY PLAN 140

PART TWO | CREATING HEALTHY AND CARING RELATIONSHIPS

6 Connecting and Communicating in the Modern World 142

The Value of Relationships 143

Intimate Relationships: When Connecting Gets Personal 144

- Caring for Yourself 144
- Family Relationships 145

- Friendships 145
- Romantic Relationships 145

Building Communication Skills 147

- Learning Appropriate Self-Disclosure 147
- Becoming a Better Listener 148
- Using Nonverbal Communication 149
- Connecting Digitally 149
- Managing Conflict through Communication 152

Relationships: For Better and Worse 152

- Characteristics of Healthy and Unhealthy Relationships 152
- Confronting Couples Issues 153
- When and Why Relationships End 155
- Coping with Failed Relationships 155

Partnering and Singlehood 156

- Marriage 156
- Cohabitation 157
- Gay and Lesbian Marriage and Partnerships 158
- Staying Single 158

ASSESS YOURSELF 159

STUDY PLAN 160

FOCUS ON Understanding Your Sexuality 163

Your Sexual Identity 164

- Sexual Orientation 164

Sexual and Reproductive Anatomy and Physiology 165

- Female Sexual and Reproductive Anatomy and Physiology 165
- Male Sexual and Reproductive Anatomy and Physiology 168

Human Sexual Response 169

- Sexual Dysfunction 170

Sexual Expression and Behavior 171

- Options for Sexual Expression 171
- Variant Sexual Behavior 173
- Drugs and Sex 173
- Responsible and Satisfying Sexual Behavior 174

ASSESS YOURSELF 175

STUDY PLAN 177

7 Considering Your Reproductive Choices 178

Basic Principles of Contraception 179

Contraceptive Methods 180

- Barrier Methods 180
- Hormonal Methods 186
- Intrauterine Contraceptives 189

- Behavioral Methods 189
- Emergency Contraception 191
- Permanent Methods of Birth Control 191

Choosing a Method of Contraception 192

Abortion 194

- The Abortion Debate 194
- Emotional Aspects of Abortion 194
- Methods of Abortion 195

Pregnancy 196

- Planning for Pregnancy and Parenthood 196
- The Process of Pregnancy 197
- Prenatal Care 199

Childbirth 201

- Labor and Delivery 201
- Complications of Pregnancy and Childbirth 202
- The Postpartum Period 202

Infertility 204

- Causes in Women 204
- Causes in Men 204
- Infertility Treatments 204
- Surrogate Motherhood 205
- Adoption 205

ASSESS YOURSELF 206

STUDY PLAN 207

PART THREE | AVOIDING RISKS FROM HARMFUL HABITS

8 Recognizing and Avoiding Addiction and Drug Abuse 209

What is Addiction? 210

- Common Characteristics of Addiction 211
- Addiction Affects Family and Friends 211

Addictive Behaviors 211

- Gambling Disorder 211
- Compulsive Buying Disorder 212
- Exercise Addiction 212
- Technology Addictions 213
- Work Addiction 213
- Compulsive Sexual Behavior 214

What is a Drug? 214

- How Drugs Affect the Brain 215
- Routes of Drug Administration 216
- Drug Interactions 216

Drug Misuse and Abuse 216

- Abuse of Over-the-Counter Drugs 216
- Nonmedical Use or Abuse of Prescription Drugs 217
- Use and Abuse of Illicit Drugs 218
- Why Do Some College Students Use Drugs? 219

Common Drugs of Abuse 219

- Stimulants 219
- Marijuana and Other Cannabinoids 224
- Depressants 225
- Opioids (Narcotics) 227
- Hallucinogens 228
- Inhalants 230
- Anabolic Steroids 230

Treating and Reducing Drug Abuse 231

- Treatment Approaches 232
- Drug Treatment and Recovery for College Students 234
- Addressing Drug Misuse and Abuse in the United States 234

ASSESS YOURSELF 235

STUDY PLAN 236

9 Drinking Alcohol Responsibly and Ending Tobacco Use 238

Alcohol: An Overview 239

- The Chemistry and Potency of Alcohol 239
- Absorption and Metabolism 240
- Blood Alcohol Concentration 241

Alcohol and Your Health 242

- Short-Term Effects of Alcohol Use 242
- Drinking and Driving 244
- Long-Term Effects of Alcohol 245
- Alcohol and Pregnancy 246

Alcohol Use in College 247

- High-Risk Drinking and College Students 248
- Efforts to Reduce Student Drinking 249

Alcohol Abuse and Dependence 249

- Identifying an Alcoholic 249
- The Causes of Alcohol Use Disorder 250
- Alcohol Use Disorder in Women 251
- Alcohol and Prescription Drug Abuse 251
- Costs to Society 251
- Treatment and Recovery 252

Tobacco Use in the United States 253

- Tobacco and Social Issues 254
- College Students and Tobacco Use 255
- Tobacco Use and Prevention Policies 255

Tobacco and its Effects 257

- Nicotine 257
- Tar and Carbon Monoxide 257
- Tobacco Use Disorder 258
- Tobacco Products 258

Health Hazards of Tobacco Products 259

- Cancer 260
- Cardiovascular Disease 261

Respiratory Disorders 261
Sexual Dysfunction and Fertility Problems 261
Other Health Effects 261
Environmental Tobacco Smoke 261

Quitting Smoking 262

Benefits of Quitting 262
How Can You Quit? 263
Breaking the Nicotine Addiction 263

ASSESS YOURSELF 265

STUDY PLAN 267

PART FOUR | BUILDING HEALTHY LIFESTYLES

10 Nutrition: Eating for a Healthier You 270

Essential Nutrients for Health 271

Recommended Intakes for Nutrients 271
Calories 271
Water: A Crucial Nutrient 272
Proteins 272
Carbohydrates 273
Fats 275
Vitamins 278
Minerals 279
Beneficial Non-Nutrient Components of Foods 280

Nutritional Guidelines 281

Dietary Guidelines for Americans 281
MyPlate Food Guidance System 283

How Can I Eat More Mindfully and Healthfully? 284

Read Food Labels 284
Understand Serving Sizes 285
Vegetarianism: A Healthy Diet? 285
Supplements: Research on the Daily Dose 287
Eating Well in College 288

Food Safety: A Growing Concern 289

Choosing Organic or Locally Grown Foods 290
Foodborne Illnesses 291
Avoiding Risks in the Home 292
Food Sensitivities, Allergies, and Intolerances 293
Genetically Modified Food Crops 293

ASSESS YOURSELF 296

STUDY PLAN 298

11 Reaching and Maintaining a Healthy Weight 300

Overweight and Obesity: A Growing Health Threat 301

Overweight and Obesity in the United States 301
An Obesogenic World 302
Health Risks of Excess Weight 302

Factors Contributing to Overweight and Obesity 303

Physiological, Genetic, and Hormonal Factors 303
Environmental Factors 306
Psychosocial and Socioeconomic Factors 307
Emerging Theories on Obesity Risks 307

Assessing Body Weight and Body Composition 308

Body Mass Index (BMI) 308
Waist Circumference and Ratio Measurements 310
Measures of Body Fat 310

Managing Your Weight: Individual Roles 311

Understanding Calories and Energy Balance 311
Diet and Eating Behaviors 312
Including Exercise 315
Keeping Weight Control in Perspective 315
Considering Drastic Weight-Loss Measures? 315
Trying to Gain Weight 319

ASSESS YOURSELF 320

STUDY PLAN 323

FOCUS ON Enhancing Your Body Image 325

What is Body Image? 326

Many Factors Influence Body Image 326
Building a Positive Body Image 328
Body Dysmorphic Disorder 329

Disordered Eating and Eating Disorders 330

Anorexia Nervosa 331
Bulimia Nervosa 331
Binge-Eating Disorder 332
Other Specified Feeding or Eating Disorder 332
Orthorexia Nervosa 333
Treatment for Eating Disorders 333
Helping Someone with Disordered Eating 333

Can Too Much Exercise be Unhealthy? 334

Compulsive Exercise 334
Muscle Dysmorphia 334
The Female Athlete Triad 334
Health at Every Size 334

ASSESS YOURSELF 335

STUDY PLAN 336

12 Improving Your Personal Fitness 337

Physical Activity for Health 338

Reduced Risk of Cardiovascular Diseases 340
Reduced Risk of Metabolic Syndrome and Type 2 Diabetes 340
Reduced Cancer Risk 341

Improved Bone Mass and Reduced Risk of Osteoporosis 341
Improved Weight Management 341
Improved Immunity 341
Improved Mental Health and Stress Management 342
Longer Lifespan 342

Physical Activity for Fitness and Performance 343

Health-Related Components of Physical Fitness 343
Skill-Related Components of Physical Fitness 344

Committing to Physical Fitness 344

What If I Have Been Inactive for a While? 344
Overcoming Common Obstacles to Physical Activity 345
Incorporating Physical Activity in Your Life, Mindfully 345

Creating Your Own Fitness Program 346

Set SMART Goals 347
Use the FITT Principle 347
The FITT Principle for Cardiorespiratory Fitness 347
The FITT Principle for Muscular Strength and Endurance 349
The FITT Principle for Flexibility 351

Implementing Your Fitness Program 353

Develop a Progressive Plan 353
Design Your Exercise Session 353
Explore Activities That Develop Multiple Components of Fitness 354
Assess Your Social Environment 354

Taking in Proper Nutrition for Exercise 355

Foods for Exercise and Recovery 355
Fluids for Exercise and Recovery 355

Preventing and Treating Fitness-Related Injuries 356

Preventing Injuries 356
Treating Injuries 358

ASSESS YOURSELF 359

STUDY PLAN 361

13 Reducing Your Risk of Cardiovascular Disease and Cancer 363

Cardiovascular Disease in the United States 364

Understanding the Cardiovascular System 365

The Heart: A Mighty Machine 365

The Major Cardiovascular Diseases 367

Hypertension 367
Atherosclerosis 368
Peripheral Artery Disease 369
Coronary Heart Disease 369
Arrhythmias 369

Angina Pectoris 370
Cardiomyopathy and Heart Failure 370
Stroke 370

Reducing Your Risks 371

Metabolic Syndrome: Quick Risk Profile 371
Modifiable Risks for CVD 372
Nonmodifiable Risks 375
Other Risk Factors Being Studied 376

Diagnosing and Treating Cardiovascular Disease 376

Techniques for Diagnosing Cardiovascular Disease 377
Surgical Options: Bypass Surgery, Angioplasty, and Stents 377
Changing Aspirin Recommendations and Other Treatments 377

An Overview of Cancer 377

How Does Cancer Develop? 378
How Is Cancer Classified? 379

What Causes Cancer? 379

Lifestyle Risks 379
Genetic and Physiological Risks 380
Occupational and Environmental Risks 381
Infectious Diseases and Cancer 381

Types of Cancers 382

Lung Cancer 383
Breast Cancer 383
Colon and Rectal Cancers 384
Skin Cancer 384
Prostate Cancer 386
Ovarian Cancer 386
Cervical and Endometrial (Uterine Corpus) Cancer 386
Testicular Cancer 387
Pancreatic Cancer: Deadly and on the Rise 387

Facing Cancer 387

Cancer Treatments 388

ASSESS YOURSELF 390

STUDY PLAN 393

FOCUS ON Minimizing Your Risk for Diabetes 395

What is Diabetes? 396

Type 1 Diabetes 396
Type 2 Diabetes 397
Prediabetes 399
Gestational Diabetes 399

What are the Symptoms of Diabetes? 400

Complications of Diabetes 400
Diagnosing Diabetes 401

Preventing and Treating Diabetes 402

Medical Interventions 403

ASSESS YOURSELF 405

STUDY PLAN 406

14 Protecting Against Infectious Diseases and Sexually Transmitted Infections 407

The Process of Infection 408

Routes of Transmission: How Do Pathogens Gain Entry? 409

Risk Factors You Can Control 409

Hard to Control Risk Factors 410

Your Body's Defenses Against Infection 410

Physical and Chemical Defenses 410

The Immune System: Your 24/7 Protector 410

When the Immune System Misfires: Autoimmune Diseases 412

Inflammatory Response, Pain, and Fever 413

Vaccines Bolster Immunity 413

Types of Pathogens and the Diseases they Cause 414

Bacteria 415

Viruses 419

Other Pathogens 421

Emerging and Resurgent Diseases 421

Mindfulness: A New Ally in Bolstering Defenses? 422

Sexually Transmitted Infections 424

What's Your Risk? 424

Routes of Transmission 425

Common Types of Sexually Transmitted Infections 425

Chlamydia 425

Gonorrhea 426

Syphilis 426

Herpes 427

Human Papillomavirus (HPV) and Genital Warts 428

Candidiasis (Moniliasis) 429

Trichomoniasis 429

Pubic Lice 430

HIV/AIDS 431

How HIV is Transmitted 431

Signs and Symptoms of HIV/AIDS 432

Testing for HIV: Newer Options 432

New Hope and Treatments 434

Preventing HIV Infection 434

ASSESS YOURSELF 435

STUDY PLAN 437

FOCUS ON Reducing Risks for Chronic Diseases and Conditions 439

Chronic Lower Respiratory (Lung) Diseases 440

Chronic Obstructive Pulmonary Disease 440

Asthma 441

Coping with Allergies 442

Hay Fever 443

Coping with Neurological Disorders 443

Headaches 444

Seizure Disorders 444

Coping with Digestion-Related Disorders and Diseases 445

Irritable Bowel Syndrome 445

Inflammatory Bowel Disease 445

Coping with Musculoskeletal Diseases 445

Arthritis 446

Low Back Pain 446

Repetitive Strain/Motion Injuries 447

ASSESS YOURSELF 448

STUDY PLAN 449

PART SIX | FACING LIFE'S CHANGES

15 Making Smart Health Care Choices 450

Taking Responsibility For Your Health Care 451

Self-Care 451

When to Seek Help 452

Assessing Health Professionals 452

Your Rights as a Patient 453

Conventional Health Care 455

Conventional Health Care Practitioners 455

Conventional Medication 456

Health Insurance 457

Private Health Insurance 457

Managed Care 458

Government-Funded Programs 459

Insurance Coverage by the Numbers 460

Issues Facing Today's Health Care System 461

Access 461

Cost 461

Quality 462

ASSESS YOURSELF 464

STUDY PLAN 466

FOCUS ON Understanding Complementary and Integrative Health 468

What are Complementary, Alternative, and Integrative Health Approaches? 469

Complementary Medical Systems 470

- Traditional Chinese Medicine 470
- Ayurveda 470
- Homeopathy 470
- Naturopathy 471

Mind and Body Practices 471

- Manipulative Therapies 471
- Movement Therapies 472
- Energy Therapies 473

Natural Products 474

ASSESS YOURSELF 476

STUDY PLAN 477

FOCUS ON Aging, Death, and Dying 478

Aging 478

- Older Adults: A Growing Population 479
- Health Issues for an Aging Society 479
- Physical and Mental Changes of Aging 480

Strategies for Healthy Aging 483

- Improve Fitness 483
- Eat for Longevity 483
- Develop and Maintain Healthy Relationships 483
- Enrich the Spiritual Side of Life 483

Understanding the Final Transitions: Dying and Death 484

- Defining Death 484
- The Process of Dying 484
- Coping with Loss 485
- What Is “Typical” Grief? 486
- Worden’s Model of Grieving Tasks 486

Life-And-Death Decision Making 486

- The Right to Die 486
- Rational Suicide and Euthanasia 487

Making Final Arrangements 488

- Hospice Care: Positive Alternatives 488
- Making Funeral Arrangements 488
- Wills 488
- Organ Donation 488

ASSESS YOURSELF 489

STUDY PLAN 491

16 Promoting Environmental Health 492

Overpopulation: The Planet’s Greatest Threat 493

- Global Population Growth 493
- Measuring the Impact of People 494

Air Pollution 495

- Components of Air Pollution 495
- Photochemical Smog 495
- Air Quality Index 495
- Acid Deposition 497
- Indoor Air Pollution 497
- Ozone Layer Depletion 497

Climate Change 498

- Scientific Evidence of Climate Change and Human-Caused Global Warming 499
- Reducing the Threat of Global Warming 499

Water Pollution And Shortages 500

- Water Contamination 501

Land Pollution 501

- Solid Waste 502
- Hazardous Waste 502

Radiation 503

- Nonionizing Radiation 503
- Ionizing Radiation 503
- Nuclear Power Plants 504

ASSESS YOURSELF 505
