

# Marketing Analytics

## Data-Driven Techniques with Microsoft® Excel®

Wayne L. Winston

WILEY

# Contents

Introduction .....	xxiii
<b>I Using Excel to Summarize Marketing Data .....</b>	<b>1</b>
<b>1</b> Slicing and Dicing Marketing Data with PivotTables .....	3
<b>2</b> Using Excel Charts to Summarize Marketing Data .....	29
<b>3</b> Using Excel Functions to Summarize Marketing Data .....	59
<b>II Pricing .....</b>	<b>83</b>
<b>4</b> Estimating Demand Curves and Using Solver to Optimize Price .....	85
<b>5</b> Price Bundling .....	107
<b>6</b> Nonlinear Pricing .....	123
<b>7</b> Price Skimming and Sales .....	135
<b>8</b> Revenue Management .....	143
<b>III Forecasting .....</b>	<b>159</b>
<b>9</b> Simple Linear Regression and Correlation .....	161
<b>10</b> Using Multiple Regression to Forecast Sales .....	177
<b>11</b> Forecasting in the Presence of Special Events .....	213
<b>12</b> Modeling Trend and Seasonality .....	225
<b>13</b> Ratio to Moving Average Forecasting Method .....	235
<b>14</b> Winter's Method .....	241
<b>15</b> Using Neural Networks to Forecast Sales .....	249

<b>IV</b>	What do Customers Want? . . . . .	261
16	Conjoint Analysis . . . . .	263
17	Logistic Regression . . . . .	285
18	Discrete Choice Analysis . . . . .	303
<b>V</b>	Customer Value . . . . .	325
19	Calculating Lifetime Customer Value . . . . .	327
20	Using Customer Value to Value a Business . . . . .	339
21	Customer Value, Monte Carlo Simulation, and Marketing Decision Making . . . . .	347
22	Allocating Marketing Resources between Customer Acquisition and Retention . . . . .	365
<b>VI</b>	Market Segmentation . . . . .	375
23	Cluster Analysis . . . . .	377
24	Collaborative Filtering . . . . .	393
25	Using Classification Trees for Segmentation . . . . .	403
<b>VII</b>	Forecasting New Product Sales . . . . .	413
26	Using S Curves to Forecast Sales of a New Product . . . . .	415
27	The Bass Diffusion Model . . . . .	427
28	Using the Copernican Principle to Predict Duration of Future Sales. . . . .	439
<b>VIII</b>	Retailing. . . . .	443
29	Market Basket Analysis and Lift . . . . .	445

<b>30</b>	RFM Analysis and Optimizing Direct Mail Campaigns . . . . .	459
<b>31</b>	Using the SCAN*PRO Model and Its Variants . . . . .	471
<b>32</b>	Allocating Retail Space and Sales Resources . . . . .	483
<b>33</b>	Forecasting Sales from Few Data Points . . . . .	495
<b>IX</b>	<b>Advertising . . . . .</b>	<b>503</b>
<b>34</b>	Measuring the Effectiveness of Advertising . . . . .	505
<b>35</b>	Media Selection Models . . . . .	517
<b>36</b>	Pay per Click (PPC) Online Advertising . . . . .	529
<b>X</b>	<b>Marketing Research Tools . . . . .</b>	<b>539</b>
<b>37</b>	Principal Components Analysis (PCA) . . . . .	541
<b>38</b>	Multidimensional Scaling (MDS) . . . . .	559
<b>39</b>	Classification Algorithms: Naive Bayes Classifier and Discriminant Analysis . . . . .	577
<b>40</b>	Analysis of Variance: One-way ANOVA . . . . .	595
<b>41</b>	Analysis of Variance: Two-way ANOVA . . . . .	607

Introduction .....	xxiii
<b>I Using Excel to Summarize Marketing Data .....</b>	<b>1</b>
<b>1 Slicing and Dicing Marketing Data with PivotTables .....</b>	<b>3</b>
Analyzing Sales at True Colors Hardware .....	3
Analyzing Sales at La Petit Bakery .....	14
Analyzing How Demographics Affect Sales .....	21
Pulling Data from a PivotTable with the GETPIVOTDATA Function ..	25
Summary .....	27
Exercises .....	27
<b>2 Using Excel Charts to Summarize Marketing Data .....</b>	<b>29</b>
Combination Charts .....	29
Using a PivotChart to Summarize Market Research Surveys .....	36
Ensuring Charts Update Automatically When New Data is Added .....	39
Making Chart Labels Dynamic .....	40
Summarizing Monthly Sales-Force Rankings .....	43
Using Check Boxes to Control Data in a Chart .....	45
Using Sparklines to Summarize Multiple Data Series .....	48
Using GETPIVOTDATA to Create the End-of-Week Sales Report .....	52
Summary .....	55
Exercises .....	55
<b>3 Using Excel Functions to Summarize Marketing Data .....</b>	<b>59</b>
Summarizing Data with a Histogram .....	59
Using Statistical Functions to Summarize Marketing Data .....	64
Summary .....	79
Exercises .....	80

<b>II Pricing</b> . . . . .	<b>83</b>
<b>4 Estimating Demand Curves and Using Solver to Optimize Price</b> . . . . .	<b>85</b>
Estimating Linear and Power Demand Curves . . . . .	85
Using the Excel Solver to Optimize Price. . . . .	90
Pricing Using Subjectively Estimated Demand Curves. . . . .	96
Using SolverTable to Price Multiple Products . . . . .	99
Summary . . . . .	103
Exercises. . . . .	104
<b>5 Price Bundling</b> . . . . .	<b>107</b>
Why Bundle? . . . . .	107
Using Evolutionary Solver to Find Optimal Bundle Prices . . . . .	111
Summary . . . . .	119
Exercises. . . . .	119
<b>6 Nonlinear Pricing</b> . . . . .	<b>123</b>
Demand Curves and Willingness to Pay . . . . .	124
Profit Maximizing with Nonlinear Pricing Strategies . . . . .	125
Summary . . . . .	131
Exercises. . . . .	132
<b>7 Price Skimming and Sales</b> . . . . .	<b>135</b>
Dropping Prices Over Time . . . . .	135
Why Have Sales? . . . . .	138
Summary . . . . .	142
Exercises. . . . .	142
<b>8 Revenue Management</b> . . . . .	<b>143</b>
Estimating Demand for the Bates Motel and Segmenting Customers . . . . .	144
Handling Uncertainty . . . . .	150
Markdown Pricing . . . . .	153

Summary . . . . .	156
Exercises. . . . .	156

## III Forecasting . . . . .159

### 9 Simple Linear Regression and Correlation . . . . . 161

Simple Linear Regression . . . . .	161
Using Correlations to Summarize Linear Relationships . . . . .	170
Summary . . . . .	174
Exercises. . . . .	175

### 10 Using Multiple Regression to Forecast Sales . . . . . 177

Introducing Multiple Linear Regression. . . . .	178
Running a Regression with the Data Analysis Add-In . . . . .	179
Interpreting the Regression Output . . . . .	182
Using Qualitative Independent Variables in Regression . . . . .	186
Modeling Interactions and Nonlinearities. . . . .	192
Testing Validity of Regression Assumptions. . . . .	195
Multicollinearity . . . . .	204
Validation of a Regression. . . . .	207
Summary . . . . .	209
Exercises. . . . .	210

### 11 Forecasting in the Presence of Special Events. . . . . 213

Building the Basic Model . . . . .	213
Summary . . . . .	222
Exercises. . . . .	222

### 12 Modeling Trend and Seasonality . . . . . 225

Using Moving Averages to Smooth Data and Eliminate Seasonality . . . . .	225
An Additive Model with Trends and Seasonality . . . . .	228
A Multiplicative Model with Trend and Seasonality. . . . .	231
Summary . . . . .	234
Exercises. . . . .	234

<b>13</b>	Ratio to Moving Average Forecasting Method . . . . .	235
	Using the Ratio to Moving Average Method . . . . .	235
	Applying the Ratio to Moving Average Method to Monthly Data . . . . .	238
	Summary . . . . .	238
	Exercises . . . . .	239
<b>14</b>	Winter's Method . . . . .	241
	Parameter Definitions for Winter's Method . . . . .	241
	Initializing Winter's Method . . . . .	243
	Estimating the Smoothing Constants . . . . .	244
	Forecasting Future Months . . . . .	246
	Mean Absolute Percentage Error (MAPE) . . . . .	247
	Summary . . . . .	248
	Exercises . . . . .	248
<b>15</b>	Using Neural Networks to Forecast Sales . . . . .	249
	Regression and Neural Nets . . . . .	249
	Using Neural Networks . . . . .	250
	Using NeuralTools to Predict Sales . . . . .	253
	Using NeuralTools to Forecast Airline Miles . . . . .	258
	Summary . . . . .	259
	Exercises . . . . .	259
<b>IV</b>	What do Customers Want? . . . . .	261
<b>16</b>	Conjoint Analysis . . . . .	263
	Products, Attributes, and Levels . . . . .	263
	Full Profile Conjoint Analysis . . . . .	265
	Using Evolutionary Solver to Generate Product Profiles . . . . .	272
	Developing a Conjoint Simulator . . . . .	277
	Examining Other Forms of Conjoint Analysis . . . . .	279
	Summary . . . . .	281
	Exercises . . . . .	281

<b>17</b>	<b>Logistic Regression</b> . . . . .	<b>285</b>
	Why Logistic Regression Is Necessary . . . . .	286
	Logistic Regression Model . . . . .	289
	Maximum Likelihood Estimate of Logistic Regression Model . . . . .	290
	Using StatTools to Estimate and Test Logistic Regression Hypotheses . . . . .	293
	Performing a Logistic Regression with Count Data . . . . .	298
	Summary . . . . .	300
	Exercises . . . . .	300
<b>18</b>	<b>Discrete Choice Analysis</b> . . . . .	<b>303</b>
	Random Utility Theory . . . . .	303
	Discrete Choice Analysis of Chocolate Preferences . . . . .	305
	Incorporating Price and Brand Equity into Discrete Choice Analysis . . . . .	309
	Dynamic Discrete Choice . . . . .	315
	Independence of Irrelevant Alternatives (IIA) Assumption . . . . .	316
	Discrete Choice and Price Elasticity . . . . .	317
	Summary . . . . .	318
	Exercises . . . . .	319
<b>V</b>	<b>Customer Value</b> . . . . .	<b>325</b>
<b>19</b>	<b>Calculating Lifetime Customer Value</b> . . . . .	<b>327</b>
	Basic Customer Value Template . . . . .	328
	Measuring Sensitivity Analysis with Two-way Tables . . . . .	330
	An Explicit Formula for the Multiplier . . . . .	331
	Varying Margins . . . . .	331
	DIRECTV, Customer Value, and <i>Friday Night Lights (FNL)</i> . . . . .	333
	Estimating the Chance a Customer Is Still Active . . . . .	334
	Going Beyond the Basic Customer Lifetime Value Model . . . . .	335
	Summary . . . . .	336
	Exercises . . . . .	336

<b>20</b>	Using Customer Value to Value a Business . . . . .	339
	A Primer on Valuation. . . . .	339
	Using Customer Value to Value a Business . . . . .	340
	Measuring Sensitivity Analysis with a One-way Table . . . . .	343
	Using Customer Value to Estimate a Firm's Market Value . . . . .	344
	Summary . . . . .	344
	Exercises. . . . .	345
<b>21</b>	Customer Value, Monte Carlo Simulation, and Marketing Decision Making . . . . .	347
	A Markov Chain Model of Customer Value . . . . .	347
	Using Monte Carlo Simulation to Predict Success of a Marketing Initiative . . . . .	353
	Summary . . . . .	359
	Exercises. . . . .	360
<b>22</b>	Allocating Marketing Resources between Customer Acquisition and Retention . . . . .	347
	Modeling the Relationship between Spending and Customer Acquisition and Retention . . . . .	365
	Basic Model for Optimizing Retention and Acquisition Spending . . . . .	368
	An Improvement in the Basic Model. . . . .	371
	Summary . . . . .	373
	Exercises. . . . .	374
<b>VI</b>	Market Segmentation. . . . .	375
<b>23</b>	Cluster Analysis . . . . .	377
	Clustering U.S. Cities . . . . .	378
	Using Conjoint Analysis to Segment a Market . . . . .	386
	Summary . . . . .	391
	Exercises. . . . .	391
<b>24</b>	Collaborative Filtering . . . . .	393
	User-Based Collaborative Filtering. . . . .	393
	Item-Based Filtering . . . . .	398

Comparing Item- and User-Based Collaborative Filtering . . . . .	400
The Netflix Competition. . . . .	401
Summary . . . . .	401
Exercises. . . . .	402
<b>25</b> Using Classification Trees for Segmentation . . . . .	403
Introducing Decision Trees . . . . .	403
Constructing a Decision Tree . . . . .	404
Pruning Trees and CART. . . . .	409
Summary . . . . .	410
Exercises. . . . .	410
<b>VII</b> Forecasting New Product Sales . . . . .	413
<b>26</b> Using S Curves to Forecast Sales of a New Product . . . . .	415
Examining S Curves . . . . .	415
Fitting the Pearl or Logistic Curve. . . . .	418
Fitting an S Curve with Seasonality. . . . .	420
Fitting the Gompertz Curve . . . . .	422
Pearl Curve versus Gompertz Curve . . . . .	425
Summary . . . . .	425
Exercises. . . . .	425
<b>27</b> The Bass Diffusion Model . . . . .	427
Introducing the Bass Model . . . . .	427
Estimating the Bass Model . . . . .	428
Using the Bass Model to Forecast New Product Sales. . . . .	431
Deflating Intentions Data . . . . .	434
Using the Bass Model to Simulate Sales of a New Product . . . . .	435
Modifications of the Bass Model. . . . .	437
Summary . . . . .	438
Exercises. . . . .	438

<b>28</b>	Using the Copernican Principle to Predict Duration of Future Sales. . . . .	439
	Using the Copernican Principle. . . . .	439
	Simulating Remaining Life of Product. . . . .	440
	Summary . . . . .	441
	Exercises. . . . .	441
<b>VIII</b>	<b>Retailing . . . . .</b>	<b>443</b>
<b>29</b>	Market Basket Analysis and Lift . . . . .	445
	Computing Lift for Two Products . . . . .	445
	Computing Three-Way Lifts . . . . .	449
	A Data Mining Legend Debunked! . . . . .	453
	Using Lift to Optimize Store Layout . . . . .	454
	Summary . . . . .	456
	Exercises. . . . .	456
<b>30</b>	RFM Analysis and Optimizing Direct Mail Campaigns . . . . .	459
	RFM Analysis . . . . .	459
	An RFM Success Story. . . . .	465
	Using the Evolutionary Solver to Optimize a Direct Mail Campaign . . . . .	465
	Summary . . . . .	468
	Exercises. . . . .	468
<b>31</b>	Using the SCAN*PRO Model and Its Variants. . . . .	471
	Introducing the SCAN*PRO Model. . . . .	471
	Modeling Sales of Snickers Bars . . . . .	472
	Forecasting Software Sales . . . . .	475
	Summary . . . . .	480
	Exercises. . . . .	480
<b>32</b>	Allocating Retail Space and Sales Resources . . . . .	483
	Identifying the Sales to Marketing Effort Relationship. . . . .	483
	Modeling the Marketing Response to Sales Force Effort . . . . .	484

Optimizing Allocation of Sales Effort . . . . .	489
Using the Gompertz Curve to Allocate Supermarket Shelf Space . . . . .	492
Summary . . . . .	492
Exercises. . . . .	493
<b>33</b> Forecasting Sales from Few Data Points . . . . .	<b>495</b>
Predicting Movie Revenues . . . . .	495
Modifying the Model to Improve Forecast Accuracy. . . . .	498
Using 3 Weeks of Revenue to Forecast Movie Revenues . . . . .	499
Summary . . . . .	501
Exercises. . . . .	501
<b>IX</b> Advertising . . . . .	<b>503</b>
<b>34</b> Measuring the Effectiveness of Advertising . . . . .	<b>505</b>
The Adstock Model . . . . .	505
Another Model for Estimating Ad Effectiveness . . . . .	509
Optimizing Advertising: Pulsing versus Continuous Spending. . . . .	511
Summary . . . . .	514
Exercises. . . . .	515
<b>35</b> Media Selection Models . . . . .	<b>517</b>
A Linear Media Allocation Model . . . . .	517
Quantity Discounts. . . . .	520
A Monte Carlo Media Allocation Simulation . . . . .	522
Summary . . . . .	527
Exercises. . . . .	527
<b>36</b> Pay per Click (PPC) Online Advertising . . . . .	<b>529</b>
Defining Pay per Click Advertising . . . . .	529
Profitability Model for PPC Advertising. . . . .	531
Google AdWords Auction . . . . .	533
Using Bid Simulator to Optimize Your Bid. . . . .	536
Summary . . . . .	537
Exercises. . . . .	537

<b>X</b>	Marketing Research Tools . . . . .	539
<b>37</b>	Principal Components Analysis (PCA) . . . . .	541
	Defining PCA . . . . .	541
	Linear Combinations, Variances, and Covariances. . . . .	542
	Diving into Principal Components Analysis. . . . .	548
	Other Applications of PCA . . . . .	556
	Summary . . . . .	557
	Exercises. . . . .	558
<b>38</b>	Multidimensional Scaling (MDS) . . . . .	559
	Similarity Data . . . . .	559
	MDS Analysis of U.S. City Distances . . . . .	560
	MDS Analysis of Breakfast Foods. . . . .	566
	Finding a Consumer's Ideal Point . . . . .	570
	Summary . . . . .	574
	Exercises. . . . .	574
<b>39</b>	Classification Algorithms: Naive Bayes Classifier and Discriminant Analysis . . . . .	577
	Conditional Probability . . . . .	578
	Bayes' Theorem . . . . .	579
	Naive Bayes Classifier . . . . .	581
	Linear Discriminant Analysis . . . . .	586
	Model Validation . . . . .	591
	The Surprising Virtues of Naive Bayes. . . . .	592
	Summary . . . . .	592
	Exercises. . . . .	593
<b>40</b>	Analysis of Variance: One-way ANOVA. . . . .	595
	Testing Whether Group Means Are Different . . . . .	595
	Example of One-way ANOVA. . . . .	596
	The Role of Variance in ANOVA . . . . .	598
	Forecasting with One-way ANOVA. . . . .	599

Contrasts . . . . .	601
Summary . . . . .	603
Exercises. . . . .	604
<b>41</b> Analysis of Variance: Two-way ANOVA. . . . .	607
Introducing Two-way ANOVA. . . . .	607
Two-way ANOVA without Replication. . . . .	608
Two-way ANOVA with Replication . . . . .	611
Summary . . . . .	616
Exercises. . . . .	617
<b>XI</b> Internet and Social Marketing . . . . .	619
<b>42</b> Networks . . . . .	621
Measuring the Importance of a Node. . . . .	621
Measuring the Importance of a Link. . . . .	626
Summarizing Network Structure . . . . .	628
Random and Regular Networks . . . . .	631
The Rich Get Richer . . . . .	634
Klout Score. . . . .	636
Summary . . . . .	637
Exercises. . . . .	638
<b>43</b> The Mathematics Behind <i>The Tipping Point</i> . . . . .	641
Network Contagion . . . . .	641
A Bass Version of the Tipping Point . . . . .	646
Summary . . . . .	650
Exercises. . . . .	650
<b>44</b> Viral Marketing . . . . .	653
Watts' Model . . . . .	654
A More Complex Viral Marketing Model . . . . .	655
Summary . . . . .	660
Exercises. . . . .	661

<b>45</b>	Text Mining. . . . .	663
	Text Mining Definitions . . . . .	664
	Giving Structure to Unstructured Text . . . . .	664
	Applying Text Mining in Real Life Scenarios . . . . .	668
	Summary . . . . .	671
	Exercises. . . . .	671
	Index . . . . .	673
