Contents

About the Author	<i>xiii</i>
About the Contributors	<i>xv</i>
Foreword by Damien Moore	<i>xxi</i>
Foreword by Paolo Tasca	<i>xxiii</i>
Preface	<i>xxvii</i>

Introduction 1

Commercializing Blockchain	1
Antony Stores Group (ASG) Retail Business Illustration	2
Real-World Enterprise Level Use Cases – Financial Services, Retail, Supply Chain, and CPG	2
Who Will Benefit from Reading Commercializing Blockchain?	2
Antony Stores Group (ASG) Illustration	3
ASG Background	3
History of ASG	3
ASG Challenges and Pain Points	5

1 Introduction to Blockchain Technology 7

Blockchain Technology Definition	7
What Are the Reasons Why We Have Blockchain Technology?	8
The Internet and Blockchain	8
The ‘Trustless’ World	8
Blockchain: The Internet of Value	10
Blockchain has Five Important Characteristics	10
1. Blockchain for Truth and Trust	11
2. Blockchain for Transparency	11

- 3. Blockchain for Security 12
- 4. Blockchain for Quality and Certainty 13
- 5. Blockchain for Efficiency 13
- Blockchain Regulation and Global Trade 14
- Other Important Blockchain Benefits 29
 - Blockchain Theory for Good 29
 - Blockchain and Diversity 30
 - Blockchain for All Types of Organization 32
 - Blockchain for New Business Models 32
 - Example: The DAO – Decentralized Autonomous Organization 33
 - New Blockchain Companies 34
 - Blockchain Is Not a Verb! 34
- 2 Types of Blockchain 37**
 - Differences to a Database 44
 - Consensus and Blockchain 45
 - ASG Consensus Example 55
 - Current Blockchain and DLT Ecosystems 56
 - Current Blockchain and DLT Ecosystem Summary 66
- 3 Enterprise Blockchain 67**
 - Enterprise Blockchain and Trust 67
 - Characteristics of Enterprise Blockchain 68
 - Why Use Enterprise Blockchain? 68
 - Where to Use Enterprise Blockchain Technology 69
 - The Next 20-Year Transformation 70
 - Total Business Transformation Led by Blockchain Technology 70
 - Improved Working Together 71
 - Basics of an Enterprise Blockchain 71
 - Blockchain and ERP: The Future of the ‘Back Office’ – ERP 2.0 72
 - Can Blockchain Technology Supercharge ERP? 73
 - What Can Blockchain Add to ERP? 73
 - Blockchain and Planning 74
 - Blockchain and Analysis 74
 - How Blockchain Technology Can Transform Forecasting and Planning 75
 - Use Case: Blockchain and Intercompany 76

	ASG Intercompany on Blockchain Example	80
	Enterprise Blockchain Summary	82
4	What Does Blockchain Solve?	83
	Trust	83
	Transparency and Openness	84
	Immutability	84
	Transactions Automation – Smart Contracts	85
	‘Why Blockchain Will Be Transformative’: Looking at the History of Contracts through to Present Day Usage	85
	New Business Models and Opportunities	98
	MonoChain: A Blockchain Start-Up Building the Circular Economy	99
5	Blockchain Powering the New Marketplace Model	107
	A Fundamental Foundation: Marketplaces Built Using Blockchain Technology	107
	Marketplace for Anything	108
	Decentralized Utopia – Reality or Dream?	109
	Example of a Product Marketplace: Replace Amazon, eBay, or Alibaba	110
	Example of a Service Marketplace: Replace Uber or Airbnb	110
	Real Use Case: Blockchain Product Marketplace – OpenBazaar	111
	Real Use Case: Blockchain Marketplace to Replace Uber – EVA	111
	Summary	112
6	Where Can Blockchain Technology Be Applied?	113
	Industries	114
	The Retail and Supply Chain Industry	114
	Cryptocurrencies	115
	Identity Management	115
	Loyalty	117
	Gift Cards	117
	ASG Gift Card Blockchain Example	118
	Warranty Management and Refunds Management	119
	Improved Sourcing	120
	Inventory Management and Returns Management	120
	ASG Inventory on Blockchain Example	121
	ASG Returns Blockchain Example	122

	Supply Chain Industry (Including Brands, Consumer Products, and Manufacturers)	123
	Supply Chain Transparency	124
	Global Shipping and Freight	124
	Certification and Authentication	125
	Traceability	126
	Provenance	127
	Counterfeit Products	128
	The Finance and Financial Services Industry	128
7	Blockchain Adoption	161
	How Will Blockchain Be Adopted?	161
	Blockchain Adoption: The User Interface	161
	Smartphone as ID	162
	QR Code World	163
	Real Use Case: HTC Launches a Blockchain Smartphone in December 2018	163
	Blockchain Adoption: The Understanding of Blockchain Technology	164
	Blockchain Adoption: The Killer App for Blockchain	166
	Blockchain Adoption: Daily Life Use Cases	166
	Blockchain Adoption: Winning Business Models	167
8	First Use Cases	169
	History of Bitcoin	169
	Cryptocurrency and Crypto Assets	172
	How Are Crypto Assets Classed?	172
	ICO – Initial Coin Offering	174
	ICOs Often Raise Money via Crypto	174
	Why Use an ICO?	175
	STO – Security Token Offering	176
	What to Look for in an ICO/STO	176
	Tokenization	177
	Tokens for Liquidity	177
	Tokens for Globalization	178
	Tokens for Global Commerce	178
	Tokens for New Assets	178
	Tokens Take Us Beyond Money	179
	Benefits of Tokenization	184

9	What Makes It Work? Blockchain Best Practice	185
	Consensus	185
	Governance	186
	Agile and Iterative Approach	187
	Solution Driven	187
	Collaborate	188
	Teams Need to Be Fully Bought In	189
	Open-Minded to Everything	189
	Learning Mentality	190
	Blockchain Best Practice Summary	190
10	How to Commercialize Blockchain/Reach Its Potential	191
	Blockchain Is a Network Play	191
	Real Use Case: Retail Blockchain Consortium	192
	Mission and Vision	192
	How You Benefit by Joining RBC Executive Forum?	193
	Real Use Case: UK Government APPG Blockchain	193
	Blockchain Business Case	194
	Benefits of Implementing Blockchain Technology	195
	Efficiency Gains of Blockchain Technology	196
	Revenue Growth with Blockchain Technology	198
	New Business Growth Powered by Blockchain Technology	200
	Blockchain Technology Benefits Realization	202
	People and Process Transformation	203
	Principles of Transformation	204
	Example Blockchain Implementation Plans in Retail	206
	ASG Provenance Tracking Example	206
	How to Commercialize Blockchain Summary	208
11	Risks of Implementing Blockchain Technology	211
	Change – Inertia of People	211
	User’s Adoption	212
	Scale and Complexity	213
	Standardization	213
	Government	214
	The Control Structures Around the World aka “The 1%”	214
	Regulations	215
	Millennials and Younger Generations	216
	Ignorance	216
	Quantum and New Technology	217

12 Blockchain Is Better When Used with Existing and Other Emerging Technologies	219
IoT, AI/ML, RPA, Blockchain, AR, VR – Emerging Technologies	220
How Blockchain, AI, and IoT Work in Harmony – ‘ABot’	220
Use Case: Emerging Technologies Working Together in Retail	225
Use Case: Waltonchain for Provenance	226
Use Case: Convergence of Blockchain, IoT, and AI for Successful Provenance Solutions	227
13 Future of Blockchain	251
What Will Blockchain Technology Look Like in 2025?	251
New Business Models Examples:	254
The Circular Economy Powered by Blockchain	254
Use Case: Auto Industry and Blockchain Technology	258
The Future of Blockchain – Contributors’ Views	259
Future of Blockchain – Paolo Tasca	259
Future of Blockchain – Chris Wing	262
Future of Blockchain – Nikhil Vadgama	263
Future of Blockchain – Marta Piekarska	264
Future of Blockchain – Peter Bambridge	264
Future of Blockchain – Areiel Wolanow	265
Future of Blockchain – Carlos Vivas Augier	267
Future of Blockchain – Vikram Kimyani	267
Future of Blockchain Summary	268
14 Use Cases in Real World – 2019 highlights	269
Financial Transactions	270
Financial Transactions Benefits and Outcomes	271
Financial Transactions Examples	272
Cryptocurrencies	273
Tokenization	274
Tokenization Benefits and Outcomes	274
Tokenization Examples	274
Identity Management	276
Identity Management Benefits and Outcomes	277
Identity Management Examples	277
Loyalty	280
Loyalty Benefits and Outcomes	280
Loyalty Examples	281

Gift Cards	281
Gift Cards Benefits and Outcomes	282
Gift Cards Examples	283
Coinbase Introduced e-Gifts after Gaining an e-Money Licence from the FCA in the UK	283
Warranty Management	283
Warranty Management Benefits and Outcomes	283
Warranty Management Examples	284
Refunds Management	286
Refunds Management Benefits and Outcomes	286
Refunds Management Examples	287
Global Shipping and Freight	288
Global Shipping and Freight Benefits and Outcomes	288
Global Shipping and Freight Examples	290
Improved Sourcing and Procurement	291
Improved Sourcing and Procurement Benefits and Outcomes	292
Certification and Authentication	292
Certification and Authentication Benefits and Outcomes	293
Certification and Authentication Examples	293
Inventory Management	295
Inventory Management Benefits and Outcomes	295
Traceability	296
Traceability Benefits and Outcomes	297
Traceability Examples	298
Provenance	300
Provenance Benefits and Outcomes	301
Provenance Examples	301
Counterfeit Products	303
Counterfeit Products Benefits and Outcomes	303
Counterfeit Products Examples	304
Retail Blockchain Consortium	307
About the RBC	307
Mission and Vision	308
How Will You Benefit from Joining?	308
Get Involved – Join the Executive forum	308
Index	311
