# CONTENTS

<b>1</b>	<b>Deciphering Crowdfunding</b>	<b>1</b>
	Francesca Di Pietro	
1.1	<i>The Crowdfunding Phenomenon: An Overview</i>	2
1.1.1	<i>The European Market</i>	3
1.1.2	<i>The US Market</i>	4
1.1.3	<i>The Asia-Pacific Market</i>	5
1.2	<i>Crowdfunding State-of-the-Art</i>	5
1.2.1	<i>Investment Models</i>	6
1.2.2	<i>Non-investment Models</i>	8
1.3	<i>New Research Trends: The Language of Crowdfunding</i>	10
	<i>References</i>	11
<b>2</b>	<b>Addressing Information Asymmetries in Online Peer-to-Peer Lending</b>	<b>15</b>
	Mark Cummins, Theo Lynn, Ciarán Mac an Bhaird and Pierangelo Rosati	
2.1	<i>Introduction</i>	16
2.2	<i>Online Peer-to-Peer Lending Platforms</i>	17
2.3	<i>Information Asymmetries and Peer to Peer Lending Platforms</i>	20
2.4	<i>Conclusions and Future Directions for Research</i>	25
	<i>References</i>	27

<b>3</b>	<b>Machine Learning and AI for Risk Management</b>	<b>33</b>
	Saqib Aziz and Michael Dowling	
3.1	<i>Introduction</i>	34
3.2	<i>Machine Learning and AI Techniques for Risk Management</i>	35
3.3	<i>Machine Learning and AI Applications for Risk Management</i>	40
3.3.1	<i>Application to Credit Risk</i>	40
3.3.2	<i>Application to Market Risk</i>	41
3.3.3	<i>Application to Operational Risk</i>	43
3.3.4	<i>Application to RegTech</i>	44
3.4	<i>The Challenges and Future of Machine Learning and AI for Risk Management</i>	45
	<i>References</i>	48
<b>4</b>	<b>What FinTech Can Learn from High-Frequency Trading: Economic Consequences, Open Issues and Future of Corporate Disclosure</b>	<b>51</b>
	Eleonora Monaco	
4.1	<i>Introduction</i>	52
4.2	<i>High-Frequency Trading: Definition and Data</i>	53
4.2.1	<i>Methodology</i>	54
4.2.2	<i>Descriptive Statistics</i>	55
4.3	<i>Results</i>	57
4.3.1	<i>Thematic Analysis</i>	57
4.3.2	<i>Impact of HFT</i>	57
4.3.2.1	<i>Effects on Market Quality</i>	57
4.3.2.2	<i>HFT's Trading Strategies and Speed</i>	61
4.3.2.3	<i>Market Structure, Co-location and Regulation After the Flash Crash</i>	62
4.3.3	<i>HFT Reaction to Corporate Disclosure</i>	64
4.4	<i>Conclusion and Future Research Directions</i>	65
	<i>References</i>	67
<b>5</b>	<b>InsurTech</b>	<b>71</b>
	Dominic Cortis, Jeremy Debattista, Johann Debono and Mark Farrell	
5.1	<i>Introduction</i>	72

5.2	<i>How Does Insurance Work?</i>	72
5.3	<i>The Big Data Paradigm</i>	73
	5.3.1 <i>Telematics</i>	74
	5.3.2 <i>Wearables</i>	75
	5.3.3 <i>Smart Homes and the Internet of Things (IoT)</i>	75
	5.3.4 <i>Big Data: Trustworthiness and Privacy Concerns</i>	76
5.4	<i>Artificial Intelligence</i>	77
	5.4.1 <i>Machine Learning and AI in the Underwriting Process</i>	77
	5.4.2 <i>AI in Claims Management Process</i>	78
	5.4.3 <i>AI in Customer Interaction</i>	79
5.5	<i>Distributed Ledger Technologies</i>	79
	5.5.1 <i>Improving Current Processes Using DLTs</i>	80
	5.5.2 <i>P2P Insurance</i>	81
5.6	<i>Conclusion</i>	81
	<i>References</i>	82
<b>6</b>	<b>Understanding RegTech for Digital Regulatory Compliance</b>	<b>85</b>
	Tom Butler and Leona O'Brien	
	6.1 <i>Introduction</i>	86
	6.2 <i>Business Drivers of RegTech</i>	87
	6.3 <i>RegTech in Focus: Digital Regulatory Reporting</i>	90
	6.3.1 <i>Phase 1: Digital Regulatory Alerts</i>	92
	6.3.2 <i>Phase 2: Making Regulations Digital</i>	92
	6.3.3 <i>Phase 3: Performing Digital Regulatory Reporting</i>	95
	6.3.4 <i>Phase 4: Creating Meta-Data Models for Semantic Interoperability</i>	95
	6.4 <i>Discussion and Implications</i>	96
	6.5 <i>Conclusion</i>	99
	<i>References</i>	100
<b>7</b>	<b>Payment Service Directive II and Its Implications</b>	<b>103</b>
	Alan Brener	
	7.1 <i>Introduction</i>	104
	7.2 <i>Background</i>	105

7.3	<i>EU Initiated Review of the Effectiveness of PSD I</i>	106
7.3.1	<i>Main Findings of Impact Study</i>	106
7.4	<i>Payment Services Directive II</i>	109
7.4.1	<i>Scope of the Directive and the Removal of Exclusions</i>	109
7.4.2	<i>Authorisation of Payment Institutions</i>	110
7.4.3	<i>Innovation</i>	111
7.4.4	<i>Confirmation of Availability of Funds</i>	112
7.4.5	<i>Enhancing Competition</i>	112
7.4.6	<i>Customer Protection</i>	113
7.4.7	<i>Security</i>	114
7.4.8	<i>Complaints Handling</i>	114
7.5	<i>European Banking Authority (EBA) Work on PSD II</i>	115
7.6	<i>Secure Customer Authentication (SCA)</i>	115
7.6.1	<i>Exemptions for SCA</i>	116
7.7	<i>Commentary</i>	116
	<i>References</i>	118
<b>8</b>	<b>From Transactions to Interactions: Social Considerations for Digital Money</b>	121
	Jennifer Ferreira and Mark Perry	
8.1	<i>Introduction</i>	122
8.2	<i>Affordances of Digital Money</i>	123
8.3	<i>Opportunities for Interaction</i>	126
8.3.1	<i>Negotiating Payment</i>	126
8.3.2	<i>Effects of Intermediation</i>	127
8.3.3	<i>Collaborative Value Creation</i>	127
8.4	<i>Social Impacts of Digital Transactions</i>	128
8.4.1	<i>Sensitive Data Generation and Sharing</i>	128
8.4.2	<i>Choice Proliferation</i>	128
8.4.3	<i>Untangling Money and Payment System</i>	129
8.5	<i>Conclusion</i>	130
	<i>References</i>	130
<b>9</b>	<b>Token-Based Business Models</b>	135
	Paolo Tasca	
9.1	<i>Introduction</i>	136
9.2	<i>Native Digital Assets</i>	137

9.3	<i>Crypto Tokens</i>	139
9.4	<i>Token-Based Business Models</i>	141
