1	Enterprise Risk Management Introduction Definition	1 1 2
	Accounting perspective The COSO framework Categories Activities	3 3 4 4
	Risk appetite ERM process Implementation issues Risk management modeling Book outline	6 7 7 9 9
2	Enron Risk management California electricity Accounting impact SOX Conclusions	11 11 12 13 13 14
3	Financial Risk Management Introduction Investment collars VaR Copulas Tranches Conclusions	15 15 17 17 20 21 22
4	The Real Estate Crash of 2008 Introduction Real estate in 2008 Mortgage system	23 23 24 26

	Northern Rock	26
	AIG	29
	Risk management	30
5	Financial Risk Forecast Using Machine Learning and	
	Sentiment Analysis	32
	Introduction	32
	Information volume and volatility	32
	Information sentiment and volatility	33
	Volatility model and modified non-linear GARCH model	34
	Daily volatility model	38
	Using GARCH-based SVM to associate information sentiment	
	with asset price volatility	39
	Sentiment analysis of financial news	39
	Using GARCH-based SVM to associate information sentiment	41
	and volatility	41
	Empirical results and analysis	42
	Trading volume volatility forecasting	43
	Volatility forecasting with sentiment analysis	44
	Conclusions	48
6	Online Stock Forum Sentiment Analysis	49
	Introduction	49
	Architectural design of GARCH-SVM based on sentiment index	49
	Sentiment analysis	50
	Data	51
	Methodology comparison	53
	Sentiment and stock price volatility	54
	Conclusions	55
7	DEA Risk Scoring Model of Internet Stocks	57
	Introduction	57
	Different methods of performance evaluation	57
	Multivariate statistical analysis	58
	Data envelopment analysis	58
	Analytic hierarchy process	59
	Fuzzy set theory	59
	Grey relation analysis	60
	Balanced scorecard	60
	Financial statement analysis	60
	Basics of data envelopment analysis	61
	The proposed approach	63
	Variable selection	64
	Empirical study	66

	The DEA result Conclusions	66 70
0		
8	Bank Credit Scoring	72
	Introduction Risk modeling	72 72
	Performance validation in credit rating	72
	Case study: credit scorecard validation	71
	Statistical results and discussion	73
	Population distributions and stability	80
	Conclusions	85
	Appendix A8.1: Informal Definitions	86
9	Credit Scoring using Multiobjective Data Mining	87
	Introduction	87
	TOPSIS for data mining	87
	Steps of the TOPSIS data mining method	88
	Dataset	90
	TOPSIS model over training data	91
	Model comparisons	93
	Simulation of model results	96
	Conclusions	97
