BRIEF CONTENTS

PART I	FINANCIAL CONCEPTS AND TECHNIQUES	1
CHAPTER 1	Financial Management and Value Creation: An Overview	1
CHAPTER 2	The Time Value of Money	31
CHAPTER 3	Risk and Return	53
PART II	ASSESSING BUSINESS PERFORMANCE	99
CHAPTER 4	Interpreting Financial Statements	99
CHAPTER 5	Analyzing Operational Efficiency and Liquidity	153
CHAPTER 6	Analyzing Profitability, Risk, and Growth	189
PART III	MAKING INVESTMENT DECISIONS	227
CHAPTER 7	Using the Net Present Value Rule to Make Value-Creating Investment Decisions	227
CHAPTER 8	Alternatives to the Net Present Value Rule	261
CHAPTER 9	Identifying and Estimating a Project's Cash Flows	287
PART IV	MAKING FINANCING DECISIONS	315
CHAPTER 10	Valuing Bonds and Stocks	315
CHAPTER 11	Raising Capital and Paying Out Cash	359
CHAPTER 12	Estimating the Cost of Capital	411
CHAPTER 13	Designing a Capital Structure	445
PART V	MAKING BUSINESS DECISIONS	487
CHAPTER 14	Valuing and Acquiring a Business	487
CHAPTER 15	Managing Corporate Risk	531
CHAPTER 16	Understanding Forward, Futures, and Options and Their Contribution to Corporate Finance	555
CHAPTER 17	Making International Business Decisions	609
CHAPTER 18	Managing for Value Creation	653
	Answers to Self-Test Questions	691
	Glossary	741
	Credits	763
	Index	765

CONTENTS

PART I	FINANCIAL CONCEPTS AND TECHNIQUES	1
CHAPTER 1	Financial Management and Value Creation: An Overview	1
	The Key Question: Will Your Decision Create Value?	2
	<i>The Importance of Managing for Value Creation</i>	3
	<i>The Saturn Story</i>	4
	The Fundamental Finance Principle	5
	<i>Measuring Value Creation with Net Present Value</i>	5
	<i>Only Cash Matters</i>	6
	<i>Discount Rates</i>	6
	<i>A Proposal's Cost of Capital</i>	7
	Applying the Fundamental Finance Principle	8
	<i>The Capital Budgeting Decision</i>	8
	<i>The Payout Policy</i>	10
	<i>The Capital Structure Decision</i>	11
	<i>The Business Acquisition Decision</i>	11
	<i>The Foreign Investment Decision</i>	12
	The Role of Financial Markets	12
	<i>The Equity Market</i>	13
	<i>The Vioxx Recall</i>	14
	<i>External Versus Internal Financing</i>	15
	The Business Cycle	15
	HLC's Financial Statements	17
	<i>The Balance Sheet</i>	17
	<i>A Variant of the Standard Balance Sheet: The Managerial Balance Sheet</i>	19
	<i>The Income Statement</i>	20
	How Profitable Is the Firm?	21
	<i>The Profitability of Equity Capital</i>	21
	<i>The Profitability of Invested Capital</i>	22
	How Much Cash Has the Firm Generated?	22
	<i>Sources and Uses of Cash</i>	23
	<i>The Statement of Cash Flows</i>	23
	How Risky Is the Firm?	23
	Has the Firm Created Value?	25
	The Role of the Chief Financial Officer	26

	Key Points	26
	Further Reading	27
	Self-Test Questions	27
CHAPTER 2	The Time Value of Money	31
	Present Values and Future Values	32
	<i>Compounding</i>	33
	<i>Discounting</i>	34
	<i>Using a Financial Calculator to Solve Time Value of Money Problems</i>	35
	<i>Using a Spreadsheet to Solve Time Value of Money Problems</i>	36
	Interest Rate Quotation and Calculation	36
	<i>The Annual Percentage Rate Versus the Effective Annual Rate</i>	37
	<i>Nominal Versus Real Rates</i>	38
	The Present Value of a Stream of Future Cash Flows	38
	<i>The Net Present Value (NPV) Rule</i>	39
	<i>The Internal Rate of Return (IRR) Rule</i>	39
	The Present Value of a Perpetual Cash-Flow Stream	40
	The Present Value of a Growing Perpetuity	41
	The Present Value of a Standard Annuity	42
	The Present Value of a Growing Annuity	44
	The Future Value of an Annuity	46
	Key Points	47
APPENDIX 2.1	Proof of Formula 2.9 and Formula 2.6	49
	Further Reading	49
	Self-Test Questions	49
	Review Questions	50
CHAPTER 3	Risk and Return	53
	Measures of Return	54
	<i>Realized Returns</i>	54
	<i>Expected Return</i>	55
	<i>Annualized Returns</i>	55
	Measures of Risk	55
	<i>Measuring Risk with the Variance of Returns</i>	55
	<i>Measuring Risk with the Standard Deviation of Returns</i>	56
	<i>Variance versus Standard Deviation</i>	56
	<i>Annualized Measures of Risk</i>	56
	Return Distributions	57

Mean-Variance Analysis	57
<i>Attitudes Toward Risk</i>	60
<i>Evidence from Financial Markets</i>	61
Combining Two Stocks into a Portfolio	61
<i>Portfolio Expected Return</i>	63
<i>Portfolio Risk and Correlations</i>	63
<i>Diversification Can Reduce Risk and Raise Return</i>	65
<i>The Opportunity Set of a Two-Stock Portfolio</i>	65
<i>The Optimal Portfolio of a Risk-Averse Investor</i>	68
<i>Changes in the Correlation Coefficient</i>	68
Combining More Than Two Stocks into a Portfolio	68
<i>Portfolio Expected Return</i>	69
<i>Portfolio Risk and Diversification</i>	69
<i>Portfolio Diversification in Practice</i>	72
<i>Firm-Specific Risk versus Market Risk</i>	73
<i>The Opportunity Set with More Than Two Stocks</i>	74
Optimal Portfolios when there is a Riskless Asset	75
<i>The Efficient Investment Line</i>	75
<i>The Sharpe Ratio</i>	76
<i>Making Optimal Investment Choices</i>	77
The Market Portfolio and the Capital Market Line	79
<i>The Expected Return of the Market Portfolio</i>	79
<i>Proxies for the Market Portfolio</i>	80
<i>The Sharpe Ratio and the Efficiency of the Market Portfolio</i>	80
<i>The Capital Market Line</i>	80
<i>Modern Investment Management: Allocation Beats Selection</i>	82
A Closer Look at Systematic Risk	83
<i>Beta and the Market Model</i>	84
<i>Calculating Beta</i>	84
<i>The Properties of Beta</i>	85
<i>Estimated Stock Betas</i>	85
<i>Portfolio Beta</i>	86
The Capital Asset Pricing Model	87
<i>The Expected Return of an Individual Stock</i>	87
<i>Using the CAPM to Estimate a Company's Cost of Equity Capital</i>	88
<i>Using the CAPM to Evaluate Investment Performance</i>	89
<i>Using the CAPM to Test the Informational Efficiency of Stock Markets</i>	90
Key Points	91
Further Reading	92
APPENDIX 3.1 How to Get the SML Equation	93
Self-Test Questions	94
Review Questions	95

PART II **ASSESSING BUSINESS PERFORMANCE 99****CHAPTER 4 Interpreting Financial Statements 99**

Financial Accounting Statements 99

The Balance Sheet 100

Current or Short-Term Assets 101*Noncurrent or Fixed Assets* 105*Current or Short-Term Liabilities* 107*Noncurrent Liabilities* 108*Owners' Equity* 110

The Managerial Balance Sheet 110

Working Capital Requirement 111

The Income Statement 114

Net Sales or Turnover 116*Gross Profit* 116*Operating Profit* 117*Earnings Before Interest and Tax (EBIT)* 117*Earnings Before Tax (EBT)* 118*Earnings After Tax (EAT)* 118Earnings Before Interest, Tax, Depreciation, and Amortization
(EBITDA) 118

Reconciling Balance Sheets and Income Statements 119

The Structure of the Owners' Equity Account 120

The Statement of Cash Flows 121

Preparing a Statement of Cash Flows 122*Net Cash Flow from Operating Activities* 123*Net Cash Flow from Investing Activities* 125*Net Cash Flow from Financing Activities* 126*The Statement of Cash Flows* 127*Problems with the Statement of Cash Flows* 127

Free Cash Flow 128

Key Points 129

**APPENDIX 4.1 Obtaining the Net Cash Flow from Operating Activities Using
Balance Sheet and Income Statement Accounts 132**

Measuring Cash Inflow from Sales 132

Measuring Cash Outflow from Operating Activities 132

Cash Outflow from Purchases 132*Cash Outflow from SG&A and Tax Expenses* 133*Cash Outflow from Net Interest Expense* 134

Net Cash Flow from Operating Activities 134

APPENDIX 4.2 Specimen Financial Statements	136
The GlaxoSmithKline (GSK) Financial Statements	136
GSK's Balance Sheets and Managerial Balance Sheets	136
<i>GSK's Balance Sheets</i>	136
<i>GSK's Managerial Balance Sheets</i>	139
GSK's Income Statements	140
GSK's Statements of Cash Flows	142
Further Reading	144
Self-Test Questions	145
Review Questions	148
CHAPTER 5 Analyzing Operational Efficiency and Liquidity	153
The Structure of the Managerial Balance Sheet	154
<i>The Three Components of a Firm's Invested Capital</i>	154
<i>The Two Components of a Firm's Capital Employed</i>	158
<i>The Structure of OS Distributors' Managerial Balance Sheet</i>	158
The Matching Strategy	158
A Measure of Liquidity Based on the Funding Structure of Working Capital Requirement	160
Improving Liquidity through Better Management of the Operating Cycle	163
<i>The Effect of the Firm's Economic Sector on Its Working Capital Requirement</i>	163
<i>The Effect of Managerial Efficiency on Working Capital Requirement</i>	165
<i>The Effect of Sales Growth on Working Capital Requirement</i>	167
Traditional Measures of Liquidity	168
<i>Net Working Capital</i>	168
<i>The Current Ratio</i>	170
<i>The Acid Test or Quick Ratio</i>	171
Key Points	171
APPENDIX 5.1 Financing Strategies	173
APPENDIX 5.2 The GlaxoSmithKline Liquidity and Operational Efficiency	176
GSK's Liquidity Position	176
GSK's Management of the Operating Cycle	177
Further Reading	179
Self-Test Questions	180
Review Questions	182

CHAPTER 6 Analyzing Profitability, Risk, and Growth 189

Measures of Profitability 190

Return on Equity 190

Measuring Return on Equity 190

The Effect of Operating Decisions on ROE 191

The Effect of Financing Decisions on Return on Equity 197

The Incidence of Taxation on Return on Equity 199

Putting It All Together: The Structure of a Firm's Profitability 200

The Structure of ROE Across Industries 202

Other Measures of Profitability 203

Earnings Per Share (EPS) 203

The Price-to-Earnings Ratio (P/E) 203

The Market-to-Book Ratio 204

Financial Leverage and Risk 204

How Does Financial Leverage Work? 205

Two Related Caveats: Risk and the Ability to Create Value 206

Self-Sustainable Growth 207

Key Points 211

APPENDIX 6.1 GlaxoSmithKline's Profitability 213

GSK's Profitability Structure 213

Return on Equity 213

The Effect of Operating Margin on GSK's Operating Profitability 213

The Effect of Invested Capital Turnover on GSK's Operating Profitability 217

The Effect of GSK's Financial Policy on Its Return on Equity 218

The Effect of Taxation on GSK's Return on Equity 219

Further Reading 219

Self-Test Questions 219

Review Questions 222

PART III MAKING INVESTMENT DECISIONS 227

CHAPTER 7 Using the Net Present Value Rule to Make Value-Creating Investment Decisions 227

The Capital Investment Process 228

Would You Buy This Parcel of Land? 230

The Alternative Investment 230

The Opportunity Cost of Capital 231

The Net Present Value Rule 232

A One-Period Investment 232

A Two-Period Investment without an Intermediate Cash Flow 234

	<i>A Two-Period Investment with an Intermediate Cash Flow</i>	235
	<i>Multiple-Period Investments</i>	236
	Applying the Net Present Value Rule to a Capital Investment Decision	237
	Why the NPV Rule is a Good Investment Rule	238
	<i>NPV Is a Measure of Value Creation</i>	239
	<i>NPV Adjusts for the Timing of the Project's Cash Flows</i>	240
	<i>NPV Adjusts for the Risk of the Project's Cash Flows</i>	240
	<i>NPV Is Additive</i>	244
	Special Cases of Capital Budgeting	246
	<i>Comparing Projects of Unequal Size</i>	246
	<i>Comparing Projects with Unequal Life Spans</i>	248
	Limitations of the Net Present Value Criterion	251
	<i>Managerial or Real Options Embedded in Investment Projects</i>	251
	<i>Dealing with Managerial Options</i>	253
	Key Points	254
	Further Reading	256
	Self-Test Questions	256
	Review Questions	257
CHAPTER 8	Alternatives to the Net Present Value Rule	261
	The Payback Period	261
	<i>The Payback Period Rule</i>	262
	<i>Why Do Managers Use the Payback Period Rule?</i>	265
	The Discounted Payback Period	267
	<i>The Discounted Payback Period Rule</i>	268
	<i>The Discounted Payback Period Rule versus the Ordinary Payback Period Rule</i>	269
	The Internal Rate of Return	270
	<i>The IRR Rule</i>	271
	<i>The IRR Rule May Be Unreliable</i>	273
	<i>Why Do Managers Usually Prefer the IRR Rule to the NPV Rule?</i>	276
	The Profitability Index	277
	<i>The Profitability Index Rule</i>	277
	<i>Use of the Profitability Index Rule</i>	278
	The Average Accounting Return	279
	<i>The Average Accounting Return Rule</i>	280
	Key Points	280
	Further Reading	282
	Self-Test Questions	282
	Review Questions	283

CHAPTER 9 Identifying and Estimating a Project's Cash Flows 287

The Actual Cash-Flow Principle 287

The With/Without Principle 288

The Designer Desk Lamp Project 290

Identifying a Project's Relevant Cash Flows 292

Sunk Costs 292

Opportunity Costs 293

Costs Implied by Potential Sales Erosion 293

Allocated Costs 294

Depreciation Expense 294

Tax Expense 294

Financing Costs 295

Inflation 296

Estimating a Project's Relevant Cash Flows 297

Measuring the Cash Flows Generated By a Project 298

Estimating the Project's Initial Cash Outflow 299

Estimating the Project's Intermediate Cash Flows 303

Estimating the Project's Terminal Cash Flow 304

Should SMC Launch the New Product? 305

Sensitivity of the Project's NPV to Changes in the Lamp Price 306

Sensitivity of NPV to Sales Erosion 306

Key Points 307

Further Reading 308

Self-Test Questions 308

Review Questions 310

PART IV MAKING FINANCING DECISIONS 315

CHAPTER 10 Valuing Bonds and Stocks 315

What Are Bonds and Common Stocks? 316

Bond Features and Terminology 316

Common Stock Features and Terminology 317

The Discounted Cash Flow (DCF) Model 318

Valuing Bonds 320

Finding the Price of a Bond when its Yield Is Known 320

How Changes in Yield Affect Bond Prices 321

Bond Price versus Face Value 322

Finding the Yield of a Bond When Its Price Is Known 322

The Market Yield of a Bond Is the Cost of Debt to the Firm 323

Price Quotation and Yield Conventions 323

The Case of Zero-Coupon Bonds 324

The Case of Perpetual Bonds 326

A Closer Look at Bond Yields and Risk 327

Risk Is the Major Determinant of a Bond's Yield 327

Credit Risk, Credit Ratings, and Credit Spreads 327

<i>The Term Structure of Interest Rates</i>	329
<i>Finding the Price and the Yield of a Bond If the Spot Rates are Known</i>	333
<i>Interest-Rate Risk</i>	334
<i>Duration as a Measure of Interest-Rate Risk</i>	335
Valuing Common Stocks	336
<i>Valuation Based on the Dividend-Discount Model (DDM)</i>	336
<i>Valuation Based on Discounted Free Cash Flows</i>	339
<i>Valuing PEC with the Discounted Free Cash Flow Model</i>	341
<i>Valuation Based on Discounted Cash Flows to Equity Holders</i>	343
<i>Comparing the Three Discounted Cash Flow Models</i>	345
<i>Valuation Based on Comparable Firms</i>	345
<i>Direct Valuation of a Firm's Equity Based on the Price-to-Earnings Ratio</i>	346
<i>Direct Valuation of a Firm's Equity Based on the Price-to-Book Ratio</i>	347
<i>Indirect Valuation of a Firm's Equity Based on the EV-to-EBITDA Ratio</i>	347
Key Points	348
APPENDIX 10.1 The Properties of Duration	350
Further Reading	353
Self-Test Questions	354
Review Questions	355
CHAPTER 11 Raising Capital and Paying Out Cash	359
Estimating the Amount of Required External Funds	360
The Financial System: Its Structure and Functions	364
<i>Direct Financing</i>	364
<i>Indirect or Intermediated Financing</i>	364
<i>Securities Markets</i>	367
How Firms Issue Securities	371
<i>Private Placement</i>	371
<i>Public Offerings</i>	371
Raising Debt Capital	375
<i>Borrowing through Bank Loans</i>	376
<i>Borrowing through Lease Agreements</i>	376
<i>Borrowing by Issuing Short-Term Securities</i>	379
<i>Borrowing by Issuing Corporate Bonds</i>	379
Raising Equity Capital	383
<i>Preferred Stocks</i>	383
<i>Tracking Stock</i>	385
<i>Equity Warrants</i>	385
<i>Contingent Value Rights</i>	385
Distributing Cash to Shareholders	386
<i>Observed Payout Policies</i>	386

How and Why Firms Pay Dividends and Buy Back their Shares	390
<i>How Firms Pay Dividends</i>	391
<i>How Firms Repurchase their Shares</i>	391
<i>Differences Between Dividend Payments and Share Repurchases</i>	392
Does a Firm Payout Policy Affect Its Share Price and the Wealth of Its Shareholders?	394
<i>Paying an Immediate Special Dividend of \$250 Million</i>	396
<i>Buying Back \$250 Million of Shares in the Open Market</i>	397
<i>Issuing \$100 Million of New Equity to Pay an Immediate Dividend of \$350 Million</i>	398
<i>Investing \$250 Million in a Project</i>	399
<i>Payout Policy Is Irrelevant in a Perfect Market Environment as Long as the Firm's Investing and Financing Policies do not Change</i>	399
<i>Payout Policy with Market Imperfections</i>	400
Key Points	402
Further Reading	405
Self-Test Questions	406
Review Questions	407

CHAPTER 12 Estimating the Cost of Capital 411

Identifying Proxy or Pure-Play Firms	412
Estimating the Cost of Debt	413
Estimating the Cost of Equity	415
<i>Estimating the Cost of Equity Using the Dividend-Discount Model</i>	415
<i>Estimating the Cost of Equity Using the Capital Asset Pricing Model</i>	417
Estimating the Cost of Capital of a Firm	426
<i>What Is a Firm's Cost of Capital?</i>	426
<i>The Firm's Target Capital Structure</i>	427
<i>The Firm's Costs of Debt and Equity</i>	429
<i>Summary of the Firm's WACC Calculations</i>	430
Estimating the Cost of Capital of a Project	430
<i>The Project's Risk Is Similar to the Risk of the Firm</i>	430
<i>The Project's Risk Is Different from the Risk of the Firm</i>	431
<i>Three Mistakes to Avoid When Estimating a Project's Cost of Capital</i>	434
Key Points	438
Further Reading	439
Self-Test Questions	439
Review Questions	440

CHAPTER 13 Designing a Capital Structure 445

The Capital Structure Decision in a World without Corporate Income Tax and Financial Distress Costs	446
<i>Effects of Borrowing on the Firm's Profitability (No Corporate Income Tax and No Financial Distress Costs)</i>	446

<i>Understanding the Trade-Off Between Profitability and Risk</i>	449
<i>Effect of Borrowing on the Value of the Firm's Assets and Its Share Price (No Corporate Income Tax and No Financial Distress Costs)</i>	450
<i>Effect of Borrowing on the Firm's Cost of Capital (No Corporate Income Tax and No Financial Distress Costs)</i>	453

The Capital Structure Decision in a World with Corporate Income Tax but without Financial Distress Costs 455

<i>Effect of Borrowing on the Value of a Firm's Assets (with Corporate Income Tax and No Financial Distress Costs)</i>	456
<i>Effect of Borrowing on the Firm's Market Value of Equity (with Corporate Income Tax and No Financial Distress Costs)</i>	460
<i>Effect of Borrowing on the Firm's Share Price (with Corporate Income Tax and No Financial Distress Costs)</i>	460
<i>Effect of Borrowing on the Cost of Capital (with Corporate Income Tax and No Financial Distress Costs)</i>	461

The Capital Structure Decision when Financial Distress is Costly 464

Formulating a Capital Structure Policy 467

<i>A Closer Look at the Trade-Off Model of Capital Structure</i>	467
<i>Factors Other Than Taxes That May Favor Borrowing</i>	470
<i>Factors Other Than Financial Distress Costs That May Discourage Borrowing</i>	473
<i>Is There a Preference for Retained Earnings?</i>	475
<i>Putting It All Together</i>	476

Key Points 479

APPENDIX 13.1 Capital Structure and Systematic Risk (Beta) 481

How to Extract Unlevered Betas from Levered Betas 481

Case 1: The Debt-to-Equity Ratio (D/E) is Constant Over Time 482

Case 2: The Amount of Debt (D) is Constant Over Time 482

Which Formula Should Be Used to Get Unlevered Betas? 483

Further Reading 484

Self-Test Questions 484

Review Questions 485

PART V MAKING BUSINESS DECISIONS 487

CHAPTER 14 Valuing and Acquiring a Business 487

Alternative Valuation Methods 488

Valuing a Firm's Equity Using Comparable Firms 489

Direct Estimation of a Firm's Equity Value Based on the Equity Value of Comparable Firms 492

Indirect Estimation of a Firm's Equity Value Based on the Enterprise Value of Comparable Firms 494

Valuing a Firm's Business Assets and Equity Using the Discounted Cash Flow (DCF) Method	496
Estimation of OS Distributors' Enterprise and Equity Values	497
<i>Step 1: Determination of the Length of the Forecasting Period</i>	498
<i>Step 2: Estimation of the Free Cash Flow from Business Assets</i>	498
<i>Step 3: Estimation of the Weighted Average Cost of Capital</i>	502
<i>Step 4: Estimation of the Terminal Value of Business Assets at the End of Year 5</i>	503
<i>Step 5: Estimation of the DCF Value of Business Assets (Enterprise Value)</i>	504
<i>Step 6: Estimation of the DCF Value of Equity</i>	504
<i>Comparison of DCF Valuation and Valuation by Comparables</i>	505
Estimating the Acquisition Value of OS Distributors	505
<i>Identifying the Potential Sources of Value Creation in an Acquisition</i>	505
<i>Why Conglomerate Mergers Are Unlikely to Create Lasting Value Through Acquisitions</i>	508
<i>The Acquisition Value of OS Distributors' Equity</i>	510
Estimating the Leveraged Buyout Value of OS Distributors	514
<i>Estimating the Leveraged Buyout Value of Business Assets Using the Adjusted Present Value Method (the APV Method)</i>	516
<i>Will OS Distributors Be Able to Service Its Debt?</i>	520
Key Points	523
Further Reading	525
Self-Test Questions	525
Review Questions	526

CHAPTER 15 Managing Corporate Risk 531

What Is Risk?	532
Why Should Firms Manage Risk?	533
<i>Risk Management Can Reduce Corporate Income Tax Payments</i>	534
<i>Risk Management Can Lower the Cost of Protection Against Risk</i>	534
<i>Risk Management Can Lower Financial Distress Costs</i>	534
<i>Risk Management Can Provide Clearer Information to Investors About the Firm's Core Activities</i>	534
<i>Risk Management Can Lower Agency Costs</i>	534
Corporate Risk Management	535
<i>Risk Netting</i>	535
<i>Cost Savings</i>	535
<i>Risk Policy</i>	536
<i>Risk Learning</i>	536
The Risk Management Process	536
<i>Step 1: Risk Identification</i>	537
<i>Step 2: Risk Measurement</i>	545
<i>Step 3: Risk Prioritization</i>	546
<i>Step 4: Risk Policy</i>	547
<i>Step 5: Risk Monitoring</i>	551

Key Points	551
Further Reading	552
Self-Test Questions	552
Review Questions	553

CHAPTER 16 Understanding Forward, Futures, and Options and Their Contribution to Corporate Finance 555

Forward Contracts	556
<i>Price Risk</i>	556
<i>Counterparty Risk</i>	556
<i>Liquidity Risk</i>	557
Futures Contracts and Markets	557
<i>How Futures Markets Mitigate Counterparty Risk</i>	557
<i>How Futures Markets Mitigate Liquidity Risk</i>	558
<i>Available Futures Markets and Contracts</i>	559
<i>Hedging Risk with Futures Contracts</i>	559
The Pricing of Forward and Futures Contracts	562
<i>The Relationship Between the Spot Price and the Forward Price</i>	562
<i>The Relationship Between the Expected Spot Price and the Forward Price</i>	565
Option Contracts	566
<i>Option Contracts Defined</i>	567
<i>Over-The-Counter (OTC) Options Versus Traded Options</i>	567
<i>European versus American Options</i>	567
<i>Option Buyers and Option Writers</i>	568
<i>Call Options</i>	568
<i>Put Options</i>	571
<i>The Put-Call Parity Relationship</i>	574
Getting Option Prices with the Black and Scholes Formula	577
<i>The Price of a European Call on a Non-Dividend-Paying Stock</i>	577
<i>The Price of a European Put on a Non-Dividend-Paying Stock</i>	577
<i>Using a Spreadsheet to Calculate the Price of European Options</i>	577
<i>The Price of European Options on Dividend-Paying Stocks</i>	579
<i>The Price of American Options</i>	579
<i>Response of Option Prices to Changes in Input Values</i>	581
<i>Implied Volatility</i>	582
<i>How Good Is the Black-Scholes Model?</i>	583
<i>Delta: A Measure of the Sensitivity of Option Prices to Changes in the Underlying Stock Price</i>	583
<i>An Investment in an Option Is Always Riskier Than the Same Investment in the Underlying Stock</i>	584
Option-Based Investment Strategies	585
<i>Speculating on a Rise in Stock Price with Naked Calls</i>	585
<i>Hedging Against a Drop in Stock Price with Protective Puts</i>	585
<i>Insuring Equity Portfolios</i>	587
<i>Writing Covered Calls to Generate Income</i>	587

<i>Collars: Covered Calls with Protective Puts</i>	587
<i>Hedging Stock Price Volatility with Long Straddles</i>	587
<i>Arbitraging Option Prices with Money Spreads or Time Spreads</i>	588
Securities with Option Features	588
<i>Equity as a Call Option on the Firm's Assets</i>	588
<i>Corporate Bonds As Risk-Free Bonds and Short Puts on the Firm's Assets</i>	591
<i>Collateralized Loans</i>	591
<i>Right Issues, Warrants and Contingent Value Rights</i>	591
<i>Callable and Convertible Bonds</i>	592
Real Options and Strategic Investment Decisions	592
<i>Expanding Abroad</i>	593
<i>Calculating the Project's NPV with the Option Value</i>	595
<i>Discussion</i>	596
<i>Different Types of Real Options Embedded in Projects</i>	597
Key Points	597

APPENDIX 16.1 The Binomial Option Pricing Model 601

Creating a Riskless Covered Call Position	601
Finding the Call Price Based on the Riskless Covered Call Position	602
Further Reading	602
Self-Test Questions	602
Review Questions	605

CHAPTER 17 Making International Business Decisions 609

The Firm's Risk Exposure from Foreign Operations	610
<i>Accounting, or Translation, Exposure</i>	610
<i>Economic Exposure</i>	610
Managing Currency Risk	612
<i>The Foreign-Exchange Market</i>	613
<i>Hedging Contractual Exposure to Currency Risk</i>	614
<i>Hedging Long-Term Contractual Exposure to Currency Risk with Swaps</i>	620
Factors Affecting Changes in Exchange Rates	622
<i>How Differences in Inflation Rates Affect Exchange Rates: The Purchasing Power Parity Relation</i>	623
<i>The Relationship between Two Countries' Inflation Rates and Interest Rates: The International Fisher Effect</i>	624
<i>How Differences in Interest Rates Affect Exchange Rates: The Interest-Rate Parity Relation</i>	625
<i>The Relation between Forward Rates and Future Spot Rates</i>	626
<i>Putting It All Together</i>	627
Analyzing an International Investment Project	628
<i>The Net Present Value Rule: A Brief Review</i>	628
<i>Surf and Zap Cross-Border Alternative Investment Projects</i>	629

Managing Country Risk	635
