

SEVENTH EDITION

EXPLORING Macroeconomics

ROBERT L. SEXTON

Pepperdine University

Australia • Brazil • Japan • Korea • Mexico • Singapore • Spain • United Kingdom • United States

BRIEF CONTENTS

1 Introduction

- ch 1 The Role and Method of Economics 2
- ch 2 Economics: Eight Powerful Ideas 31
- ch 3 Scarcity, Trade-Offs, and Production Possibilities 70

2 Supply and Demand

- ch 4 Demand, Supply, and Market Equilibrium 96
- ch 5 Markets in Motion and Price Controls 132
- ch 6 Elasticities 155

3 Market Efficiency, Market Failure, and the Public System

- ch 7 Market Efficiency and Welfare 186
- ch 8 Market Failure 212
- ch 9 Public Finance and Public Choice 238

4 Macroeconomic Foundations

- ch 10 Introduction to Macroeconomics: Unemployment, Inflation, and Economic Fluctuations 258
- ch 11 Measuring Economic Performance 301

- ch 12 Economic Growth in the Global Economy 325
- ch 13 Financial Markets, Saving, and Investment 347

5 The Macroeconomic Models

- ch 14 Aggregate Demand and Aggregate Supply 374
- ch 15 The Aggregate Expenditure Model 411

6 Macroeconomic Policy

- ch 16 Fiscal Policy 438
- ch 17 Money, Banking, and the Federal Reserve System 476
- ch 18 Monetary Policy 516
- ch 19 Issues in Macroeconomic Theory and Policy 546

7 The Global Economy

- ch 20 International Trade 578
- ch 21 International Finance 611

TABLE OF CONTENTS

1 INTRODUCTION

CHAPTER 1

The Role and Method of Economics 2

1.1 Economics: A Brief Introduction 3

Economics—A Word with Many
Different Meanings 3
Economics Is All Around Us 4

1.2 Economic Behavior 5

Self-Interest 5
What Is Rational Behavior? 6

1.3 Economic Theories and Models 9

Economic Theories and Models 9
Abstraction Is Important 9
Developing a Testable Proposition 9
Science and Stories 10
The *Ceteris Paribus* Assumption 10
Why Are Observation and Prediction Harder in the
Social Sciences? 11
Why Do Economists Predict on a Group Level? 11
The Two Branches of Economics: Microeconomics
and Macroeconomics 12

1.4 Pitfalls to Avoid in Scientific Thinking 13

Confusing Correlation and Causation 13
The Fallacy of Composition 14

1.5 Positive Statements and Normative Statements 15

Positive Statement 15
Normative Statement 16
Positive versus Normative Analysis 16
Disagreement Is Common in Most Disciplines 16
Often Economists Do Agree 17

Interactive Summary 19

Key Terms and Concepts 19
Section Quiz Answers 20
Problems 22
Appendix: Working with Graphs 24

CHAPTER 2

Economics: Eight Powerful Ideas 31

2.1 IDEA 1: People Face Scarcity and Costly Trade-offs 32

Introduction 32
Human Wants Exceed Available Resources 32

Scarcity and Resources 33
What Are Goods and Services? 33
What Are Bads? 34
Does Everyone Face Scarcity? 34
Will Scarcity Ever Be Eradicated? 34
Wants versus Needs 34
Scarcity Forces Us to Choose 35
Trade-Offs 35
To Choose Is to Lose 35
Money Costs and Non-money Costs 36
The Opportunity Cost of Going to College or Having
a Child 37

2.2 IDEA 2: People Engage in Rational Decision Making and Marginal Thinking 39

Do People Engage in Rational Decision Making? 39
Many Choices We Face Involve Marginal Thinking 39

2.3 IDEA 3: People Respond Predictably to Changes in Incentives 43

Changes in Incentives Change Individual Behavior 43
Positive and Negative Incentives 43

2.4 IDEA 4: Specialization and Trade Can Make Everyone Better Off 46

Why Do People Specialize? 46
Absolute versus Comparative Advantage 47
We All Specialize 47
The Advantages of Specialization 47
Specialization and Trade Lead to Greater Wealth
and Prosperity 48

2.5 IDEA 5: Markets Can Improve Economic Efficiency 50

How Does the Market Work to Allocate
Resources? 51
Market Prices Provide Important Information 51
What Effect Do Price Controls Have on the Market
System? 52

2.6 IDEA 6: Appropriate Government Policies Can Improve Market Outcomes 53

Property Rights and the Legal System 53
Market Failure 53

2.7 IDEA 7: Government Policies May Help Stabilize the Economy 56

Inflation 57
Unemployment 57

2.8 IDEA 8: Increasing Productivity Leads to Economic Growth 59

Defining Economic Growth 59

Economic Growth, Productivity, and the Standard of Living 60
 What Factors Contribute to Increases in Productivity? 60

Interactive Summary 62

Key Terms and Concepts 63
 Section Quiz Answers 63
 Problems 68

CHAPTER 3

Scarcity, Trade-Offs, and Production Possibilities 70

3.1 The Three Economic Questions Every Society Faces 71

The Three Economic Questions 71
 What Goods and Services Will Be Produced? 72
 How Will the Goods and Services Be Produced? 73
 Who Will Get the Goods and Services Produced? 73

3.2 The Circular Flow Model 76

Product Markets 76
 Factor Markets 76
 The Simple Circular Flow Model 77

3.3 The Production Possibilities Curve 78

The Production Possibilities Curve 78
 Inefficiency and Efficiency 80
 The Law of Increasing Opportunity Cost 81

3.4 Economic Growth and the Production Possibilities Curve 84

Generating Economic Growth 84
 Growth Does Not Eliminate Scarcity 85
 The Effects of a Technological Change on the Production Possibilities Curve 86
 Summing up the Production Possibilities Curve 86

Interactive Summary 88

Key Terms and Concepts 89
 Section Quiz Answers 89
 Problems 91

2 SUPPLY AND DEMAND

CHAPTER 4

Demand, Supply, and Market Equilibrium 96

4.1 Markets 97

Defining a Market 97
 Buyers and Sellers 97

4.2 Demand 98

The Law of Demand 98
 Individual Demand 99
 What Is a Market Demand Curve? 99
Ceteris Paribus and the Law of Demand 100

4.3 Shifts in the Demand Curve 103

A Change in Demand versus a Change in Quantity Demanded 103
 Shifts in Demand (“PYNTE”) 103
 Changes in the Prices of Related Goods and Services (P) 103
 Changes in Income (Y) 105
 Changes in the Number of Buyers (N) 107
 Changes in Tastes (T) 107
 Changes in Expectations (E) 107
 Changes in Demand versus Changes in Quantity Demanded—Revisited 108

4.4 Supply 111

The Law of Supply 111
 A Positive Relationship between Price and Quantity Supplied 111
 An Individual Supply Curve 112
 The Market Supply Curve 112

4.5 Shifts in the Supply Curve 114

A Change in Quantity Supplied versus a Change in Supply 114
 Shifts in Supply (“SPENT”) 114
 Change in Supply versus Change in Quantity Supplied—Revisited 118

4.6 Market Equilibrium Price and Quantity 120

The Critical Role of Price 120
 Equilibrium Price and Quantity 120
 Shortages and Surpluses 120
 Don’t Confuse Scarcity and Shortages 122

Interactive Summary 123

Key Terms and Concepts 124
 Section Quiz Answers 124
 Problems 126

CHAPTER 5

Markets in Motion and Price Controls 132

5.1 Changes in Market Equilibrium 133

The Effects of a Change in Demand 133
 The Effects of a Change in Supply 134
 The Effects of Changes in Both Supply and Demand 135
 The Combinations of Supply and Demand Shifts 138
 Supply, Demand, and the Market Economy 138

5.2 Price Controls 144

Price Controls 144
 Price Ceilings: Rent Controls 144
 Price Floors: The Minimum Wage 145
 Price Ceilings: Price Controls on Gasoline 147
 Unintended Consequences 148

Interactive Summary 151

Key Terms and Concepts 151
 Section Quiz Answers 151
 Problems 153

CHAPTER 6**Elasticities 155****6.1 Price Elasticity of Demand 156**

- Is the Demand Curve Elastic or Inelastic? 156
- Types of Demand Curves 157
- Calculating the Price Elasticity of Demand: The Midpoint Method 158
- The Determinants of the Price Elasticity of Demand 159

6.2 Total Revenue and the Price Elasticity of Demand 163

- How Does the Price Elasticity of Demand Impact Total Revenue? 163
- Price Elasticity Changes along a Linear Demand Curve 165

6.3 Other Types of Demand Elasticities 169

- The Cross-Price Elasticity of Demand 169
- Cross-Price Elasticity and Sodas 169
- The Income Elasticity of Demand 170

6.4 Price Elasticity of Supply 171

- What is the Price Elasticity of Supply? 171

Interactive Summary 178

- Key Terms and Concepts 179
- Section Quiz Answers 179
- Problems 181

3 MARKET EFFICIENCY, MARKET FAILURE, AND THE PUBLIC SYSTEM

CHAPTER 7**Market Efficiency and Welfare 186****7.1 Consumer Surplus and Producer Surplus 187**

- Consumer Surplus 187
- Marginal Willingness to Pay Falls as More Is Consumed 187
- Price Changes and Changes in Consumer Surplus 188
- Producer Surplus 189
- Market Efficiency and Producer and Consumer Surplus 190
- Market Efficiency and Market Failure: A Caveat 192

7.2 The Welfare Effects of Taxes, Subsidies, and Price Controls 195

- Using Consumer and Producer Surplus to Find the Welfare Effects of a Tax 195
- Elasticity and the Size of the Deadweight Loss 197
- The Welfare Effects of Subsidies 198
- Price Controls and Welfare Effects 199
- Price Ceilings 200
- Rent Controls 201

Rent Controls—Short Run versus Long Run 201

Price Floors 202

The Welfare Effects of a Price Floor When the Government Buys the Surplus 203

Deficiency Payment Program 204

Interactive Summary 207

- Key Terms and Concepts 207
- Section Quiz Answers 208
- Problems 210

CHAPTER 8**Market Failure 212****8.1 Externalities 213**

- Negative Externalities in Production 213
- What Can the Government Do to Correct for Negative Externalities? 214
- Positive Externalities in Consumption 215
- What Can the Government Do to Correct for Positive Externalities? 217
- Nongovernmental Solutions to Externalities 217

8.2 Public Policy and the Environment 219

- Why Is a Clean Environment Not Free? 219
- The Costs and Benefits of Pollution Control 219
- Command and Control Policies: Regulation 220
- Pollution Taxes: A Market-Based Policy 221
- Transferable Pollution Rights 221

8.3 Property Rights and the Environment 223

- The Coase Theorem 223
- Transaction Costs and the Coase Theorem 224

8.4 Public Goods 225

- Private Goods versus Public Goods 225
- Public Goods and the Free-Rider Problem 226
- The Government and Benefit–Cost Analysis 226
- Common Resources and the Tragedy of the Commons 227

8.5 Asymmetric Information 229

- What Is Asymmetric Information? 229
- What Is Moral Hazard? 231

Interactive Summary 233

- Key Terms and Concepts 234
- Section Quiz Answers 234
- Problems 236

CHAPTER 9**Public Finance and Public Choice 238****9.1 Public Finance: Government Spending and Taxation 239**

- Growth in Government 239
- State and Local Spending 241
- Generating Government Revenue 241
- Financing State and Local Government Activities 244
- Should We Have a Flat Tax? 244
- Taxes: Efficiency and Equity 245

9.2 Public Choice 249

- What Is Public Choice Theory? 249
- Scarcity and the Public Sector 250
- The Individual Consumption–Payment Link 250
- Majority Rule and the Median Voters 250
- Voters and Rational Ignorance 251
- Special Interest Groups 252

Interactive Summary 254

- Key Terms and Concepts 255
- Section Quiz Answers 255
- Problems 256

4 MACROECONOMIC FOUNDATIONS

CHAPTER 10

Introduction to Macroeconomics: Unemployment, Inflation, and Economic Fluctuations 258

10.1 Macroeconomic Goals 259

- Three Major Macroeconomic Goals 259

10.2 Employment and Unemployment 260

- The Consequences of High Unemployment 260
- What Is the Unemployment Rate? 261
- The Worst Case of U.S. Unemployment 261
- Variations in the Unemployment Rate 262
- Are Unemployment Statistics Accurate Reflections of the Labor Market? 263
- Who Are the Unemployed? 263
- Categories of Unemployed Workers 264
- How Much Unemployment? 264
- How Long Are People Usually Unemployed? 265
- Labor Force Participation Rate 266

10.3 Types of Unemployment 268

- Frictional Unemployment 268
- Should We Worry about Frictional Unemployment? 269
- Structural Unemployment 269
- Some Unemployment Is Unavoidable 270
- Cyclical Unemployment 270
- The Natural Rate of Unemployment 270

10.4 Reasons for Unemployment 274

- Why Does Unemployment Exist? 274
- Minimum Wages and Unemployment 274
- The Impact of Unions on the Unemployment Rate 274
- Efficiency Wage 275
- Unemployment Insurance 275
- Does New Technology Lead to Greater Unemployment? 276

10.5 Inflation 278

- Stable Price Level as a Desirable Goal 278
- Measuring Inflation 279
- The Consumer Price Index and the GDP Deflator 280
- How Is a Price Index Created? 280
- Problems with the CPI 281
- Producer Price Index 282
- GDP Deflator Versus CPI 282
- The Price Level over the Years 282
- Who Loses with Inflation? 284
- Unanticipated Inflation Distorts Price Signals 285
- Other Costs of Anticipated and Unanticipated Inflation 285
- Inflation and Interest Rates 285
- Do Creditors Always Lose During Inflation? 286
- Protecting Ourselves from Inflation 287

10.6 Economic Fluctuations 289

- Short-Term Fluctuations in Economic Growth 289
- The Phases of a Business Cycle 289
- How Long Does a Business Cycle Last? 290
- Seasonal Fluctuations Affect Economic Activity 290
- Forecasting Cyclical Changes 291

Interactive Summary 293

- Key Terms and Concepts 295
- Section Quiz Answers 295
- Problems 298

CHAPTER 11

Measuring Economic Performance 301

11.1 National Income Accounting: A Standardized Way to Measure Economic Performance 302

- What Is Gross Domestic Product? 302
- Production, Income, and the Circular Flow Model 303

11.2 Measuring Total Production 305

- The Expenditure Approach to Measuring GDP 305
- Consumption (C) 305
- Investment (I) 306
- Government Purchases (G) 307
- Exports (X – M) 307
- The Value-Added or Production Approach 307

11.3 Other Measures of Total Production and Total Income 309**11.4 Problems in Calculating an Accurate GDP 311**

- Problems in Calculating an Accurate GDP 311
- How Do We Solve This Problem? 311
- A Price-Level Index 311
- Real GDP 311
- Is Real GDP Always Less Than Nominal GDP? 312
- Real GDP per Capita 312

Why Is the Measure of per Capita Real GDP So Important? 313	The Value of Securities 350
11.5 Problems with GDP as a Measure of Economic Welfare 315	Reading Stock Tables 350
Nonmarket Transactions 315	Financial Intermediaries 351
The Underground Economy 315	13.2 Saving, Investment, and the Financial System 353
Measuring the Value of Leisure 315	The Macroeconomics of Saving and Investment 353
GDP and Externalities 316	The Market for Loanable Funds 355
Quality of Goods 317	Analyzing the Market for Loanable Funds 356
Other Measures of Economic Well-Being 317	13.3 The Financial Crisis of 2008 361
Interactive Summary 319	Low Interest Rates (2002–2004) Led to Aggressive Borrowing 361
Key Terms and Concepts 320	Deregulation in the Housing Market and Subprime Mortgages 361
Section Quiz Answers 320	Who Bought These Risky Subprime Mortgages? 363
Problems 322	The Fed Raises Interest Rates and the Housing Bust 363
CHAPTER 12	Interactive Summary 366
Economic Growth in the Global Economy 325	Key Terms and Concepts 367
12.1 Economic Growth 326	Section Quiz Answers 367
Defining Economic Growth 326	Problems 369
The Rule of 70 326	Appendix: Calculating Present Value 371
Productivity: The Key to a Higher Standard of Living 328	
12.2 Determinants of Economic Growth 330	
Factors that Contribute to Productivity Growth 330	
New Growth Theory 332	
12.3 Public Policy and Economic Growth 334	
The Impact of Economic Growth 334	
Saving Rates, Investment, Capital Stock, and Economic Growth 334	
Infrastructure 335	
Research and Development 336	
The Protection of Property Rights Impacts Economic Growth 336	
Free Trade and Economic Growth 336	
Education 337	
12.4 Population and Economic Growth 340	
Population Growth and Economic Growth 340	
The Malthusian Prediction 341	
Interactive Summary 343	
Key Terms and Concepts 344	
Section Quiz Answers 344	
Problems 345	
CHAPTER 13	
Financial Markets, Saving, and Investment 347	
13.1 Financial Institutions and Intermediaries 348	
Bonds 349	
Stocks 349	
Retained Earnings 350	
	5 THE MACROECONOMIC MODELS
	CHAPTER 14
	Aggregate Demand and Aggregate Supply 374
	14.1 The Determinants of Aggregate Demand 375
	What Is Aggregate Demand? 375
	Consumption (C) 375
	Investment (I) 375
	Government Purchases (G) 375
	Net Exports ($X - M$) 375
	14.2 The Aggregate Demand Curve 377
	How Is the Quantity of Real GDP Demanded Affected by the Price Level? 377
	Why Is the Aggregate Demand Curve Negatively Sloped? 378
	14.3 Shifts in the Aggregate Demand Curve 380
	Shifts versus Movements along the Aggregate Demand Curve 380
	Aggregate Demand Curve Shifters 381
	14.4 The Aggregate Supply Curve 384
	What Is the Aggregate Supply Curve? 384
	Why Is the Short-Run Aggregate Supply Curve Positively Sloped? 384
	Why Is the Long-Run Aggregate Supply Curve Vertical? 385

- 14.5 Shifts in the Aggregate Supply Curve 387**
 Shifting Short-Run and Long-Run Supply Curves 387
 What Factors Shift the Short-Run Aggregate Supply Curve Only? 389
- 14.6 Macroeconomic Equilibrium: The Short Run and the Long Run 393**
 Determining Macroeconomic Equilibrium 393
 Recessionary and Inflationary Gaps 394
 Demand-Pull Inflation 395
 Cost-Push Inflation 395
 What Helped the United States Recover in the 1980s? 396
 A Decrease in Aggregate Demand and Recessions 396
 Adjusting to a Recessionary Gap 397
 Slow Adjustments to a Recessionary Gap 397
 What Causes Wages and Prices to Be Sticky Downward? 398
 Adjusting to an Inflationary Gap 398
 Price Level and RGDP over Time 399
- Interactive Summary 401**
 Key Terms and Concepts 404
 Section Quiz Answers 404
 Problems 408

CHAPTER 15

The Aggregate Expenditure Model 411

- 15.1 The Simple Aggregate Expenditure Model 412**
 Why Do We Assume the Price Level Is Fixed? 412
 The Simplest Aggregate Expenditure Model: Autonomous Consumption Only 412
 What Are the Autonomous Factors That Influence Spending? 413
- 15.2 Finding Equilibrium in the Aggregate Expenditure Model 415**
 Revisiting Marginal Propensity to Consume and Save 416
 Marginal Propensity to Save 416
 Equilibrium in the Aggregate Expenditure Model 417
 Disequilibrium in the Aggregate Expenditure Model 418
- 15.3 Adding Investment, Government Purchases, and Net Exports 421**
- 15.4 Shifts in Aggregate Expenditure and the Multiplier 424**
- 15.5 From Aggregate Expenditures to Aggregate Demand 427**
 Shifts in Aggregate Demand 428
 Limitations of the Aggregate Expenditure Model 429
- Interactive Summary 431**
 Key Terms and Concepts 432
 Section Quiz Answers 432
 Problems 435

6 MACROECONOMIC POLICY

CHAPTER 16

Fiscal Policy 438

- 16.1 Fiscal Policy 439**
 Fiscal Policy 439
 The Government and Total Spending 439
- 16.2 Fiscal Policy and the AD/AS Model 440**
 Fiscal Policy and the AD/AS Model 440
- 16.3 The Multiplier Effect 443**
 Government Purchases, Taxes, and Aggregate Demand 443
 The Multiplier Effect 444
 The Multiplier Effect at Work 444
 Changes in the MPC Affect the Multiplier Process 445
 The Multiplier and the Aggregate Demand Curve 446
 Tax Cuts and the Multiplier 446
 Taxes and Investment Spending 446
 A Reduction in Government Purchases and Tax Increases 447
 Time Lags, Saving, and Imports Reduce the Size of the Multiplier 447
 The 2008–2009 Recession 448
 Were the Predictions of the Stimulus Programs Accurate? 449
- 16.4 Supply-Side Effects of Tax Cuts 452**
 What Is Supply-Side Economics? 452
 Impact of Supply-Side Policies 452
 The Laffer Curve 452
 Research and Development and the Supply Side of the Economy 453
 How Do Supply-Side Policies Affect Long-Run Aggregate Supply? 453
 Critics of Supply-Side Economics 453
 The Supply-Side and Demand-Side Effects of a Tax Cut 454
 Fighting Recessions: Tax Cuts or Increasing Government Purchases 455
- 16.5 Possible Obstacles to Effective Fiscal Policy 456**
 The Crowding-Out Effect 456
 Crowding Out in the Long Run 457
 Fiscal Policy in an Open Economy 457
 The Ricardian Equivalence Theorem 458
 Time Lags in Fiscal Policy Implementation 458
- 16.6 Automatic Stabilizers 461**
 Automatic Stabilizers 461
 How Do the Tax System and Transfer Payments Stabilize the Economy? 461
- 16.7 The National Debt 463**
 How Government Finances the National Debt 463

Why Run a Budget Deficit? 463	Fed Pays Interest on Reserves 502
The Burden of National Debt 465	The Discount Rate 502
Interactive Summary 469	How the Fed Reduces the Money Supply 503
Key Terms and Concepts 470	How the Fed Increases the Money Supply 503
Section Quiz Answers 471	Difficulties in Controlling the Money Supply 503
Problems 473	
CHAPTER 17	
Money, Banking, and the Federal Reserve System 476	
17.1 What Is Money? 477	17.7 Bank Failures 505
The Functions of Money 477	What Happened to the Banking Industry? 505
	What Caused the Collapse? 506
	Bank Failures Today 506
	Interactive Summary 508
	Key Terms and Concepts 510
	Section Quiz Answers 510
	Problems 513
17.2 Measuring Money 480	CHAPTER 18
Currency 480	Monetary Policy 516
Currency as Legal Tender 480	
Demand Deposits and Other Checkable Deposits 480	18.1 Money, Interest Rates, and Aggregate Demand 517
The Popularity of Demand Deposits and Other Checkable Deposits 481	The Money Market 517
Credit and Debit Cards 481	The Demand for Money and the Nominal Interest Rate 517
Savings Accounts 482	Shifts in the Demand for Money 518
Money Market Mutual Funds 482	Why Is the Supply of Money Relatively Inelastic? 519
Stocks and Bonds 482	The Money Market 519
Liquidity 483	How Would an Increase in the Money Supply Affect Equilibrium Interest Rates and Aggregate Demand? 521
The Money Supply 483	How Would a Decrease in the Money Supply Affect Equilibrium Interest Rates and Aggregate Demand? 522
How Was Money “Backed”? 483	Does the Fed Target the Money Supply or Interest Rates? 522
What Really Backs Our Money Now? 484	Which Interest Rate Does the Fed Target? 523
	Does the Fed Influence the Real Interest Rate in the Short Run? 524
17.3 How Banks Create Money 486	18.2 Expansionary and Contractionary Monetary Policy 526
Financial Institutions 486	Expansionary Monetary Policy in a Recessionary Gap 526
The Functions of Financial Institutions 487	Contractionary Monetary Policy in an Inflationary Gap 526
How Do Banks Create Money? 487	Monetary Policy in the Open Economy 527
How Do Banks Make Profits? 487	
Reserve Requirements 487	18.3 Money and Inflation—The Long Run 529
Fractional Reserve System 487	The Equation of Exchange 529
A Balance Sheet 488	
The Required Reserve Ratio 489	18.4 Problems in Implementing Monetary and Fiscal Policy 533
Loaning Excess Reserves 490	Problems in Conducting Monetary Policy 533
Is More Money More Wealth? 492	Quantitative Easing 534
	How Do Commercial Banks Implement the Fed’s Monetary Policies? 534
17.4 The Money Multiplier 493	Banks That Are Not Part of the Federal Reserve System and Policy Implementation 535
The Multiple Expansion Effect 493	Fiscal and Monetary Coordination Problems 535
New Loans and Multiple Expansions 493	Alleviating Coordination Problems 536
The Money Multiplier 495	Imperfect Information 536
Why Is It Only “Potential” Money Creation? 495	
Leverage and the Financial Crisis of 2008 496	
17.5 The Federal Reserve System 498	
The Functions of a Central Bank 498	
Location of the Federal Reserve System 498	
The Fed’s Relationship to the Federal Government 498	
The Fed’s Ties to the Executive Branch 499	
Fed Operations 500	
17.6 How Does the Federal Reserve Change the Money Supply? 501	
Open Market Operations 501	
The Reserve Requirement 501	

The Shape of the Aggregate Supply Curve and Policy Implications 537
 Overall Problems with Monetary and Fiscal Policy 538

Interactive Summary 541

Key Terms and Concepts 542
 Section Quiz Answers 542
 Problems 544

CHAPTER 19

Issues in Macroeconomic Theory and Policy 546

19.1 The Phillips Curve 547

Unemployment and Inflation 547
 The Phillips Curve 547
 The Slope of the Phillips Curve 547
 The Phillips Curve and Aggregate Supply and Demand 548

19.2 The Phillips Curve over Time 551

The Phillips Curve—The 1960s 551
 The Short-Run Phillips Curve versus the Long-Run Phillips Curve 551
 Supply Shocks 553

19.3 Rational Expectations 557

Can Human Behavior Counteract Government Policy? 557
 Rational Expectations Theory 557
 Rational Expectations and the Consequences of Government Macroeconomic Policies 558
 Anticipation of an Expansionary Monetary Policy 558
 Unanticipated Expansionary Policy 559
 Critics of Rational Expectations Theory 559

19.4 Controversies in Macroeconomic Policy 562

Are Fiscal and Monetary Policies Effective? 562
 Policy Difficulties with Supply Shocks 563
 What Should the Central Bank Do? 563
 Inflation Targeting 564
 Indexing and Reducing the Costs of Inflation 566

Interactive Summary 568

Key Terms and Concepts 570
 Section Quiz Answers 571
 Problems 574

7 THE GLOBAL ECONOMY

CHAPTER 20

International Trade 578

20.1 The Growth in World Trade 579

Importance of International Trade 579
 U.S. Exports and Imports 579
 Trading Partners 579

20.2 Comparative Advantage and Gains from Trade 580

Economic Growth and Trade 580
 The Principle of Comparative Advantage 581
 Comparative Advantage, Specialization, and the Production Possibilities Curves 581
 Why Does Comparative Advantage Occur? 586
 Regional Comparative Advantage 586

20.3 Supply and Demand in International Trade 591

The Importance of Trade: Producer and Consumer Surplus 591
 Free Trade and Exports—Domestic Producers Gain More Than Domestic Consumers Lose 591
 Free Trade and Imports—Domestic Consumers Gain More Than Domestic Producers Lose 593

20.4 Tariffs, Import Quotas, and Subsidies 595

Tariffs 595
 The Domestic Economic Impact of Tariffs 595
 Arguments for Tariffs 596
 Import Quotas 597
 The Domestic Economic Impact of an Import Quota 598
 The Economic Impact of Subsidies 599
