Contents

Preface		vii
Chapter 1	Why Big Data?	1
Chapter 2	Neural Networks in Finance	15
Chapter 3	Supervised Learning	49
Chapter 4	Modeling Human Behavior with Semi-Supervised Learning	80
Chapter 5	Letting the Data Speak with Unsupervised Learning	108
Chapter 6	Big Data Factor Models	142
Chapter 7	Data as a Signal versus Noise	180
Chapter 8	Applications: Unsupervised Learning in Option Pricing and Stochastic Modeling	231
Chapter 9	Data Clustering	262
Conclusion		313
Index		315
