Brief Contents

| | |
|-------------------|------|
| Preface | xiii |
| Acknowledgments | xvii |
| About the Authors | xxi |

PART 1 The Investment Background 1

| | | |
|------------------|---|------------|
| CHAPTER 1 | The Investment Setting | 3 |
| CHAPTER 2 | The Asset Allocation Decision | 33 |
| CHAPTER 3 | Selecting Investments in a Global Market | 63 |
| CHAPTER 4 | Organization and Functioning of Securities Markets | 95 |
| CHAPTER 5 | Security-Market Indexes | 123 |

PART 2 Developments in Investment Theory 147

| | | |
|------------------|--|------------|
| CHAPTER 6 | Efficient Capital Markets | 149 |
| CHAPTER 7 | An Introduction to Portfolio Management | 181 |
| CHAPTER 8 | An Introduction to Asset Pricing Models | 207 |
| CHAPTER 9 | Multifactor Models of Risk and Return | 241 |

PART 3 Valuation Principles and Practices 269

| | | |
|-------------------|--|------------|
| CHAPTER 10 | Analysis of Financial Statements | 271 |
| CHAPTER 11 | An Introduction to Security Valuation | 327 |

PART 4 Analysis and Management of Common Stocks 365

| | | |
|-------------------|---|------------|
| CHAPTER 12 | Macroanalysis and Microvaluation of the Stock Market | 367 |
| CHAPTER 13 | Industry Analysis | 413 |
| CHAPTER 14 | Company Analysis and Stock Valuation | 459 |
| CHAPTER 15 | Technical Analysis | 525 |
| CHAPTER 16 | Equity Portfolio Management Strategies | 549 |

PART 5 Analysis and Management of Bonds 589

| | | |
|-------------------|---|------------|
| CHAPTER 17 | Bond Fundamentals | 591 |
| CHAPTER 18 | The Analysis and Valuation of Bonds | 623 |
| CHAPTER 19 | Bond Portfolio Management Strategies | 691 |

PART 6 Derivative Security Analysis 739

CHAPTER 20 An Introduction to Derivative Markets and Securities 741**CHAPTER 21** Forward and Futures Contracts 781**CHAPTER 22** Option Contracts 821**CHAPTER 23** Swap Contracts, Convertible Securities, and Other Embedded Derivatives 867

PART 7 Specification and Evaluation of Asset Management 909

CHAPTER 24 Professional Money Management, Alternative Assets, and Industry Ethics 911**CHAPTER 25** Evaluation of Portfolio Performance 959

Appendixes A-D 1009

Comprehensive References List 1017

Glossary 1032

PART 1 The Investment Background 1

CHAPTER 1

| | |
|-------------------------------------|---|
| The Investment Setting | 3 |
|-------------------------------------|---|

What Is an Investment? 3

Investment Defined 4

Measures of Return and Risk 5

Measures of Historical Rates of Return 5, Computing Mean Historical Returns 7, Calculating Expected Rates of Return 9, Measuring the Risk of Expected Rates of Return 12, Risk Measures for Historical Returns 14

Determinants of Required Rates of Return 14

The Real Risk-Free Rate 15, Factors Influencing the Nominal Risk-Free Rate (*NRFR*) 15, Risk Premium 17, Risk Premium and Portfolio Theory 20, Fundamental Risk versus Systematic Risk 20, Summary of Required Rate of Return 20

Relationship between Risk and Return 21

Movements along the SML 22, Changes in the Slope of the SML 22, Changes in Capital Market Conditions or Expected Inflation 24, Summary of Changes in the Required Rate of Return 24

Chapter 1 Appendix: Computation of Variance and Standard Deviation 30

CHAPTER 2

| | |
|--|----|
| The Asset Allocation Decision | 33 |
|--|----|

Individual Investor Life Cycle 34

The Preliminaries 34, Investment Strategies over an Investor's Lifetime 35, Life Cycle Investment Goals 37

The Portfolio Management Process 37

The Need for a Policy Statement 38

Understand and Articulate Realistic Investor Goals 38, Standards for Evaluating Portfolio Performance 39, Other Benefits 40

Input to the Policy Statement 41

Investment Objectives 41, Investment Constraints 45

Constructing the Policy Statement 49

General Guidelines 49, Some Common Mistakes 49

The Importance of Asset Allocation 49

Investment Returns after Taxes and Inflation 51, Returns and Risks of Different Asset Classes 52, Asset Allocation Summary 53

Chapter 2 Appendix: Objectives and Constraints of Institutional Investors 58

CHAPTER 3

| | |
|---|----|
| Selecting Investments in a Global Market | 63 |
|---|----|

The Case for Global Investments 64

Relative Size of U.S. Financial Markets 65, Rates of Return on U.S. and Foreign Securities 66, Risk of Combined Country Investments 66

Global Investment Choices 71

Fixed-Income Investments 72, International Bond Investing 75, Equity Instruments 76, Special Equity Instruments: Options 78, Futures Contracts 78, Investment Companies 79, Real Estate 81, Low-Liquidity Investments 82

Historical Risk-Returns on Alternative

Investments 83

World Portfolio Performance 83, Art and Antiques 87, Real Estate 87

Chapter 3 Appendix: Covariance 93

CHAPTER 4

| | |
|---|----|
| Organization and Functioning of Securities Markets | 95 |
|---|----|

What Is a Market? 96

Characteristics of a Good Market 96, Decimal Pricing 97, Organization of the Securities Market 98

Primary Capital Markets 98

Government Bond Issues 98, Municipal Bond Issues 98, Corporate Bond Issues 99, Corporate Stock Issues 99, Private Placements and Rule 144A 101

Secondary Financial Markets 101

Why Secondary Markets Are Important 101, Secondary Bond Markets 102, Financial Futures 102, Secondary Equity Markets 102

Classification of U.S. Secondary Equity Markets 105

Primary Listing Markets 105, Regional Stock Exchanges 109, The Third Market 109, The Significant Transition of the U.S. Equity Markets 109

| | |
|--|-----|
| Alternative Types of Orders Available | 112 |
| Market Orders 112, Limit Orders 112, Special Orders 113, Margin Transactions 113, Short Sales 115, Exchange Market-Makers 117, New Trading Systems 117, Exchange Merger Mania 118 | |

CHAPTER 5

| | |
|--|-----|
| Security Market Indexes | 123 |
| Uses of Security-Market Indexes | 124 |
| Differentiating Factors in Constructing Market Indexes | 125 |
| The Sample 125, Weighting Sample Members 125, Computational Procedure 125 | |
| Stock-Market Indexes | 125 |
| Price-Weighted Index 126, Value-Weighted Index 127, Unweighted Index 129, Fundamental Weighted Index 130, Style Indexes 130, Global Equity Indexes 131 | |
| Bond-Market Indexes | 133 |
| U.S. Investment-Grade Bond Indexes 135, High-Yield Bond Indexes 135, Global Government Bond Indexes 135 | |
| Composite Stock-Bond Indexes | 137 |
| Comparison of Indexes over Time | 138 |
| Correlations between Monthly Equity Price Changes 138, Correlations between Monthly Bond Index Returns 139, Mean Annual Security Returns and Risk 139 | |
| Chapter 5 Appendix: Stock-Market Indexes | 144 |

PART 2 Developments in Investment Theory 147

CHAPTER 6

| | |
|---|-----|
| Efficient Capital Markets | 149 |
| Why Should Capital Markets Be Efficient? | 150 |
| Alternative Efficient Market Hypotheses | 151 |
| Weak-Form Efficient Market Hypothesis 151, Semistrong-Form Efficient Market Hypothesis 152, Strong-Form Efficient Market Hypothesis 152 | |
| Tests and Results of Efficient Market Hypotheses | 152 |
| Weak-Form Hypothesis: Tests and Results 152, Semistrong-Form Hypothesis: Tests and Results 155, Strong-Form Hypothesis: Tests and Results 165 | |
| Behavioral Finance | 169 |
| Explaining Biases 170, Fusion Investing 171 | |
| Implications of Efficient Capital Markets | 171 |
| Efficient Markets and Technical Analysis 171, Efficient Markets and Fundamental Analysis 172, Efficient Markets and Portfolio Management 174 | |

CHAPTER 7

| | |
|---|-----|
| An Introduction to Portfolio Management | 181 |
| Some Background Assumptions | 181 |
| Risk Aversion 182, Definition of Risk 182 | |
| Markowitz Portfolio Theory | 182 |
| Alternative Measures of Risk 183, Expected Rates of Return 183, Variance (Standard Deviation) of Returns for an Individual Investment 184, Variance (Standard Deviation) of Returns for a Portfolio 185, Standard Deviation of a Portfolio 190, A Three-Asset Portfolio 197, Estimation Issues 198, The Efficient Frontier 198, The Efficient Frontier and Investor Utility 200 | |
| Chapter 7 Appendix: | |
| A. Proof That Minimum Portfolio Variance Occurs with Equal Weights When Securities Have Equal Variance | 205 |
| B. Derivation of Weights That Will Give Zero Variance When Correlation Equals -1.00 | 205 |

CHAPTER 8

| | |
|--|-----|
| An Introduction to Asset Pricing Models | 207 |
| Capital Market Theory: An Overview | 207 |
| Background for Capital Market Theory 208, Developing the Capital Market Line 208, Risk, Diversification, and the Market Portfolio 212, Investing with the CML: An Example 215 | |
| The Capital Asset Pricing Model | 216 |
| A Conceptual Development of the CAPM 217, The Security Market Line 218 | |
| Relaxing the Assumptions | 225 |
| Differential Borrowing and Lending Rates 225, Zero-Beta Model 226, Transaction Costs 227, Heterogeneous Expectations and Planning Periods 228, Taxes 228 | |
| Additional Empirical Tests of the CAPM | 229 |
| Stability of Beta 229, Relationship between Systematic Risk and Return 229, Summary of CAPM Risk-Return Empirical Results 231 | |
| The Market Portfolio: Theory versus Practice | 232 |

CHAPTER 9

| | |
|--|-----|
| Multifactor Models of Risk and Return | 241 |
| Arbitrage Pricing Theory | 242 |
| Using the APT 244, Security Valuation with the APT: An Example 245, Empirical Tests of the APT 247 | |
| Multifactor Models and Risk Estimation | 250 |
| Multifactor Models in Practice 250, Estimating Risk in a Multifactor Setting: Examples 256 | |

PART 3 Valuation Principles and Practices 269

CHAPTER 10**Analysis of Financial Statements** 271**Major Financial Statements** 272

Generally Accepted Accounting Principles 272, Balance Sheet 273, Income Statement 273, Statement of Cash Flows 273, Measures of Cash Flow 275, Purpose of Financial Statement Analysis 277

Analysis of Financial Ratios 277

Importance of Relative Financial Ratios 278

Computation of Financial Ratios 279

Common Size Statements 279

Evaluating Internal Liquidity 279

Internal Liquidity Ratios 280, Inventory Turnover 283

Evaluating Operating Performance 284

Operating Efficiency Ratios 285, Operating Profitability Ratios 287

Risk Analysis 293

Business Risk 294, Financial Risk 295, External Market Liquidity Risk 303

Analysis of Growth Potential 304

Importance of Growth Analysis 304, Determinants of Growth 305

Comparative Analysis of Ratios 307

Internal Liquidity 307, Operating Performance 307, Risk Analysis 309, Growth Analysis 309

Analysis of Non-U.S. Financial Statements 309**The Quality of Financial Statements** 309

Balance Sheet 309, Income Statement 310, Footnotes 310

The Value of Financial Statement Analysis 310**Specific Uses of Financial Ratios** 311

Stock Valuation Models 311, Estimating the Ratings on Bonds 312, Predicting Insolvency (Bankruptcy) 313, Limitations of Financial Ratios 313

CHAPTER 11**An Introduction to Security Valuation** 327**An Overview of the Valuation Process** 329**Why a Three-Step Valuation Process?** 329

General Economic Influences 329, Industry Influences 331, Company Analysis 332, Does the Three-Step Process Work? 332

Theory of Valuation 333

Stream of Expected Returns (Cash Flows) 333, Required Rate of Return 333, Investment Decision Process: A Comparison of Estimated Values and Market Prices 334

Valuation of Alternative Investments 334

Valuation of Bonds 334, Valuation of Preferred Stock 335, Approaches to the Valuation of Common

Stock 336, Why and When to Use the Discounted Cash Flow Valuation Approach 337, Why and When to Use the Relative Valuation Techniques 338, Discounted Cash Flow Valuation Techniques 339, Infinite Period DDM and Growth Companies 343, Valuation with Temporary Supernormal Growth 344, Present Value of Operating Free Cash Flows 346, Present Value of Free Cash Flows to Equity 347

Relative Valuation Techniques 347

Earnings Multiplier Model 347, The Price/Cash Flow Ratio 350, The Price/Book Value Ratio 350, The Price/Sales Ratio 351, Implementing the Relative Valuation Technique 351

Estimating the Inputs: The Required Rate of Return and the Expected Growth Rate of Valuation Variables 352

Required Rate of Return (k) 352, Estimating the Required Return for Foreign Securities 354, Expected Growth Rates 356, Estimating Dividend Growth for Foreign Stocks 359

Chapter 11 Appendix: Derivation of Constant Growth Dividend Discount Model (DDM) 364

PART 4 Analysis and Management of Common Stocks 365

CHAPTER 12**Macroanalysis and Microvaluation of the Stock Market** 367**The Components of Market Analysis** 367**Macromarket Analysis** 368

Economic Activity and Security Markets 368, Economic Series and Stock Prices 369, The Cyclical Indicator Approach 369, Monetary Variables, the Economy, and Stock Prices 372, Money Supply and the Economy 372, Money Supply and Stock Prices 373, Monetary Policy and Stock Returns 373, Inflation, Interest Rates, and Security Prices 374, Analysis of World Security Markets 376

Microvaluation Analysis 377

Applying the DDM Valuation Model to the Market 377, Market Valuation Using the Free Cash Flow to Equity (FCFE) Model 384

Valuation Using the Earnings Multiplier Approach 387

Two-Part Valuation Procedure 387, Importance of Both Components of Value 387

Estimating Expected Earnings per Share 390

Estimating Gross Domestic Product 390, Estimating Sales per Share for a Market Series 391, Alternative Estimates of Corporate Net Profits 392, Estimating Aggregate Operating Profit Margin 393, Estimating Interest Expense 396,

| | |
|--|--|
| Estimating the Tax Rate 398, Calculating Earnings per Share: An Example 398 | |
| Estimating the Stock Market Earnings Multiplier 399 | |
| Determinants of the Earnings Multiplier 400, Estimating the Required Rate of Return (k) 400, Estimating the Growth Rate of Dividends (g) 400, Estimating the Dividend-Payout Ratio (D_1/E_1) 401, Estimating an Earnings Multiplier: An Example 402, Calculating an Estimate of the Value for the Market Series 405, Using Other Relative Valuation Ratios 406 | |
| Microvaluation of World Markets 408 | |
| CHAPTER 13 | |
| Industry Analysis 413 | |
| Why Do Industry Analysis? 414 | |
| Cross-Sectional Industry Performance 415, Industry Performance over Time 416, Performance of the Companies within an Industry 416, Differences in Industry Risk 416, Summary of Research on Industry Analysis 417, Industry Analysis Process 417 | |
| The Business Cycle and Industry Sectors 417 | |
| Inflation 419, Interest Rates 419, International Economics 419, Consumer Sentiment 419 | |
| Structural Economic Changes and Alternative Industries 420 | |
| Demographics 420, Lifestyles 420, Technology 420, Politics and Regulations 421 | |
| Evaluating the Industry Life Cycle 422 | |
| Analysis of Industry Competition 423 | |
| Competition and Expected Industry Returns 423 | |
| Estimating Industry Rates of Return 425 | |
| Valuation Using the Reduced Form DDM 426, Industry Valuation Using the Free Cash Flow to Equity (FCFE) Model 433 | |
| Industry Analysis Using the Relative Valuation Approach 435 | |
| The Earnings Multiple Technique 435 | |
| Other Relative Valuation Ratios 446 | |
| The Price/Book Value Ratio 446, The Price/Cash Flow Ratio 449, The Price/Sales Ratio 449, Summary of Industry/Market Ratios 451 | |
| Global Industry Analysis 451 | |
| Chapter 13 Appendix: | |
| A. Preparing an Industry Analysis: What Is an Industry? 455 | |
| B. Insights on Analyzing Industry ROAs 456 | |
| CHAPTER 14 | |
| Company Analysis and Stock Valuation 459 | |
| Company Analysis versus Stock Valuation 460 | |
| Growth Companies and Growth Stocks 460, Defensive Companies and Stocks 461, Cyclical Companies and | |
| Stocks 461, Speculative Companies and Stocks 462, Value versus Growth Investing 462 | |
| Economic, Industry, and Structural Links to Company Analysis 462 | |
| Economic and Industry Influences 462, Structural Influences 463 | |
| Company Analysis 463 | |
| Firm Competitive Strategies 464, Focusing a Strategy 465, SWOT Analysis 466, Some Lessons from Lynch 466, Tenets of Warren Buffett 467 | |
| Estimating Intrinsic Value 467 | |
| Present Value of Dividends 468, Present Value of Dividends Model (DDM) 471, Present Value of Free Cash Flow to Equity 472, Present Value of Operating Free Cash Flow 474, Relative Valuation Ratio Techniques 477 | |
| Estimating Company Earnings per Share 480 | |
| Company Sales Forecast 480, Estimating the Company Profit Margin 483 | |
| Walgreen Co.'s Competitive Strategies 483 | |
| The Internal Performance 483, Importance of Quarterly Estimates 485 | |
| Estimating Company Earnings Multipliers 487 | |
| Macroanalysis of the Earnings Multiple 487, Microanalysis of the Earnings Multiplier 488, Making the Investment Decision 492 | |
| Additional Measures of Relative Value 494 | |
| Price/Book Value (P/BV) Ratio 494, Price/Cash Flow (P/CF) Ratio 496, Prices/Sales (P/S) Ratio 497, Summary of Relative Valuation Ratios 499 | |
| Analysis of Growth Companies 499 | |
| Growth Company Defined 500, Actual Returns above Required Returns 500, Growth Companies and Growth Stocks 500, Alternative Growth Models 501, No-Growth Firm 501, Long-Run Growth Models 501, The Real World 504 | |
| Measures of Value Added 504 | |
| Economic Value Added (EVA) 505, Market Value Added (MVA) 507, Relationships between EVA and MVA 507, The Franchise Factor 507, Growth Duration Model 508 | |
| Site Visits and the Art of the Interview 512 | |
| When to Sell 512 | |
| Influences on Analysts 513 | |
| Efficient Markets 513, Paralysis of Analysis 514, Analyst Conflicts of Interest 514 | |
| Global Company and Stock Analysis 514 | |
| Availability of Data 514, Differential Accounting Conventions 515, Currency Differences (Exchange Rate Risk) 515, Political (Country) Risk 515, Transaction Costs and Liquidity 515, Valuation Differences 515, Summary 515 | |

CHAPTER 15

Technical Analysis 525

Underlying Assumptions of Technical Analysis 526

Advantages of Technical Analysis 527

Challenges to Technical Analysis 528
 Challenges to the Assumptions of Technical Analysis 528,
 Challenges to Technical Trading Rules 529

Technical Trading Rules and Indicators 529
 Contrary-Opinion Rules 530, Follow the Smart Money
 532, Momentum Indicators 533, Stock Price and Volume
 Techniques 534

Technical Analysis of Foreign Markets 541
 Foreign Stock Market Indexes 541, Technical Analysis of
 Foreign Exchange Rates 542

Technical Analysis of Bond Markets 542

CHAPTER 16

Equity Portfolio Management Strategies 549

Passive versus Active Management 550

**An Overview of Passive Equity Portfolio Management
 Strategies** 551
 Index Portfolio Construction Techniques 552, Tracking
 Error and Index Portfolio Construction 553, Methods of
 Index Portfolio Investing 555

**An Overview of Active Equity Portfolio Management
 Strategies** 558
 Fundamental Strategies 559, Technical Strategies 562,
 Anomalies and Attributes 563, Forming Momentum-
 Based Stock Portfolios: Two Examples 565, Tax Efficiency
 and Active Equity Management 568

Value versus Growth Investing: A Closer Look 569

An Overview of Style Analysis 573

Asset Allocation Strategies 577
 Integrated Asset Allocation 578, Strategic Asset Allocation
 580, Tactical Asset Allocation 581, Insured Asset
 Allocation 582, Selecting an Active Allocation
 Method 583

**PART 5 Analysis and Management of
 Bonds 589**

CHAPTER 17

Bond Fundamentals 591

Basic Features of a Bond 591
 Bond Characteristics 592, Rates of Return on Bonds 594

The Global Bond Market Structure 594
 Participating Issuers 595, Participating Investors 597,
 Bond Ratings 597

Alternative Bond Issues 598

Domestic Government Bonds 599, Government Agency
 Issues 602, Municipal Bonds 604, Corporate Bonds 606,
 International Bonds 613

Obtaining Information on Bond Prices 614

Interpreting Bond Quotes 615

CHAPTER 18

The Analysis and Valuation of Bonds 623

The Fundamentals of Bond Valuation 624
 The Present Value Model 624, The Yield Model 626

Computing Bond Yields 627
 Nominal Yield 627, Current Yield 628, Promised Yield to
 Maturity 628, Promised Yield to Call 630, Realized
 (Horizon) Yield 631

Calculating Future Bond Prices 632
 Realized (Horizon) Yield with Differential Reinvestment
 Rates 633, Price and Yield Determination on Noninterest
 Dates 635, Yield Adjustments for Tax-Exempt Bonds 635,
 Bond Yield Books 636

Bond Valuation Using Spot Rates 636

What Determines Interest Rates? 638
 Forecasting Interest Rates 639, Fundamental
 Determinants of Interest Rates 640, The Term Structure
 of Interest Rates 643

**Calculating Forward Rates from the Spot Rate
 Curve** 647

Term Structure Theories 650
 Expectations Hypothesis 650, Liquidity Preference (Term
 Premium) Hypothesis 652, Segmented Market Hypothesis
 652, Trading Implications of the Term Structure 653,
 Yield Spreads 653

What Determines the Price Volatility for Bonds? 654
 Trading Strategies 657, Duration Measures 657, Modified
 Duration and Bond Price Volatility 661, Bond Convexity
 662, Duration and Convexity for Callable Bonds 667,
 Limitations of Macaulay and Modified Duration 670

Yield Spreads with Embedded Options 678
 Static Yield Spreads 678, Option-Adjusted Spread 679

CHAPTER 19

Bond Portfolio Management Strategies 691

Bond Portfolio Performance, Style, and Strategy 691

Passive Management Strategies 694
 Buy-and-Hold Strategy 694, Indexing Strategy 695, Bond
 Indexing in Practice: An Example 696

Active Management Strategies 697
 Interest Rate Anticipation 698, Valuation Analysis 700,
 Credit Analysis 700, Yield Spread Analysis 705,

Implementing an Active Bond Transaction 705, Active Global Bond Investing: An Example 709

Core-Plus Management Strategies 711

Matched-Funding Management Strategies 713

Dedicated Portfolios 713, Immunization Strategies 715, Horizon Matching 723

Contingent and Structured Management Strategies 724

Contingent Immunization 724

Chapter 19 Appendix: Bond Immunization and Portfolio Rebalancing 737

PART 6 Derivative Security Analysis 739

CHAPTER 20

An Introduction to Derivative Markets and Securities 741

Overview of Derivative Markets 742

The Language and Structure of Forward and Futures Markets 743, Interpreting Futures Price Quotations: An Example 744, The Language and Structure of Option Markets 747, Interpreting Option Price Quotations: An Example 748

Investing with Derivative Securities 750

The Basic Nature of Derivative Investing 750, Basic Payoff and Profit Diagrams for Forward Contracts 754, Basic Payoff and Profit Diagrams for Call and Put Options 755, Option Profit Diagrams: An Example 758

The Relationship between Forward and Option Contracts 760

Put-Call-Spot Parity 760, Put-Call Parity: An Example 762, Creating Synthetic Securities Using Put-Call Parity 763, Adjusting Put-Call-Spot Parity for Dividends 764, Put-Call-Forward Parity 765

An Introduction to the Use of Derivatives in Portfolio Management 767

Restructuring Asset Portfolios with Forward Contracts 767, Protecting Portfolio Value with Put Options 768, An Alternative Way to Pay for a Protective Put 771

CHAPTER 21

Forward and Futures Contracts 781

An Overview of Forward and Futures Trading 782

Futures Contract Mechanics 783, Comparing Forward and Futures Contracts 785

Hedging with Forwards and Futures 786

Hedging and the Basis 786, Understanding Basis Risk 787, Calculating the Optimal Hedge Ratio 787

Forward and Futures Contracts: Basic Valuation

Concepts 788

Valuing Forwards and Futures 789, The Relationship between Spot and Forward Prices 790

Financial Forwards and Futures: Applications and Strategies 791

Interest Rate Forwards and Futures 792, Long-Term Interest Rate Futures 792, Short-Term Interest Rate Futures 796, Stock Index Futures 800, Currency Forwards and Futures 806

Chapter 21 Appendix:

A. A Closed-Form Equation for Calculating Duration 819

B. Calculating Money Market Implied Forward Rates 820

CHAPTER 22

Option Contracts 821

An Overview of Option Markets and Contracts 822

Option Market Conventions 822, Price Quotations for Exchange-Traded Options 823

The Fundamentals of Option Valuation 830

The Basic Approach 831, Improving Forecast Accuracy 832, The Binomial Option Pricing Model 837, The Black-Scholes Valuation Model 839, Estimating Volatility 842, Problems with Black-Scholes Valuation 844

Option Valuation: Extensions and Advanced Topics 845

Valuing European-Style Put Options 845, Valuing Options on Dividend-Bearing Securities 845, Valuing American-Style Options 847, Other Extensions of the Black-Scholes Model 848

Option Trading Strategies 850

Protective Put Options 850, Covered Call Options 852, Straddles, Strips, and Straps 853, Strangles 855, Chooser Options 856, Spreads 857, Range Forwards 859

CHAPTER 23

Swap Contracts, Convertible Securities, and Other Embedded Derivatives 867

OTC Interest Rate Agreements 868

Forward-Based Interest Rate Contracts 868, Option-Based Interest Rate Contracts 875

Swap Contracting Extensions 878

Equity Index-Linked Swaps 878, Credit-Related Swaps 879

Warrants and Convertible Securities 883

Warrants 883, Convertible Securities 885, Convertible Preferred Stock 885, Convertible Bonds 886

Other Embedded Derivatives 890
 Dual Currency Bonds 891, Equity-Index Linked Notes
 892, Commodity-Linked Bull and Bear Bonds 894, Swap-
 Linked Notes 896

**Valuing Flexibility: An Introduction to Real
 Options** 898
 Company Valuation with Real Options 899

**PART 7 Specification and Evaluation of
 Asset Management** 909

CHAPTER 24
**Professional Money Management, Alternative
 Assets, and Industry Ethics** 911

**The Asset Management Industry: Structure and
 Evolution** 912

Private Management and Advisory Firms 916
 Investment Strategy at a Private Money Management
 Firm 918

**Organization and Management of Investment
 Companies** 919
 Valuing Investment Company Shares 919, Closed-End
 versus Open-End Investment Companies 920,
 Fund Management Fees 923, Investment Company
 Portfolio Objectives 923, Breakdown by Fund
 Characteristics 924, Global Investment Companies 927,
 Mutual Fund Organization and Strategy:
 An Example 927

Investing in Alternative Asset Classes 929
 Hedge Funds 931, Characteristics of a Hedge Fund 932,
 Hedge Fund Strategies 933, Risk Arbitrage Investing: A
 Closer Look 935, Hedge Fund Performance 936, Private
 Equity 938

**Ethics and Regulation in the Professional Asset
 Management Industry** 946
 Regulation in the Asset Management Industry 946,
 Standards for Ethical Behavior 948, Examples of Ethical
 Conflicts 949

**What Do You Want from a Professional Asset
 Manager?** 950

CHAPTER 25
Evaluation of Portfolio Performance 959

What Is Required of a Portfolio Manager? 960

Early Performance Measurement Techniques 961
 Portfolio Evaluation before 1960 961, Peer Group
 Comparisons 961

Composite Portfolio Performance Measures 961
 Treynor Portfolio Performance Measure 963, Sharpe
 Portfolio Performance Measure 965, Jensen Portfolio
 Performance Measure 967, The Information Ratio
 Performance Measure 968, Comparing the Composite
 Performance Measures 970

Application of Portfolio Performance Measures 972

Portfolio Performance Evaluation: Some Extensions 978
 Components of Investment Performance 978,
 Performance Measurement with Downside Risk 980,
 Holdings-Based Performance Measurement 982,
 Performance Attribution Analysis 986, Measuring Market
 Timing Skills 989

Factors That Affect Use of Performance Measures 990
 Demonstration of the Global Benchmark Problem 990,
 Implications of the Benchmark Problems 992, Required
 Characteristics of Benchmarks 992
