Brief contents

<i>About the authors</i>	v
<i>Preface</i>	xv
<i>Publisher's acknowledgements</i>	xxii

Part A BUSINESS AND ECONOMICS

1	The business environment and business economics	4
2	Economics and the world of business	16
3	Business organisations	27

Part B BUSINESS AND MARKETS

4	The working of competitive markets	44
5	Business in a market environment	64

Part C BACKGROUND TO DEMAND

6	Demand and the consumer	88
7	Behavioural economics of the consumer	111
8	Firms and the consumer	125

Part D BACKGROUND TO SUPPLY

9	Costs of production	146
10	Revenue and profit	167

Part E SUPPLY: SHORT-RUN DECISION MAKING BY FIRMS

11	Profit maximisation under perfect competition and monopoly	182
12	Profit maximisation under imperfect competition	202
13	Alternative theories of the firm	225

Part F SUPPLY: ALTERNATIVE STRATEGIES

14	An introduction to business strategy	242
15	Growth strategy	257
16	The small-firm sector	277
17	Pricing strategy	290

Part G THE FIRM IN THE FACTOR MARKET

18	Labour markets, wages and industrial relations	314
19	Investment and the employment of capital	340

Part H THE RELATIONSHIP BETWEEN GOVERNMENT AND BUSINESS

20	Reasons for government intervention in the market	364
21	Government and the firm	390
22	Government and the market	410

Part I BUSINESS IN THE INTERNATIONAL ENVIRONMENT

23	Globalisation and multinational business	443
24	International trade	465
25	Trading blocs	482

Part J THE MACROECONOMIC ENVIRONMENT

26	The macroeconomic environment of business	499
27	The balance of payments and exchange rates	537
28	The financial system, money and interest rates	555
29	Business activity, unemployment and inflation	590

Part K MACROECONOMIC POLICY

30	Demand-side policy	626
31	Supply-side policy	651
32	International economic policy	671

	<i>Web appendix</i>	<i>W:1</i>
	<i>Key ideas</i>	<i>K:1</i>
	<i>Glossary</i>	<i>G:1</i>
	<i>Index</i>	<i>I:1</i>

Detailed contents

<i>About the authors</i>	v

Part A BUSINESS AND ECONOMICS

1 The business environment and business economics	4
1.1 The business environment	5
1.2 The structure of industry	11
1.3 The determinants of business performance	14
Box 1.1 A Lidl success story	6
Box 1.2 The biotechnology industry	9
Summary	15
Review questions	15
2 Economics and the world of business	16
2.1 What do economists study?	16
2.2 Business economics: microeconomic choices	18
2.3 Business economics: the macroeconomic environment	22
2.4 Techniques of economic analysis	25
Box 2.1 What, how and for whom	20
Box 2.2 The opportunity costs of studying economics	22
Box 2.3 Looking at macroeconomic data	24
Summary	25
Review questions	26
3 Business organisations	27
3.1 The nature of firms	27
3.2 The firm as a legal entity	30
3.3 The internal organisation of the firm	33
Box 3.1 Exploiting asymmetric information	31
Box 3.2 Managers, pay and performance	34
Box 3.3 The changing nature of business	38
Summary	39
Review questions	39
Additional Part A case studies on the <i>Economics for Business</i> student website	40
Websites relevant to Part A	40

Part B BUSINESS AND MARKETS

4 The working of competitive markets	44
4.1 Business in a competitive market	44
4.2 Demand	47
4.3 Supply	50
4.4 Price and output determination	53
Box 4.1 UK house prices	55
Box 4.2 Stock market prices	58
Box 4.3 Controlling prices	60
Summary	62
Review questions	62
5 Business in a market environment	64
5.1 Price elasticity of demand	65
5.2 The importance of price elasticity of demand to business decision making	67
5.3 Other elasticities	70
5.4 The time dimension of market adjustment	74
5.5 Dealing with uncertainty	79
Box 5.1 The measurement of elasticity	69
Box 5.2 Elasticity and the incidence of tax	72
Box 5.3 Adjusting to oil price shocks	76
Box 5.4 Bubble, bubble, toil and trouble	80
Summary	83
Review questions	84
Additional Part B case studies on the <i>Economics for Business</i> student website	84
Websites relevant to Part B	85

Part C BACKGROUND TO DEMAND

6 Demand and the consumer	88
6.1 Marginal utility theory	89
6.2 Demand under conditions of risk and uncertainty	93
6.3 The characteristics approach to analysing consumer demand	103
Box 6.1 Calculating consumer surplus	91
Box 6.2 The marginal utility revolution: Jevons, Menger, Walras	92

x DETAILED CONTENTS

Box 6.3 Adverse selection in the insurance market	100
Box 6.4 Dealing with moral hazard and adverse selection	101
Summary	108
Review questions	109
7 Behavioural economics of the consumer	111
7.1 How does behavioural economics differ from standard theory?	111
7.2 Framing and the reference point for decisions	115
7.3 Caring about the pay-offs to others	120
7.4 Government policy to influence behaviour	122
Box 7.1 Choice overload	114
Box 7.2 The endowment effect	116
Box 7.3 The best made plans	118
Box 7.4 A simple experiment to test for social preferences	121
Summary	123
Review questions	124
8 Firms and the consumer	125
8.1 Estimating demand functions	126
8.2 Forecasting demand	129
8.3 Product differentiation	132
8.4 Marketing the product	133
8.5 Advertising	137
Box 8.1 The battle of the brands	134
Box 8.2 The use of social media	140
Summary	141
Review questions	141
Additional Part C case studies on the <i>Economics for Business</i> student website	142
Websites relevant to Part C	142
9 Costs of production	146
9.1 The meaning of costs	146
9.2 Production in the short run	147
9.3 Costs in the short run	151
9.4 Production in the long run	155
9.5 Costs in the long run	161
Box 9.1 Should we ignore sunk costs?	148
Box 9.2 How vulnerable are you?	154
Box 9.3 Lights, camera, action	158
Box 9.4 Minimum efficient scale	162
Box 9.5 Fashion cycles	164
Summary	165
Review questions	166
10 Revenue and profit	167
10.1 Revenue	167
10.2 Profit maximisation	172

Part D BACKGROUND TO SUPPLY

Box 10.1 Costs, revenue and profits	171
Box 10.2 Selling ice cream when I was a student	174
Box 10.3 Monarch's turbulence	175
Summary	177
Review questions	177
Additional Part D case studies on the <i>Economics for Business</i> student website	178
Websites relevant to Part D	178

Part E

SUPPLY: SHORT-RUN DECISION MAKING BY FIRMS

11 Profit maximisation under perfect competition and monopoly	182
11.1 Alternative market structures	182
11.2 Perfect competition	187
11.3 Monopoly	191
11.4 Potential competition or potential monopoly? The theory of contestable markets	196
Box 11.1 A fast food race to the bottom	186
Box 11.2 E-commerce	192
Box 11.3 Premier league football: the Sky is the limit	197
Box 11.4 'It could be you'	198
Summary	200
Review questions	200
12 Profit maximisation under imperfect competition	202
12.1 Monopolistic competition	202
12.2 Oligopoly	205
12.3 Game theory	216
Box 12.1 OPEC	208
Box 12.2 Oligopoly and oligopsony	212
Box 12.3 The prisoners' dilemma	218
Box 12.4 The Hunger Games	222
Summary	222
Review questions	223
13 Alternative theories of the firm	225
13.1 Problems with traditional theory	225
13.2 Behavioural economics of the firm	227
13.3 Alternative maximising theories	228
13.4 Multiple aims	234
Box 13.1 How firms increase profits by understanding 'irrational' consumers	229
Box 13.2 In search of long-run profits	231
Box 13.3 Stakeholder power	235
Summary	236
Review questions	237
Additional Part E case studies on the <i>Economics for Business</i> student website	237
Websites relevant to Part E	238

Part F SUPPLY: ALTERNATIVE STRATEGIES

14 An introduction to business strategy	242
14.1 What is strategy?	243
14.2 Strategic analysis	246
14.3 Strategic choice	251
14.4 Business strategy in a global economy	253
14.5 Strategy: evaluation and implementation	255
Box 14.1 Business strategy the Samsung way	244
Box 14.2 Hybrid strategy	253
Summary	256
Review questions	256
15 Growth strategy	257
15.1 Growth and profitability	257
15.2 Constraints on growth	258
15.3 Alternative growth strategies	260
15.4 Internal growth	261
15.5 External growth through merger	264
15.6 External growth through strategic alliance	269
15.7 Explaining external firm growth: a transaction costs approach	271
Box 15.1 Global merger activity	266
Box 15.2 How many firms does it take to make an iPhone?	272
Box 15.3 The day the world stopped	274
Summary	276
Review questions	276
16 The small-firm sector	277
16.1 Defining the small-firm sector	277
16.2 The survival, growth and failure of small businesses	282
16.3 Government assistance and the small firm	286
Box 16.1 Capturing global entrepreneurial spirit	280
Box 16.2 Hotel Chocolat	285
Summary	289
Review questions	289
17 Pricing strategy	290
17.1 Pricing and market structure	291
17.2 Alternative pricing strategies	292
17.3 Price discrimination	294
17.4 Multiple product pricing	304
17.5 Transfer pricing	305
17.6 Pricing and the product life cycle	307
Box 17.1 Online personalised pricing	296
Box 17.2 A quantity discount pricing strategy	300
Box 17.3 Selling goods separately or together? The impact of bundling	306
Summary	309
Review questions	309
Additional Part F case studies on the <i>Economics For Business</i> student website	310
Websites Relevant to Part F	310

Part G THE FIRM IN THE FACTOR MARKET

18 Labour markets, wages and industrial relations	314
18.1 Market-determined wage rates and employment	314
18.2 Power in the labour market	319
18.3 Low pay and discrimination	326
18.4 The flexible firm and the market for labour	334
Box 18.1 What do post, airlines, bins, buses and universities have in common?	324
Box 18.2 UK tax credits	330
Box 18.3 New ways of working	336
Summary	338
Review questions	339
19 Investment and the employment of capital	340
19.1 The pricing of capital and capital services	340
19.2 The demand for and supply of capital services	342
19.3 Investment appraisal	344
19.4 Financing investment	349
19.5 The stock market	356
Box 19.1 Investing in roads	346
Box 19.2 The ratios to measure success	350
Box 19.3 Financing innovation	354
Summary	359
Review questions	359
Additional Part G case studies on the <i>Economics for Business</i> student website	360
Websites relevant to Part G	360

Part H THE RELATIONSHIP BETWEEN GOVERNMENT AND BUSINESS

20 Reasons for government intervention in the market	364
20.1 Markets and the role of government	364
20.2 Types of market failure	365
20.3 Government intervention in the market	376
20.4 The case for less government intervention	381
20.5 Firms and social responsibility	382
Box 20.1 Can the market provide adequate protection for the environment?	370
Box 20.2 A commons solution	375
Box 20.3 Deadweight loss from taxes on goods and services	379
Box 20.4 The body shop	387
Summary	388
Review questions	389
21 Government and the firm	390
21.1 Competition policy	390
21.2 Policies towards research and development (R&D)	399

xii DETAILED CONTENTS

21.3 Policies towards training	401
Box 21.1 Expensive chips or are they?	395
Box 21.2 The R&D scoreboard	402
Box 21.3 The apprenticeship levy	408
Summary	409
Review questions	409
22 Government and the market	410
22.1 Environmental policy	410
22.2 Transport policy	423
22.3 Privatisation and regulation	430
Box 22.1 A stern rebuke about climate change inaction	412
Box 22.2 Trading our way out of climate change	418
Box 22.3 Road pricing in Singapore	429
Box 22.4 The right track to reform?	432
Summary	436
Review questions	437
Additional Part H case studies on the <i>Economics</i> for <i>Business</i> student website	438
Websites relevant to Part H	438

Part I

BUSINESS IN THE INTERNATIONAL ENVIRONMENT

23 Globalisation and multinational business	443
23.1 Globalisation: setting the scene	443
23.2 What is a multinational corporation?	446
23.3 Trends in multinational investment	448
23.4 Why do businesses go multinational?	453
23.5 The advantages of MNC investment for the host state	457
23.6 The disadvantages of MNC investment for the host state	459
