MULTIMODAL TRANSPORTATION SYSTEMS: MODELLING CHALLENGES

REEM FAWZY MAHROUS
February, 2012

SUPERVISORS:
Ir. M.J.G. Brussel
Ing. F.H.M. van den Bosch

TABLE OF CONTENTS

Abstract i
Acknowledgements ii
Table of contents iii
List of figures v
List of tables vii
1. Introduction 1
1.1. Background and Rational 1
1.1.1. Multimodal transportation systems 1
1.1.2. The need for modelling movements in a multi modal transportation system 2
1.1.3. GIS and transportation modelling 2
1.2. Research problem 3
1.3. Research objectives 3
1.3.1. Aim 3
1.3.2. Sub objectives 3
1.4. Research questions 3
1.5. Conceptual framework 4
1.6. Operational plan and research design 5
2. Modelling multimodal transport and GIS 7
2.1. Introduction 7
2.2. Transportation systems 7
2.2.1. Components 7
2.2.1.1. Modes of transport 8
2.2.1.2. Infrastructure 8
2.2.1.3. Multimodal trips 8
2.2.1.4. Transfer or mode switching action 9
2.3. The need to model multimodal transportation systems 9
2.4. GIS in multimodal transportation systems modelling 10
2.4.1. GIS as a suitable platform to model multimodal transport system 10
2.4.2. GIS Network data models 10
2.4.3. Challenges in modelling multimodal systems 12
2.5. Different approaches of modelling mutlimodal transport system using GIS 13
3. Methodology and modelling concept 19
3.1. Introduction 19
3.2. Modes 20
3.2.1. Walking 21
3.2.2. Bus 21
3.2.3. Cycling 22
3.2.4. Train 22
3.3. Transfer 22
3.3.1. Case1: from walking to bus 23
3.3.2. Case2: from walking to train 23
3.3.3. Case3 & 11: Walking /bicycle 24
3.3.4. Case 4: From bus to walking 24
3.3.5. Case5: from bus to bus 24
3.3.6. Case6: from bus to train 25

3.3.7. Case7: from bus to bicycle 25
3.3.8. Case 8: from train to walking 26
3.3.9. Case 9: from train to bus 26
3.3.10. Case10: from train to bicycle 26
3.3.11. Case 12: from bicycle to bus 27
3.3.12. Case 13: from bicycle to train 27
3.4. Data preparation (Model requirement Vs existing data) 28
3.4.1. Pedestrian 28
3.4.2. Bus 29
3.4.3. Cycling 33
3.4.4. Train 35
3.5. Automating the data preparation process 37
3.6. Building the multimodal network: 37
4. Implementation 40
4.1. Available data and data preparation 40
4.1.1. Phase 1 40
4.1.2. Phase 2 47
4.2. Building the network 51
5. Results 55
6. conclusion and recommendation 61
