5	E-business strategy	255
6	Supply chain management	330
7	E-procurement	380
8	E-marketing	412
9	Customer relationship management	481

Part 3

Implementation

559

10	Change management	560
11	Analysis and design	604
12	Implementation and maintenance	680
	Glossary	736
	Index	754

Contents

Preface	xiii	Introduction	52
Guided tour	xxiv	<i>Real-world E-Business: More Than</i>	53
About the author	xxvi	The e-commerce environment	57
Author's acknowledgements	xxvii	Strategic agility	57
Publisher's acknowledgements	xxvii	Online marketplace analysis	59
		Location of trading in the marketplace	67
		The importance of multi-channel marketplace models	70
		Different types of online intermediary	71
		Types of intermediaries	74
		The importance of search engines	76
		Business models for e-commerce	77
		Revenue models	79
		Online publisher and intermediary revenue models	80
		<i>Focus on auction business models</i>	86
		Case Study 2.1 The impact of B2B reverse auctions	87
		<i>Focus on Internet start-up companies</i>	88
		From 'bricks and mortar' to 'clicks and mortar'	88
		Assessing e-businesses	89
		Valuing Internet start-ups	89
		Case Study 2.2 lastminute.com – an international dot-com survivor	91
		The dot-com bubble bursts	93
		Why dot-coms failed	93
		The impact of the dot-com phenomenon on traditional organizations	95
		Case Study 2.3 Zopa launches a new lending model	95
		Summary	98
		Exercises	99
		References	100
		Further reading	101
		Web links	101
		3 E-business infrastructure	103
		<i>Learning outcomes / Management issues</i>	103
		<i>Links to other chapters</i>	103
		Introduction	104
		E-business infrastructure components	105
		<i>Real-world E-Business: Random House</i>	107
		Internet technology	109
		Hosting of web sites and e-business services	110
		The Internet timeline	111
		Just how big is the Internet?	114
		Case Study 3.1 Innovation at Google	115
		Intranets and extranets	116
		Web technology	124
		Internet-access software applications	128
		Blogs and blogging	129
		Electronic mail or e-mail	131
		Feeds	132
		Voice over IP (VoIP)	134
Part 1			
Introduction	1		
1 Introduction to e-business and e-commerce	3		
<i>Learning outcomes / Management issues</i>	3

2 E-commerce fundamentals	51		
<i>Learning outcomes / Management issues</i>	51		
<i>Links to other chapters</i>	51		

How does it work? Internet standards	136
Networking standards	136
The HTTP protocol	138
Uniform resource locators (URLs)	139
Domain names	139
Web presentation and data exchange standards	141
Audio and video standards	152
Focus on Internet governance	152
Managing e-business infrastructure	158
Managing hardware and systems software infrastructure	159
Managing Internet service and hosting providers	160
Managing employee access to the Internet and e-mail	165
Managing e-business applications infrastructure	165
Focus on web services, SaaS and service-oriented architecture (SOA)	168
Benefits of web services or SaaS	168
Challenges of deploying SaaS	169
Case Study 3.2 New architecture or just new hype?	174
EDI	176
Focus on mobile commerce	177
Wireless Internet access standards	178
Wireless access devices	179
Popularity of mobile applications	179
Summary	186
Exercises	187
References	188
Further reading	190
Web links	190
4 E-environment	192
<i>Learning outcomes / Management issues</i>	192
<i>Links to other chapters</i>	192
Introduction	193
<i>Real-world E-Business: GD Worldwide</i>	196
Social and legal factors	198
Factors governing e-commerce service adoption	198
Privacy and trust in e-commerce	209
Other e-commerce legislation	222
Environmental and green issues related to Internet usage	227
Taxation	229
Freedom-restrictive legislation	231
Economic and competitive factors	232
Focus on e-commerce and globalization	233
Case Study 4.1 The implications of globalization for consumer attitudes	235
The implications of e-commerce for international B2B trading	236
Political factors	238
Internet governance	239
E-government	240
Technological innovation and technology assessment	241
Approaches to identifying emerging technology	244
Summary	246
Exercises	246
References	247

Part 2

Strategy and applications

253

5 E-business strategy	255
<i>Learning outcomes / Management issues</i>	255
<i>Links to other chapters</i>	255
Introduction	256
<i>Real-world E-Business: Standard Life</i>	256
What is e-business strategy?	259
The imperative for e-business strategy	261
E-channel strategies	262
Strategy process models for e-business	264
Strategic analysis	269
Resource and process analysis	269
Competitive environment analysis	276
Assessing competitive threats	276
Co-opetion	281
Competitor analysis	281
Strategic objectives	281
Defining vision and mission	282
How can e-business create business value?	285
Case Study 5.1 Capital One creates value through e-business	286
Objective setting	287
Case Study 5.2 Setting the Internet revenue contribution at Sandvik Steel	292
Strategy definition	295
Decision 1: E-business channel priorities	298
Decision 2: Market and product development strategies	300
Decision 3: Positioning and differentiation strategies	303
Decision 4: Business, service and revenue models	306
Decision 5: Marketplace restructuring	308
Decision 6: Supply-chain management capabilities	309
Decision 7: Internal knowledge management capabilities	310
Decision 8: Organizational resourcing and capabilities	310
Strategy implementation	313
Failed e-business strategies	314
E-business strategy implementation success factors for SMEs	315
Case Study 5.3 Boo hoo – learning from the largest European dot-com failure	316
Focus on information systems strategy and e-business strategy	319
Elements of IS strategy	320
Investment appraisal	320
Summary	324
Exercises	325
References	326
Further reading	328
Web links	329

6 Supply chain management	330	Organizational risks	393
<i>Learning outcomes / Management issues</i>	330	Failure to achieve real cost reductions	393
<i>Links to other chapters</i>	330	Technology risks	394
Introduction	331	Implementing e-procurement	394
Problems of supply chain management	334	The growth in adoption of web-enabled e-procurement	396
What is supply chain management?	335	Integrating company systems with supplier systems	397
Using technology to support supply chain management – an example	337	<i>Focus on</i> electronic B2B marketplaces	400
A simple model of a supply chain	340	Case Study 7.2 Covisint – a typical history of a B2B marketplace?	403
Case Study 6.1 Shell chemicals redefines its customers' supply chains	341	Types of marketplace	405
What is logistics?	345	The future of e-procurement?	407
Push and pull supply chain models	347	Summary	407
<i>Focus on</i> the value chain	348	<i>Exercises</i>	408
Restructuring the internal value chain	350	<i>References</i>	409
The value stream	351	<i>Further reading</i>	410
Value chain analysis	351	<i>Web links</i>	410
Value networks	352		
Towards the virtual organization	354		
Options for restructuring the supply chain	356	8 E-marketing	412
Using e-business to restructure the supply chain	358	<i>Learning outcomes / Management issues</i>	412
Technology options and standards for supply chain management	359	<i>Links to other chapters</i>	412
Adoption rates of e-business applications	360	Introduction	413
Case Study 6.2 Tesco develops a buy-side e-commerce system for supply chain management	363	Chapter structure	414
IS-supported downstream supply chain management	365	<i>Real-world E-Business: Guess</i>	415
Outbound logistics management	365	What is e-marketing?	416
IS infrastructure for supply chain management	366	Marketing defined	416
Supply chain management implementation	368	E-marketing defined	417
Data standardization and exchange	368	Distinguishing between e-marketing, e-business and e-commerce	417
Human resources requirements of SCM	369	E-marketing planning	418
The supply chain management strategy process	371	Is a separate e-marketing plan required?	418
Managing partnerships	372	Situation analysis	420
Managing global distribution	374	Demand analysis	421
Case Study 6.3 RFID: keeping track starts its move to a faster track	374	Competitor analysis	425
Summary	375	Intermediary analysis	427
<i>Exercises</i>	376	Internal marketing audit	428
<i>References</i>	377	Objective setting	428
<i>Further reading</i>	379	Case Study 8.1 The e-evolution of easyJet's online revenue contribution	431
<i>Web links</i>	379	Strategy	433
		Market and product positioning	436
		Target market strategies	437
		<i>Focus on</i> characteristics of new-media marketing communications	443
7 E-procurement	380	Tactics	448
<i>Learning outcomes / Management issues</i>	380	Product	451
<i>Links to other chapters</i>	380	Case Study 8.2 Dell gets closer to its customers online	453
Introduction	381	Price	456
What is e-procurement?	381	Place	460
Understanding the procurement process	384	Promotion	462
Types of procurement	385	People, Process and Physical evidence	464
Participants in online procurement	386	<i>Focus on</i> online branding	464
Drivers of e-procurement	387	The importance of brand online	467
Case Study 7.1 Cambridge Consultants reduce costs through e-procurement	388	Actions	469
<i>Focus on</i> estimating e-procurement cost	390	Control	470
The impact of cost savings on profitability	391	Case Study 8.3 The new Napster changes the music marketing mix	471
Risks and impacts of e-procurement	392		

Summary	475
<i>Exercises</i>	476
<i>References</i>	477
<i>Further reading</i>	479
<i>Web links</i>	480

9 Customer relationship management	481
<i>Learning outcomes / Management issues</i>	481
<i>Links to other chapters</i>	481
Introduction	482
Marketing applications of CRM	483
<i>Real-world E-Business: Warner Breaks</i>	484
What is e-CRM?	486
Benefits of e-CRM	487
Permission marketing	488
Customer profiling	490
Conversion marketing	491
The online buying process	492
Differences in buyer behaviour in target markets	493
Differences between B2C and B2B buyer behaviour	493
The net promoter score	495
Customer acquisition management	498
<i>Focus on marketing communications for customer acquisition</i>	498
The characteristics of interactive marketing communications	499
Assessing marketing communications effectiveness	502
Online marketing communications	503
Customer retention management	526
Personalization and mass customization	528
Online communities	530
Techniques for managing customer activity and value	533
Lifetime value modelling	534
<i>Focus on excelling in e-commerce service quality</i>	536
Improving online service quality	536
Customer extension	539
Advanced online segmentation and targeting techniques	540
Technology solutions for CRM	546
Types of CRM applications	547
Integration with back-office systems	547
The choice of single-vendor solutions or a more fragmented choice	548
Data quality	549
Case Study 9.1 Tesco.com increases product range and uses triggered communications to support CRM	549
Summary	552
<i>Exercises</i>	552
<i>References</i>	553
<i>Further reading</i>	556
<i>Web links</i>	557

Part 3

Implementation

559

10 Change management	560
<i>Learning outcomes / Management issues</i>	560
<i>Links to other chapters</i>	560
Introduction	561
The challenges of e-business transformation	561
The challenges of sell-side e-commerce implementation	563
Different types of change in business	566
Case Study 10.1 Process management: making complex business simpler	570
Planning change	572
The imperative for project governance?	572
The project plan and schedule for an e-business system	574
Prototyping	576
Human resource requirements	579
Staff retention	580
Outsourcing	581
Revising organizational structures	583
Approaches to managing change	586
Senior management involvement	586
Models for achieving change	588
Organizational culture	588
<i>Focus on knowledge management</i>	590
What is knowledge?	590
Objectives of knowledge management	592
Implementing knowledge management	593
Technologies for implementing knowledge management	594
Case Study 10.2 Using Web 2.0 tools to support knowledge management at Janssen-Cilag Australia	596
Risk management	598
Summary	600
<i>Exercises</i>	600
<i>References</i>	601
<i>Further reading</i>	603
<i>Web links</i>	603
11 Analysis and design	604
<i>Learning outcomes / Management issues</i>	604
<i>Links to other chapters</i>	604
Introduction	605
<i>Real-world E-Business: Arena Flowers</i>	606
Analysis for e-business	608
Workflow management	609
Process modelling	610
Process mapping	610
Task analysis and task decomposition	610
Process dependencies	612
Validating a new process model	618

Data modelling	619	Creating static web content	686
Design for e-business	621	Software and services for web-site development and testing	689
Architectural design of e-business systems	621	Testing	694
<i>Focus on user-centred site design</i>	623	The testing process	694
Use-case analysis	627	Testing environments	695
Designing the information architecture	634	Changeover	695
Customer orientation	639	Database creation and data migration	696
Elements of site design	641	Deployment planning	697
Web accessibility	646	Content management and maintenance	697
Case Study 11.1 Dabs.com refines its web store	649	Frequency and scope of content updating	697
<i>Focus on security design for e-business</i>	652	Maintenance process and responsibilities	699
Managing computer viruses	658	<i>Focus on measuring and improving performance of e-business systems</i>	703
Controlling information service usage	660	Principles of performance management and improvement	704
Monitoring of electronic communications	660	Stage 1: Creating a performance management system	705
E-mail management	665	Stage 2: Defining the performance metrics framework	706
Hacking	669	Stage 3: Tools and techniques for collecting metrics and summarizing results	711
Secure e-commerce transactions	671	Budgeting	724
Approaches to developing secure systems	671	Case Study 12.1 Learning from Amazon's culture of metrics	726
Current approaches to e-commerce security	673	Summary	732
Reassuring the customer	674	<i>Exercises</i>	732
Case Study 11.2 Building an e-business fortress	674	<i>References</i>	733
Summary	675	<i>Further reading</i>	734
<i>Exercises</i>	676	<i>Web links</i>	735
<i>References</i>	677	Glossary	736
<i>Further reading</i>	679	Index	754
<i>Web links</i>	679		
12 Implementation and maintenance	680		
<i>Learning outcomes / Management issues</i>	680		
<i>Links to other chapters</i>	680		
Introduction	681		
<i>Real-world E-Business: Thomas Cook</i>	682		
Alternatives for acquiring e-business systems	684		
Development of web-based content and services	686
