Statistics and Research Methods in Psychology with Excel

Contents

1	Importance of Statistics in Psychology	1
	Introduction	1
	What Is Statistics?	2
	Need for Understanding Statistics	4
	To Understand Scientific Literature	4
	To Develop a Logical Reasoning	4
	To Develop a Good Research Problem	5
	To Assess the Authenticity of Research Findings	5
	To Develop Measurement Scales	5
	To Develop Questionnaire	6
	To Conduct Research	6
	Nature of Psychological Research	6
	Descriptive Study	6
	Comparative Study	7
	Relationship Study	7
	Inferential Study	7
	Predictive Study	8
	Application of Statistics in Psychology	8
	Psychometrics	8
	Clinical Psychology	8
	Abnormal Psychology	9
	Developmental Psychology	9
	Psychotherapy	9
	Scope of Statistics in Psychology	9

	Important Definitions	17
	Summary	17
	Exercise	18

Objective-Type Questions	18
Long-Answer-Type Questions	20
Answers	20
Check Your Computing Skill	20
Check Your Statistical Concept	20
Objective-Type Questions	21
2 Measurement and Scaling Techniques	23
Introduction	23
What Is Data?	24
Nature of Psychological Data	24
Categorical Variable	25
Discrete Variable	25
Continuous Variable	25
Random Variable	26
Levels of Measurement	26
Non-metric Data	27
Metric Data	29
Concept Construct and Variable	30
Check Your Statistical Concepts-I	31
Construction of a Test	32
Steps in Test Construction	32
Uses and Implications of Psychological Tests	33
Scaling Techniques	34
Comparative Scale	34
Non-comparative Scale	38
Check Your Statistical Concepts-II	45
Reliability of Measurement Scales	46
Meaning of Reliability	46
Methods of Estimating Reliability	47
Validity of Measurement Scale	53
Face Validity	53
Construct Validity	54
Content Validity	54
Criterion-Related Validity	54
Psychological Assessment	55
Assessment of Personality	56
Assessment of Intelligence	57
Assessment of Aptitude	58
Assessment of Achievement	58
Assessment of Attitude	59
Neuropsychological Assessment	59
Check Your Computing Skill	60
Check Your Statistical Concepts-III	60
Computing with Excel	61

Installing Analysis ToolPak in Excel	61
