Part One FOUNDATIONS OF RISK MANAGEMENT

1. *Investment Risk Management: An Overview* 3
H. KENT BAKER AND GREG FILBECK
2. *Measuring and Managing Risk* 17
RAIMUND M. KOVACEVIC, GEORG CH. PFLUG, AND ALOIS PICHLER
3. *How Risk Management Adds Value* 42
M. MARTIN BOYER AND MONICA MARIN
4. *Accounting and Risk Management* 60
MARK BRADSHAW AND BJORN JORGENSEN

Part Two TYPES OF RISK

5. *Market Risk* 81
RAMON P. DEGENNARO AND CHANAKA P. EDIRISINGHE
6. *Credit Risk* 96
NORBERT J. JOBST

- 7. Operational Risk** 119
PAVEL V. SHEVCHENKO
- 8. Liquidity Risk** 141
KOSE JOHN, SAMIR SAADI, AND HUI ZHU
- 9. Country Risk** 155
ASWATH DAMODARAN
- 10. Systemic Risk** 179
ANDREAS KRAUSE
- 11. Behavioral Risk** 197
M. MARTIN BOYER, FRANCA GLENZER, AND SAMUEL OUZAN
- 12. Governance Risk** 213
DIDIER COSSIN
- 13. Inflation Risk** 237
CLAUS HUBER, FELIX GASSER, AND NICOLAS BÜRKLER
- 14. Risk Aggregation and Capital Management** 261
SUMIT MATHUR
- Part Three QUANTITATIVE ASSESSMENT OF RISK**
- 15. Value-at-Risk and Other Risk Measures** 283
MARKUS LEIPPOLD
- 16. Stress Testing** 304
MARTIN ČIHÁK
- 17. Risk Management and Regulation** 324
DAVID E. ALLEN, ROBERT J. POWELL, AND ABHAY K. SINGH
- 18. Risk Budgeting** 346
GREGG FISHER, TIM NGUYEN, AND CRISTIAN I. TIU
- 19. Risk-Adjusted Performance Measurement** 365
PILAR GRAU CARLES
- 20. Risk Attribution Analysis** 387
PHILIPPE BERTRAND

Part Four RISK MANAGEMENT AND ASSET CLASSES

21. Risk and Mortgage-Backed Securities in a Time of Transition 409

HAROLD C. BARNETT

22. Credit Value Adjustment 426

JAMES T. MOSER

23. Risk Management and Hedge Funds 442

RAZVAN PASCALAU

Part Five HEDGING RISK

24. Options 463

KIT PONG WONG, GREG FILBECK, AND H. KENT BAKER

25. Futures 482

LUDWIG B. CHINCARINI, CFA

26. Swaps 508

DIMITRIS TSOUKNIDIS AND ELIAS BOUKRAMI

27. Credit Derivatives 523

UDO BROLL, SIMONE RAAB, AND PETER WELZEL

28. Foreign Exchange Derivatives in Frontier Markets 543

OTHMANE BOUKRAMI AND BERT VAN LIER

Part Six GOING FORWARD

29. Risk Management and Financial Disasters 563

GABRIELE SABATO

30. The Future of Risk Management 580

HUNTER M. HOLZHAUER

Discussion Questions and Answers 599

Index 639

List of Figures

2.1	The Density of a Profit-and-Loss Distribution and Coverage of Losses	21
2.2	The VaR at a Confidence Level of 90 Percent	27
2.3	Standard Deviation, Efficient Frontier, and Portfolio Composition	30
2.4	Lower Standard Deviation, Efficient Frontier, and Portfolio Composition	31
2.5	Mean Absolute Deviation, Efficient Frontier, and Portfolio Composition	32
2.6	Value-at-Risk, Efficient Frontier, and Portfolio Composition	32
2.7	Average Value-at-Risk Deviation, Efficient Frontier, and Portfolio Composition	33
2.8	Entropic Deviation, Efficient Frontier, and Portfolio Composition	33
2.9	Linear-quadratic Error Measure, Efficient Frontier, and Portfolio Composition	34
3.1	Transformation Possibility Frontier and Optimal Firm Value	52
3.2	The Role of Financial Risk Management in Creating Room for Value Creation	53
3.3	The Impact of the Concavity of the Firm's Transformation Possibility Frontier after a Change in the Market Price of Risk	54
4.1	The Relationship between Earnings and Stock Prices	62
4.2	Option Smirk Curve	71
5.1	Relative Firm Strengths for Firms in Each Sector for 2011Q1	89
5.2	R ² of Factor Regressions of Stock Returns	90
6.1	US GDP Growth and Aggregate Default Rates	104
6.2	The Asset Return Set-up	105
6.3	The Link between Loss Distribution and Capital	110
6.4	Sector Overlay to Regulatory Capital Derived from Economic Capital Modeling	113
6.5	Synthetic Securitization Structure and Loss Mechanics	115
6.6	Hypothetical CDO Portfolio Loss Distribution and Tranche (4 to 8 Percent) Overlay	116
7.1	Operational Risk Capital Requirements	126
7.2	Extreme Value Theory to Fit Severity Distribution	133
12.1	An Interdisciplinary View of Governance	215
12.2	The Drivers of Governance Performance	221
12.3	A Board Psychological Pattern: The NEO Survey	223

12.4	Working Roles of the Board	225
12.5	An Example of Board Tasks	225
12.6	An Example of Process: On-Boarding	228
12.7	ICBC's Governance System	233
13.1	Total and Required U.S. Bank Reserves: January 2007 to April 2013	240
13.2	Realized Inflation for Germany, Switzerland, the United Kingdom, and the United States: 1971 to 1985 and 1998 to 2012	242
13.3	Public Debt as a Percent of GDP	245
13.4	Real P/E Ratios and Annual CPI Changes for the United States: 1872 to 2012, Sorted by Annual CPI Changes	247
13.5	Causality between Market Price Trendiness and CTA Performance	253
13.6	CTA Returns during Crises Scenarios	254
13.7	Dow Jones versus Gold: 1976–1981	255
13.8	Historical Returns of CTA Pioneers	256
14.1	Roll-up Risks at Various Levels	273
15.1	Value-at-Risk and Expected Shortfall	290
15.2	Risk Spectra for Value-at-Risk and Expected Shortfall	295
15.3	Risk Spectra for Spectral Risk Measures	296
15.4	Impact of Standard Deviation-Based Risk Measures on Portfolio Allocation	298
16.1	Stress Testing Process	305
16.2	Example of a “Step Function”	307
16.3	An Example of Calibrating a Supervisory Early Warning System	308
16.4	“Macro” Interbank Contagion	316
16.5	Worst-Case Approach vs. Threshold Approach	318
17.1	The Process of Securitization	333
17.2	S&P/Case-Shiller 20-City Composite Home Price Index	337
18.1	The Value of \$1 Invested in the GTM Strategy	358
19.1	The Capital Market Line and the Sharpe Ratio	368
19.2	Graphic Representation of M	370
19.3	A Graphic Representation of $VaR_{0.5}$	372
19.4	The Security Market Line	375
20.1	Linear Regression of R_p on R_M without Market Timing ($\beta_p = cste$)	390
20.2	Linear Regression of R_p on R_M with Successful Market Timing (Variable β_p)	390
20.3	Mean/Variance and Tracking-Error Variance (TEV) Efficient Frontiers	396
21.1	Homeownership Rates: 1965–2013	411
21.2	GSAMP Trusts Projected Loss and Credit Ratings	413
22.1	Vanilla Interest-Rate Swap	427
23.1	The Worst Drawdown across Hedge Fund Styles	451
23.2	The Sharpe Ratio across Hedge Fund Styles	452
23.3	The Sterling Ratio across Hedge Fund Styles	452
23.4	The Sortino Ratio across Hedge Fund Styles	453
23.5	The Efficiency Ratio across Hedge Fund Styles	453
23.6	The Average Beta across Hedge Fund Styles	454
25.1	The Term Structure of Soybean Prices on September 30, 2011	495

25.2	The Natural Gas Futures Curve on August 31, 2006	497
25.3	The Hedging Performance of Jet Fuel Using West Texas Intermediate Oil Futures	500
25.4	The Total Volume of HDD Weather Futures on the NYMEX	505
26.1	Cash Flows Exchanged Through an Interest Rate Swap Agreement	514
28.1	Proportion of Domestic Government Securities Held by Foreigners Investors	546
28.2	The Onshore vs. the Offshore Six-month CNY Rate	550
28.3	The Onshore vs. the Offshore Three-year Indian Rupees Cross-Currency Rates vs. the U.S. Dollar	552
28.4	The Onshore vs. the Offshore Three-year Indonesian Rupiah Cross-Currency Rates vs. the U.S. Dollar	552
28.5	The Portfolio of Currencies Average Spot vs. the Predicted Average Spot in the Forwards: Local Interest Rates as Proxies	554
28.6	The Diversified Portfolio Cumulated Return (100 as a Basis) and IRR: Local Interest Rates as Proxies	555
28.7	The Portfolio of Currencies Average Spot vs. the Predicted Average Spot in the Forwards: Inflation Rates as Proxies	556
28.8	The Diversified Portfolio Cumulated Return (100 as a Basis) and IRR: Inflation Rates as Proxies	557

List of Tables

3.1	An Example of the Value of Hedging Using After-Tax Income	46
4.1	Beneish Model Factor Definitions	70
5.1	Quarterly State Probabilities for the Three Market Regime Model	91
6.1	Standard & Poor's and Moody's Rating Scales	97
6.2	Cumulative Default Rates by Rating Category	99
6.3	Four CDO Tranches for an Underlying Portfolio of 100 "BBB" Exposures	117
7.1	The Basel II Accord Business Lines and Event Types for Operational Risk	122
7.2	Operational Risk Frequency and Severity	128
9.1	Fitch Sovereign Transition Rates across the Major Rating Categories: 1995 to 2008	160
9.2	Default Spreads on Dollar Denominated Bonds in Latin America in January 2013	162
9.3	Survey Estimates of ERP, by Region in 2012	165
9.4	Standard Errors in Historical Risk Premiums	166
9.5	Default Spreads by Ratings Class: Sovereign vs. Corporate in January 2013	168
9.6	Country and Total ERP, Using Different Approaches: Brazil in January 2013	171
9.7	Revenue-Weighted ERP and CRP for Ambev across Operating Regions in 2011	174
9.8	Revenue-Weighted ERP and CRP for Coca Cola across Operating Regions	175
12.1	Key Success Factors of an Effective Board	232
13.1	Value of Currency in Circulation, Bank Credit, and U.S. Monetary Base: In Billions of Dollars as of December 31 of Each Year	239
13.2	Debt Levels and Changes of Select Countries since September 2008	244
14.1	Risk Aggregation and Accounting Treatment across Major Portfolios in a Bank	271
15.1	Estimates of VaR and Expected Shortfall under Generalized Pareto Distributions	292
17.1	Central Bank Responses to the GFC	340
18.1	Hypothetical Value-at-Risk	352

18.2	A Hypothetical Portfolio	355
18.3	XYZ Returns and Risk Decomposition	356
18.4	Downside Risk Decomposition of Typical Investment Portfolios	360
18.5	Individual Downside Risk Statistics and Downside Correlations	361
19.1	Sample Data Using Three Years of Monthly Return Data and Summary Statistics	367
19.2	Results of Value-at-Risk-based Sharpe Measures	374
19.3	Results of Measures Based on Partial Moments	380
19.4	Results of Measures Based on Drawdowns	381
20.1	Asset Allocation	393
20.2	Contribution to Asset Classes	393
20.3	Asset Allocation Revisited	394
20.4	Portfolio Characteristics	395
20.5	Performance Attribution	395
20.6	Performance Attribution Portfolio 1	397
20.7	Risk Attribution	401
20.8	Sign of the Three Terms of the Information Ratio Decomposition	403
23.1	A Basic Risk Analysis of Equally Weighted Portfolios across Hedge Fund Classifications	449
23.2	Additional Risk Measures of Equally Weighted Portfolios across Hedge Fund Classifications	450
25.1	Hedging Parameters for an Equity Portfolio over Various Horizons	491
25.2	Hedging Effectiveness for a Portfolio during Market Downturns	493
25.3	Global Portfolio Currency Hedging Performance	502
25.4	The Market's Prediction of Housing Prices	504
26.1	Interest Rates Offered to Simons Utilities and Browns Properties	513
26.2	Interest Rate Cash Flows between Simons Utilities (SU) and Browns Properties (BP)	514

Acknowledgments

We are reminded of the following quote by the British author Peter Mayle: “Best advice on writing I’ve ever received. Finish.” Finishing *Investment Risk Analysis* involved the collaboration of many people. As Helen Keller, once said, “Alone we can do so little; together we can do so much.” We owe special gratitude to our many collaborators, especially our chapter authors. Without their willingness to share their considerable expertise and knowledge, this book would not have been possible. We greatly appreciate the assistance provided by Scott Parris, Cathryn Vulman, and the highly professional team at Oxford University Press. We also thank Cherline Daniel, Senior Project Manager, Integra Software Services Pvt Ltd, and Claudie Peterfreund, Cover-to-Cover Indexing Services, for their excellent work. The Kogod School of Business at American University and Penn State Erie, the Behrend College also provided support. Linda and Rory Baker as well as Janis, Aaron, Kyle, and Grant Filbeck deserve special thanks for their encouragement. The authors dedicate this book to Linda Baker and Janis Filbeck.

About the Editors

H. KENT BAKER is a University Professor of Finance in the Kogod School of Business at American University. Professor Baker is an author or editor of 23 books including *Investor Behavior—The Psychology of Financial Planning and Investing*, *Market Microstructure of Emerging and Developed Markets*, *Behavioral Finance—Investors, Corporations, and Markets*, *Portfolio Theory and Management*, and *Survey Research in Corporate Finance*. As one of the most prolific finance academics, he has published more than 150 refereed articles in such journals as the *Journal of Finance*, *Journal of Financial and Quantitative Analysis*, *Financial Management*, *Financial Analysts Journal*, and *Journal of Portfolio Management*. He has consulting and training experience with more than 100 organizations. Professor Baker holds a BSBA from Georgetown University; M.Ed., MBA, and DBA degrees from the University of Maryland; and an MA, MS, and two PhDs from American University. He also holds CFA and CMA designations.

GREG FILBECK holds the Samuel P. Black III Professor of Finance and Risk Management at Penn State Erie, the Behrend College and serves as Associate Director for the Black School of Business and Department Chair for Finance & Business Economics. He formerly served as Senior Vice-President of Kaplan Schweser and held academic appointments at Miami University (Ohio) and the University of Toledo, where he served as the Associate Director of the Center for Family Business. Professor Filbeck is an author or editor of four books and has published more than 75 refereed academic journal articles that have appeared in journals such as *Financial Analysts Journal*, *Financial Review*, and *Journal of Business, Finance, and Accounting*. Professor Filbeck conducts consulting and training worldwide for candidates for the Chartered Financial Analyst (CFA), Financial Risk Manager (FRM™), and Chartered Alternative Investment Adviser (CAIA®) designations as well as holding all three designations. Professor Filbeck holds a BS from Murray State University, an MS from Penn State University, and a DBA from the University of Kentucky.
