# Business and Consumer Analytics: New Ideas

 Springer

# Contents

## Part I Introduction

- 1 **Marketing Meets Data Science: Bridging the Gap**..... 3  
Pablo Moscato and Natalie Jane de Vries
- 2 **Consumer Behaviour and Marketing Fundamentals  
for Business Data Analytics** ..... 119  
Natalie Jane de Vries and Pablo Moscato

## Part II Segmentation, Clustering and Pattern Mining

- 3 **Introducing Clustering with a Focus in Marketing  
and Consumer Analysis** ..... 165  
Natalie Jane de Vries, Łukasz P. Olech, and Pablo Moscato
- 4 **An Introduction to Proximity Graphs**..... 213  
Luke Mathieson and Pablo Moscato
- 5 **Clustering Consumers and Cluster-Specific Behavioural Models**..... 235  
Natalie Jane de Vries, Jamie Carlson and Pablo Moscato
- 6 **Frequent Itemset Mining** ..... 269  
Massimo Cafaro and Marco Pulimeno

## Part III Networks and Community Detection

- 7 **Business Network Analytics: From Graphs to Supernetworks**..... 307  
Pablo Moscato
- 8 **Centrality in Networks: Finding the Most Important Nodes** ..... 401  
Sergio Gómez
- 9 **Overlapping Communities in Co-purchasing and Social  
Interaction Graphs: A Memetic Approach** ..... 435  
Ademir Gabardo, Regina Berretta and Pablo Moscato

**10 Taming a Graph Hairball: Local Exploration in a Global Context** ... 467  
James Abello, Daniel Mawhirter, and Kevin Sun

**11 Network-Based Models for Social Recommender Systems** ..... 491  
Antonia Godoy-Lorite, Roger Guimerà, and Marta Sales-Pardo

**12 Using Network Alignment to Identify Conserved Consumer Behaviour Modelling Constructs** ..... 513  
Luke Mathieson, Natalie Jane de Vries, and Pablo Moscato

**Part IV Memetic Algorithms**

**13 Memetic Algorithms for Business Analytics and Data Science: A Brief Survey** ..... 545  
Pablo Moscato and Luke Mathieson

**14 A Memetic Algorithm for the Team Orienteering Problem**..... 609  
Dimitra Trachanatzki, Eleftherios Tsakirakis, Magdalene Marinaki, Yannis Marinakis, and Nikolaos Matsatsinis

**15 A Memetic Algorithm for Competitive Facility Location Problems** .. 637  
Benjamin Biesinger, Bin Hu, and Günther R. Raidl

**16 Visualizing Products and Consumers: A Gestalt Theory Inspired Method** ..... 661  
Claudio Sanhueza Lobos, Natalie Jane de Vries, Mario Inostroza-Ponta, Regina Berretta, and Pablo Moscato

**Part V Meta-Analytics**

**17 An Overview of Meta-Analytics: The Promise of Unifying Metaheuristics and Analytics**..... 693  
Fred Glover and Carlos Cotta

**18 From Ensemble Learning to Meta-Analytics: A Review on Trends in Business Applications**..... 703  
Mohammad Nazmul Haque and Pablo Moscato

**19 Metaheuristics and Classifier Ensembles** ..... 733  
Ringolf Thomschke, Stefan Voß, and Stefan Lessmann

**20 A Multi-objective Meta-Analytic Method for Customer Churn Prediction**..... 781  
Mohammad Nazmul Haque, Natalie Jane de Vries, and Pablo Moscato

**21 Hotel Classification Using Meta-Analytics: A Case Study with Cohesive Clustering** ..... 815  
Buyang Cao, Cesar Rego, and Fred Glover

**Part VI Data Science Applications in Travel and Fashion Analytics**

**22 Fuzzy Clustering in Travel and Tourism Analytics** ..... 839  
Pierpaolo D’Urso, Marta Disegna, and Riccardo Massari

**23 Towards Personalized Data-Driven Bundle Design with QoS Constraint** ..... 865  
Mustafa Mısıř and Hoong Chuin Lau

**24 A Fuzzy Evaluation of Tourism Sustainability** ..... 911  
Joseph Andria, Giacomo di Tollo, and Raffaele Pesenti

**25 New Ideas in Ranking for Personalized Fashion Recommender Systems** ..... 933  
Heri Ramampiaro, Helge Langseth, Thomas Almenningen, Herman Schistad, Martin Havig, and Hai Thanh Nguyen

**Part VII Appendix**

**26 Datasets for Business and Consumer Analytics** ..... 965  
Natalie Jane de Vries and Pablo Moscato

**Index** ..... 989
