Contents

List of figures *vii*
List of tables *ix*
List of contributors *xi*
Preface *xv*

1 Overview of econometric tourism demand modelling and forecasting 1
Haiyan Song and Hongrun Wu

2 Theoretical foundations, key concepts, and data description 35
Vera Shanshan Lin, Xinyi Zhang, and Richard T. R. Qiu

3 The autoregressive distributed lag model 53
Anyu Liu and Xinyang Liu

4 The time-varying parameter model 76
Gang Li, Jason Li Chen, and Xiaoying Jiao

5 Vector autoregressive models 95
Zheng Chris Cao

6 Spatiotemporal econometric models 126
Xiaoying Jiao and Jason Li Chen

7 Mixed-frequency models 144
Han Liu, Ying Liu, and Peihuang Wu

8 Hybrid forecasting models 173
Mingming Hu, Mei Li, and Xin Zhao

9 Density forecasting 201
Long Wen

10 Forecast combinations 219
Doris Chenguang Wu, Chenyu Cao, and Shujie Shen

11 Judgemental forecasting 253
Vera Shanshan Lin and Yuan Qin

12 Scenario forecasting during crises 272
Richard T. R. Qiu

13 A web-based tourism forecasting system 289
Xinyan Zhang

Epilogue 299
