Microeconomics

PART I

Introduction	3
1 Economic profit	5
1.1 <i>The value of the best foregone alternative: the opportunity cost</i>	5
1.2 <i>Sunk costs vs recoverable costs</i>	7
1.3 <i>Accounting profit</i>	13
1.4 <i>The economic profit: comparing two scenarios</i>	14
1.5 <i>Different objectives of the firms</i>	16
2 Value added	21
2.1 <i>Intermediate consumption and value added</i>	21
2.2 <i>Value added and vertical integration</i>	25

PART II	
Production and costs	29
3 Production and productivity	31
3.1 Rigid and flexible production techniques	31
3.2 The measurement of efficiency	35
3.3 Marginal productivity	38
3.4 The cornerstone of industrial negotiations: unit labour cost	41
4 Costs	48
4.1 Fixed costs and variable costs	48
4.2 Marginal and average costs	49
4.3 Types of costs	52
4.4 The Supply: is the firm ready to sell a certain quantity? At what price?	54
4.5 A special cost: the cost of using the market or transaction cost	57
5 Economies of scale	63
5.1 Reducing the average cost of a firm	63
5.2 The causes of economies of scale	65
5.3 The limits to economies of scale	67
5.4 The minimum efficient size and concentration	68
PART III	
Customers and competitors	73
6 Demand for the products of an industry and of a monopolist	75
6.1 An industry and the demand for its product	75
6.2 Demand and supply	76
6.3 Total revenue and marginal revenue	78
6.4 Price-elasticity	82
6.5 The effects of income on demand: income-elasticity	88
6.6 Price cross-elasticity: complements and substitutes	89
7 Market environments	94
7.1 Monopoly	94
7.2 Perfect competition	97
7.3 Oligopoly	99
7.4 Monopolistic competition	103

Macroeconomics

PART IV	
Introduction to macroeconomics	109
8 Key words of national accounts	111
8.1 <i>Supply (sources) of goods: production (GDP) and imports</i>	112
8.2 <i>Uses of goods: household consumption, private investment, government spending and export</i>	113
9 Money and prices	120
9.1 <i>Money and other financial assets</i>	120
9.2 <i>The demand for and supply of money and the interest rate</i>	125
9.3 <i>Money supply and prices</i>	128
9.4 <i>Banks are special</i>	129
9.5 <i>How much inflation is “too much”?</i>	135
PART V	
Foreign economic relations	141
10 The foreign trade of goods: exports and imports	143
10.1 <i>The quality of goods</i>	143
10.2 <i>The (nominal) exchange rate and the exchange rate regimes</i>	147
10.3 <i>The real exchange rate</i>	152
10.4 <i>The determinants of imports</i>	152
10.5 <i>The determinants of exports</i>	154
11 Financial movements	159
11.1 <i>Main types of financial movements</i>	159
11.2 <i>Advantages and disadvantages of foreign portfolio investments</i>	161
11.3 <i>Advantages and disadvantages of foreign direct investment (FDI)</i>	166
11.4 <i>The freedom of movement of capital</i>	169
12 International accounts	174
12.1 <i>The current account of the balance of payments</i>	174

- 12.2 *The capital account of the balance of payments* 180
- 12.3 *The financial account of the balance of payments* 181
- 12.4 *The international investment position (IIP)* 183

PART VI
Fiscal policy **191**

- 13 Monetary transfers: taxes, benefits, subsidies and social contributions 193
 - 13.1 *General taxation: taxes not earmarked to fund specific expenses* 194
 - 13.2 *Earmarked monetary transfers between private subjects and government: social contributions, pensions and benefits* 197
 - 13.3 *The macroeconomic effects of taxes (and social contributions)* 201
- 14 Government spending on goods and services 211
 - 14.1 *Public employment* 211
 - 14.2 *Public procurement* 213
- 15 Public spending on education, training, research and development (R&D) 222
 - 15.1 *Education and training* 222
 - 15.2 *Public expenditure in R&D* 224
 - 15.3 *Government expenditure in education and R&D and its macroeconomic effects* 226
- 16 Public deficit and public debt 231
 - 16.1 *The public budget and the public deficit* 231
 - 16.2 *The public debt and the market for sovereign bonds* 238
 - 16.3 *The sustainability of a public debt* 240

PART VII
Private demand **255**

- 17 Household consumption: the main destination of goods and services 257
 - 17.1 *The main features of household consumption* 257
 - 17.2 *The determinants of consumption* 259
 - 17.3 *Disposable income which is not consumed: savings* 261

18	Private investment: supplying the private sector with new capital	265
	18.1 <i>The net present value (NPV) method for firms' investment decision</i>	265
	18.2 <i>The main features of investment</i>	267
PART VIII		
	The labour market and inequality	271
19	The labour market	273
	19.1 <i>A basic description of labour market stocks and flows</i>	273
	19.2 <i>Key indicators of the labour market (KILM)</i>	277
	19.3 <i>The determinants of salaries</i>	279
	19.4 <i>Economic growth and unemployment</i>	281
	19.5 <i>Unemployment and prices</i>	283
20	Income distribution and its effects	288
	20.1 <i>The nature of inequality</i>	288
	20.2 <i>The change of inequality and its effects</i>	293
	20.3 <i>Causes of and remedies for inequality</i>	300
	Appendix – indexes of competitiveness	306
	A) <i>Global Competitiveness Index (GCI)</i>	306
	B) <i>World Competitiveness Ranking (WCR)</i>	310
	C) <i>Doing Business Indicators (DBIs)</i>	316
	D) <i>Discussion</i>	318
	<i>Index</i>	326
