Introduction xi

Chapter 1. From the Statisticalization of Labor to Human Resources Algorithms: The Different Uses of Quantification 1

1.1. Quantifying reality: quantifying individuals or positions 2
1.1.1. The statisticalization of individuals and work 2
1.1.2. Informing and justifying decisions concerning individuals 11
1.2. From reporting to HR data analysis. 16
1.2.1. HR reports and dashboards: definitions and examples 16
1.2.2. HR analytics and statistical studies 26
1.3. Big Data and the use of HR algorithms 32
1.3.1. Big Data in HR: definitions and examples 32
1.3.2. The breaks introduced by Big Data in HR 40

Chapter 2. Quantification and Decision-making 45

2.1. In search of objectivity 46
2.1.1. The myth of objective quantification 46
2.1.2. Limited objectivity 52
2.1.3. Objectivity, a central issue in HR 58
2.2. In search of personalization 63
2.2.1. Are we reaching the end of the positioning of statistics as a science of large numbers?. 64
2.2.2. Personalization: a challenge for the HR function 72
2.3. In search of predictability 75

2.3.1. Are we heading toward a rise in predictability at the expense of understanding? . . . 75
2.3.2. The predictive approach: an issue for the HR function . . . 82

Chapter 3. How are Quantified HR Management Tools Appropriated by Different Agents? . . . 87

3.1. The different avatars of the link between managerial rationalization and quantification . . . 88
3.1.1. Bureaucracy . . . 88
3.1.2. New Public Management . . . 91
3.1.3. Algorithmic management . . . 96
3.2. Distrust of data collection and processing . . . 99
3.2.1. Providing data, not such a harmless approach for employees . . . 99
3.2.2. Can numbers be made to reflect whatever we like? . . . 106
3.3. Distrust of a disembodied decision . . . 109
3.3.1. Decisions made solely on the basis of figures . . . 109
3.3.2. Decisions made solely by algorithms . . . 114

Chapter 4. What Effects are the Effects of Quantification on the Human Resources Function? . . . 119

4.1. Quantification for HR policy evaluation? . . . 119
4.1.1. Measuring the implementation of HR policies . . . 120
4.1.2. Measuring the effects of HR policies . . . 126
4.2. Quantifying in order to legitimize the HR function? . . . 129
4.2.1. Measuring the performance of the HR function . . . 130
4.2.2. Measuring the link between HR function performance and organizational performance . . . 133
4.3. The quantification and risk of HR business automation . . . 139
4.3.1. HR professions with a high risk of automation . . . 139
4.3.2. Support for the employees concerned . . . 143

Chapter 5. The Ethical Issues of Quantification . . . 147

5.1. Protection of personal data . . . 148
5.1.1. Risks relating to personal data . . . 149
5.1.2. Obligations and actions of companies with regard to the protection of personal data . . . 152
5.2. Quantification and discrimination(s) . . . 155
5.2.1. Quantification as a shield against discrimination . . . 156
5.2.2. The risks of discrimination related to the use of quantification . . . 162

5.3. Opening the “black box” of quantification 165
5.3.1. Training HR actors, employees and their representatives as well as data experts on HR quantification 166
5.3.2. Mobilizing organizational leverage 172

Conclusion 177
