[List of Figures](#)

[List of Tables](#)

[Preface](#)

## [Part One: Introduction and Review of Economic Concepts](#)

### [1 Economics and Sports](#)

[Introduction](#)

[1.1 The Organization of the Text](#)

[Special Features and Additional Resources](#)

[1.2 Babe Ruth and Comparative Advantage](#)

[Opportunity Costs](#)

[Absolute and Comparative Advantage](#)

[Biographical Sketch: Babe Didrikson Zaharias](#)

[Summary, Discussion Questions, Problems](#)

### [2 Review of the Economist's Arsenal](#)

[Introduction](#)

[Learning Objectives](#)

[2.1 The Supply and Demand Model](#)

[Demand, Supply, and Equilibrium](#)

[Changes in Supply and Demand](#)

[2.2 Output and the Production Function](#)

[A Note on the Definition of Output](#)

*The Production Function*

Price Ceilings and the *Economics of Scalping*

2.3 Market Structures: From Perfect Competition to Monopoly

*Perfect Competition*

*Monopoly and Other Imperfectly Competitive Market Structures*

*The Impact of an Increase in Costs*

2.4 The Rise of Professional Sports

Biographical Sketch: Mark Cuban

Summary, Discussion Questions, Problems

**Appendix 2A: Utility Functions, Indifference Curves, and Budget Constraints**

2A.1 Constrained Maximization

2A.2 Using Indifference Curves and Budget Constraints: The Rise of Soccer and Baseball

**Appendix 2B: Regression Analysis in Brief**

**Part Two: The Industrial Organization of Sports**

**3 Sports Leagues and Franchises**

Introduction

Learning Objectives

3.1 Open versus Closed Leagues

3.2 The Economics of Team Behavior

*Maximizing Profits or Maximizing Wins?*

3.3 Closed Leagues: Revenue and Cost in North American Sports

*Revenue and Cost*

*Revenue Is Determined by Demand*

*A Detailed Look at Revenue*

*Costs*

*League Size, Opportunity Cost, and Team Movement*

3.4 Open Leagues: Revenue and Cost in European Soccer

*Profit Maximization in Soccer*

3.5 Single-Entity Ownership

Biographical Sketch: Bill Veeck

Summary, Discussion Questions, Problems

## **4 Monopoly and Antitrust**

Introduction

Learning Objectives

4.1 What's Wrong with Monopoly?

*Monopolists and Deadweight Loss*

*Do Monopolies Always Charge Monopoly Prices?*

*Promotion, Relegation, and Monopoly Power in Open Leagues*

4.2 Strategic Pricing

*Variable and Dynamic Ticket Pricing*

*Bundling*

*Price Discrimination and Two-Part Pricing*

4.3 What's Right with Monopoly?

4.4 Strategic Barriers to Entry

4.5 Society's Response to Monopoly: Antitrust Laws

*An Important Anomaly: Baseball's Antitrust Exemption*

*Leagues That Lack an Antitrust Exemption*

*Limited Exemptions: The NFL and Television*

Biographical Sketch: Alvin "Pete" Rozelle

Summary, Discussion Questions, Problems

## **5 Competitive Balance**

Introduction

Learning Objectives

5.1 Why Study Competitive Balance?

*The Fans' Perspective*

*The Owners' Perspective*

*The Effect of Market Size*

*The Influence of Diminishing Returns*  
*A Brief History of Competitive Balance*

## 5.2 Measuring Competitive Balance

*Within-Season Variation*

*Between-Season Variation*

*Illustrating Competitive Imbalance*

## 5.3 Attempts to Alter Competitive Balance

*The Invariance Principle*

*Revenue Sharing*

*Salary Caps and Luxury Taxes*

*The Reverse-Order Entry Draft*

*Schedule Adjustments in the NFL*

*Promotion and Relegation*

Biographical Sketch: Bud Selig

Summary, Discussion Questions, Problems

## **Part Three: Public Finance and Sports**

### **6 The Public Finance of Sports: Who Benefits and How?**

Introduction

Learning Objectives

#### 6.1 How Teams Benefit from New Facilities

*Facilities, Attendance, and Profits*

#### 6.2 How Fans Benefit from a New Facility

*The Size and Shape of Stadiums and Arenas*

*The Size and Shape of Basketball and Hockey Arenas*

*The Size and Shape of Football and Soccer Stadiums*

*Do New Facilities Create Better Teams?*

*Teams as Public Goods*

#### 6.3 How Cities Benefit from Teams and Facilities

*Positive and Negative Externalities*

*Facilities, Spending, and Tax Revenue*

*Studies of Economic Impact*

*Interest Groups and Public Choice*

*Location, Location, Location*

Biographical Sketch: Al Davis

Summary, Discussion Questions, Problems

## 7 The Public Finance of Sports: Who Pays and Why?

Introduction

Learning Objectives

7.1 How Cities Came to Fund Stadiums

*Teams on the Move*

*The Four Eras of Stadium Construction*

7.2 How Teams Exploit Monopoly Power

*Leagues, Cities, and Market Power*

7.3 Stadium Location and Costs

*How Exchange Rates Affect Costs*

*Why Most Stadiums Are Not in the Center of Town*

7.4 Stadium Costs and Financing

7.5 Paying for Stadiums

*Who Pays a Sales Tax?*

*Incremental Financing*

*Taxes That Spread the Burden*

*The Benefits of Debt*

Biographical Sketch: George W. Bush

Summary, Discussion Questions, Problems

## 8 Mega-Events

Introduction

Learning Objectives

8.1 A Brief History of Mega-Events

*The Original Mega-Event: The Ancient Olympics*

*The British Ethic and the Rise of the Modern Olympics*

*The Modern Olympic Games*

*FIFA and the World Cup*

## 8.2 The Short-Run Benefits of Hosting Mega-Events

*Two Types of Event Studies*

*Problems with ex ante Economic Impact Studies*

*Ex post Economic Impact Studies*

## 8.3 The Long-Run Benefits of Hosting Mega-Events

*General Infrastructure*

*Advertising and Branding*

## 8.4 The Costs of Hosting Mega-Events

## 8.5 Why Do Cities Continue to Bid?

*Distribution of Costs and Benefits*

*Non-Economic Rationales*

*The Winner's Curse*

*The All-or-Nothing Demand Curve*

Biographical Sketch: Willard "Mitt" Romney

Summary, Discussion Questions, Problems

# **Part Four: The Labor Economics of Sports**

## **9 An Introduction to Labor Markets in Professional Sports**

Introduction

Learning Objectives

### 9.1 An Overview of Labor Supply and Labor Demand

*Labor Supply*

*Labor Demand*

*Labor Market Equilibrium*

*Human Capital and Player Compensation*

### 9.2 Rank-Order Tournaments and Superstar Effects

*Tournaments and Effort*

*Women and Tournaments*

*The Economics of Superstars*

*Tournaments, Superstars, and the Distribution of Income*

9.3 The Dangers of Tournaments and Superstar Effects

*Pay Disparities and Externalities: The Case of NASCAR*

*The Danger of Trying Too Hard*

*Performance-Enhancing Drugs*

Biographical Sketch: Scott Boras

Summary, Discussion Questions, Problems

**Appendix 9A: Using Indifference Curves to Model the Labor–Leisure Choice**

9A.1 The Labor–Leisure Model When Hours Are Fixed

**10 Labor Market Imperfections**

Introduction

Learning Objectives

10.1 The Monopsony Power of Sports Leagues

*The Economics of Monopsony*

*The Impact of Rival Leagues*

*The Reserve Clause*

10.2 Unions in Professional Sports

*A Brief Introduction to the Economics of Unions*

*The Unique Role of Player Associations*

*Professional Associations*

10.3 Free Agency

*The Advent of Free Agency*

*Forms of Free Agency*

*The Franchise Tag*

*Salary Arbitration*

*Measuring Monopsony Power*

*Salary Caps*

*Luxury or Competitive Balance Taxes*

10.4 Conflict and Compromise in Collective Bargaining

[\*Economic Theory and Labor Conflict\*](#)  
[\*Labor Conflict and Professional Sports\*](#)  
[Biographical Sketch: Marvin Miller](#)  
[Summary, Discussion Questions, Problems](#)

## **11 Discrimination**

[Introduction](#)

[Learning Objectives](#)

[11.1 Evidence of Discrimination in Sports](#)

[11.2 The Economic Theory of Discrimination](#)

[11.3 Different Forms of Discrimination in Professional Sports](#)

[\*Employer Discrimination\*](#)

[\*Does Anyone Win with Employer Discrimination?\*](#)

[\*Employee Discrimination\*](#)

[\*Consumer Discrimination\*](#)

[\*Positional Discrimination or Hiring Discrimination\*](#)

[11.4 Gender Equity](#)

[\*What Is a Woman?\*](#)

[Biographical Sketch: Branch Rickey](#)

[Summary, Discussion Questions, Problems](#)

## **Part Five: Sports in the Not-for-Profit Sector**

### **12 The Economics of Intercollegiate Sports**

[Introduction](#)

[Learning Objectives](#)

[12.1 The NCAA](#)

[\*A Brief History of the NCAA\*](#)

[\*The Structure of the NCAA\*](#)

[12.2 The Costs and Benefits of Big-Time College Sports](#)

[\*The Revenue from Intercollegiate Athletics\*](#)

[\*The Cost of Intercollegiate Athletics\*](#)

*Do Colleges Make a Profit from Athletics?*

12.3 Monopoly Power in College Athletics

*The NCAA and Optimal Cartel Behavior*

*Prisoner's Dilemma: How Rational Actions Lead to Irrational Outcomes*

*Academic Standards: A Key to Academic Integrity or Exercise of Monopoly Power?*

*Antitrust and College Sports*

12.4 Spillovers from Athletics to the University

*College Sports as Public Goods*

*Admissions*

*Donations and State Funding*

12.5 The College Sports Labor Market

*The Value of Athletes to Colleges*

*The Value of College to Athletes*

12.6 Discrimination and College Sports

*Racial Discrimination*

*Title IX and Gender Discrimination*

Biographical Sketch: Sonny Vaccaro

Summary, Discussion Questions, Problems
