Index I-1

# CONTENTS

## Part I: Preliminaries

---

### Chapter 1: What Is Economics? 1

#### Scarcity and Individual Choice 1

The Concept of Opportunity Cost, 2

#### Scarcity and Social Choice 6

The Four Resources, 6 • Opportunity Cost and Society's Tradeoffs, 7

#### The World of Economics 8

Microeconomics and Macroeconomics, 8 • Positive and Normative Economics, 8

#### Why Study Economics? 10

#### The Methods of Economics 11

The Art of Building Economic Models, 11 • Assumptions and Conclusions, 12 • Math, Jargon, and Other Concerns . . . , 13

#### How to Study Economics 13

#### Summary 14

#### Problem Set 14

#### Appendix: Graphs and Other Useful Tools 16

### Chapter 2: Scarcity, Choice, and Economic Systems 24

#### Society's Production Choices 24

#### The Production Possibilities Frontier 25

Increasing Opportunity Cost, 26

#### The Search for a Free Lunch 27

Operating Inside the PPF, 27 • Economic Growth, 31

#### Economic Systems 34

Specialization and Exchange, 35 • Comparative Advantage, 36 • International Comparative Advantage, 39 • Resource Allocation, 41

#### Using the Theory: Are We Saving Lives Efficiently? 45

#### Summary 48

#### Problem Set 49

## Part II: Supply and Demand

---

### Chapter 3: Supply and Demand 51

#### Markets 51

Characterizing a Market, 52

#### Demand 55

The Law of Demand, 56 • The Demand Schedule and the Demand Curve, 57 • Shifts versus Movements Along the Demand Curve, 58 • Factors That Shift the Demand Curve, 60 • Demand: A Summary, 62

#### Supply 63

The Law of Supply, 64 • The Supply Schedule and the Supply Curve, 64 • Shifts versus Movements Along the Supply Curve, 66 • Factors That Shift the Supply Curve, 67 • Supply—A Summary, 70

#### Putting Supply and Demand Together 71

Finding the Equilibrium Price and Quantity, 71

#### What Happens When Things Change? 74

Example: Income Rises, Causing an Increase in Demand, 74 • Example: Bad Weather, Supply Decreases, 75 • Example: Higher Income and Bad Weather Together, 76

#### The Three-Step Process 78

#### Using the Theory: The Oil Price Spike of 2007–2008 79

#### Summary 84

#### Problem Set 84

#### Appendix: Solving for Equilibrium Algebraically 87

### Chapter 4: Working with Supply and Demand 89

#### Government Intervention in Markets 89

Fighting the Market: Price Ceilings, 90 • Fighting the Market: Price Floors, 92 • Manipulating the Market: Taxes, 95 • Manipulating the Market: Subsidies, 99

**Supply and Demand in Housing Markets 101**  
 What's Different about Housing Markets, 101 • Supply and Demand Curves in a Housing Market, 102 • Housing Market Equilibrium, 105 • What Happens When Things Change?, 106

**Using the Theory: The Housing Boom and Bust of 1997–2008 110**

**Summary 116**

**Problem Set 116**

**Appendix: Understanding Leverage 119**

## **Chapter 5: Elasticity 121**

**Price Elasticity of Demand 121**

Problems with Slope, 122 • The Elasticity Approach, 123 • Calculating Price Elasticity

of Demand, 123 • Categorizing Demand, 125 • Elasticity and Straight-Line Demand Curves, 127 • Elasticity and Total Revenue, 128 • Determinants of Elasticity, 130 • Time Horizons and Demand Curves, 134 • Two Practical Examples, 135

**Other Elasticities 137**

Income Elasticity of Demand, 137 • Cross-Price Elasticity of Demand, 139 • Price Elasticity of Supply, 139

**Using the Theory: Applications of Elasticity 141**

**Summary 145**

**Problem Set 146**

## **Part III: Microeconomic Decision Makers**

### **Chapter 6: Consumer Choice 148**

**The Budget Constraint 148**

Changes in the Budget Line, 150

**Preferences 152**

Rationality, 152 • More Is Better, 153

**Consumer Decisions: The Marginal Utility Approach 154**

Utility and Marginal Utility, 154 • Combining the Budget Constraint and Preferences, 156 • What Happens When Things Change?, 160 • The Consumer's Demand Curve, 165

**Income and Substitution Effects 165**

The Substitution Effect, 165 • The Income Effect, 166 • Combining Substitution and Income Effects, 166

**Consumers in Markets 168**

**Consumer Theory in Perspective 169**

Extensions of the Model, 170 • Behavioral Economics, 170

**Using the Theory: Improving Education 173**

**Summary 176**

**Problem Set 177**

**Appendix: The Indifference Curve Approach 180**

### **Chapter 7: Production and Cost 189**

**Production 189**

Technology and Production, 190 • Short-Run versus Long-Run Decisions, 190

**Production in the Short Run 191**

Marginal Returns to Labor, 193

**Thinking About Costs 194**

The Irrelevance of Sunk Costs, 194 • Explicit versus Implicit Costs, 195

**Cost in the Short Run 196**

Measuring Short-Run Costs, 197 • Explaining the Shape of the Marginal Cost Curve, 201 • The Relationship between Average and Marginal Costs, 202

**Production and Cost in the Long Run 204**

The Relationship between Long-Run and Short-Run Costs, 206 • Explaining the Shape of the *LRATC* Curve, 209

**Cost: A Summary 212**

**Using the Theory: The Urge to Merge 213**

**Summary 216**

**Problem Set 216**

**Appendix: Isoquant Analysis: Finding the Least-Cost Input Mix 220**

### **Chapter 8: How Firms Make Decisions: Profit Maximization 227**

**The Goal of Profit Maximization 227**

**Understanding Profit 228**

Two Definitions of Profit, 228 • Why Are There Profits?, 230

**The Firm's Constraints 231**

The Demand Curve Facing the Firm, 231 • The Cost Constraint, 233

**The Profit-Maximizing Output Level 233**

The Total Revenue and Total Cost Approach, 233 • The Marginal Revenue and Marginal Cost Approach, 234 • Profit Maximization Using Graphs, 237 • What about

Average Costs?, 240 • The Marginal Approach to Profit, 241

#### Dealing with Losses 241

The Short Run and the Shutdown Rule, 242 • The Long Run and the Exit Decision, 244

## Part IV: Product Markets

### Chapter 9: Perfect Competition 250

#### What Is Perfect Competition? 250

The Four Requirements of Perfect Competition, 251 • Is Perfect Competition Realistic?, 253

#### The Perfectly Competitive Firm 253

The Competitive Firm's Demand Curve, 254 • Cost and Revenue Data for a Competitive Firm, 255 • Finding the Profit-Maximizing Output Level, 257 • Measuring Total Profit, 258 • The Firm's Short-Run Supply Curve, 260

#### Competitive Markets in the Short Run 262

The Market Supply Curve, 262 • Short-Run Equilibrium, 262

#### Competitive Markets in the Long Run 266

Profit and Loss and the Long Run, 266 • Long-Run Equilibrium, 267 • The Notion of Zero Profit in Perfect Competition, 269 • Perfect Competition and Plant Size, 270 • A Summary of the Competitive Firm in the Long Run, 271

#### What Happens When Things Change? 272

A Change in Demand, 272 • Market Signals and the Economy, 277 • A Change in Technology, 279

#### Using the Theory: Short- and Long-Run Adjustment in the Solar Power Industry 281

Summary 284

Problem Set 285

### Chapter 10: Monopoly 287

#### What Is a Monopoly? 287

#### How Monopolies Arise 288

Economies of Scale, 288 • Legal Barriers, 289 • Network Externalities, 291

#### Monopoly Behavior 293

Single Price versus Price Discrimination, 293 • Monopoly Price or Output Decision, 293 • Monopoly and Market Power, 296 • Profit and Loss, 297

#### Using the Theory: Getting It Wrong and Getting It Right: Two Classic Examples 244

Summary 247

Problem Set 247

#### Equilibrium in Monopoly Markets 299

Short-Run Equilibrium, 299 • Long-Run Equilibrium, 299 • Comparing Monopoly to Perfect Competition, 300 • Government and Monopoly Profit, 303

#### What Happens When Things Change? 304

A Change in Demand, 304 • A Cost-Saving Technological Advance, 306

#### Price Discrimination 307

Requirements for Price Discrimination, 308 • Effects of Price Discrimination, 309 • Perfect Price Discrimination, 312 • How Firms Choose Multiple Prices, 314 • Price Discrimination in Everyday Life, 315

#### Using the Theory: Monopoly Pricing and Parallel Trade in Pharmaceuticals 316

Summary 321

Problem Set 321

### Chapter 11: Monopolistic Competition and Oligopoly 325

#### The Concept of Imperfect Competition 325

#### Monopolistic Competition 326

Monopolistic Competition in the Short Run, 328 • Monopolistic Competition in the Long Run, 328 • Excess Capacity Under Monopolistic Competition, 330 • Nonprice Competition, 331

#### Oligopoly 332

Oligopoly in the Real World, 333 • How Oligopolies Arise, 334 • Oligopoly versus Other Market Structures, 335 • The Game Theory Approach, 336 • Simple Oligopoly Games, 338 • Cooperative Behavior in Oligopoly, 342

#### Using the Theory: Advertising in Monopolistic Competition and Oligopoly 346

Summary 352

Problem Set 352

## Part V: Labor, Capital, and Financial Markets

---

### Chapter 12: Labor Markets 355

#### Labor Markets in Perspective 355

Defining a Labor Market, 357 • The Wage Rate, 357 • Competitive Labor Markets, 357

#### Labor Demand 358

The Labor Demand Curve, 358 • Shifts in the Labor Demand Curve, 360

#### Labor Supply 361

Variable Hours versus Fixed Hours, 362 • The Labor Supply Curve, 362 • Shifts in the Labor Supply Curve, 363

#### Labor Market Equilibrium 364

What Happens when Things Change, 364

#### Why Do Wages Differ? 367

An Imaginary World, 368 • Compensating Differentials, 369 • Differences in Ability, 371 • Barriers to Entry, 374 • Discrimination, 376

#### The Minimum Wage Controversy 381

Who Pays for a Higher Minimum Wage?, 381 • Who Benefits from a Higher Minimum Wage?, 381 • Labor Market Effects of the Minimum Wage, 382 • The EITC Alternative, 384 • Opposing Views, 384

#### Using the Theory: The College Wage Premium 385

#### Summary 388

#### Problem Set 389

#### Appendix: The Profit-Maximizing Employment Level 391

### Chapter 13: Capital and Financial Markets 396

#### Physical Capital and the Firm's Investment Decision 396

A First, Simple Approach: Renting Capital, 397 • The Value of Future Dollars, 399 • Purchasing Capital, 402 • What Happens when Things Change: The Investment Curve, 404

#### Markets for Financial Assets 406

Primary and Secondary Asset Markets, 407 • Financial Assets and Present Value, 408

#### The Bond Market 409

How Much Is a Bond Worth?, 409 • Why Do Bond Yields Differ?, 411 • Explaining Bond Prices, 412 • What Happens When Things Change?, 414

#### The Stock Market 416

Why Do People Hold Stock?, 416 • Valuing a Share of Stock, 417 • Explaining Stock Prices, 418 • What Happens when Things Change?, 420

#### The Efficient Markets View 421

The Meaning of an Efficient Stock Market, 421 • Common Objections to Efficient Markets Theory, 423 • Efficient Markets Theory and the Average Investor, 426

#### Using the Theory: The Present Value of a College Degree 427

#### Summary 431

#### Problem Set 431

## Part VI: Efficiency, Government, and the Global Economy

---

### Chapter 14: Economic Efficiency and the Competitive Ideal 434

#### The Meaning of Economic Efficiency 434

Pareto Improvements, 435 • Side Payments and Pareto Improvements, 436

#### Competitive Markets and Economic Efficiency 437

Reinterpreting the Demand Curve, 437 • Reinterpreting the Supply Curve, 438 • The Efficient Quantity of a Good, 439 • The Efficiency of Perfect Competition, 441

#### Measuring Market Gains 441

Consumer Surplus, 441 • Producer Surplus, 443 • Total Benefits and Efficiency, 445 • Perfect Competition: The Total Benefits View, 446

#### Inefficiency and Deadweight Loss 446

A Price Ceiling, 447 • A Price Floor, 448 • Market Power, 449

#### Using the Theory: Taxes and Deadweight Losses 451

#### Summary 456

#### Problem Set 456

### Chapter 15: Government's Role in Economic Efficiency 458

#### The Legal and Regulatory Infrastructure 458

The Legal System, 459 • Regulation, 459 • The Importance of Infrastructure, 460 • Market Failures, 461

#### Monopoly 462

Potential Remedies for Monopoly Power, 462 • The Special Case of Natural Monopoly, 462 • Regulation of Natural Monopoly, 464

#### Externalities 465

The Private Solution, 466 • Government and Negative Externalities, 468 • Positive Externalities, 473

#### Public Goods 476

Private Goods, 476 • Pure Public Goods, 477 • Mixed Goods, 478

#### Asymmetric Information 481

Adverse Selection, 481 • Moral Hazard, 482 • The Principal-Agent Problem, 482 • Market and Government Solutions, 483

**Efficiency and Government in Perspective** 484  
 Government Failure, 485 • Deadweight Loss from Taxes, 485 • Equity, 485

**Using the Theory: Moral Hazard and the Financial Crisis of 2008** 486

**Summary** 491

**Problem Set** 491

## **Chapter 16: Comparative Advantage and the Gains from International Trade** 493

**The Logic of Free Trade** 494

**International Comparative Advantage** 494  
 Determining a Nation's Comparative Advantage, 495 • How Specialization Increases World Production, 496 • How Each Nation Gains from International Trade, 498 • The Terms of Trade, 501  
 Some Provisos about Specialization, 501

**The Sources of Comparative Advantage** 502  
 Resource Abundance and Comparative Advantage, 503 • Beyond Resources, 504

**Why Some People Object to Free Trade** 505  
 The Anti-Trade Bias, 507 • Some Antidotes to the Anti-Trade Bias, 507

**How Free Trade Is Restricted** 508  
 Tariffs, 509 • Quotas, 510 • Quotas versus Tariffs, 510

**Protectionism** 511  
 Protectionist Myths, 511 • Sophisticated Arguments for Protection, 514 • Protectionism in the United States, 515

**Using the Theory: The U.S. Sugar Quota** 516

**Summary** 518

**Problem Set** 518

## **Part VII: Macroeconomics: Basic Concepts**

---

### **Chapter 17: What Macroeconomics Tries to Explain** 521

**Macroeconomic Goals** 521  
 Economic Growth, 521 • High Employment (or Low Unemployment), 524 • Stable Prices, 526

**The Macroeconomic Approach** 528  
 Aggregation in Macroeconomics, 529

**Macroeconomic Controversies** 529

**As You Study Macroeconomics . . .** 531

**Summary** 532

**Problem Set** 532

### **Chapter 18: Production, Income, and Employment** 534

**Production and Gross Domestic Product** 535  
 GDP: A Definition, 535 • Tracking and Reporting GDP, 538 • The Expenditure Approach to GDP, 541 • Other Approaches to GDP, 546 • Measuring GDP: A Summary, 549 • How GDP Is Used, 549 • Problems with GDP, 551 • Using GDP Properly, 552

**Employment and Unemployment** 553  
 Types of Unemployment, 553 • The Costs of Unemployment, 557 • How Unemployment Is Measured, 560 • Problems in Measuring Unemployment, 562 • The Unemployment Rate in Perspective, 563

**Using the Theory: Sudden Disasters and GDP** 564

**Summary** 569

**Problem Set** 569

### **Chapter 19: The Price Level and Inflation** 572

**Measuring the Price Level and Inflation** 572  
 Index Numbers in General, 572 • The Consumer Price Index, 573 • From Price Index to Inflation Rate, 575

**How the CPI Is Used** 577  
 Real Variables and Adjustment for Inflation, 577 • The GDP Price Index and Real GDP, 579

**The Costs of Inflation** 580  
 The Inflation Myth, 580 • The Redistributive Cost of Inflation, 581 • The Resource Cost of Inflation, 584

**Is the CPI Accurate?** 586  
 Sources of Bias in the CPI, 586 • The Overall Bias: A Matter of Interpretation, 589 • Consequences of CPI Bias, 590

**Using the Theory: The Controversy over Indexing Social Security Benefits** 591

**Summary** 594

**Problem Set** 594

**Appendix: Calculating the Consumer Price Index** 596

## Part VIII: Long-Run Macroeconomics

---

### Chapter 20: The Classical Long-Run Model 598

#### Macroeconomic Models: Classical versus Keynesian 599

Why the Classical Model Is Important, 600 •  
Assumptions of the Classical Model, 600

#### How Much Output Will We Produce? 601

The Labor Market, 602 • From Employment  
to Output, 604

#### The Role of Spending 606

Total Spending in a Very Simple Economy, 606

#### Total Spending in a More Realistic Economy 609

#### The Loanable Funds Market 612

The Supply of Loanable Funds, 613 • The Demand for  
Loanable Funds, 614 • Equilibrium in the Loanable  
Funds Market, 616 • The Loanable Funds Market and  
Say's Law, 617

#### Fiscal Policy in the Classical Model 619

An Increase in Government Purchases, 619 •  
A Decrease in Net Taxes, 622

#### The Classical Model: A Summary 623

#### Using the Theory 624

#### Summary 624

#### Problem Set 625

#### Appendix: The Classical Model in an Open Economy 627

### Chapter 21: Economic Growth and Rising Living Standards 630

#### The Meaning and Importance of Economic Growth 630

Measuring Living Standards, 631 • Small Differences  
and the Rule of 70, 632 • Growth Prospects, 633

#### What Makes Economies Grow? 635

The Determinants of Real GDP, 635 • The Growth  
Equation, 637

#### Growth in the Employment Population Ratio (EPR) 638

Changes in Labor Supply and Labor Demand, 638 •  
Government and the EPR, 640 • The Limits to the EPR  
as a Growth Strategy, 641

#### Productivity Growth: Increases in the Capital Stock 642

Investment and the Capital Stock, 643 • How to Increase  
Investment, 644 • Human Capital and Economic Growth,  
648 • The Limits to Growth from More Capital, 649

#### Productivity Growth: Technological Change 650

Capital Growth versus Technological Change, 650 •  
Discovery-Based Growth, 651 • Catch-Up Growth, 653

#### Growth Policies: A Summary 655

#### The Costs of Economic Growth 657

Budgetary Costs, 657 • Consumption Costs, 658 •  
Sacrifice of Other Social Goals, 659

#### Using the Theory: Barriers to Catch-Up Growth in the Poorest Countries 660

#### Summary 666

#### Problem Set 666

## Part IX: The Short-Run Model and Fiscal Policy

---

### Chapter 22: Economic Fluctuations 669

#### Can the Classical Model Explain Economic Fluctuations? 672

Shifts in Labor Demand, 672 • Shifts in Labor  
Supply, 673

#### Verdict: The Classical Model Cannot Explain Economic Fluctuations 674

#### What Triggers Economic Fluctuations? 675

A Very Simple Economy, 675 • The Real-World  
Economy, 676 • Why Say's Law Doesn't Prevent  
Recessions, 677 • Examples of Recessions and  
Expansions, 681

#### Where Do We Go from Here? 683

#### Summary 683

#### Problem Set 684

### Chapter 23: The Short-Run Macro Model 685

#### Consumption Spending 686

Determinants of Consumption Spending, 686 •  
Consumption and Disposable Income, 687 •  
Consumption and Income, 691

#### Getting to Total Spending 695

Investment Spending, 695 • Government Purchases, 695 •  
Net Exports, 696 • Summing Up: Aggregate Expenditure,  
696 • Income and Aggregate Expenditure, 697

#### Equilibrium GDP 698

Finding the Equilibrium, 698 • Inventories and  
Equilibrium GDP, 699 • Finding Equilibrium GDP with a  
Graph, 700 • Equilibrium GDP and Employment, 704

#### What Happens When Things Change? 706

A Change in Investment Spending, 707 • The Expenditure  
Multiplier, 709 • The Multiplier in Reverse, 710 •

Other Spending Changes, 711 • A Graphical View of the Multiplier, 712

**The Multiplier Process and Economic Stability 713**  
 Automatic Stabilizers and the Multiplier, 713 • Automatic De-Stabilizers and the Multiplier, 715 • Real-World Multipliers, 717

Using the Theory: The Recession of 2008–2009 718

Summary 722

Problem Set 723

Appendix: Finding Equilibrium GDP Algebraically 725

## Chapter 24: Fiscal Policy 726

**The Short Run: Countercyclical Fiscal Policy 726**  
 The Mechanics of Countercyclical Fiscal Policy, 727 • Problems with Countercyclical Fiscal Policy, 730

## Part X Expanding the Model: Money, Prices and the Global Economy

---

### Chapter 25: Money, Banks, and the Federal Reserve 752

**Money 752**  
 The Money Supply, 753 • Functions of Money, 754 • A Brief History of the Dollar, 755

**The Banking System 757**  
 Financial Intermediaries in General, 757 • Commercial Banks, 758 • A Bank's Balance Sheet, 758

**The Federal Reserve System 761**  
 The Structure of the Fed, 762 • The Functions of the Fed, 764

**The Fed and the Money Supply 765**  
 How the Fed Increases the Money Supply, 765 • The Money Multiplier, 769 • How the Fed Decreases the Money Supply, 770 • Some Important Provisos about the Money Multiplier, 771 • Other Fed Actions That Change the Money Supply, 771

**Banking Panics 772**  
 Bank Insolvency and Bank Failure, 773 • How a Banking Panic Develops, 774 • The End of Banking Panics, 775 • The Role of Regulation, 777

Using the Theory: The Financial Crisis of 2008 779

Summary 783

Problem Set 784

Appendix: Capital and Leverage at Financial Institutions 786

### Chapter 26: The Money Market and Monetary Policy 788

**The Demand for Money 788**  
 A Household's Demand for Money, 788 • The Demand for Money by Businesses, 790 • The Economy-Wide

**The Long Run: Deficits and the National Debt 732**  
 Numbers in Perspective, 732 • Outlays, Revenue, and the Deficit, 733 • Deficits over Time, 735 • The Deficit and the National Debt, 736

**The National Debt: Myths and Realities 738**  
 Mythical Concerns about the National Debt, 738 • Genuine Concerns about the National Debt, 739

Using the Theory: Fiscal Policy During the Recession of 2008–2009 743

Summary 749

Problem Set 750

Demand for Money, 790 • The Money Demand Curve, 791

#### The Supply of Money 793

**Equilibrium in the Money Market 794**  
 How the Money Market Reaches Equilibrium, 795 • Are There Two Theories of the Interest Rate?, 798

**What Happens When Things Change? 798**  
 How the Fed Can Change the Interest Rate, 798 • How Do Interest Rate Changes Affect the Economy?, 800

**Monetary Policy 801**  
 How Monetary Policy Works, 801 • Targeting the Interest Rate, 803 • Monetary Policy with Many Interest Rates, 806

**Unconventional Monetary Policy 807**  
 Changing Interest Rate Spreads, 808 • The Zero Lower Bound, 809 • Financial Crises, 811

Using the Theory: The Fed and the Financial Crisis of 2008 812

Summary 818

Problem Set 819

Appendix: Feedback Effects from GDP to the Money Market 821

### Chapter 27: Aggregate Demand and Aggregate Supply 826

**The Aggregate Demand Curve 827**  
 The Price Level and the Money Market, 827 • Deriving the Aggregate Demand Curve, 828 • Understanding the AD Curve, 829 • Movements along the AD Curve, 830 • Shifts of the AD Curve, 831

**The Aggregate Supply Curve 833**

Costs and Prices, 833 • How GDP Affects Unit Costs, 835 • Short Run versus Long Run, 836 • Deriving the Aggregate Supply Curve, 837 • Movements along the AS Curve, 838 • Shifts of the AS Curve, 839

**AD and AS Together: Short-Run Equilibrium 841**

**What Happens When Things Change? 843**

Demand Shocks in the Short Run, 843 • Demand Shocks: Adjusting to the Long Run, 847 • The Long-Run Aggregate Supply Curve, 850 • Supply Shocks, 852

**Using the Theory: The Story of Two Recessions 854**

**Summary 857**

**Problem Set 857**

## **Chapter 28: Inflation and Monetary Policy 859**

**The Objectives of Monetary Policy 859**

Low, Stable Inflation, 859 • Full Employment, 860

**The Fed's Performance 862**

**Federal Reserve Policy: Theory and Practice 863**

Responding to Demand Shocks, 863 • Responding to Supply Shocks, 868

**Expectations and Ongoing Inflation 870**

How Ongoing Inflation Arises, 870 • Built-In Inflation, 871 • Ongoing Inflation and the Phillips Curve, 873 • The Long-Run Phillips Curve, 875 • Why the Fed Allows Ongoing Inflation, 877

**Challenges for Monetary Policy 878**

Information Problems, 878 • Rules versus Discretion, 880 • Avoiding Deflation, 881
