## **I: CONCEPTS**

**1 From Individual Transformation to Organizational Intelligence.....3**  
Introduction ..... 3  
Transformation ..... 4  
What Do We Mean by Intelligence?..... 6  
Vignette ..... 8  
The Effect of Culture on Organizational Intelligence..... 9  
Change Management Processes ..... 10

**2 Intelligentsia Galore.....13**  
Introduction ..... 13  
Artificial Intelligence ..... 15  
Knowledge Management ..... 16  
Business Intelligence ..... 19  
Competitive Intelligence ..... 20  
Strategic Intelligence ..... 22  
References..... 22

**3 Organizational Intelligence through Strategic Intelligence: The Synergy of Knowledge Management, Competitive Intelligence, and Business Intelligence .....25**  
Introduction ..... 25  
Case Study of JL (a Pseudonym): Introduction..... 26  
The Knowledge Audit Process at JL ..... 26

Knowledge Audit Results .....	27
Analysis of the Findings Based on the Knowledge Audit Survey .....	35
Knowledge Resources .....	35
Knowledge Sharing and Use .....	36
Training/Tools and Knowledge Needs .....	38
Knowledge Flow .....	38
Specific Key KM Recommendations for JL to Undertake .....	39
Develop the Organizational Infrastructure to Support	
Knowledge Management in JL .....	40
Develop the Technology Infrastructure (i.e., Intranet) to Enable	
Knowledge Sharing to Take Place, as Well as Developing	
Quick-Win Pilot Projects .....	40
Accentuate the “Personalization” Approach to Knowledge Sharing	
within JL .....	41
Instill a Stronger Feeling of Trust in JL by Minimizing the	
Number of Restructuring Efforts to Reduce Employee Fear	
and Improve Communications Flow within JL .....	41
References .....	42
<b>4 Lessons Learned: The Intelligentsia Melting Pot.....</b>	<b>43</b>
Business Intelligence Cannot Exist without Knowledge Management.....	43
Where Is the “Intelligence” behind “BI”?.....	44
Improving Lessons-Learned Systems through Artificial Intelligence.....	46
The NASA LLIS: A Case Study .....	48
Lessons Learned: CI and KM .....	49
Summary .....	54
References.....	54
<b>5 Competitive Intelligence.....</b>	<b>57</b>
Introduction .....	57
What Not to Do in CI .....	58
The CI Life Cycle .....	60
Linking CI with Strategic Intelligence .....	60
What Do I Need to Be Trained or Educated in CI?.....	62
Best Practices and Research Relating to Recognition and Reward	
Systems for Knowledge Sharing .....	63
Summary .....	70
<b>6 Strategic Intelligence: The Core of Executive Decision</b>	
<b>    Making.....</b>	<b>71</b>
Introduction .....	71
SI: Where It Helps .....	73
An Analogy for SI .....	76
Social Network Analysis: An Important Technique for Building SI.....	82
An Example Using SNA.....	84
Summary .....	87
References.....	88

**II: CASE STUDIES**

**Knowledge Management and Organizational Learning  
at the Annie E. Casey Foundation: A Case Study .....91**

*Thomas E. Kern*

Some Background on the Annie E. Casey Foundation: Helping  
Disadvantaged Kids and Their Families..... 91

Knowledge Management and Organizational Learning: Challenges  
and First Steps..... 92

A Statement of Purpose, Core Elements, and Initial Priorities ..... 94

Building a KM System: A Whole Greater than the Sum of Its Parts ..... 96

Integrating KM and the Library, Supporting Documentation,  
Increasing Awareness, and Furthering Organizational Learning..... 100

    Integrating KM and the Library: Providing Unified Electronic  
    Literature and Reference Services..... 100

    Documentation Support..... 100

    Tools to Improve Awareness and Integration of Casey Programs ..... 101

    The Casey Foundation as a Learning Organization..... 102

Early Evaluative Measures: Evaluation in the Context of Results;  
What Have We Done, How Well Did We Do It, Is Anyone Better Off? .... 103

    Evaluation in the Context of Results ..... 103

Lessons Learned ..... 106

    The Work Is a Nonstarter without Senior Leadership Support..... 106

    Old Habits Die Hard ..... 106

    Technology Is Not the Answer, It Is the Question..... 107

    Ready, Fire, Aim: Aka the Iterative, Prototyping Nature  
    of the Work ..... 107

    One Way or Another, KM Is a Cross-Functional Task, So  
    Coordination Is OK and Necessary, and Accountability Shared ..... 108

    Keeping the End in Mind: Utilization and Answering the  
    “So What?” Question..... 108

Next Steps..... 108

**Case Study in Strategic Scenario Development.....111**

*Maritza Morales*

Introduction: The Problem/Opportunity ..... 111

Methodology..... 112

    Motorola 2010 Scenario Process ..... 113

Analysis and Alternatives ..... 114

    Scenario 1: Meritocracy ..... 115

        Major Characteristics ..... 115

        Scenario Implications..... 117

        Early Warning Indicators ..... 117

    Scenario 2: Managed Marriage..... 117

        Major Characteristics ..... 117

        Scenario Implications..... 118

        Early Warning Indicators ..... 118

Scenario 3: Market World.....	118
Major Characteristics .....	118
Scenario Implications .....	119
Early Warning Indicators .....	119
Scenario 4: Mordida.....	119
Major Characteristics .....	119
Scenario Implications .....	120
Early Warning Indicators .....	120
Conclusions .....	120
Which of These Scenarios Represented the “Official Future”? .....	122
What Region Was to Become Most Important for Motorola? .....	122
Strategic Response/Recommendations .....	122
Recommendations That Applied to All Scenarios .....	123
Recommendations That Applied to Select Scenarios .....	124
Lessons Learned.....	124
Appendix: Company Background/Profile .....	126
Technology Milestones (1994–2004).....	127
References/Acknowledgments.....	127
<b>CI at a Major Telecommunications Company .....</b>	<b>129</b>
<i>Peter McKenney</i>	
Introduction .....	129
Cipher Systems .....	129
Telecommunications Corporation .....	130
General Company Information .....	130
CI Group.....	131
The Strategic Intelligence Relationship .....	132
Lessons Learned.....	133
Mutual Benefits.....	133
CI in Action: VoIP Strategy .....	134
Influencing Change.....	135
Educating through CI.....	135
Understanding the Facts.....	136
Communicating Early Warning Signals.....	137
Consumer Adoption .....	137
Usability Issues .....	137
Regulatory Compliance and Legal Concerns .....	137
Conclusion .....	138
Bibliography .....	138
<b>Strategic Intelligence in AARP.....</b>	<b>139</b>
<i>Shereen Remez</i>	
Introduction .....	139
Knowledge Management.....	140
Determining the Opportunity or the Problem .....	141
Developing the Team .....	141
Executing the Project.....	141
Implications and Actions .....	141

Follow-Up .....	142
Evaluation .....	142
The Corporate Yellow Pages.....	142
SharePoint Services .....	144
Communities of Practice.....	144
Competitive Intelligence.....	144
Business Intelligence .....	146
Conclusion .....	146

**Northrop Grumman Information Technology:  
Business Intelligence Case Study on “Information  
Assurance” Competitive Analysis .....147**

*Stephan Berwick*

Market Leadership versus Market Knowledge.....	147
Business Intelligence Anomaly?.....	148
The CI Plan .....	148
Sources and Methods .....	149
CI Production .....	150
CI Use .....	151
CI Success.....	152
CI at NGIT: The Core Question Ethos .....	152

**Transforming Data into Actionable Intelligence:  
Case Studies Using i2 Analyst’s Notebook® and Other  
i2 Products .....153**

*Todd Drake, Bill McGilvery, and Liza Puterman*

Introduction.....	153
Cracking an Elusive Serial Rape Case.....	154
Securing the European Football Championship.....	156
Uncovering Prescription Drug Diversion Fraud.....	156
Analyzing High-Risk Homicide and Missing-Persons Cases.....	158
Conducting Commercial Fraud Analysis .....	162

**Surviving and Thriving Despite the Loss of a Major  
Customer at The Analysis Corporation.....167**

*Keith B. Johnston and Clint Gauvin*

Introduction .....	167
Background .....	167
Initial Opportunities at Agency B.....	170
Follow-On Opportunities at Agency B.....	173

**A Methodology for Strategic Intelligence: A Roadmap  
Model, a Knowledge-Based Tool, and a Bio-MEMS  
Case Study .....179**

*Francisco J. Cantu, Silvia P. Mora, Aldo Díaz, Héctor Ceballos,  
Sergio O. Martínez, and Daniel R. Jiménez*

Introduction .....	179
Background .....	180

A Roadmap Model for SI ..... 182

    Market Analysis ..... 183

    Products ..... 184

    Technology ..... 184

    Business Actions..... 185

    Roadmap Modeling Results ..... 185

A Knowledge-Based Tool for SI..... 186

Knowledge Extraction and Data Analysis Techniques ..... 187

The Bio-MEMS Case Study..... 188

    Bio-MEMS Market Trends ..... 189

    Bio-MEMS Companies..... 189

    Bio-MEMS Application Domains..... 189

    Bio-MEMS Products..... 191

    Bio-MEMS Materials ..... 192

    Bio-MEMS Manufacturing and Packaging ..... 192

    Bio-MEMS Standardization..... 192

    R&D Centers ..... 193

    Governments: Bio-MEMS Investments and Programs..... 193

    Intellectual Property Organizations: Bio-MEMS Patents, Trends,  
    and Reports ..... 193

    Tool Support for the Bio-MEMS Case Study ..... 194

Conclusions ..... 197

Acknowledgment ..... 197

References..... 197

**Semiconductor CI — From Current Awareness to  
Predictive Decision Making: Building a Best-of-Breed  
CI Program at a Top-Tier Global IC Manufacturer.....199**

*Arik Johnson*

Introduction ..... 199

Backstory: The Element of Surprise ..... 201

Where to Begin: Benchmarking Comparative Practices ..... 204

A Hybridized Model and Gradual Implementation ..... 205

Year Two: Consolidation and Building the Knowledge-Base  
Taxonomy ..... 208

**INDEX .....209**

# About the Editor

---

**Jay Liebowitz, D.Sc.**, is a full professor in the Graduate Division of Business and Management at Johns Hopkins University and program director for the Graduate Certificate in Competitive Intelligence at Johns Hopkins University. Prior to joining Johns Hopkins, he was the first knowledge management officer at NASA Goddard Space Flight Center. Before NASA, he served as the Robert W. Deutsch Distinguished Professor of Information Systems at the University of Maryland–Baltimore County, professor of Management Science at George Washington University, and Chaired Professor of Artificial Intelligence (AI) at the U.S. Army War College. He is the founder and editor-in-chief of *Expert Systems with Applications: An International Journal* (published by Elsevier), and the founder and chairperson of The World Congress on Expert Systems. He has published 31 books and a multitude of articles dealing with expert and intelligent systems, knowledge management, and information technology management. His newest books are *Communicating as IT Professionals* (Prentice Hall, 2006) and *Addressing the Human Capital Crisis in the Federal Government: A Knowledge Management Perspective*, published by Butterworth–Heinemann/Elsevier (2004). He also recently completed a study on “Bridging the Knowledge and Skills Gaps: Tapping Federal Retirees” for the IBM Center for the Business of Government. He is a Fulbright Scholar, IEEE-USA Federal Communications Commission Executive Fellow, and Computer Educator of the Year (International Association for Computer Information Systems). He has consulted and lectured worldwide for numerous organizations. He can be reached at 301-315-2893 or at [jliewow1@jhu.edu](mailto:jliewow1@jhu.edu).
