Part A

The information and communication technologies revolution and strategic management: issues – challenges – trends	1
---	----------

1 Information and communication technologies: evolution and revolution	5
---	----------

Chapter objectives	5
1.1 Introduction	6
1.2 Defining ICTs, information systems, information management and their interrelationships	6
1.3 The stages of ICT evolution	11
1.4 ICTs and new business tools	13
1.5 Networking and the information superhighway: the Internet, intranets and extranets	15
1.6 Technological convergence and new ICT developments	20
1.7 A new wave of technological evolution	22
1.8 Conclusions	25
Chapter questions	25
Further reading	26
Websites	26

2 Implications of the ICT revolution for business and strategy	29
---	-----------

Chapter objectives	29
2.1 Introduction	30
2.2 Implications for business and strategy	30
2.3 The impact of the ICT revolution and the information society	33
2.4 Value chains and the influence of ICTs	35
2.5 The development of the information marketplace, eCommerce and cyber-markets	38

2.6	Strategic management and competitive advantage	42
2.6.1	Defining strategy and strategic management	43
2.6.2	Strategic management processes and tools	44
2.6.3	Competitive strategy, competitive advantage and competitiveness	49
2.7	ICTs, strategic management and competitiveness	51
2.7.1	Using ICTs to achieve generic strategies and strategic competitive advantage	52
2.7.2	Using ICTs to support strategic initiatives	54
2.7.3	Conditions for optimal use of ICTs	56
2.8	Prerequisites for achieving competitive advantage through IT	57
2.9	ICTs in the contemporary competitive arena: business re-engineering and paradigm shift	60
2.10	The virtual corporation: concepts and definitions	63
2.11	ICTs and innovation as the nucleus of organizational processes and strategy	67
2.12	A multidimensional framework for strategic management and marketing	69
2.13	Conclusions: ICT info-structure and strategic management	71
	Chapter questions	71
	Further reading	72
	Websites	72
3	eTourism: the dynamic interaction of ICTs and tourism	75
	Chapter objectives	75
3.1	Introduction	76
3.2	The impact of ICTs on tourism	76
3.3	The transformation of best operational practices in tourism by ICTs	78
3.4	The tourism system and ICTs	80
3.5	The use of hardware and software in tourism organizations	83
3.6	Applications of ICT in tourism and hospitality	87
3.7	Telecommunications and networking in the tourism industry	89
3.8	The evolution of Computer Reservation Systems	93
3.9	Multi-integration of ICTs for the tourism industry and destinations	96
3.9.1	Technological integration and convergence	96
3.9.2	Tourism industry integration and collaboration	98
3.9.3	Local economy and society integration and coordination	98
3.10	A multidimensional framework for ICTs in tourism	99
3.10.1	Intra-organizational functions (using intranets)	101
3.10.2	Inter-organizational functions through extranets (and the Internet)	101
3.10.3	Consumer and stakeholder interaction over the Internet	102
3.11	Dynamic partnerships and constant movement	104
3.12	Conclusions: the tourism info-structure and organizational performance	105
	Chapter questions	106
	Further reading	106
	Websites	107
4	Demand-driven eTourism	109
	Chapter objectives	109
4.1	Introduction	110
4.2	Leisure vs business travel demand and the Internet implications	110

4.3	Quantitative growth of tourism demand and on-line population	113
4.3.1	On-line population and on-line tourism demand	115
4.3.2	Demand for tourism on-line and eCommerce	121
4.4	Barriers and catalysts for on-line consumers and travellers	125
4.5	Qualitative growth of tourism demand	127
4.6	The ICT revolution and tourist satisfaction	132
4.7	Conclusions: the rapid growth of on-line population and travel demand	134
	Chapter questions	135
	Further reading	135
	Websites	135
5	Supply-driven eTourism	137
	Chapter objectives	137
5.1	Introduction	138
5.2	eTourism and the requirements of the tourism industry	138
5.3	ICTs and SMTEs vs larger tourism organizations	140
5.4	Strategic aims and objectives for tourism suppliers	144
5.4.1	Private and for-profit tourism organizations	144
5.4.2	Public and not-for-profit tourism organizations and destinations	146
5.5	ICT-empowered strategic management in the tourism industry	147
5.5.1	Monitoring the environment and dynamic response: proactive management and neural organizations	149
5.5.2	Building and maintaining competitive advantage using ICTs	151
5.5.3	Using ICTs for sustainable competitive advantage	160
5.5.4	Using ICTs to avoid competitive disadvantage	161
5.6	ICT-empowered strategic decisions and directions	163
5.6.1	ICT-empowered strategic alliances and partnerships	163
5.6.2	ICT-empowered scope of operations: expansion and portfolio management	165
5.6.3	ICT-empowered distribution strategies	165
5.6.4	ICT-empowered building and protecting of brands on-line	167
5.6.5	ICT-empowered customer relationship management and dynamic marketing (loyalty boosters)	169
5.7	Conclusions: eTourism empowers tourism management	171
	Chapter questions	171
	Further reading	172
	Websites	172

Part B

ICTs for strategic and operational management in the various sectors of the tourism industry	173
---	------------

6	Operational management and distribution in eTourism	177
	Chapter objectives	177
6.1	Introduction	178
6.2	Tourism distribution mechanisms and practice	178

6.3	ICT tools for managing the digital tourism organization	182
6.3.1	Internet-supported eTourism management	183
6.3.2	Internal systems and intranet-supported eTourism management	183
6.3.3	Partner systems and extranet-supported eTourism management	186
6.4	Conclusions: managing eTourism sectors through ICTs	189
	Chapter questions	190
	Further reading	190
	Websites	190
7	eAirlines	193
	Chapter objectives	193
7.1	Introduction	194
7.2	From Computer Reservations Systems to Global Distribution Systems	194
7.3	Airline types and ICT utilization	198
7.4	Strategic and tactical roles of ICTs for airlines	198
7.4.1	Internal systems and intranets	199
7.4.2	Interconnecting partner systems and extranets	203
7.4.3	Connecting with all stakeholders through the Internet	206
7.5	ICT-empowered strategic alliances for airlines	209
7.6	Critical issues for the future success of airlines	211
7.7	Conclusions	213
	Chapter questions	213
	Further reading	214
	Websites	215
8	eHospitality	219
	Chapter objectives	219
8.1	Introduction	220
8.2	Accommodation establishment types and ICT utilization	220
8.3	Strategic and tactical role of ICTs for hotels	221
8.3.1	Internal systems and intranets	222
8.3.2	Interconnecting partner systems and extranets	225
8.3.3	Connecting with all stakeholders through the Internet	227
8.4	Larger vs smaller accommodation properties	231
8.5	Lessons and issues for the future of eHospitality	234
8.6	Conclusions	237
	Chapter questions	237
	Further reading	238
	Websites	239
9	eTour operators	241
	Chapter objectives	241
9.1	Introduction	242
9.2	Tour operator functions, types and structures	242
9.3	The use of videotext as an early leisure travel network	243
9.4	Strategic and tactical roles of ICTs for tour operators	244
9.4.1	Internal systems and intranets	244
9.4.2	Interconnecting partners and extranets	246
9.4.3	Connecting with all stakeholders through the Internet	250

9.5	Disintermediation vs re-intermediation for tour operators	254
9.6	Lessons and issues for the future of tour operators	256
9.7	Conclusions	257
	Chapter questions	258
	Further reading	258
	Websites	259
10	eTravel agencies	261
	Chapter objectives	261
10.1	Introduction	262
10.2	Travel agency functions, types and structures	262
10.3	Videotext for leisure travel agencies and GDSs for business agencies	263
10.4	Strategic and tactical roles of ICTs for travel agencies	265
	10.4.1 Internal systems and intranets	265
	10.4.2 Interconnecting partner systems and extranets	267
	10.4.3 Connecting with all stakeholders through the Internet	267
10.5	Disintermediation vs re-intermediation for travel agencies	270
10.6	Lessons and issues for the future of travel agencies	272
10.7	Conclusions	276
	Chapter questions	276
	Further reading	276
	Websites	277
11	eDestinations	279
	Chapter objectives	279
11.1	Introduction	280
11.2	eDestination types, SMTEs and ICT utilization	280
11.3	Strategic and tactical role of ICTs for destinations	281
11.4	Developing a destination management system (DMS)	285
11.5	DMS challenges and developments to date	287
11.6	From operational DMSs to strategic DICIRMSs	288
11.7	DICIRMSs using intranet–extranet–Internet tools	293
	11.7.1 Internal systems and intranets	294
	11.7.2 Interconnecting partner systems and extranets	295
	11.7.3 Connecting with all stakeholders through the Internet	296
11.8	Challenges and critical issues for destinations	297
11.9	The optimization of the impacts of tourism	301
11.10	Lessons and issues for the future of DMSs	302
11.11	Conclusions	306
	Chapter questions	306
	Further reading	307
	Websites	308
12	eTourism: synthesis and a vision of the future	311
	Chapter objectives	311
12.1	Introduction	312
12.2	ICTs as tools for the industry and inelastic expenditure	312
12.3	Developing interactivity between consumers and suppliers through ICTs	313

12.4	Multi-channel strategies for tourism distribution	315
12.4.1	eTourism intermediaries: the revolution of intermediation	316
12.4.2	eTourism intermediaries: using multi-channel strategies	318
12.4.3	eTourism convergence and platforms	324
12.5	Strategic implications of eTourism for tourism management and marketing	325
12.5.1	Strategic implications of eTourism for the consumer of the future	326
12.5.2	Implications of eTourism for principals and SMTEs	328
12.5.3	Implications of eTourism for travel intermediaries	329
12.5.4	Implications of eTourism for destinations and the public sector	333
12.6	The virtualization of the tourism industry	334
12.7	Conclusions: change is the only constant	337
	Chapter questions	340
	Further reading	341
	Websites	341
	Glossary	342
	Bibliography	353
	Index	367
