A Message to Students xxx

## CHAPTER 1

### The Science of Psychology 3

**MODULE 1.1** Foundations of Modern Psychology 4  
Origins of Psychology 4  
Contemporary Perspectives in Psychology 8  
**Module 1.1 Review** 13

**MODULE 1.2** Psychologists: Who They Are and What They Do 14  
Specialty Areas of Psychology 14  
Professional Psychology: Becoming More Diverse 19  
**Module 1.2 Review** 20

**MODULE 1.3** Research Methods in Psychology 21  
The Scientific Method: How We Know What We Know 21  
Research Methods: How We Learn What We Know 23  
The Experimental Method 27  
Anatomy of a Research Study: Clean Smell, Clean Hands? 28  
Ethical Principles in Psychological Research 31  
**Module 1.3 Review** 33

## CHAPTER 2

### Biological Foundations of Behavior 41

**MODULE 2.1** Neurons: The Body's Wiring 42  
The Structure of the Neuron 42  
How Neurons Communicate 44  
Neurotransmitters: The Nervous System's Chemical Messengers 45  
**Module 2.1 Review** 48

**MODULE 2.2** The Nervous System: Your Body's Information Superhighway 49  
The Central Nervous System: Your Body's Master Control Unit 51  
The Peripheral Nervous System: Your Body's Link to the Outside World 52  
**Module 2.2 Review** 53

**MODULE 2.3** The Brain: Your Crowning Glory 54  
The Hindbrain 55

The Midbrain 55  
The Forebrain 55  
The Cerebral Cortex: The Brain's Thinking, Calculating, Organizing, and Creative Center 56  
**Module 2.3 Review** 60

**MODULE 2.4** Methods of Studying the Brain 61  
Recording and Imaging Techniques 61  
Experimental Methods 64  
**Module 2.4 Review** 66

**MODULE 2.5** The Divided Brain: Specialization of Function 67  
The Brain at Work: Lateralization and Integration 67  
Handedness: Why Are People Not More Even-Handed? 69  
Split-Brain Research: Can the Hemispheres Go It Alone? 69

Brain Damage and Psychological Functioning	70
<b>Module 2.5 Review</b>	<b>73</b>
<b>MODULE 2.6</b> The Endocrine System: The Body's Other Communication System	74
Endocrine Glands: The Body's Pumping Stations	74
Hormones and Behavior	76
<b>Module 2.6 Review</b>	<b>77</b>

<b>MODULE 2.7</b> Genes and Behavior: A Case of Nature and Nurture	78
Genetic Influences on Behavior	78
Kinship Studies: Untangling the Roles of Heredity and Environment	79
<b>Module 2.7 Review</b>	<b>82</b>

## CHAPTER 3

# Sensation and Perception 87

<b>MODULE 3.1</b> Sensing Our World: Basic Concepts of Sensation	88
Absolute and Difference Thresholds: Is Something There? Is Something <i>Else</i> There?	88
Signal Detection: More Than a Matter of Energy	90
Sensory Adaptation: Turning the Volume Down	90
<b>Module 3.1 Review</b>	<b>91</b>

<b>MODULE 3.2</b> Vision: Seeing the Light	91
Light: The Energy of Vision	92
The Eye: The Visionary Sensory Organ	92
Feature Detectors: Getting Down to Basics	95
Color Vision: Sensing a Colorful World	95
<b>Module 3.2 Review</b>	<b>98</b>

<b>MODULE 3.3</b> Hearing: The Music of Sound	99
Sound: Sensing Waves of Vibration	99
The Ear: A Sound Machine	100
Perception of Pitch: Perceiving the Highs and Lows	100
Hearing Loss: Are You Protecting Your Hearing?	102
<b>Module 3.3 Review</b>	<b>104</b>

<b>MODULE 3.4</b> Our Other Senses: Chemical, Skin, and Body Senses	105
--	-----

Olfaction: What Your Nose Knows	105
Taste: The Flavorful Sense	108
The Skin Senses: Your Largest Sensory Organ	109
The Kinesthetic and Vestibular Senses: Of Grace and Balance	112
<b>Module 3.4 Review</b>	<b>114</b>

<b>MODULE 3.5</b> Perceiving Our World: Principles of Perception	115
Attention: Did You Notice That?	116
Perceptual Set: Seeing What You Expect to See	117
Modes of Visual Processing: Bottom-Up Versus Top-Down	117
Gestalt Principles of Perceptual Organization	118
Gestalt Laws of Grouping	119
Perceptual Constancies	120
Cues to Depth Perception	120
Motion Perception	122
Visual Illusions: Do Your Eyes Deceive You?	123
Controversies in Perception: Subliminal Perception and Extrasensory Perception	125
<b>Module 3.5 Review</b>	<b>128</b>

## CHAPTER 4

# Consciousness 133

<b>MODULE 4.1</b> States of Consciousness	134
Focused Awareness	134
Drifting Consciousness	135
Divided Consciousness	135
<b>Module 4.1 Review</b>	<b>138</b>
<b>MODULE 4.2</b> Sleeping and Dreaming	139
Sleep and Wakefulness: A Circadian Rhythm	139

The Stages of Sleep	140
Why Do We Sleep?	142
Dreams and Dreaming	143
Sleep Deprivation: Getting By on Less	145
Sleep-Wake Disorders: When Normal Sleep Eludes Us	147
<b>Module 4.2 Review</b>	<b>150</b>

**MODULE 4.3** Altering Consciousness Through Meditation and Hypnosis 151

Meditation: Achieving a Peaceful State by Focusing Your Attention 152

Hypnosis: “You Are Now Getting Sleepier” 152

**Module 4.3 Review** 154

**MODULE 4.4** Altering Consciousness Through Drugs 155

Drug Abuse: When Drug Use Causes Harm 156

Drug Dependence: When the Drug Takes Control 156

Depressants 157

Stimulants 162

Hallucinogens 165

Understanding Drug Abuse 168

Drug Treatment 170

**Module 4.4 Review** 170

## CHAPTER 5

# Learning 175

**MODULE 5.1** Classical Conditioning: Learning Through Association 176

Principles of Classical Conditioning 176

A Cognitive Perspective on Classical Conditioning 180

Why It Matters: Examples of Classical Conditioning in Daily Life 181

Conditioning the Immune System 184

**Module 5.1 Review** 185

**MODULE 5.2** Operant Conditioning: Learning Through Consequences 186

Thorndike and the Law of Effect 187

B. F. Skinner and Operant Conditioning 187

Principles of Operant Conditioning 189

Escape Learning and Avoidance Learning 194

Punishment 194

Why It Matters: Applications

of Operant Conditioning 197

**Module 5.2 Review** 200

**MODULE 5.3** Cognitive Learning 202

Insight Learning 202

Latent Learning 203

Observational Learning 204

**Module 5.3 Review** 206

## CHAPTER 6

# Memory 211

**MODULE 6.1** Remembering 212

Human Memory as an Information Processing System 212

Memory Stages 213

The Reliability of Long-Term Memory: Can We Trust Our Memories? 219

**Module 6.1 Review** 223

**MODULE 6.2** Forgetting 224

Decay Theory: Fading Impressions 224

Interference Theory: When Learning More Leads to Remembering Less 225

Retrieval Theory: Forgetting as a Breakdown in Retrieval 227

Motivated Forgetting: Memories Hidden From Awareness 229

Measuring Memory: How It Is Measured May Determine How Much Is Recalled 229

Amnesia: Of Memories Lost or Never Gained 230

**Module 6.2 Review** 231

**MODULE 6.3** The Biology of Memory 232

Brain Structures in Memory: Where Do Memories Reside? 232

Strengthening Connections Between Neurons: The Key to Forming Memories 233

Genetic Bases of Memory 234

**Module 6.3 Review** 238

CHAPTER 7

Thinking, Language, and Intelligence 243

**MODULE 7.1** Thinking 244  
 Mental Images: In Your Mind’s Eye 244  
 Concepts: What Makes a Bird a Bird? 245  
 Problem Solving: Applying Mental Strategies to Solving Problems 247  
 Creativity: Are You Tapping Your Creative Potential? 250  
**Module 7.1 Review** 255

**MODULE 7.2** Language 256  
 Components of Language 256  
 Language Development 257  
 Culture and Language: Does the Language We Use Determine How We Think? 258  
 Is Language Unique to Humans? 259  
**Module 7.2 Review** 260

**MODULE 7.3** Intelligence 261  
 What Is Intelligence? 261  
 How Is Intelligence Measured? 262  
 What Are the Characteristics of a Good Test of Intelligence? 263  
 Gender Differences in Cognitive Abilities 265  
 Extremes of Intelligence: Intellectual Disability and Giftedness 266  
 Theories of Intelligence 267  
 Intelligence and the Nature–Nurture Question 270  
**Module 7.3 Review** 273

CHAPTER 8

Motivation and Emotion 279

**MODULE 8.1** Motivation: The “Whys” of Behavior 280  
 Biological Sources of Motivation 280  
 Psychological Sources of Motivation 282  
 The Hierarchy of Needs: Ordering Needs from the Lowest to the Highest Level of Human Experience 284  
**Module 8.1 Review** 286

**MODULE 8.2** Hunger and Eating 287  
 What Makes Us Hungry? 288  
 Obesity: A National Epidemic 289  
 Eating Disorders 291  
**Module 8.2 Review** 295

**MODULE 8.3** Sexual Motivation 296  
 The Sexual Response Cycle: How Your Body Gets Turned On 297

Sexual Orientation 298  
 Sexual Dysfunctions 300  
**Module 8.3 Review** 302

**MODULE 8.4** Emotions 303  
 What Are Emotions? 303  
 Emotional Expression: Read Any Good Faces Lately? 304  
 Happiness: What Makes You Happy? 307  
 How Your Brain Does Emotions 309  
 Theories of Emotion: Which Comes First—Feelings or Bodily Responses? 310  
 Emotional Intelligence: How Well Do You Manage Your Emotions? 314  
 The Polygraph: Does It Work? 315  
**Module 8.4 Review** 318

## CHAPTER 9

**Human Development** 323**MODULE 9.1** Prenatal Development: A Case of Nature and Nurture 324

Stages of Prenatal Development 325  
Threats to Prenatal Development 326

**Module 9.1 Review** 328**MODULE 9.2** Infant Development 329

Reflexes 329  
Sensory, Perceptual, and Learning Abilities in Infancy 330  
Motor Development 331

**Module 9.2 Review** 333**MODULE 9.3** Years of Discovery: Emotional, Social, and Cognitive Development in Childhood 334

Temperament: The “How” of Behavior 334  
Attachment: Binding Ties 336  
Child-Rearing Influences 337  
Erikson’s Stages of Psychosocial Development 341  
Cognitive Development 342

**Module 9.3 Review** 348

**MODULE 9.4** Adolescence 350  
Physical Development 350  
Cognitive Development 352  
Psychosocial Development 356

**Module 9.4 Review** 359**MODULE 9.5** Early and Middle Adulthood 360

Physical and Cognitive Development 360  
Psychosocial Development 362

**Module 9.5 Review** 363**MODULE 9.6** Late Adulthood 364

Physical and Cognitive Development 365  
Psychosocial Development 366  
The Last Chapter: On Death and Dying 368

**Module 9.6 Review** 369

## CHAPTER 10

**Psychology and Health** 377**MODULE 10.1** Stress: What It Is and What It Does to the Body 378

Sources of Stress 379  
The Body’s Response to Stress 386  
Stress and the Immune System 389  
Psychological Moderators of Stress 390

**Module 10.1 Review** 396**MODULE 10.2** Psychological Factors in Physical Illness 397

Coronary Heart Disease 397  
Cancer 400  
Sexual Behavior and STDs: Are You Putting Yourself at Risk? 402

**Module 10.2 Review** 405

## CHAPTER 11

**Personality** 411

**MODULE 11.1** The Psychodynamic Perspective 412  
Sigmund Freud: Psychoanalytic Theory 412  
Levels of Consciousness: The Conscious, the Preconscious, and the Unconscious 412

Other Psychodynamic Approaches 417  
Evaluating the Psychodynamic Perspective 418  
**Module 11.1 Review** 420

**MODULE 11.2** The Trait Perspective 421  
 Gordon Allport: A Hierarchy of Traits 421  
 Raymond Cattell: Mapping the Personality 421  
 Hans Eysenck: A Simpler Trait Model 422  
 The Five-Factor Model of Personality: The “Big Five” 423  
 The Genetic Basis of Traits: Moving Beyond the Nature–Nurture Debate 426  
 Evaluating the Trait Perspective 427  
**Module 11.2 Review** 428

**MODULE 11.3** The Social-Cognitive Perspective 429  
 Julian Rotter: The Locus of Control 429  
 Albert Bandura: Reciprocal Determinism and the Role of Expectancies 430  
 Walter Mischel: Situation Versus Person Variables 431

Evaluating the Social-Cognitive Perspective 431  
**Module 11.3 Review** 432

**MODULE 11.4** The Humanistic Perspective 433  
 Carl Rogers: The Importance of Self 433  
 Abraham Maslow: Scaling the Heights of Self-Actualization 435  
 Culture and Self-Identity 435  
 Evaluating the Humanistic Perspective 436  
**Module 11.4 Review** 438

**MODULE 11.5** Personality Tests 439  
 Self-Report Personality Inventories 440  
 Projective Tests 442  
**Module 11.5 Review** 444

**CHAPTER 12**

**Social Psychology 449**

**MODULE 12.1** Perceiving Others 450  
 Impression Formation: Why First Impressions Count So Much 450  
 Attributions: Why the Pizza Guy Is Late 452  
 Attitudes: How Do You Feel About . . . ? 453  
 Persuasion: The Fine Art of Changing People’s Minds 455  
**Module 12.1 Review** 457

**MODULE 12.2** Relating to Others 459  
 Attraction: Getting to Like (or Love) You 459  
 Love: The Deepest Emotion 462  
 Helping Behavior: Lending a Hand to Others in Need 463  
 Prejudice: Attitudes That Harm 465

Human Aggression: Behavior That Harms 469  
**Module 12.2 Review** 472

**MODULE 12.3** Group Influences on Individual Behavior 473  
 Our Social Selves: “Who Are We?” 474  
 Conformity: Bending the “I” to Fit the “We” 475  
 Obedience to Authority: When Does It Go Too Far? 478  
 Social Facilitation and Social Loafing: When Are You Likely to Perform at Your Best? 480  
**Module 12.3 Review** 482

**CHAPTER 13**

**Psychological Disorders 487**

**MODULE 13.1** What Is Abnormal Behavior? 488  
 Charting the Boundaries Between Normal and Abnormal Behavior 488  
 Models of Abnormal Behavior 490  
 What Are Psychological Disorders? 493  
**Module 13.1 Review** 494

**MODULE 13.2** Anxiety-Related Disorders 495  
 Types of Disorders 496  
 Causes of Anxiety-Related Disorders 497  
**Module 13.2 Review** 499

**MODULE 13.3** Dissociative and Somatic Symptom and Related Disorders 500  
 Dissociative Disorders 500  
 Causes of Dissociative Disorders 501  
 Somatic Symptom and Related Disorders 502  
 Causes of Somatic Symptom and Related Disorders 503  
**Module 13.3 Review** 504

**MODULE 13.4** Mood Disorders 505  
 Types of Mood Disorders 505

Causes of Mood Disorders 507  
Suicide 510

**Module 13.4 Review 514**

**MODULE 13.5** Schizophrenia 515

Symptoms of Schizophrenia 515

Causes of Schizophrenia 516

**Module 13.5 Review 518**

**MODULE 13.6** Personality Disorders 519

Antisocial Personality Disorder 519

Borderline Personality Disorder 520

**Module 13.6 Review 521**

## CHAPTER 14

# Methods of Therapy 527

**MODULE 14.1** Types of Psychotherapy 528

Psychodynamic Therapy 528

Humanistic Therapy 531

Behavior Therapy 533

Cognitive Therapy 536

Eclectic Therapy 540

Group, Family, and Couple Therapy 540

Is Psychotherapy Effective? 541

Multicultural Issues in Treatment 543

**Module 14.1 Review 548**

**MODULE 14.2** Biomedical Therapies 549

Drug Therapy 549

Electroconvulsive Therapy 552

Psychosurgery 552

The Movement Toward Community-Based Care 553

**Module 14.2 Review 556**

**APPENDIX A** Sample Answers to Thinking Critically About Psychology Questions A-1
