Acknowledgements	viii
Preface	ix
<b>1 The Ship</b>	<b>1</b>
• The number and classification of ships	1
• Parts of the ship	5
• Ship stresses and stability	10
• Markings on the ship	13
• Tonnage	15
<b>2 Types of Ships</b>	<b>23</b>
• The passenger ship	23
• The general cargo ship	32
• The container ship	35
• Barge-carrying ships	41
• Ro/Ro ships	44
• The bulk carrier	45
• Specialist ships	56
• Types of engines	57
• Power measurement, requirement and fuel consumption	62
<b>3 Types and Trends</b>	<b>65</b>
• Trends in ship types	65
• The economics of ship size	67
• The economics of speed	71
<b>4 The Crew</b>	<b>80</b>
• Typical duties	80
• Reductions in crew size	82
• The international supply of seafarers	84
• How crew sizes are regulated	86
• Crew training	87
• Industrial relations	89
<b>5 Navigation</b>	<b>91</b>
• Whose responsibility is this?	91
• The choice of route	91
• Navigational hardware	93
• Communications at sea	98

<b>6 Types of Cargo</b>	<b>100</b>
• Basic definitions	100
• Pre-shipment planning	102
• The stowage plan	102
• Stowage and discharge	104
• The care of cargo during the voyage	104
• Stuffing containers	107
• Bulk cargo	108
• Dangerous cargoes	113
• Deck cargo	113
<b>7 Why Cargo is Moved</b>	<b>117</b>
• The theory of trade	118
• Supply v demand – the essence of the problem	121
<b>8 Cost and Freight Rates</b>	<b>126</b>
• Cost classification	126
• Administration costs	128
• The Daily Running Cost (DRC)	132
• Cost of bunkers	136
• Freight rates...the key to the problem	138
<b>9 World Tonnage</b>	<b>145</b>
• Supply of shipping	145
• The growth of national merchant fleets	147
• Reasons for encouraging and sustaining national fleets	153
• Maritime policy	156
• What are flags of convenience?	162
<b>10 Shipping Finance</b>	<b>167</b>
<i>by Dr Heather McLaughlin</i>	
• Introduction	167
• Shipping and the global financial crisis	167
• Types of funding	170
<b>11 Dry Cargo, Tramp and Tanker Markets</b>	<b>176</b>
• Different ways of chartering a ship	176
• Standard forms for charters	181
• Voyage estimating	183
• <i>Obtaining the 'offers'</i>	186
• <i>The final reckoning</i>	194

● Arbitration	195
● Differences in the tanker market and tanker chartering	196
<b>12 The Liner Market and Multimodal Transport</b>	<b>202</b>
● Typical company organisation	202
● Marketing	204
● Conferences, consortia and alliances	207
● Logistics and/or intermodal transport	213
<b>13 Safety</b>	<b>219</b>
● How serious a problem is safety?	220
● Governmental and international action on safety	230
● Economics of safety	235
● Salvage	244
● Safety and environmental issues (by <i>Professor T Sampson</i> )	245
<b>14 Economics of Documentation</b>	<b>260</b>
● Economical and operational problems of documentation	
<b>15 Ports</b>	<b>273</b>
● Port development	276
● Classification of ports	279
● Types of port ownership	282
● Port labour	301
● Port management and administration	303
● Port charges	304
● Ship canals	305
● Safety and environmental issues	
Appendix A: Voyage estimate using Excel	312
Appendix B: Distances along the world's major trade routes	316
Appendix C: Websites	318
