5.5	Sports Tourism Participation Model	82
6.1	The Rhodes model	91
6.2	Features of the policy community continuum	92
6.3	Levels in the GIR model	92
6.4	The sport-tourism policy network (GIR model)	93
6.5	A model of cross-sectoral policy development	94
7.1	Policy Area Matrix for Sport and Tourism	104
7.2	Tensions in the sport and tourism policy communities	107
7.3	Sport and tourism policy communities: heartland and periphery	115
8.1	Model of Sports Tourism Types	136

Tables

2.1	Holiday-makers motivated by sporting activities	28
2.2	The economic impact of sports tourism in the UK	29
4.1	Studies of sports tourists providing primary data sets	55
8.1	Potential features of each sports tourism type	135
11.1	Types of mega-event	166
12.1	Activities as a main purpose of a domestic activity holiday	177
12.2	Participation in various activity holidays by life stage	178
12.3	Characteristics of rural leisure activities	179
12.4	Ranked importance of factors in holiday choice: Twr-Y-Felin Activity Centre	184
12.5	Activities available at Black Mountain Activities	186
13.1	The continuum of characteristics of Alpine resorts	191
13.2	The UK ski market size, by tour operators, independent travel and schools, 1980–81–2001–02	193
13.3	The UK ski market share, by tour operators, independent travel and schools, 1980–81–2001–02	193
13.4	Skiers and potential skiers by demographic subgroup, 2002	196
13.5	The diversification of winter sports activities	199

Boxes

4.1	Travel patterns of elite British track athletes	56
4.2	Potential injury as a barrier to recreational sports tourism participation	57
8.1	Harvard Sports Management Group profile	128
8.2	Golf tourism in Scotland	134

Acknowledgements

In addition to our respective partners, to whom we owe a large debt of gratitude for their support and patience over a considerable period of time, we would also like to thank various other people for their help and support in the writing of this text. Considerable thanks must go to Dr Guy Jackson, formerly of the Institute of Sport and Leisure Policy at Loughborough University, now Marketing Manager for Loughborough Sport, who was initially going to be involved in the authorship of this text. Guy put his considerable 'archive' of sports tourism research and materials at our disposal, and provided valuable advice about the direction and nature of the text. We would also like to acknowledge the contribution made by the various Masters and Doctoral students whose work is quoted throughout this text, and specifically the contribution of Dr Martin Reeves's doctoral research. Thanks are also due to Mick Green and Professor Barrie Houlihan at Loughborough University for guidance on international sports policy structures.

Finally, we would like to express our appreciation to the various staff at Butterworth-Heinemann, in particular Sally North, for their continued support for this project and the help they have provided.
