Brief Contents

	Preface	xv
CHAPTER 1	Introduction	1
CHAPTER 2	Structure of Derivatives Markets	26
PART I	Options	69
CHAPTER 3	Principles of Option Pricing	70
CHAPTER 4	Option Pricing Models: The Binomial Model	109
CHAPTER 5	Option Pricing Models: The Black–Scholes–Merton Model	143
CHAPTER 6	Basic Option Strategies	202
CHAPTER 7	Advanced Option Strategies	239
PART II	Forwards, Futures, and Swaps	273
CHAPTER 8	Principles of Pricing Forwards, Futures, and Options on Futures	274
CHAPTER 9	Futures Arbitrage Strategies	316
CHAPTER 10	Forward and Futures Hedging, Spread, and Target Strategies	343
CHAPTER 11	Swaps	395
PART III	Advanced Topics	437
CHAPTER 12	Interest Rate Forwards and Options	438
CHAPTER 13	Advanced Derivatives and Strategies	475
CHAPTER 14	Financial Risk Management Techniques and Applications	516
CHAPTER 15	Managing Risk in an Organization	559
Appendix A	Solutions to Concept Checks	A-1 (This content is also available on the textbook companion site.)
Appendix B	References	B-1 (This content is available on the textbook companion site only.)
Appendix C	List of Symbols	C-1 (This content is available on the textbook companion site only.)
Appendix D	List of Important Formulas	D-1 (This content is available on the textbook companion site only.)
	Glossary	G-1
	Index	I-1

Contents

Prefacexv

CHAPTER 1

Introduction 1

1-1 Derivative Markets and Instruments 4

- 1-1a Derivatives Markets 4
- 1-1b Options 4
- 1-1c Forward Contracts 4
- 1-1d Futures Contracts 5
- 1-1e Swaps 5

1-2 The Underlying Asset 5

1-3 Important Concepts in Financial and Derivative Markets 6

- 1-3a Presuppositions for Financial Markets 6
- 1-3b Risk Preference 6
- 1-3c Short Selling 7
- 1-3d Repurchase Agreements 8
- 1-3e Return and Risk 8
- 1-3f Market Efficiency and Theoretical Fair Value 10

Making the Connection

Risk and Return and Arbitrage 11

1-4 Fundamental Linkages between Spot and Derivative Markets 12

- 1-4a Arbitrage and the Law of One Price 12
- 1-4b The Storage Mechanism: Spreading Consumption across Time 13
- 1-4c Delivery and Settlement 13

1-5 Role of Derivative Markets 14

- 1-5a Risk Management 14
- 1-5b Price Discovery 14

Making the Connection

Jet Fuel Risk Management at Southwest Airlines 15

- 1-5c Operational Advantages 15
- 1-5d Market Efficiency 16

1-6 Criticisms of Derivative Markets 16

1-7 Misuses of Derivatives 17

1-8 Derivatives and Ethics 17

1-9 Derivatives and Your Career 19

1-10 Sources of Information on Derivatives 19

1-11 Book Overview 20

- 1-11a Organization of the Book 20
- 1-11b Key Features of the Book 20
- 1-11c Specific New Features of the Tenth Edition 22
- 1-11d Use of the Book 22

Summary 23
Key Terms 23
Further Reading 23
Concept Checks 24
Questions and Problems 24

CHAPTER 2

Structure of Derivatives Markets 26

2-1 Types of Derivatives 26
 2-1a Options 26
 2-1b Forward Contracts 28
 2-1c Futures Contracts 29
 2-1d Swaps 30
 2-1e Other Types of Derivatives 30
2-2 Origins and Development of Derivatives Markets 31
 2-2a Evolution of Commodity Derivatives 32
 2-2b Introduction and Evolution of Financial Derivatives 33
 2-2c Development of the Over-the-Counter Derivatives Markets 35

Making the Connection

College Football Options 36

2-3 Exchange-Listed Derivatives Trading 37
 2-3a Derivatives Exchanges 37
 2-3b Standardization of Contracts 39
 2-3c Physical versus Electronic Trading 42
 2-3d Mechanics of Trading 43
 2-3e Opening and Closing Orders 43
 2-3f Expiration and Exercise Procedures 44
2-4 Over-the-Counter Derivatives Trading 46
 2-4a Opening and Early Termination Orders 49
 2-4b Expiration and Exercise Procedures 51
2-5 Clearing and Settlement 51
 2-5a Role of the Clearinghouse 52
 2-5b Daily Settlement 53

Making the Connection

How Clearinghouses Reduce Credit Risk 54

2-6 Market Participants 58
2-7 Transaction Costs 60
 2-7a Floor Trading and Clearing Fees 60
 2-7b Commissions 60
 2-7c Bid-Ask Spreads 61
 2-7d Delivery Costs 61
 2-7e Other Transaction Costs 61
2-8 Taxes 62
2-9 Regulation of Derivatives Markets 62

Summary 65
Key Terms 65
Further Reading 65
Concept Checks 66
Questions and Problems 67

PART I Options

CHAPTER 3

Principles of Option Pricing 70

- 3-1 Basic Notation and Terminology 71
- 3-2 Principles of Call Option Pricing 73
 - 3-2a Minimum Value of a Call 73
 - 3-2b Maximum Value of a Call 75
 - 3-2c Value of a Call at Expiration 75
 - 3-2d Effect of Time to Expiration 76
 - 3-2e Effect of Exercise Price 78
 - 3-2f Lower Bound of a European Call 81

Making the Connection

Asynchronous Closing Prices and Apparent Boundary Condition Violations 83

- 3-2g American Call versus European Call 84
- 3-2h Early Exercise of American Calls on Dividend-Paying Stocks 85
- 3-2i Effect of Interest Rates 86
- 3-2j Effect of Stock Volatility 86

Taking Risk in Life

Drug Effectiveness 87

- 3-3 Principles of Put Option Pricing 88
 - 3-3a Minimum Value of a Put 88
 - 3-3b Maximum Value of a Put 89
 - 3-3c Value of a Put at Expiration 90
 - 3-3d Effect of Time to Expiration 91
 - 3-3e The Effect of Exercise Price 92
 - 3-3f Lower Bound of a European Put 94
 - 3-3g American Put versus European Put 96
 - 3-3h Early Exercise of American Puts 96
 - 3-3i Put–Call Parity 96

Making the Connection

Put–Call Parity Arbitrage 100

- 3-3j Effect of Interest Rates 101
- 3-3k Effect of Stock Volatility 101

Summary 101

Key Terms 103

Further Reading 103

Concept Checks 103

Questions and Problems 104

Appendix 3: Dynamics of Option Boundary Conditions: A Learning Exercise 107

CHAPTER 4

Option Pricing Models: The Binomial Model 109

- 4-1 One-Period Binomial Model 109
 - 4-1a Illustrative Example 113
 - 4-1b Hedge Portfolio 114
 - 4-1c Overpriced Call 115
 - 4-1d Underpriced Call 115
- 4-2 Two-Period Binomial Model 116
 - 4-2a Illustrative Example 118
 - 4-2b Hedge Portfolio 118

Making the Connection

Binomial Option Pricing, Risk Premiums, and Probabilities 119

4-2c Mispriced Call in the Two-Period World 122

4-3 Extensions of the Binomial Model 123

4-3a Pricing Put Options 123

4-3b American Puts and Early Exercise 125

4-3c Dividends, European Calls, American Calls, and Early Exercise 126

4-3d Foreign Currency Options 130

4-3e Illustrative Example 130

4-3f Extending the Binomial Model to n Periods 131

4-3g Behavior of the Binomial Model for Large n and Fixed Option Life 133

4-3h Alternative Specifications of the Binomial Model 135

4-3i Advantages of the Binomial Model 137

Making the Connection

Uses of the Binomial Option Pricing Framework in Practice 137

Software Demonstration 4.1

Calculating the Binomial Price with the Excel Spreadsheet
BlackScholesMertonBinomial10e.xlsm 138

Summary 139

Key Terms 140

Further Reading 140

Concept Checks 140

Questions and Problems 141

CHAPTER 5

Option Pricing Models: The Black–Scholes–Merton Model 143

5-1 **Origins of the Black–Scholes–Merton Formula** 143

5-2 **Black–Scholes–Merton Model as the Limit of the Binomial Model** 144

Making the Connection

Logarithms, Exponentials, and Finance 146

5-3 Assumptions of the Black–Scholes–Merton Model 147

5-3a Stock Prices Behave Randomly and Evolve According to a Lognormal Distribution 147

5-3b Risk-Free Rate and Volatility of the Log Return on the Stock Are Constant throughout the Option’s Life 150

5-3c No Taxes or Transaction Costs 151

5-3d Stock Pays No Dividends 151

5-3e Options Are European 151

5-4 A Nobel Formula 151

5-4a Digression on Using the Normal Distribution 152

5-4b Numerical Example 154

5-4c Characteristics of the Black–Scholes–Merton Formula 155

Software Demonstration 5.1

Calculating the Black-Scholes-Merton Price with the Excel Spreadsheet
BlackScholesMerton Binomial10e.xlsm 157

5-5 Variables in the Black–Scholes–Merton Model 159

5-5a Stock Price 160

5-5b Exercise Price 162

5-5c Risk-Free Rate 164

5-5d Volatility (or Standard Deviation) 164

5-5e Time to Expiration 167

5-6	Black–Scholes–Merton Model When the Stock Pays Dividends	169
5-6a	Known Discrete Dividends	169
5-6b	Known Continuous Dividend Yield	169
5-6c	Black–Scholes–Merton Model and Currency Options	171
5-7	Black–Scholes–Merton Model and Some Insights into American Call Options	171
5-7a	Estimating the Volatility	173
5-7b	Historical Volatility	173
5-7c	Implied Volatility	175
	Software Demonstration 5.2	
	Calculating the Historical Volatility with the Excel Spreadsheet	
	HistoricalVolatility10e.xlsm	176
	Making the Connection	
	Smiles, Smirks, and Surfaces	181
	Taking Risk in Life	
	Cancer Clusters	183
5-8	Put Option Pricing Models	185
5-9	Managing the Risk of Options	187
5-9a	When the Black–Scholes–Merton Model May and May Not Hold	192
	Summary	193
	Key Terms	195
	Further Reading	195
	Concept Checks	196
	Questions and Problems	196
	Appendix 5: A Shortcut to the Calculation of Implied Volatility	200
CHAPTER 6		
	Basic Option Strategies	202
6-1	Terminology and Notation	203
6-1a	Profit Equations	203
6-1b	Different Holding Periods	204
6-1c	Assumptions	205
6-2	Stock Transactions	206
6-2a	Buy Stock	206
6-2b	Short Sell Stock	206
6-3	Call Option Transactions	207
6-3a	Buy a Call	207
6-3b	Write a Call	211
6-4	Put Option Transactions	214
6-4a	Buy a Put	214
6-4b	Write a Put	217
6-5	Calls and Stock: The Covered Call	220
6-5a	Some General Considerations with Covered Calls	223
	Making the Connection	
	Alpha and Covered Calls	224
6-6	Puts and Stock: The Protective Put	225
	Making the Connection	
	Using the Black–Scholes–Merton Model to Analyze the Attractiveness of a Strategy	228
6-7	Synthetic Puts and Calls	229
	Software Demonstration 6.1	
	Analyzing Option Strategies with the Excel Spreadsheet	
	OptionStrategyAnalyzer10e.xlsm	232

Summary 235
Key Terms 235
Further Reading 235
Concept Checks 236
Questions and Problems 236

CHAPTER 7

Advanced Option Strategies 239

7-1 Option Spreads: Basic Concepts 239
 7-1a Why Investors Use Option Spreads 240
 7-1b Notation 240
7-2 Money Spreads 241
 7-2a Bull Spreads 241

Making the Connection

Spreads and Option Margin Requirements 244
 7-2b Bear Spreads 245
 7-2c A Note about Call Bear Spreads and Put Bull Spreads 247
 7-2d Collars 247
 7-2e Butterfly Spreads 250

Making the Connection

Designing a Collar for an Investment Portfolio 251

7-3 Calendar Spreads 255
 7-3a Time Value Decay 256
7-4 Ratio Spreads 258
7-5 Straddles 260
 7-5a Choice of Holding Period 262
 7-5b Applications of Straddles 263
 7-5c Short Straddle 264

Taking Risk in Life

False Positives 264

7-6 Box Spreads 265

Summary 268
Key Terms 268
Further Reading 268
Concept Checks 269
Questions and Problems 269

PART II Forwards, Futures, and Swaps

CHAPTER 8

Principles of Pricing Forwards, Futures, and Options on Futures 274

8-1 Generic Carry Arbitrage 275
 8-1a Concept of Price versus Value 275
 8-1b Value of a Forward Contract 276
 8-1c Price of a Forward Contract 278
 8-1d Value of a Futures Contract 278

Making the Connection

When Forward and Futures Contracts Are the Same 279
 8-1e Price of a Futures Contract 280
 8-1f Forward versus Futures Prices 281

8-2	Carry Arbitrage When Underlying Generates Cash Flows	282
8-2a	Stock Indices and Dividends	282
8-2b	Foreign Currencies and Foreign Interest Rates: Interest Rate Parity	285
8-2c	Commodities and Storage Costs	287
8-3	Pricing Models	287
8-3a	Spot Prices, Risk Premiums, and Carry Arbitrage for Generic Assets	288
8-3b	Forward/Futures Pricing Revisited	289
8-3c	Futures Prices and Risk Premia	294
8-3d	Put–Call–Forward/Futures Parity	299
Taking Risk in Life		
	Killing Coca-Cola	300
8-4	Pricing Options on Futures	302
8-4a	Intrinsic Value of an American Option on Futures	302
8-4b	Lower Bound of a European Option on Futures	303
8-4c	Put–Call Parity of Options on Futures	305
8-4d	Early Exercise of Call and Put Options on Futures	306
8-4e	Black Futures Option Pricing Model	308
Summary		310
Key Terms		312
Further Reading		312
Concept Checks		313
Questions and Problems		313
CHAPTER 9		
	Futures Arbitrage Strategies	316
9-1	Short-Term Interest Rate Arbitrage	316
9-1a	Carry Arbitrage and the Implied Repo Rate	317
9-1b	Federal Funds Futures Carry Arbitrage and the Implied Repo Rate	318
9-1c	Eurodollar Arbitrage	320
9-2	Intermediate- and Long-Term Interest Rate Arbitrage	322
9-2a	Determining the Cheapest-to-Deliver Bond on the Treasury Bond Futures Contract	323
9-2b	Delivery Options	325
9-2c	Implied Repo, Carry Arbitrage, and Treasury Bond Futures	328
Software Demonstration 9.1		
	Identifying the Cheapest-to-Deliver Bond with the Excel Spreadsheet	
	CheapestToDeliver10e.xlsm	329
9-2d	Treasury Bond Futures Spreads and the Implied Repo Rate	330
9-3	Stock Index Arbitrage	331
9-4	Foreign Exchange Arbitrage	335
Making the Connection		
	Currency-Hedged Cross-Border Index Arbitrage	336
Summary		337
Key Terms		337
Further Reading		338
Concept Checks		338
Questions and Problems		338
Appendix 9: Determining the Treasury Bond Conversion Factor		341
Software Demonstration 9.2		
	Determining the CBOT Conversion Factor with the Excel Spreadsheet	
	ConversionFactor10e.xlsm	342

CHAPTER 10
Forward and Futures Hedging, Spread, and Target Strategies 343

10-1 Why Hedge? 344

10-2 Hedging Concepts 345

 10-2a Short Hedge and Long Hedge 345

 10-2b The Basis 346

 10-2c Some Risks of Hedging 350

 10-2d Contract Choice 351

 10-2e Margin Requirements and Marking to Market 354

10-3 Determination of the Hedge Ratio 355

 10-3a Minimum Variance Hedge Ratio 355

 10-3b Price Sensitivity Hedge Ratio 357

 10-3c Stock Index Futures Hedging 359

10-4 Hedging Strategies 360

 10-4a Foreign Currency Hedges 361

 10-4b Intermediate- and Long-Term Interest Rate Hedges 363

Making the Connection

Hedging Contingent Foreign Currency Risk 364

Making the Connection

Using Derivatives in Takeovers 371

10-5 Spread Strategies 373

 10-5a Intramarket Spreads 373

 10-5b Intermarket Spreads 376

10-6 Target Strategies 378

 10-6a Target Duration with Bond Futures 378

 10-6b Alpha Capture 380

 10-6c Target Beta with Stock Index Futures 382

Taking Risk in Life

Monday Morning Quarterbacking 383

 10-6d Tactical Asset Allocation Using Stock and Bond Futures 385

Summary 389

Key Terms 390

Further Reading 390

Concept Checks 391

Questions and Problems 391

CHAPTER 11
Swaps 395

11-1 Interest Rate Swaps 397

 11-1a Structure of a Typical Interest Rate Swap 397

 11-1b Pricing and Valuation of Interest Rate Swaps 399

Making the Connection

LIBOR and the British Bankers' Association 405

 11-1c Interest Rate Swap Strategies 406

Making the Connection

U.S. Municipal Finance and Interest Rate Swaps 410

11-2 Currency Swaps 411

 11-2a Structure of a Typical Currency Swap 411

 11-2b Pricing and Valuation of Currency Swaps 413

 11-2c Currency Swap Strategies 417

Making the Connection

Valuing a Currency Swap as a Series of Currency Forward Contracts 418

11-3 Equity Swaps	420
11-3a Structure of a Typical Equity Swap	421
11-3b Pricing and Valuation of Equity Swaps	423
11-3c Equity Swap Strategies	426
11-4 Some Final Words about Swaps	428
11-4a Advanced Pricing and Valuation Concepts	428
11-4b Alternative Views of Swaps	430
11-4c Early Termination of Swaps	430
Summary	431
Key Terms	431
Further Reading	431
Concept Checks	432
Questions and Problems	432

PART III Advanced Topics

CHAPTER 12

Interest Rate Forwards and Options 438

12-1 Forward Rate Agreements	439
12-1a Structure and Use of a Typical FRA	440
12-1b Pricing and Valuation of FRAs	441
12-1c Applications of FRAs	444

12-2 Interest Rate Options 446

Taking Risk in Life

The Risk of Death	447
12-2a Structure and Use of a Typical Interest Rate Option	448
12-2b Pricing and Valuation of Interest Rate Options	449
12-2c Interest Rate Option Strategies	451
12-2d Interest Rate Caps, Floors, and Collars	456
12-2e Interest Rate Options, FRAs, and Swaps	460

12-3 Interest Rate Swaptions and Forward Swaps 462

Making the Connection

Binomial Pricing of Interest Rate Options	463
12-3a Structure of a Typical Interest Rate Swaption	464
12-3b Equivalence of Swaptions and Options on Bonds	466
12-3c Pricing Swaptions	466
12-3d Forward Swaps	466
12-3e Applications of Swaptions and Forward Swaps	468

Summary 470

Key Terms 470

Further Reading 471

Concept Checks 471

Questions and Problems 471

CHAPTER 13

Advanced Derivatives and Strategies 475

13-1 Advanced Equity Derivatives and Strategies	475
13-1a Portfolio Insurance	476
13-1b Equity Forwards	482

Making the Connection

Portfolio Insurance in a Crashing Market	484
---	-----

13-1c	Equity Warrants	485
13-1d	Equity-linked Debt	486
13-2	Advanced Interest Rate Derivatives	486
13-2a	Structured Notes	486
13-2b	Mortgage-backed Securities	488
13-3	Exotic Options	493
13-3a	Digital and Chooser Options	494
13-3b	Path-dependent Options	497
13-3c	Other Exotic Options	504
Making the Connection		
	Accumulator Contracts	505
13-4	Some Unusual Derivatives	506
13-4a	Electricity Derivatives	506
13-4b	Weather Derivatives	506
