PART I UNDERSTANDING TOURISM INFORMATION TECHNOLOGY

1 Introduction to Tourism and Information Technology	1
Learning Objectives	1
Introduction	1
Tourism: An Information-intensive industry	2
Characteristics of tourism	3
Applications of information technologies in tourism	5
Typologies of information	6
The Evolution of Information Technologies	9
Computers	9
Networking and the Internet	10
Ubiquitous technologies	11
Implications for travel and tourism	11
Strategic Thinking and Information Technology	12
Book Outline	15
Summary	17
Key Terms	17
Discussion Questions	17

Useful Websites	18
Case Study: Intercontinental Hotels Group	19
References	20
2 The Digital Tourism Landscape	22
Learning Objectives	22
Introduction	22
The Digital Tourism Ecosystem	23
Digital ecosystem functions	23
Digital entities and communities	25
Digital technological environment	26
Innovation and Change in the Digital Landscape	27
Technological change	27
Innovation and technology adoption	29
Strategic responses to technological innovation	32
Understanding the Digital Tourist	33
Technology use and acceptance	33
Technology and decision making	38
Information sharing	39
Technology and the co-creation of experiences	39
Methods for understanding the digital tourist	40
Travel Distribution Systems	41
The traditional travel distribution system	42
The digital travel distribution system	43
Summary	46
Key Terms	46
Discussion Questions	46
Useful Websites	47
Case Study: Mygola	48
References	49
PART II LOOKING AND BOOKING	
3 Travel Intermediaries and Information Technology	53
Learning Objectives	53
Introduction	53
Global Distribution Systems	54
Evolution of reservation systems	54
Global distribution system functions	58
Information technology infrastructure	60
Connections and interfaces	63

The future of global distribution systems	63
Tour Operators	66
Package creation	67
Tour package distribution	67
Reservations and customer management	67
Traditional Travel Retailers	68
Front-office systems	68
Back-office systems	69
Hardware and networking	70
The future of traditional travel retailers	71
Travel Management Companies	74
Online Intermediaries	75
Types of online intermediaries	76
Information technology innovations	77
The future of online intermediaries	78
Channel Managers	78
Summary	78
Key Terms	81
Discussion Questions	81
Useful Websites	82
Case Study: Sabre Holdings	83
References	86
4 The Internet and the Tourist	87
Learning Objectives	87
Introduction	87
History and Evolution of the Internet	88
Intranets and Extranets	91
The World Wide Web	92
Domains, Protocols and Languages	93
Domains	93
Protocols	93
Online programming languages	94
Internet Applications in Travel	94
Functionality of travel websites	94
A typology of travel websites	97
Online Information Search	97
Search engines	99
Online information search behavior	101
Intelligent assistants and online recommender systems	103

Digital Marketing Communications	105
Traditional marketing communications	105
Digital marketing communications	105
Designing and Maintaining Tourism Websites	106
Planning	107
Design	107
Delivery	109
Management	112
Evaluation	113
Summary	113
Key Terms	113
Discussion Questions	113
Useful Websites	114
Case Study: AirBnB	115
References	116
5 Social Media and Tourism	120
Learning Objectives	120
Introduction	120
Understanding Social Media	120
The social media landscape	121
Social media functions	123
Electronic word of mouth	125
Social Media Platforms In Travel	129
Social network sites	129
Wikis, blogs and product reviews	132
Forums	135
Media sharing	135
Crowdsourcing	136
Virtual worlds	137
Strategic Applications of Social Media	137
Marketing and sales	139
Market intelligence	139
Public relations	140
Recruitment and partnerships	141
Summary	141
Key Terms	141
Discussion Questions	142
Useful Websites	142
Case Study: The Best Job in the World	143
References	146

PART III TRAVELING

6	Mobilities and Information Technology	148
	Learning Objectives	148
	Introduction	148
	The Mobile Technologies Ecosystem	150
	Mobile Devices	151
	Global positioning system navigation devices	151
	Digital cameras	152
	Smartphones and tablets	153
	Ubiquitous devices	153
	Mobile Signals and Sensors	154
	Sensing technologies	154
	Signaling technologies	154
	Mobile Operating Systems and Apps	156
	Functions of Mobile Devices in Tourism	157
	Informing	157
	Contextualizing	160
	Personalizing	162
	Socializing	162
	Managing	165
	Translating	166
	Purchasing	166
	Gamifying	166
	Augmenting	167
	Reflecting	169
	Challenges and Opportunities	169
	Summary	169
	Key Terms	170
	Discussion Questions	170
	Useful Websites	171
	Case Study: Google Glass	172
	References	173
7	Aviation and Information Technology	177
	Learning Objectives	177
	Introduction	177
	Airlines	178
	Airline use of information technology	178
	Airline reservation systems	180
	Decision support systems	182

Marketing and customer relationship management	185
Departure systems	187
In-flight technologies	189
Airports	192
Passenger processing	192
Baggage and cargo handling	198
Air traffic control	199
Environmental management systems	199
Summary	200
Key Terms	201
Discussion Questions	201
Useful Websites	202
Case Study: SITA	203
References	205
8 Surface Transport and Information Technology	207
Learning Objectives	207
Introduction	207
Intelligent Transportation Systems	208
National intelligent transportation systems	209
Components of an intelligent transportation system	209
Vehicle technology	213
Fleet management systems	215
Vehicle Rental Companies and Information Technology	215
Reservation systems	216
Vehicle inventory control	216
Vehicle sharing	216
Taxis	217
Rail Transport and Information Technology	218
Water Transport and Information Technology	219
Integrated Public Transport Systems	222
Summary	223
Key Terms	224
Discussion Questions	224
Useful Websites	224
Case Study: Zurich's Transport System	226
References	227
PART IV STAYING AND PLAYING	
9 Hospitality Information Systems	229
Learning Objectives	229

Introduction	229
Information Technology Systems in the Accommodations Sector	230
Property management systems	231
Hotel websites	235
Electronic hotel reservations	235
Customer relationship management	237
Guest room amenities	238
Hotel communications	241
Energy management systems	243
Interfaces between property management systems and other systems	243
IT Applications in the Food Service Sector	245
Point-of-sale systems	246
Restaurant management systems	248
Marketing and customer relations	248
Strategic Management of Information Technology Systems in Hospitality	249
Summary	251
Key Terms	251
Discussion Questions	251
Useful Websites	252
Case Study: Marriott Hotels	253
References	254
10 Tourist Experiences and Information Technology	258
Learning Objectives	258
Introduction	258
Attracting Visitors	259
Visitor information	259
Sales and distribution	260
Staging Experiences	260
Technology as an enabler	261
Technology as a creator	261
Technology as an attractor	263
Technology as an enhancer	264
Technology as a protector	264
Technology as an educator	264
Technology as a substitute	267
Technology as a facilitator	267
Technology as a reminder	267
Technology as a destroyer	268

Managing Visitors	269
Admission	269
Orientation	269
Ancillary purchases	270
Crowding and queue management	271
Business intelligence and relationship management	272
Safety and security	274
Casinos and gaming	274
Summary	275
Key Terms	275
Discussion Questions	276
Useful Websites	276
Case Study: Using IT to Create the Magic at Disney	277
References	279
11 Destination Management and Information Technology	281
Learning Objectives	281
Introduction	281
Destinations and the Digital Tourism Ecosystem	282
Destination Management Systems	282
Destination management system dimensions	284
Destination management system organization	287
Destination management system management	288
Destinations, Information Technology and Change	289
Destinations, Web 2.0 and Social Media	291
Destination Research	292
Crisis and Risk Management	296
Stakeholder Management and Learning Destinations	298
Summary	301
Key Terms	301
Discussion Questions	301
Useful Websites	302
Case Study: Australian Tourism Data Warehouse (ATDW)	303
References	304
PART V ISSUES AND TRENDS	
12 Sustainable Tourism and Information Technology	308
Learning Objectives	308
Introduction	308
Environmental Sustainability and Information Technology	311

Resource efficiency	311
Environmental purity and physical integrity	314
Biological diversity	317
Virtual substitute travel experiences	319
Socio-cultural Sustainability and Information Technology	320
Social equity and community well-being	320
Local control	323
Cultural richness of host communities	323
Economic Sustainability and Information Technology	326
Economic viability and local prosperity	326
Employment quality and capacity building	329
Summary	330
Key Terms	330
Discussion Questions	330
Useful Websites	331
Case Study: US National Park Service	332
References	333
13 The Future of Information Technology and Tourism	336
Learning Objectives	336
Introduction	336
The Virtuous Cycle of Technological Development	337
Trends in Tourism Information Technologies	338
Trend 1: Ubiquitous artificial intelligence	339
Trend 2: Fragmentation of information	341
Trend 3: Digital elasticity	343
Trend 4: Storytelling	343
Trend 5: The empowered digital traveler	344
Trend 6: Big data and analytics	344
Trend 7: Smart machines	345
Trend 8: Material technologies	346
Trend 9: Open systems	346
Trend 10: Convergence	346
Summary	347
Key Terms	347
Discussion Questions	347
Useful Websites	348
References	349
Index	351
