## Part 1 Overview

### Chapter 1: The principles of lending and lending basics 3

Introduction 4

The principles of good lending 5

Safety of loan 5

Suitability of loan purpose 5

Profitability 5

Following the lending principles — credit analysis 5

A framework for credit and lending decisions 18

External factors affecting lending decisions 19

Lending institution-specific factors 20

Borrower-specific factors 20

The lending process 21

Characteristics of different types of advance 28

Traditional types of advance 29

Modern forms of advance for businesses 31

Different types of borrower 33

Personal borrowers 33

Business borrowers 35

Special types of borrower 36

Structuring of advances 37

Security 37

Debt covenants 37

Pricing issues 37

Credit culture 38

Designing an advances portfolio 39

*Summary* 39

*Key terms* 41

*Discussion questions* 41

*References and further reading* 41

## Part 2

### Analysis and interpretation of credit risk

#### Chapter 2: Financial statements analysis 45

Introduction 46

Why lenders analyse financial statements 47

Analysis of financial statements 49

Cross-sectional techniques 49

Time series techniques 60

Combining financial statement and nonfinancial statement information 61

Techniques of analysis used in project finance 63

The payback period 63

The accounting rate of return 63

Discounted cashflow techniques 63

Project risk analysis 65

Step-by-step approach to financial statements analysis 69

Step 1: obtain relevant financial statements 69

Step 2: check for consistency 70

Step 3: undertake preliminary scrutiny 70

Step 4: collect data about industry and general economic trends 71

Step 5: conduct a comparison with industry averages 72

Step 6: do supplementary analysis 72

Step 7: summarise the main features 72

Detecting window dressing, frauds and errors 73

Use of financial ratios by loan officers 78

Limitations of financial statements analysis 83

*Summary* 84

*Key terms* 84

*Discussion questions* 85

*References and further reading* 86

#### Chapter 3: Credit scoring techniques 88

Introduction 89

Overview 89

The development of statistical credit scoring 90

The behavioural aspects of credit scoring 91

The imperative for credit scoring 92

Statistical credit scoring techniques versus traditional judgemental methods 94

Statistical decision-making methods used in credit scoring models 96

Social and ethical issues in applying credit scoring techniques 101

Implementing credit scoring within the organisation 102

*Summary* 105

*Key terms* 106

*Discussion questions* 106

*References and further reading* 107

#### **Chapter 4: Credit risk analysis — an introduction 108**

Introduction 109

What is credit risk? 109

How do we analyse credit risk? 110

Expert systems 110

Risk premium analysis 115

Econometric analysis 120

Hybrid systems 123

Putting it all together 124

Using the five Cs 125

Market-based premiums 127

Altman Z score 128

*Summary* 131

*Key terms* 132

*Discussion questions* 132

*References and further reading* 134

### **Part 3**

## **Consumer lending**

#### **Chapter 5: Consumer lending 137**

Introduction 138

Types of consumer loan 139

Personal loans 140

Credit card loans 142

Evaluating consumer loan applications 146

General principles 146

Step-by-step assessment of personal loans 148

Step-by-step assessment of credit card loans 151

Example of a consumer loan application 152

Personal loans 152

Credit card loans 153

Precautions to be taken in granting consumer loans 154

Credit scoring consumer loan applications 155

Legal aspects of consumer credit 160

The Uniform Consumer Credit Code 160

Anti-discrimination laws 161

The code of banking practice 161

Trade practices legislation 161

The Australian Securities and Investments Commission 161

Privacy legislation 162

Trends in consumer credit 162

Trends in personal lending 163

Trends in credit card lending 164

The impact of technology

Pricing and structuring of consumer loans 166

Loan pricing 167

Loan structuring 168

*Summary* 169

*Key terms* 171

*Discussion questions* 171

*References and further reading* 173

#### **Chapter 6: Real estate lending 174**

Introduction 175

Evaluating real estate loan applications 177

Home loan basics 177

Valuation of property 179

Step-by-step evaluation of home loans 183

Financial appraisal of real estate loans 185

Example of a real estate loan application 186

Precautions in granting real estate loans 188

Trends in real estate credit 190

Trends in home lending 191

Pricing and structuring of real estate loans 191

Loan pricing 192

Loan structuring 195

*Summary* 201

*Key terms* 202

*Discussion questions* 202

*References and further reading* 203

#### **Chapter 7: Security, consumer credit legislation and legal aspects of lending 205**

Introduction 206

Overview of the legal framework for consumer and real estate loans 206

Contract law: examining the capacity to contract 207

Consent under the privacy law 207

The Uniform Consumer Credit Code 209

Trade practices legislation	211
Legislation dealing with contracts and consumers	212
Loan documentation	212
Promissory note	213
Mortgage deed	213
Guarantees	213
Bill of sale	214
An assignment of shares or life policies	214
Loan agreement form setting out the terms and conditions of the loan	215
Execution of documents	216
Special rights of lending bankers	219
Banker's lien	219
The right to set-off and the right to appropriate payments	220
Legal requirements specific to home loans	220
Property	220
Real estate	220
Interest in real estate	222
Encumbrances and liens	222
Foreclosure	222
Statute of limitations	223
Other relevant legal requirements in lending	223
Legal issues affecting overdrafts and credit cards	223
Credit references about customers	224
Undue influence, duress, coercion and compulsion in bank lending	224
Anti-discrimination law	225
The Bankruptcy Act	227
Environmental issues and lending institutions	228
Code of Banking Practice	228
Australian Banking Industry Ombudsman	228
Australian Securities and Investments Commission	229
Checklist for lending officers	230
Summary	234
Key terms	235
Discussion questions	236
References and further reading	236

## Part 4

### Corporate and business lending

#### Chapter 8: Corporate lending 241

Introduction	242
An overview of corporate lending	242

The purpose of corporate lending	243
The loan portfolio	243
The principles of corporate lending	244
Methods of lending assessment	245
The lending cycle	247
Structuring the loan proposal	250
Product structure and application	252
Credit rating agencies	254
Skills required of the loan officer	255
The importance of financial statements	256
Managing the loan portfolio	257
What can go wrong?	257
Advice from the past	261
Summary	263
Key terms	264
Discussion questions	264
References and further reading	265

#### Chapter 9: Small business lending 266

Introduction	267
An overview of small business lending	267
What is small business?	267
Small business in the economy	268
Some characteristics of small business lending	269
How lenders organise their small business lending	272
Competition in the small business lending market	275
Small business attitudes to lenders	276
The political importance of small business and small business lending	280
A theoretical small business	285
The decision to lend to small business	288
Specialised risks associated with lending to small business	288
Two approaches to small business lending	294
The relationship management approach	294
The credit scoring approach	302
Summary	307
Key terms	308
Discussion questions	309
References and further reading	309

#### Chapter 10: International lending 311

Introduction	312
Overview of international lending	312
International financial system	312

Country risk analysis and international credit evaluation	313
Trade finance	315
Methods of payment and financing techniques	316
Uniform customs and practice for documentary credits	325
International lending principles	325
Safety	326
Security	327
Suitability	329
Profitability	329
Liabilities	329
Bank guarantees	330
<i>Summary</i>	331
<i>Key terms</i>	331
<i>Discussion questions</i>	332
<i>References and further reading</i>	332

## Part 5

### Assessment and management of risk

#### Chapter 11: Credit risk measurement and management of the loan portfolio 335

Introduction	336
Credit risk measurement	336
Altman's Z score	337
Using stock prices	341
Portfolio management	344
Risk-adjusted return on capital	345
Altman's Sharpe Index approach	347
CreditMetrics™	348
Managing the portfolio	352
Securitisation	352
Credit derivatives	355
Loan pricing	358
Costs of the statement of financial position	359
Noncredit risk costs	359
Credit costs	360
Loan pricing — an example	361
Practical loan pricing	363
<i>Summary</i>	366
<i>Key terms</i>	366
<i>Discussion questions</i>	367
<i>References and further reading</i>	369

#### Chapter 12: Credit risk from the regulator's perspective 370

Introduction	371
Capital adequacy	372
Large credit exposures	374
Securitisation	375
Clean sale supply of assets	375
Revolving facilities	376
Credit derivatives	376
Developments in regulation	377
Credit ratings	378
Business risk	380
Basel II	382
<i>Summary</i>	385
<i>Key terms</i>	386
<i>Discussion questions</i>	386
<i>References and further reading</i>	388

#### Chapter 13: Problem loan management 389

Introduction	390
Causes of default	390
The extent of problem loans	391
The business cycle	393
Recovery and expansion	393
Boom	394
Downturn	394
Problem loans, provisions and regulatory issues	394
Specific provisions	395
General provisions	395
Bad debt write-offs	396
Regulatory issues	396
Other considerations with problem loans	397
Dynamic provisioning	398
Dealing with defaults	399
Mild financial distress	400
Moderate financial distress	401
Severe financial distress	402
The coordination problem	403
Other breaches	405
Examples from the law	406
<i>Summary</i>	407
<i>Key terms</i>	408
<i>Discussion questions</i>	409
<i>References and further reading</i>	409

## Part 6

### Current issues

#### Chapter 14: Electronic banking and lending 413

Introduction 414

What is electronic banking? 414

The evolution of electronic banking 415

Electronic payment systems 417

Electronic banking 419

Trends and issues in electronic banking and lending in Australia 420

Trends and issues in retail financial services technology 420

Use of electronic systems for lending 427

Technology-driven innovation in Australia's financial services sector 432

Regulatory and risk management issues in electronic banking and lending 435

The board and management 435

Security controls 436

Legal and reputational risk management 437

A futuristic view of electronic banking 438

Summary 439

Key terms 440

Discussion questions 440

References and further reading 440

#### Chapter 15: Marketing of loans 442

Introduction 443

Role of marketing in financial institutions 443

Market analysis 444

Screening the wholesale or corporate market 445

Screening the retail market 446

SWOT analysis 450

Analysis of retail banking needs 454

Analysis of wholesale banking needs 455

Product development and marketing strategy 457

Product pricing strategy 461

Estimating cost structure 462

Delivery system strategy 464

Types of delivery system 465

Communications strategy 468

Advertising 470

Promotions and public relations 472

Personal selling 472

Summary 475

Key terms 477

Discussion questions 477

References and further reading 478

#### Chapter 16: Future directions 479

Introduction 480

Financial intermediation 480

Bank lending 481

The lending function 482

The new lenders 483

Superannuation and other funds 484

Nonbank institutions 485

Insurance companies 486

The new instruments 486

Credit derivatives 487

Securitisation 487

Application of wholesale products to retail customers 488

Complex structures 489

Credit markets 489

Securitisation 490

Transferable loan certificates 490

Loan sales 490

Globalisation 491

Regulation 492

The effects of electronic banking 493

Summary 493

Key terms 495

Discussion questions 496

References and further reading 496
