

PLANNING and CONTROL for FOOD and BEVERAGE OPERATIONS

Seventh Edition

Jack D. Ninemeier, Ph.D., CHA

Contents

Preface	xiii
Part I Introduction to Food and Beverage Control	1
1 The Challenge of Food and Beverage Operations	3
Travel and Tourism: The Umbrella Industry	3
<i>The Hospitality Segment</i>	
Overview of Hotel Organization.....	6
<i>The Food and Beverage Department</i>	
Commercial and Noncommercial Food Services.....	11
<i>Important Similarities • Important Differences</i>	
Overview of Food Service Management.....	13
<i>The Operating Control Cycle • The Management System • The Management Process • Integrating the Process</i>	
A Common Problem: The Labor Shortage.....	20
Managing a Multi-Unit Restaurant.....	21
<i>Multi-Unit Restaurant Organization Structure</i>	
The Increasing Role of Technology	23
Endnotes, Key Terms, Review Questions, and Internet Sites.....	27
2 The Control Function	35
Management Resources and Objectives	35
The Manager in the Management Process	36
The Control Process.....	38
<i>Establish Standards • Measure Actual Operating Results • Compare Actual Results with Standards • Take Corrective Action • Evaluate Corrective Action • Food Service Operations Control</i>	
Considerations in Designing Control Systems.....	45
Responsibilities for Control.....	50
Control in Multi-Unit Operations	51
Key Terms, Review Questions, Internet Sites, and Mini-Case Studies	52

Part II	Planning for Food and Beverage Control.....	57
3	Determining Food and Beverage Standards.....	59
	Standard Purchase Specifications.....	60
	Standard Recipes.....	60
	<i>Developing Standard Recipes • Sources of Recipes</i>	
	Standard Yields	67
	<i>Determining Standard Yield • Cost per Servable Pound • The Cost Factor • Adjusting Standard Recipe Yields</i>	
	Standard Portion Sizes	72
	Standard Portion Costs	72
	<i>Calculating Standard Menu Item Costs • Calculating Standard Portion Cost: Beverage • Special Standard Cost Tools for Beverage Control</i>	
	Recipe Management Software	79
	<i>Ingredient File • Standard Recipe File • Menu Item File • Precost and Postcost Analysis</i>	
	Standard Food Costs	81
	<i>Calculating Standard Costs per Meal</i>	
	Standard Beverage Costs	84
	<i>Computerized Standard Beverage Cost Calculations</i>	
	Use of Standard Costs in Multi-Unit Operations.....	86
	Endnotes, Key Terms, Review Questions, Internet Sites, and Problems.....	86
	Chapter Appendix	94
4	Operations Budgeting and Cost-Volume-Profit Analysis.....	97
	The Budget Process: An Overview	97
	<i>Budgeting in Multi-Unit Operations • Budget Reforecasting</i>	
	Three Steps of Budget Development	102
	<i>Step 1: Calculate Projected Revenue Levels • Step 2: Determine Profit Requirements • Step 3: Calculate Projected Expense Levels</i>	
	Budget Development: An Example.....	108
	<i>Step 1: Calculate Projected Revenue Levels • Step 2: Determine Profit Requirements • Step 3: Calculate Projected Expense Levels • The Operating Budget as a Control Tool</i>	

Computers and the Budget Process	117
<i>Electronic Spreadsheets • Cell Contents • Recalculation Feature • Technology Helps with Budget Development</i>	
Cost-Volume-Profit Analysis	120
<i>CVP Assumptions and Limitations • The Basic CVP Equation • CVP Example: The Lumberjack Cafe • CVP Example: The Plantation Grill</i>	
Endnotes, Key Terms, Review Questions, Internet Sites, and P Problems	126
5 The Menu: The Foundation for Control	133
Food Service Control Points	133
The Menu's Influence	134
Menu Planning	136
<i>Marketing Implications of the Menu • Theme and Atmosphere • Menu Planning Strategies • Building the Menu • Dining Trends • Menu Design • Menu Changes</i>	
Calculating Menu Selling Prices	142
<i>Subjective Pricing Methods • Objective Pricing Methods • Important Pricing Considerations</i>	
Evaluating the Menu	154
<i>Defining Profitability • Defining Popularity • Evaluating Menu Items • Improving the Menu</i>	
Menu Planning in Multi-Unit Organizations	162
Menus and Technology	163
<i>Menu Planning and Technology • Menu Design and Technology • Menu Production and Technology • Menu Engineering and Technology</i>	
Endnote, Key Terms, Review Questions, Internet Sites, Case Study, and Problems	170
Part III Designing Effective Food and Beverage Control Systems	181
6 Purchasing and Receiving Controls	183
Purchasing Objectives and Procedures	184
Purchasing Responsibilities	185
Selecting Suppliers	185
Purchasing the Proper Quality	186
Purchasing the Proper Quantities	190
<i>Perishable Products • Non-Perishable Products</i>	

The Purchase Order System	193
<i>Technological Purchasing Systems</i>	
Security Concerns in Purchasing.....	198
Reducing the Cost of the Purchasing Function.....	201
Purchasing in Multi-Unit Organizations.....	202
Receiving Controls.....	202
<i>Receiving Personnel • Receiving Procedures • Request-for-Credit Memos • Marking Procedures • Security Concerns in Receiving • Technology and Receiving Systems</i>	
Key Terms, Review Questions, Internet Sites, Case Study, and Problems	211
7 Storing and Issuing Controls	221
Storing Control: General Procedures	221
<i>Inventory Control Policy • Separating Directs from Stores • Defining Storage Areas</i>	
Security Concerns in Storage Areas	223
<i>Limit Access • Lock Storage Areas • Minimize Behind-Bar Storage • Control Storeroom Keys</i>	
Maintaining Quality during Storage.....	225
<i>Rotate Products • Ensure a Properly Controlled Environment • Implement Effective Sanitation Practices • Ensure Proper Storage</i>	
Inventory Control Procedures	227
<i>Inventory Turnover • Inventory Recordkeeping Systems • Physical Inventory System • Perpetual Inventory System</i>	
Technology and Inventory Management	232
<i>Inventory Management Information • Technology and Inventory Counting</i>	
Special Beverage Inventory Concerns.....	238
<i>Behind-Bar Inventory Costs</i>	
Issuing Control: General Procedures.....	240
<i>Issuing Procedures • The Food Issue Requisition Process • Computer-Generated Issue Quantities</i>	
The Beverage Issue Requisition Process.....	244
<i>Establishing Bar Par Inventory Levels • Beverage Issuing Steps • Bottle Marking • Additional Beverage Control Concerns</i>	
Endnotes, Key Terms, Review Questions, Internet Sites, Case Study, and Problems.....	247

8	Production and Serving Controls	257
	Production Planning.....	257
	<i>Forecasting Production Requirements • Formulating Production Plans • Production Planning and Food Purchasing • Production Planning: Convenience Foods • Special Beverage Production Planning Requirements</i>	
	Production Control.....	265
	<i>Quality Requirements • Maintaining Standards • Production Cost Control Procedures • Special Beverage Cost Control Procedures</i>	
	Food Serving and Service	271
	<i>The Server and the Guest • Server Responsibilities • Service Control Factors</i>	
	Technology and Service	275
	<i>POS Technology • Order Entry Devices • Printers • Managing Guest Accounts • Other Automated Service Applications</i>	
	Automated Beverage Control Systems.....	286
	<i>Order Entry Devices • Delivery Networks • Dispensing Units • Management Considerations</i>	
	Endnotes, Key Terms, Review Questions, Internet Sites, Mini-Case Studies, and Problems.....	292
PartIV	Using Information from the Control System	299
9	Calculating Actual Food and Beverage Costs.....	301
	Actual Food and Beverage Costs: Monthly Calculations	302
	<i>Actual Cost of Sales: The Basic Calculation • Sources of Information for Basic Cost of Sales • Calculating Inventory Value • Adjustments to Basic Cost of Sales • Sample Calculations</i>	
	Actual Food Costs: Daily Calculations	315
	<i>Components of Daily Food Costs • Sources of Actual Daily Food Cost Information • Calculating Actual Daily Food Costs</i>	
	Actual Beverage Costs: Daily Calculations	318
	<i>Principles for Calculating Actual Daily Beverage Costs • Procedures for Calculating Daily Beverage Costs: Manual System • Bartender Performance Review</i>	
	Technology and Actual Product Cost Calculations	323
	Endnotes, Key Terms, Review Questions, Internet Sites, and Problems	325

10	Control: Analysis, Corrective Action, and Evaluation	333
	Analyzing: Comparing Standards with Actual Results	333
	<i>The Comparison Process • Questions to Consider during the Comparison Process • Variances from Standards • Potential Savings (Profits) • Identifying the Problem</i>	
	Taking Corrective Action	343
	<i>Assigning Responsibility</i>	
	Evaluating the Effectiveness of Corrective Actions	349
	Technology and Analysis, Corrective Action, and Evaluation.....	350
	Endnotes, Key Terms, Review Questions, Internet Sites, and Problems	350
Part V	Controlling Revenue	355
11	Revenue Control	357
	Revenue and Guest Check Control	357
	<i>Manual Guest Check Systems • Automated Guest Check Systems</i>	
	Collecting Revenue from Guests	360
	<i>Server Banking System • Cashier Banking System • Revenue Reports</i>	
	Assessing Standard Revenue: Beverage Operations	367
	<i>Beverage Revenue Standards: Manual System • Beverage Revenue Standards: Automated Systems</i>	
	Key Terms, Review Questions, Internet Sites, and Problems.....	376
12	Preventing Theft of Revenue.....	383
	Theft by Bartenders	384
	<i>Theft by Misuse of Revenue Management Equipment • Theft by Misuse of Beverage Products • Preventing Theft through Shopper Services</i>	
	Theft by Cashiers	391
	Theft by Food and Beverage Servers and Other Staff	391
	Theft by Guests	395
	Employee Theft from Guests.....	399
	Control of Cash after Collection	402
	<i>Preventing Theft of Bank Deposit Funds • Preventing Theft when Bills Are Paid • Preventing Bookkeeper and Accountant Theft • Employing Other Revenue Control Tactics</i>	
	Key Terms, Review Questions, Internet Sites, and Mini-Case Studies	407

Part VI	Controlling Labor Costs	411
13	Labor Cost Control	413
	Managing Human Resources.....	414
	<i>Basic Staffing Tools • Recruitment and Selection Procedures</i>	
	<i>• Employee Orientation Procedures • The Training Process •</i>	
	<i>Employee Supervision • Employee Performance Evaluation</i>	
	Factors Affecting Work Performance and Productivity	425
	Work Simplification and Labor Cost Control	430
	<i>Increasing Productivity</i>	
	Labor Control and Employees	433
	<i>Employee Motivation • Increasing Interest in Work • Controlling</i>	
	<i>Turnover</i>	
	Human Resources and Multi-Unit Management.....	437
	<i>Area Manager Responsibilities</i>	
	Endnotes, Key Terms, Review Questions, and Internet Sites.....	441
14	Implementing Labor Cost Controls	445
	Establishing a Unit of Measurement for Labor Standards	445
	Determining Productivity Rates.....	447
	Constructing a Staffing Guide	449
	<i>Fixed versus Variable Labor • Staffing Guides and Budgets</i>	
	The Staffing Guide as a Scheduling Tool.....	454
	The Staffing Guide as a Control Tool.....	458
	<i>Variance Analysis • Comparing Actual Labor Costs to Budgeted</i>	
	<i>Labor Costs • Planning Corrective Action</i>	
	Employee Scheduling in Multi-Unit Operations	463
	Automated Labor and Payroll Information Systems.....	468
	<i>Payroll Register File</i>	
	Endnote, Key Terms, Review Questions, Internet Sites, and P problems	475
Index	479
