# Contents

Preface xv

## 1 USING OPERATIONS TO CREATE VALUE 1

Disney 1

- Role of Operations in an Organization 3**
  - Historical Evolution and Perspectives 4
- A Process View 4**
  - How Processes Work 5
  - Nested Processes 5
  - Service and Manufacturing Processes 5
- A Supply Chain View 6**
  - Core Processes 7
  - Support Processes 7
  - Supply Chain Processes 8
- Operations Strategy 8**
  - Corporate Strategy 9
  - Market Analysis 11
- Competitive Priorities and Capabilities 11**
  - Order Winners and Qualifiers 13
  - Using Competitive Priorities: An Airline Example 14
  - Identifying Gaps between Competitive Priorities and Capabilities 14
- Addressing the Trends and Challenges in Operations Management 16**
  - Productivity Improvement 16
  - Global Competition 17
- Managerial Practice 1.1 Japanese Earthquake and Its Supply Chain Impact 19**
  - Ethical, Workforce Diversity, and Environmental Issues 20
  - Designing and Operating Processes and Supply Chains 20
  - Adding Value with Process Innovation 21
  - Learning Goals in Review 22**
  - MyOMLab Resources 22**
  - Key Equations 22**
  - Key Terms 23**
  - Solved Problems 23**
  - Discussion Questions 24**
  - Problems 25**
  - Active Model Exercise 27**
- Video Case Using Operations to Create Value at Crayola 27**
- Case Chad's Creative Concepts 28**

## SUPPLEMENT A Decision Making 29

- Break-Even Analysis 29**
  - Evaluating Services or Products 30
  - Evaluating Processes 31
- Preference Matrix 33**
- Decision Theory 34**
  - Decision Making under Certainty 35
  - Decision Making under Uncertainty 35
  - Decision Making under Risk 36

- Decision Trees 37**
  - Learning Goals in Review 39**
  - MyOMLab Resources 39**
  - Key Equations 40**
  - Key Terms 40**
  - Solved Problems 40**
  - Problems 43**

## PART 1 Managing Processes 49

## 2 PROCESS STRATEGY AND ANALYSIS 49

- McDonald's Corporation 49**
  - Process Structure in Services 52**
    - Customer-Contact Matrix 52
    - Service Process Structuring 53
  - Process Structure in Manufacturing 54**
    - Product-Process Matrix 54
    - Manufacturing Process Structuring 55
    - Production and Inventory Strategies 55
    - Layout 56
  - Process Strategy Decisions 56**
    - Customer Involvement 56
  - Managerial Practice 2.1 Customer Involvement at eBay 57**
    - Resource Flexibility 58
    - Capital Intensity 58
  - Strategic Fit 60**
    - Decision Patterns for Service Processes 60
    - Decision Patterns for Manufacturing Processes 61
    - Gaining Focus 61
  - Strategies for Change 62**
    - Process Reengineering 62
    - Process Improvement 63
    - Process Analysis 63
  - Documenting and Evaluating the Process 64**
    - Flowcharts 64
    - Work Measurement Techniques 66
    - Process Charts 68
    - Data Analysis Tools 70
  - Redesigning and Managing Process Improvements 75**
    - Questioning and Brainstorming 75
    - Benchmarking 76
    - Implementing 76
    - Learning Goals in Review 78**
    - MyOMLab Resources 78**
    - Key Terms 79**
    - Solved Problems 79**
    - Discussion Questions 83**
    - Problems 84**
    - Active Model Exercise 90**
  - Video Case Manufacturing Process Structure Choices 91**
  - Case Custom Molds, Inc. 92**
  - Case José's Authentic Mexican Restaurant 94**

## 3 QUALITY AND PERFORMANCE 95

### QVC 95

#### Costs of Quality 96

- Prevention Costs 97
- Appraisal Costs 97
- Internal Failure Costs 97
- External Failure Costs 97
- Ethical Failure Costs 97

#### Total Quality Management and Six Sigma 98

- Total Quality Management 98

#### Managerial Practice 3.1 Quality at Verizon Wireless 100

- Six Sigma 101

#### Acceptance Sampling 102

#### Statistical Process Control 103

- Variation of Outputs 103
- Control Charts 106
- Control Charts for Variables 107
- Control Charts for Attributes 111

#### Process Capability 114

- Defining Process Capability 114
- Using Continuous Improvement Process to Determine the Capability of a Process 116

#### International Quality Documentation Standards and Awards 117

- The ISO 9001:2008 Documentation Standards 117
- The ISO 140001:2004 Environmental Management System 117
- Benefits of ISO Certification 118
- Benefits of the Baldrige Performance Excellence Program 118

#### Learning Goals in Review 119

#### MyOMLab Resources 119

#### Key Equations 119

#### Key Terms 120

#### Solved Problems 121

#### Discussion Questions 124

#### Problems 124

#### Active Model Exercise 131

#### Video Case Process Performance and Quality at Starwood Hotels & Resorts 132

#### Experiential Learning Statistical Process Control with a Coin Catapult 133

## 4 CAPACITY PLANNING 135

### Tesla Motors 135

#### Planning Long-Term Capacity 137

- Measures of Capacity and Utilization 137
- Economies of Scale 138
- Diseconomies of Scale 138

#### Capacity Timing and Sizing Strategies 139

- Sizing Capacity Cushions 139
- Timing and Sizing Expansion 140

#### Managerial Practice 4.1 Expansionist Capacity Strategy by Sharp Corporation 141

- Linking Capacity and Other Decisions 142

#### A Systematic Approach to Long-Term Capacity Decisions 142

- Step 1: Estimate Capacity Requirements 142
- Step 2: Identify Gaps 144

#### Step 3: Develop Alternatives 144

#### Step 4: Evaluate the Alternatives 144

#### Tools for Capacity Planning 146

- Waiting-Line Models 146
- Simulation 147
- Decision Trees 147
- Learning Goals in Review 147

#### MyOMLab Resources 147

#### Key Equations 148

#### Key Terms 148

#### Solved Problems 148

#### Discussion Questions 150

#### Problems 150

#### Video Case Gate Turnaround at Southwest Airlines 156

#### Case Fitness Plus, Part A 157

## SUPPLEMENT B Waiting Lines: 159

#### Structure of Waiting-Line Problems 160

- Customer Population 160
- The Service System 161
- Priority Rule 163
- Probability Distributions 163
- Arrival Distribution 163
- Service Time Distribution 164

#### Using Waiting-Line Models to Analyze Operations 164

- Single-Server Model 165
- Multiple-Server Model 167
- Little's Law 168
- Finite-Source Model 169

#### Waiting Lines and Simulation 170

- SimQuick 170

#### Decision Areas for Management 171

#### Learning Goals in Review 172

#### MyOMLab Resources 172

#### Key Equations 173

#### Key Terms 173

#### Solved Problem 174

#### Problems 174

## 5 CONSTRAINT MANAGEMENT 177

### British Petroleum Oil Spill in Gulf of Mexico 177

#### The Theory of Constraints 179

- Key Principles of the TOC 180

#### Managing Bottlenecks in Service Processes 181

#### Managing Bottlenecks in Manufacturing Processes 182

- Identifying Bottlenecks 182
- Relieving Bottlenecks 184
- Drum-Buffer-Rope Systems 184

#### Applying the Theory of Constraints to Product Mix Decisions 185

#### Managing Constraints in Line Processes 187

- Line Balancing 187
- Rebalancing the Assembly Line 191
- Managerial Considerations 191

#### Managerial Practice 5.1 Assembly Line Balancing at Chrysler 192

#### Learning Goals in Review 193

#### MyOMLab Resources 193

#### Key Equations 193

#### Key Terms 193

#### Solved Problems 193

**Discussion Questions** 195

**Problems** 195

**Experiential Learning** Min-Yo Garment Company 202

**Video Case** Constraint Management at Southwest Airlines 206

## 6 LEAN SYSTEMS 207

**Aldi** 207

**Continuous Improvement Using a Lean Systems Approach** 209

**Strategic Characteristics of Lean Systems** 211

Supply Chain Considerations in Lean Systems 211

Process Considerations in Lean Systems 212

Toyota Production System 216

**Designing Lean System Layouts** 217

One Worker, Multiple Machines 217

Group Technology 218

**Managerial Practice 6.1** Panasonic Corporation 219

**Value Stream Mapping** 219

**The Kanban System** 223

General Operating Rules 223

Determining the Number of Containers 224

Other *Kanban* Signals 225

**Operational Benefits and Implementation Issues** 225

Organizational Considerations 226

Process Considerations 226

Inventory and Scheduling 226

**Learning Goals in Review** 227

**MyOMLab Resources** 227

**Key Equation** 228

**Key Terms** 228

**Solved Problems** 228

**Discussion Questions** 231

**Problems** 231

**Video Case** Lean Systems at Autoliv 234

**Case** Copper Kettle Catering 236

## 7 PROJECT MANAGEMENT 237

**XBOX 360** 237

**Defining and Organizing Projects** 239

Defining the Scope and Objectives of a Project 239

Selecting the Project Manager and Team 239

Recognizing Organizational Structure 240

**Constructing Project Networks** 241

Defining the Work Breakdown Structure 241

Diagramming the Network 241

**Developing the Project Schedule** 243

Critical Path 243

Project Schedule 244

Activity Slack 246

**Analyzing Cost-Time Trade-Offs** 247

Cost to Crash 247

Minimizing Costs 248

**Assessing and Analyzing Risks** 251

Risk-Management Plans 251

**Managerial Plans 7.1** San Francisco—Oakland Bay Bridge 252

Statistical Analysis 253

Analyzing Probabilities 255

Near-Critical Paths 256

**Monitoring and Controlling Projects** 257

Monitoring Project Status 257

Monitoring Project Resources 257

Controlling Projects 258

**Learning Goals in Review** 258

**MyOMLab Resources** 258

**Key Equations** 259

**Key Terms** 259

**Solved Problems** 260

**Discussion Questions** 264

**Problems** 264

**Active Model Exercise** 271

**Video Case** Project Management at the Phoenician 272

**Case** The Pert Mustang 273

## PART 2 Managing Customer Demand 275

### 8 FORECASTING 275

**Kimberly-Clark** 275

**Managing Demand** 277

Demand Patterns 277

Demand Management Options 278

**Key Decisions on Making Forecasts** 280

Deciding What to Forecast 280

Choosing the Type of Forecasting Technique 280

**Forecast Error** 281

Cumulative Sum of Forecast Errors 281

Dispersion of Forecast Errors 282

Mean Absolute Percent Error 282

Computer Support 284

**Judgment Methods** 284

**Causal Methods: Linear Regression** 284

**Time-Series Methods** 286

Naïve Forecast 287

Horizontal Patterns: Estimating the Average 287

Trend Patterns: Using Regression 289

Seasonal Patterns: Using Seasonal Factors 292

Criteria for Selecting Time-Series Methods 294

**Forecasting as a Process** 295

A Typical Forecasting Process 295

Using Multiple Forecasting Methods 296

**Managerial Practice 8.1** Combination Forecasts and the

Forecasting Process 297

Adding Collaboration to the Process 298

Forecasting as a Nested Process 298

**Learning Goals in Review** 299

**MyOMLab Resources** 299

**Key Equations** 299

**Key Terms** 300

**Solved Problems** 301

**Discussion Questions** 304

**Problems** 305

**Video Case** Forecasting and Supply Chain Management at

Deckers Outdoor Corporation 313

**Case** Yankee Fork and Hoe Company 314

**Experiential Learning 8.1** Forecasting a Vital Energy Statistic 316

### 9 INVENTORY MANAGEMENT 317

**Inventory Management at Netflix** 317

**Inventory Trade-Offs** 319

Pressures for Small Inventories 320

Pressures for Large Inventories 320

**Managerial Practice 9.1** Inventory Management at Walmart **321**

**Types of Inventory 322**

Accounting Inventories **322**

Operational Inventories **323**

**Inventory Reduction Tactics 325**

Cycle Inventory **325**

Safety Stock Inventory **325**

Anticipation Inventory **325**

Pipeline Inventory **325**

**ABC Analysis 326**

**Economic Order Quantity 327**

Calculating the EOQ **327**

Managerial Insights from the EOQ **331**

**Continuous Review System 331**

Selecting the Reorder Point When Demand and Lead Time Are Constant **332**

Selecting the Reorder Point When Demand Is Variable and Lead Time Is Constant **332**

Selecting the Reorder Point When Both Demand and Lead Time Are Variable **336**

Systems Based on the *Q* System **337**

Calculating Total *Q* System Costs **337**

Advantages of the *Q* System **337**

**Periodic Review System 338**

Selecting the Time between Reviews **339**

Selecting the Target Inventory Level When Demand Is Variable and Lead Time Is Constant **339**

Selecting the Target Inventory Level When Demand and Lead Time Are Variable **341**

Systems Based on the *P* System **341**

Calculating Total *P* System Costs **341**

Advantages of the *P* System **341**

**Learning Goals in Review 342**

**MyOMLab Resources 342**

**Key Equations 342**

**Key Terms 344**

**Solved Problems 344**

**Discussion Questions 348**

**Problems 348**

**Active Model Exercise 353**

**Video Case** Inventory Management at Crayola **354**

**Experiential Learning** Swift Electronic Supply, Inc. **355**

**Case** Parts Emporium **357**

**SUPPLEMENT C** Special Inventory

**Models 359**

**Noninstantaneous Replenishment 359**

**Quantity Discounts 362**

**One-Period Decisions 364**

**Learning Goals in Review 366**

**MyOMLab Resources 366**

**Key Equations 367**

**Key Term 367**

**Solved Problems 367**

**Problems 369**

**10 OPERATIONS PLANNING AND SCHEDULING 373**

**Cooper Tire and Rubber Company 373**

**Levels in Operations Planning and Scheduling 375**

Level 1: Sales and Operations Planning **376**

Level 2: Resource Planning **377**

Level 3: Scheduling **378**

**S&OP Supply Options 378**

**S&OP Strategies 379**

Chase Strategy **379**

Level Strategy **379**

Constraints and Costs **380**

Sales and Operations Planning as a Process **380**

**Spreadsheets for Sales and Operations Planning 382**

Spreadsheets for a Manufacturer **382**

Spreadsheets for a Service Provider **383**

**Scheduling 386**

Job and Facility Scheduling **386**

Workforce Scheduling **387**

**Managerial Practice 10.1** Scheduling at Air New Zealand **387**

Sequencing Jobs at a Workstation **390**

Software Support **392**

**Learning Goals in Review 393**

**MyOMLab Resources 393**

**Key Terms 393**

**Solved Problems 394**

**Discussion Questions 397**

**Problems 397**

**Active Model Exercise 404**

**Video Case** Sales and Operations Planning at Starwood **405**

**Case** Memorial Hospital **406**

**SUPPLEMENT D** Linear Programming **409**

**Characteristics of Linear Programming Models 409**

**Formulating a Linear Programming Model 410**

**Graphic Analysis 412**

Plot the Constraints **412**

Identify the Feasible Region **414**

Plot the Objective Function Line **415**

Find the Visual Solution **416**

Find the Algebraic Solution **416**

Slack and Surplus Variables **417**

Sensitivity Analysis **418**

**Computer Analysis 418**

Simplex Method **418**

Computer Output **419**

**The Transportation Method 421**

Transportation Method for Sales and Operations Planning **422**

**Learning Goals in Review 426**

**MyOMLab Resources 426**

**Key Terms 426**

**Solved Problems 426**

**Discussion Questions 429**

**Problems 429**

**11 RESOURCE PLANNING 437**

**Philips 437**

**Material Requirements Planning 439**

Dependent Demand **439**

**Master Production Scheduling 440**

Developing a Master Production Schedule **441**

Available-to-Promise Quantities **442**

Freezing the MPS **443**

Reconciling the MPS with Sales and Operations Plans **444**

**MRP Explosion 444**

Bill of Materials **444**  
 Inventory Record **445**  
 Planning Factors **448**
