ACKNOWLEDGMENTS

A special thank you goes to:

- My editor, Mitzi Koontz. I can't imagine a better, more effective, tougher (when she needs to be), and, at the same time, more supportive editor. Any author is lucky to have her in his or her corner.
- Kim Benbow, copy editor, for doing a great job on one of her more “challenging” assignments—and, in particular, for putting up with my penchant for multiple and last-minute revisions. In the midst of it all, she kept an eye on the ball, indulging me when it served the book and keeping me in line when it didn't—and did it all with warmth and humour.
- Rick Guyatt for his invaluable insight into ITIL and its implementation in the public sector.
- Chris Reynolds for the benefit of his rich experience in BA best practices within the private sector.
- Ken Clyne of Number Six for the deep perspective he provided on many issues and, in particular, those related to the agile approach, the UML, RUP, and iterative development.
- Keith Sarre, a fellow reviewer of the *BABOK*®, for his valuable input regarding the *BABOK*® and best BA practices.
- John Welch for drawing my attention to the existing gap between ITIL and the BA role. John is the visionary who, early on, saw the importance of making the ITIL-BA link and who worked tirelessly to ensure it was addressed.
- Beth Brook (OPSI) for her help in expediting the applications to license the ITIL material in this book.
- Mike Bonamassa of Number Six.
- My kids, Yasha Podeswa and Samantha Stillar.
- My parents, Yidel and Ruth Podeswa, for giving me the confidence to do anything I put my mind to.

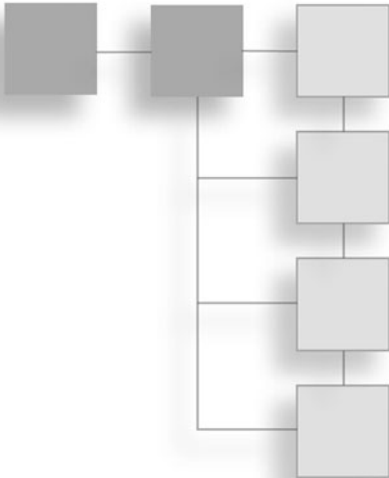

IN MEMORY

And finally, a note in memory of Brian Lyons, a founder of Number Six. I met Brian years ago in Toronto, while we were both working with a telecommunications client. Brian was one of the most brilliant and unconventional people I had ever met in this business. We had kept in touch since then and, when my previous book was about to come out, he consented to act as technical editor. As this book was nearing completion, I was looking forward to another round, when I learned that he had died in a tragic motorcycle accident. He has been an inspiration to me and many others.

ABOUT THE AUTHOR

Howard Podeswa is the co-founder of Noble Inc., a business analysis training and consulting company. He has 29 years of experience in many aspects of the software industry, beginning as a developer for Atomic Energy of Canada Ltd. and continuing as systems analyst, business analyst, consultant, and author of courseware and books for business analysts, including *UML for the IT Business Analyst*. Directly, and through his company, he has provided training and consulting services to a diverse client base covering a broad range of industry sectors, including health care, defense, energy, government, and banking and financial institutions. Podeswa has developed BA training programs for numerous colleges, universities, and corporate education centres. He has been a subject matter expert in Business Analysis for NITAS—a BA apprenticeship program for CompTIA—and a contributing reviewer for the IIBA’s *Business Analysis Body of Knowledge (BABOK®)*. For more information on the Noble Business Analysis curriculum, please visit www.nobleinc.ca or e-mail info@nobleinc.ca.

TABLE OF CONTENTS

- Introductionxv**

- Chapter 1 Overview of BA Activities Throughout the Life Cycle1**
 - Adapting the Noble Path3
 - How to Use the Tables4
 - Initiation Phase6
 - Discovery Phase6
 - Construction Phase29
 - Final V & V Phase29
 - Closeout Phase35
 - Placing the IT Project Life Cycle in Perspective: The Spectrum Diagram40

- Chapter 2 Meeting Guide43**
 - Planning for the Meeting43
 - Checklist: Who to Invite to Requirements Workshops43
 - Contribution to Meeting by Role and Stakeholder Type44
 - Types of Meetings That a BA May Be Asked to Participate In . . .45
 - Facilitated Meeting Work Plan45
 - Meeting Readiness Checklist49
 - Standard Meeting Agenda49
 - Facilitated Meeting Rules and Guidelines50
 - Facilitated Meeting Expectations50
 - Approvals Process Expectations51

Review Meeting (Structured Walkthrough and Gate Review)	51
Prerequisites, Timing Considerations	51
Who to Invite	51
Checklist: Questions for the Interview	52
Structured Walkthrough Guidelines	55
Meeting Objective: (Kick-Off Meeting) Identify Opportunities and Challenges	55
Prerequisites, Timing Considerations	55
Input Documents	55
Deliverables	55
Who to Invite	56
Checklist: Questions for the Interview	56
Meeting Objective: Identify Stakeholders and Interests	56
Prerequisites, Timing Considerations	56
Input Documents	56
Deliverables	57
Who to Invite	58
Checklist: Questions for the Interview	58
Meeting Objective: Analyze Impact on Business Services and Processes	60
Prerequisites, Timing Considerations	60
Input Documents	60
Deliverables	61
Who to Invite	61
Checklist: Questions for the Interview	62
Meeting Objective: Analyze Risk	63
Prerequisites, Timing Considerations	63
Input Documents	64
Deliverables	64
Who to Invite	64
Checklist: Questions for the Interview	64
Meeting Objective: Requirements Management—Setup and Planning	66
Prerequisites, Timing Considerations	66
Input Documents	66
Deliverables	66
Who to Invite	66
Checklist: Questions for the Interview	66

Meeting Objective: Define Internal Workflow for End-to-End Business Processes	.68
Prerequisites, Timing Considerations	.68
Input Documents	.68
Deliverables	.68
Who to Invite	.69
Checklist: Questions for the Interview	.69
Meeting Objective: Describe Users	.69
Prerequisites, Timing Considerations	.69
Input Documents	.69
Deliverables	.71
Who to Invite	.71
Checklist: Questions for the Interview	.72
Meeting Objective: Identify User Tasks	.72
Prerequisites, Timing Considerations	.72
Input Documents	.72
Deliverables	.73
Who to Invite	.74
Checklist: Questions for the Interview	.74
Meeting Objective: (Static Modeling) Define Business Concepts, Objects, and Rules	.74
Prerequisites, Timing Considerations	.75
Input Documents	.75
Deliverables	.76
Who to Invite	.76
Checklist: Questions for the Interview	.77
Meeting Objective: Define Non-Functional SLRs	.79
Prerequisites, Timing Considerations	.79
Input Documents	.79
Deliverables	.80
Who to Invite	.80
Checklist: Questions for the Interview	.80
Meeting Objective: Gather Detailed User Requirements	.86
Prerequisites, Timing Considerations	.86
Input Documents	.86
Deliverables	.87
Who to Invite	.87
Checklist: Questions for the Interview	.87

Meeting Objective: Reuse User Requirements	90
Prerequisites, Timing Considerations	90
Input Documents	90
Deliverables	90
Who to Invite	91
Checklist: Questions for the Interview	91
Meeting Objective: Analyze the Life Cycle of Business Objects	92
Prerequisites, Timing Considerations	92
Input Documents	93
Deliverables	93
Who to Invite	93
Checklist: Questions for the Interview	94
Meeting Objective: Assess the Results of an Iteration	95
Prerequisites, Timing Considerations	95
Input Documents	95
Deliverables	96
Who to Invite	96
Checklist: Questions for the Interview	96
Meeting Objective: Gather Service Desk Requirements	97
Prerequisites, Timing Considerations	97
Input Documents	97
Deliverables	97
Who to Invite	98
Checklist: Questions for the Interview	98
Chapter 3 Standards and Guidelines Used in This Book	101
ITIL	101
IIBA and <i>BABOK</i> ®	109
UML	115
Chapter 4 BA Toolkit	117
BA Tools Overview	117
Activity Diagram	120
Activity Diagram Example	120
Symbol Glossary: Activity Diagram—Key Modeling Elements	120
Symbol Glossary: Activity Diagram—Modeling Elements for Complex Diagrams	126
Block Diagram	126
Block/Swimlane Workflow Diagram Example	126
Symbol Glossary: Block Diagram	128

Business Process Diagram (BPD)	130
BPD Example	130
Symbol Glossary: BPD Flow Objects (with UML Conversion Chart)	132
Business Process Modeling	138
Business Use Case	138
Symbol Glossary: Business Use-Case Diagram	141
Cause-and-Effect Diagrams	142
Class Diagrams and Static Model	144
Symbol Glossary: Class Diagram	146
Communication Diagram	152
Symbol Glossary: Communication Diagram	153
Data Flow and Context Diagrams	154
Symbol Glossary: Data Flow Diagram	157
Decision Table/Tree	159
Decision Table Example	160
Interviewing with Decision Tables	160
Entity Relationship Diagram (ERD) and Data Model	162
Symbol Glossary: Entity Relationship Diagram	164
The Five Whys	166
Flowchart	167
Flowchart Example and Symbols	168
Functional Decomposition Chart	169
Functional Decomposition Chart Example and Glossary	170
FURPS+	171
FURPS+ Checklist	171
Object Diagram	173
Object Diagram Examples	174
Symbol Glossary: Object Diagram	175
Pareto Analysis (Pareto Diagrams)	176
How to Perform Pareto Analysis	179
Requirements Attributes Table	180
Requirements Attributes Table Example	181
Requirements Traceability Matrix	182
Requirements Traceability Matrix Example	182
Role Map	184
Role Map Example and Glossary	185
Root-Cause Analysis	186
Root-Cause Analysis Work Plan for the BA	186

Sequence Diagram188
 Sequence Diagram Example189
 State-Machine (Harel Statechart) Diagram190
 Symbol Glossary: State-Machine Diagram193
 State-Machine Diagram: Advanced Modeling Elements197
 Structured Walkthroughs200
 System Use Cases (and Diagrams)200
 Key System Use-Case Terms203
 System Use-Case Diagram Example203
 Symbol Glossary: System Use-Case Diagram205
 Use-Case Analysis209
 Key Points about Use Cases210
 Use-Case Goal Levels210
 Use-Case Analysis for Different Objectives211
 Use-Case Writing Guidelines214

Chapter 5 Tips and Checklists217

Checklist: Requirements Investigation Methods217
 Tip: What to Do When Key Participants Can't or Don't Show217
 Checklists: Change Advisory Board218
 Checklist of Potential CAB Members218
 CAB: Standard Items for Review219
 Tip: ITIL Seven Rs of Change Management219
 Tips: Five Keys to Requirements Management220
 Tips: Planning Iterations220
 Tips: SMART Requirements221
 Checklist: Features221
 Tip: Naming a Process221
 Tips: How to Spot the Static Modeling Elements from the
 System Use-Case Model222
 Tips: Determining How Much Static Modeling to Do223
 Tips: Managing Risk223
 Tip: Risk Assessment Matrix223
 Checklist: Risk Types224
 Checklist: ITIL Risk Types224
 Checklist: Other Risks the BA Should Be Aware Of225
 Risk-Management Strategies225

Tips: Quality Assurance (QA)	.225
Tip: Testing Throughout the Life Cycle with the Service	
V-Model	.225
Checklist: Test Types	.227
Tips: Structured Testing Guidelines	.228
Checklist: Selecting Solution Providers	.229
