The Missing Credits xvii
Introduction 1

Part One: Project Management: The Missing Manual

Chapter 1: Projects: In the Beginning 19
 What's So Special About Projects? 19
 What Is Project Management? 20
 Why Manage Projects? 23
 Picking the Right Projects 24
 The Importance of Business Objectives 25
 Common Selection Criteria. 26
 Gaining Support for a Project. 31
 Identify Who Has a Stake in the Project 32
 Documenting Stakeholders 34
 Publicizing a Project and Its Manager 35

Chapter 2: Planning a Project 39
 Project Planning in a Nutshell. 40
 Defining the Project. 43
 What's the Problem? 44
 Giving Meaning to a Project 44
 How Will You Solve the Problem? 46
 Defining Project Objectives. 47
 Identifying Project Results 49
 Gauging Success 49
 Defining Project Boundaries 50
 Documenting Project Assumptions 51
 Documenting How You'll Run the Project 51

Laying Out Project Processes	52
Communicating	52
Managing Change	53
Managing Quality	54
Managing Risk	54
Chapter 3: Taking Microsoft Project for a Test Drive	59
Navigating the Project Ribbon	59
Managing Files in the Backstage View	60
A Tour of the Other Ribbon Tabs	62
The Project Window	63
Creating a Project Schedule	64
What Work Must Be Done?	65
What Results Must Your Project Produce—and When?	69
How Does Each Task Depend on Other Tasks?	70
Who’s Going to Do the Work?	72
How Long Will All These Tasks Take?	74
Saving Your Project	76
Chapter 4: Breaking Work into Task-Sized Chunks	77
Identifying the Work to Be Done	78
Breaking Down Work	79
When Is Enough Enough?	82
Building a WBS in Microsoft Project	84
Creating a WBS in Project from the Top Down	84
Creating and Modifying a WBS on the Fly	89
Documenting a WBS in Another Program	90
Pasting a WBS into Project	91
Setting Up Custom WBS Codes	93
Documenting Work Package Details	96
Building Work Package Documents in Word	97
Linking Work Packages to the Project Schedule	99
Chapter 5: Estimating Task Work and Duration	101
Understanding Work and Duration	102
Getting Good Estimates	102
How Accurate Do You Need to Be?	103
Ways to Estimate Work	105
Getting Estimates from the Right People	106
Don’t Ask for Only One Number	106
Don’t Pad Estimates	107
Give Feedback on Estimates	108

Getting Estimates into Project	109
Exporting Work Packages to Excel	109
Importing Estimates into Project	113
Planning with Manually Scheduled Tasks	116
Setting the Scheduling Mode	116
Creating Tasks with Incomplete Information	119
Planning from the Top Down	120
Chapter 6: Setting Up a Project Schedule	123
Creating a New Project File	123
Creating a Blank Project File	124
Creating a Project File from an Excel Workbook	124
Using a Template to Create a Project File	125
Specifying a Template Folder	126
Saving a New Project	129
Saving Projects to Other File Formats	130
Protecting Your Project Files	133
Opening a Project File	134
Setting Up Options For a Project	135
Setting the Project Start Date	135
Setting the Standard Workdays	137
Adding Tasks to a Project	141
Adding Tasks	142
Creating Milestones	144
Creating Repeating Tasks	146
Inserting, Moving, and Deleting Tasks	148
Inserting Tasks	148
Moving Tasks	149
Copying Tasks	150
Deleting Tasks	152
Modifying a Task's Level in the Outline	152
Chapter 7: Making a Schedule That's Easy to Maintain	155
How Tasks Affect One Another	156
Building Relationships Between Tasks	158
Creating Finish-to-Start Task Dependencies	158
Creating and Modifying All Types of Task Dependencies	159
Delaying or Overlapping Tasks	162
Scheduling Task Work Time with Calendars	164
Setting Specific Task Dates	165
Manually Scheduling Task Dates	166
Types of Constraints	166
Setting and Changing Constraints	168
Preventing Unwanted Date Constraints	169
Setting Deadline Reminders	169

Part Two: **Project Planning: More Than Creating a Schedule**

Chapter 8: Building a Team for Your Project	175
Identifying Project Resources	176
Who's Responsible for What	176
Who Reports to Whom	179
Understanding Project's Resource Types	180
Adding Resources in Microsoft Project	182
Adding Resources Manually	184
Importing Resources from Other Programs	185
Deleting Resources	189
Providing Detailed Resource Information	189
Filling in General Information	190
Defining When Work Resources Work	192
Defining Costs for Work and Material Resources	197
Setting Up Cost Resources	200
Chapter 9: Connecting Resources to Tasks	201
Assigning Work Resources to Tasks	202
Assigning Resources with the Dialog Box	202
Assigning Resources in the Task Form	205
Assigning Resources in a Gantt Chart Table	208
Finding the Right Resources	209
Quickly Assigning Resources with Team Planner	213
Assigning Material Resources to Tasks	217
Understanding Duration, Work, and Units	219
Modifying Resource Assignments	220
Adding and Removing Resources from Tasks	221
When Effort Drives the Schedule	223
Controlling Assignment Changes with Task Types	224
Chapter 10: Does the Schedule Work?	229
Making Sure Tasks Are Set Up Correctly	230
Reviewing Task Dependencies	231
Changing Manually Scheduled Tasks to Auto Scheduled	233
Freeing Tasks from Date Constraints	236
Defining Work Schedules with Calendars	238
Creating New Calendars	238
Modifying Calendars	239
Applying Calendars	249
Task Inspector: Help with Schedule Problems	251
Building Reality into Assignments	253
Replacing Generic Resources with Real Ones	254
Assigning Part-Time Workers	256
Modeling Productivity in Project	257
Adjusting Tasks for Resource Capability	258

Balancing Workloads	259
Finding Resource Over- and Under-Allocations	260
Adjusting Assignments to Correct Allocations	267
Leveling Assignments	275
Prioritizing Projects and Tasks	281
Chapter 11: Setting Up a Project Budget.	285
Putting a Price Tag on Your Project	286
Incorporating Resource Costs	288
Preparing for Cost Calculations	289
Assigning Cost Resources to Tasks	289
Entering an Oddball Cost for a Task	293
Reviewing Cost Information	295
Seeing Overall Project Costs	296
Seeing Costs for Tasks, Resources, and Assignments	298
Adding Custom Budget Information	300
Comparing Costs to Your Budget	302
Step 1: Create and Designate Budget Resources	302
Step 2: Assign Budget Resources to the Project Summary Task	304
Step 3: Enter Budget Cost and Work Values	306
Step 4: Associate Resources with Their Budget Type	310
Step 5: Compare Budget Resource Values	312
Reducing Project Costs	315
Checking for Cost Errors	315
Adjusting the Schedule	317
Adjusting Assignments	318
Rethinking Your Project Budget	318
Setting the Project Fiscal Year	319
Assigning Accounting Codes	320
Entering Accounting Codes in a Custom Field	320
Creating Multilevel Accounting Codes	322
Applying Accounting Codes to Your Project	325
Chapter 12: Refining a Project Schedule.	327
Evaluating the Project Schedule	328
Comparing Finish Dates to Deadlines	328
Finding the Best Tasks to Shorten	329
Reviewing Project Costs	332
Project Tools for Change	336
See Why Tasks Occur When They Do	337
Seeing What Changes Do	337
Undoing Changes	339
Adjusting Resource Assignments	340
Increasing Units to Decrease Duration	341
Assigning a Different Resource	343
Adding Resources	344
Using Slack Time to Shorten the Schedule	344

Splitting Tasks into Smaller Pieces	346
Overlapping Tasks	347
Finding Tasks to Fast-Track	348
Modifying Task Dependencies to Overlap Tasks	349
Paying More for Faster Delivery	350
Time vs. Money	350
Using a Spreadsheet to Choose Tasks to Crash	351
Playing What-If Games	353
Inactivating Tasks	353
Comparing Projects	355
Chapter 13: Saving the Project Plan	359
Obtaining Approval for the Plan	360
Storing Project Documents	360
Preserving the Original Plan in Project	362
Setting a Baseline	365
Setting Additional Baselines	366
Adding New Tasks to a Baseline	368
Clearing a Baseline	371
Viewing Baselines	372
<i>Part Three: Projects in Action</i>	
Chapter 14: Tracking Progress	381
Picking the Best Way to Track Progress	382
Obtaining Progress and Cost Data	383
Collecting Task Progress from Your Team Members	383
Collecting Progress Data About Other Resources	387
Entering Actual Progress in Project	388
Updating Task Progress	388
Updating the Project Using Resource Assignment Progress	394
Globally Updating the Project	398
Updating Project Costs	401
Chapter 15: Evaluating Project Performance	407
Scheduled, Baseline, and Actual Values	408
Is the Project on Time?	409
Checking Status at the Project Level	409
Reviewing the Critical Path	411
Looking for Delayed Tasks	413
Looking for Tasks Heading for Trouble	415

Checking on Work	416
Checking for Overbudget Work	417
Is the Project Within Budget?	418
Comparing Costs with Views and Filters	419
Evaluating Costs with Reports	419
Comparing Project Costs to a Budget	420
Earned Value Analysis	420
Gauging Performance with Earned Value Measures	421
Analyzing an Earned Value Graph	422
Using Additional Earned Value Measures	423
Viewing Earned Value in Project	425
Controlling How Project Calculates Earned Value	427
Getting Back on Track	428
A Review of Project Tuning Techniques	428
Assigning Overtime	429
Chapter 16: Managing Change	433
Setting Up a Change Management System	434
Managing Change Requests	434
The Change Review Board: Deciding on Changes	436
Tracking Change Requests	437
Managing Changes in Project	438
Finding the Effects of a Proposed Change	439
Updating Project with Approved Change Requests	443
Flagging Change Requests in Project	444
Chapter 17: Reporting on Projects	447
An Overview of Project's Reports	448
Overall Status	448
Financial Performance	450
Task Management	452
Resource Management	453
Text-Based Reports	454
Generating Text-Based Reports	455
Customizing Text-Based Reports	457
Working with Visual Reports	462
Generating a Visual Report	464
Rearranging and Formatting an Excel Visual Report	465
Rearranging and Formatting a Visio Visual Report	471
Customizing Visual Report Templates	473
Saving Report Data	475
Printing Views to Report Project Information	476

Chapter 18: Closing a Project	479
Obtaining Project Acceptance	480
Tying Up Loose Ends	480
Producing Project Closeout Reports	481
Summarizing a Project	482
Reporting Performance	483
Documenting What You Learned	484
What to Do with Project Information	487

Part Four: Project Power Tools

Chapter 19: Working on Multiple Projects.	491
Managing Multiple Projects	492
Creating a Master Project	493
Removing a Project from a Master Project	497
Linking Tasks in Different Projects	498
Sharing Resources Among Projects	500
Creating a Resource Pool	500
Connecting a Project to a Resource Pool	501
Opening and Saving Sharer Projects	503
Detaching a Sharer Project from the Resource Pool	504
Editing Resource Pool Information	504
Chapter 20: Exchanging Data Between Programs	507
Copying Information	509
Copying Project Data to Other Programs	509
Copying Data from Other Programs into Project	510
Creating Pictures of Project Information	512
Importing and Exporting Data	514
Importing Data into Project	516
Exporting Data from Project	519
Using an Existing Map	522
Exchanging Data with Excel	523
Working with Project and Visio	528
Sharing Projects with SharePoint	534
Sharing Tasks with Your Team	534
Saving a Project File to a SharePoint Site	541
Chapter 21: Linking and Embedding	543
Linking and Embedding Project Data	545
Linking Project Files to Other Programs	546
Embedding Project Files in Other Programs	548
Linking Project Table Data to Other Programs	549

Linking and Embedding Data into Project	550
Linking and Embedding Entire Files into Project	551
Linking and Embedding Parts of Files in Project	552
Linking Tabular Data in Project	554
Working with Linked and Embedded Objects	554
Editing Linked Objects	555
Managing Linked Objects	556
Editing Embedded Objects	558

Chapter 22: Project on the Internet. 559

Hyperlinking to Information	559
Creating a Hyperlink to a File or Web Page	560
Modifying Hyperlinks	562
Creating a Hyperlink to a Location in the Project File	562
Integrating Project and Outlook	564
Adding Project Tasks to Outlook	564
Importing Tasks from Outlook	565
Copying Tasks from an Email	566
Sending Project Information to Others	567

Part Five: Customizing Project

Chapter 23: Viewing What You Want. 573

Creating Your Own View	574
Modifying Basic View Contents	575
Creating a New View	580
Changing the Looks of a Gantt Chart View	583
Customizing the Timescale	595
Changing a Usage View's Appearance	597
Customizing the Timeline	600
Customizing the Team Planner View	601
Customizing the Resource Graph	602
Modifying a Network Diagram	605
Customizing the Calendar View	608
Changing Tables	610
Switching the Table in a View	610
Changing Table Contents	611
Modifying a Table Definition	613
Creating a New Table	616
Changing the Way Text Looks	616
Changing Categories of Text	617
Changing Selected Text	619

Filtering Through Information	620
Applying Filters	620
Creating and Editing Filters	620
Defining Filters	622
Quick and Dirty Filtering with AutoFilter	629
Grouping Project Elements	632
Working with Groups	632
Creating a Group	633
Changing Group Intervals	637
Chapter 24: Defining Your Own Fields	639
Understanding Custom Fields	640
Customizing a Field	641
Creating Lists of Valid Values	643
Calculating Field Values	646
Calculating Values In Summary Rows	649
Displaying Values Graphically	650
Coding Tasks and Resources	652
Setting Up a Template for Outline Code Values	653
Setting Up an Outline Code Lookup Table	654
Chapter 25: Customizing the Ribbon and Quick Access Toolbar. 657	
Customizing the Ribbon	658
Turning Tabs On and Off	659
Creating Custom Tabs	660
Creating Custom Groups	661
Adding a Command to the Ribbon	662
Rearranging Ribbon Elements	664
Removing Custom Ribbon Elements	665
Resetting Ribbon Customizations	665
Customizing the Quick Access Toolbar	665
Chapter 26: Reusable Project: Templates	667
Sharing Custom Elements	668
Storing Project Settings and Elements	669
Copying Elements Between Files	670
Removing Customized Elements from Files	674
Renaming Customized Elements	674
Building Templates for Projects	675
Creating a Project Template	675
Making Your Templates Easy to Find	677
Creating a Project File from a Template	679

Chapter 27: Saving Time with Macros 681
What You Can Do with Macros 682
Recording Macros 682
Running Macros 685
 Running Macros in the Macros Dialog Box 685
 Running a Macro from the Ribbon 686
 Using Keyboard Shortcuts to Run Macros 688
Viewing and Editing Macro Code 688
Learning More About Programming Project 689

Part Six: Appendixes

Appendix A: Installing Project 693
Appendix B: Getting Help for Project 703
Appendix C: Keyboard Shortcuts 715
Index 723
