<b>About the Authors</b>	<b>xxvi</b>

## **Chapter 1** Data and Statistics 1

### **Statistics in Practice: Bloomberg Businessweek** 2

#### **1.1 Applications in Business and Economics** 3

Accounting	3
Finance	4
Marketing	4
Production	4
Economics	4
Information Systems	5

#### **1.2 Data** 5

Elements, Variables, and Observations	5
Scales of Measurement	7
Categorical and Quantitative Data	8
Cross-Sectional and Time Series Data	8

#### **1.3 Data Sources** 11

Existing Sources	11
Observational Study	12
Experiment	13
Time and Cost Issues	13
Data Acquisition Errors	13

#### **1.4 Descriptive Statistics** 14

#### **1.5 Statistical Inference** 16

#### **1.6 Analytics** 17

#### **1.7 Big Data and Data Mining** 18

#### **1.8 Computers and Statistical Analysis** 20

#### **1.9 Ethical Guidelines for Statistical Practice** 20

#### **Summary** 22

#### **Glossary** 23

#### **Supplementary Exercises** 24

## **Chapter 2** Descriptive Statistics: Tabular and Graphical Displays 32

### **Statistics in Practice: Colgate-Palmolive Company** 33

#### **2.1 Summarizing Data for a Categorical Variable** 34

Frequency Distribution	34
------------------------	----

	Relative Frequency and Percent Frequency Distributions	35
	Bar Charts and Pie Charts	35
<b>2.2</b>	<b>Summarizing Data for a Quantitative Variable</b>	<b>41</b>
	Frequency Distribution	41
	Relative Frequency and Percent Frequency Distributions	43
	Dot Plot	43
	Histogram	44
	Cumulative Distributions	45
	Stem-and-Leaf Display	46
<b>2.3</b>	<b>Summarizing Data for Two Variables Using Tables</b>	<b>55</b>
	Crosstabulation	55
	Simpson's Paradox	58
<b>2.4</b>	<b>Summarizing Data for Two Variables Using Graphical Displays</b>	<b>64</b>
	Scatter Diagram and Trendline	64
	Side-by-Side and Stacked Bar Charts	65
<b>2.5</b>	<b>Data Visualization: Best Practices in Creating Effective Graphical Displays</b>	<b>71</b>
	Creating Effective Graphical Displays	71
	Choosing the Type of Graphical Display	72
	Data Dashboards	72
	Data Visualization in Practice: Cincinnati Zoo and Botanical Garden	74
	<b>Summary</b>	<b>77</b>
	<b>Glossary</b>	<b>78</b>
	<b>Key Formulas</b>	<b>79</b>
	<b>Supplementary Exercises</b>	<b>79</b>
	<b>Case Problem 1 Pelican Stores</b>	<b>84</b>
	<b>Case Problem 2 Motion Picture Industry</b>	<b>85</b>
	<b>Case Problem 3 Queen City</b>	<b>86</b>
	<b>Appendix 2.1 Using Minitab for Tabular and Graphical Presentations</b>	<b>87</b>
	<b>Appendix 2.2 Using Excel for Tabular and Graphical Presentations</b>	<b>90</b>
	<b>Chapter 3 Descriptive Statistics: Numerical Measures</b>	<b>102</b>
	<b>Statistics in Practice: Small Fry Design</b>	<b>103</b>
<b>3.1</b>	<b>Measures of Location</b>	<b>104</b>
	Mean	104
	Weighted Mean	106
	Median	107
	Geometric Mean	109
	Mode	110
	Percentiles	111
	Quartiles	112

<b>3.2 Measures of Variability</b>	<b>118</b>
Range	118
Interquartile Range	119
Variance	119
Standard Deviation	120
Coefficient of Variation	121
<b>3.3 Measures of Distribution Shape, Relative Location, and Detecting Outliers</b>	<b>125</b>
Distribution Shape	125
z-Scores	125
Chebyshev's Theorem	127
Empirical Rule	128
Detecting Outliers	130
<b>3.4 Five-Number Summaries and Boxplots</b>	<b>133</b>
Five-Number Summary	133
Boxplot	134
Comparative Analysis Using Boxplots	135
<b>3.5 Measures of Association Between Two Variables</b>	<b>138</b>
Covariance	138
Interpretation of the Covariance	140
Correlation Coefficient	141
Interpretation of the Correlation Coefficient	143
<b>3.6 Data Dashboards: Adding Numerical Measures to Improve Effectiveness</b>	<b>147</b>
<b>Summary</b>	<b>151</b>
<b>Glossary</b>	<b>152</b>
<b>Key Formulas</b>	<b>153</b>
<b>Supplementary Exercises</b>	<b>154</b>
<b>Case Problem 1 Pelican Stores</b>	<b>160</b>
<b>Case Problem 2 Motion Picture Industry</b>	<b>161</b>
<b>Case Problem 3 Business Schools of Asia-Pacific</b>	<b>162</b>
<b>Case Problem 4 Heavenly Chocolates Website Transactions</b>	<b>162</b>
<b>Case Problem 5 African Elephant Populations</b>	<b>164</b>
<b>Appendix 3.1 Descriptive Statistics Using Minitab</b>	<b>166</b>
<b>Appendix 3.2 Descriptive Statistics Using Excel</b>	<b>167</b>

## **Chapter 4 Introduction to Probability 173**

### **Statistics in Practice: National Aeronautics and Space Administration 174**

#### **4.1 Random Experiments, Counting Rules, and Assigning Probabilities 175**

Counting Rules, Combinations, and Permutations 176

Assigning Probabilities 180

Probabilities for the KP&L Project 182

#### **4.2 Events and Their Probabilities 185**

**4.3 Some Basic Relationships of Probability 189**

Complement of an Event 189

Addition Law 190

**4.4 Conditional Probability 196**

Independent Events 199

Multiplication Law 199

**4.5 Bayes' Theorem 204**

Tabular Approach 207

**Summary 210****Glossary 210****Key Formulas 211****Supplementary Exercises 212****Case Problem Hamilton County Judges 216****Chapter 5 Discrete Probability Distributions 219****Statistics in Practice: Citibank 220****5.1 Random Variables 221**

Discrete Random Variables 221

Continuous Random Variables 222

**5.2 Developing Discrete Probability Distributions 224****5.3 Expected Value and Variance 229**

Expected Value 229

Variance 229

**5.4 Bivariate Distributions, Covariance, and Financial Portfolios 234**

A Bivariate Empirical Discrete Probability Distribution 234

Financial Applications 237

Summary 240

**5.5 Binomial Probability Distribution 243**

A Binomial Experiment 244

Martin Clothing Store Problem 245

Using Tables of Binomial Probabilities 249

Expected Value and Variance for the Binomial Distribution 250

**5.6 Poisson Probability Distribution 254**

An Example Involving Time Intervals 255

An Example Involving Length or Distance Intervals 256

**5.7 Hypergeometric Probability Distribution 258****Summary 261****Glossary 262****Key Formulas 263****Supplementary Exercises 264****Case Problem *Go Bananas!* 268****Appendix 5.1 Discrete Probability Distributions with Minitab 269****Appendix 5.2 Discrete Probability Distributions with Excel 269**

## **Chapter 6** Continuous Probability Distributions 271

### **Statistics in Practice: Procter & Gamble 272**

#### **6.1 Uniform Probability Distribution 273**

Area as a Measure of Probability 274

#### **6.2 Normal Probability Distribution 277**

Normal Curve 277

Standard Normal Probability Distribution 279

Computing Probabilities for Any Normal Probability Distribution 284

Great Tire Company Problem 285

#### **6.3 Normal Approximation of Binomial Probabilities 289**

#### **6.4 Exponential Probability Distribution 293**

Computing Probabilities for the Exponential Distribution 293

Relationship Between the Poisson and Exponential Distributions 294

### **Summary 296**

### **Glossary 297**

### **Key Formulas 297**

### **Supplementary Exercises 298**

### **Case Problem Specialty Toys 301**

### **Appendix 6.1 Continuous Probability Distributions with Minitab 302**

### **Appendix 6.2 Continuous Probability Distributions with Excel 303**

## **Chapter 7** Sampling and Sampling Distributions 304

### **Statistics in Practice: Meadwestvaco Corporation 305**

#### **7.1 The Electronics Associates Sampling Problem 306**

#### **7.2 Selecting a Sample 307**

Sampling from a Finite Population 307

Sampling from an Infinite Population 309

#### **7.3 Point Estimation 312**

Practical Advice 314

#### **7.4 Introduction to Sampling Distributions 316**

#### **7.5 Sampling Distribution of $\bar{x}$ 318**

Expected Value of  $\bar{x}$  319

Standard Deviation of  $\bar{x}$  319

Form of the Sampling Distribution of  $\bar{x}$  320

Sampling Distribution of  $\bar{x}$  for the EAI Problem 321

Practical Value of the Sampling Distribution of  $\bar{x}$  322

Relationship Between the Sample Size and the Sampling Distribution of  $\bar{x}$  324

#### **7.6 Sampling Distribution of $\bar{p}$ 328**

Expected Value of  $\bar{p}$  329

Standard Deviation of  $\bar{p}$  329

Form of the Sampling Distribution of  $\bar{p}$  330

Practical Value of the Sampling Distribution of  $\bar{p}$  331

<b>7.7 Properties of Point Estimators</b>	<b>334</b>
Unbiased	334
Efficiency	335
Consistency	336
<b>7.8 Other Sampling Methods</b>	<b>337</b>
Stratified Random Sampling	337
Cluster Sampling	337
Systematic Sampling	338
Convenience Sampling	338
Judgment Sampling	339
<b>Summary</b>	<b>339</b>
<b>Glossary</b>	<b>340</b>
<b>Key Formulas</b>	<b>341</b>
<b>Supplementary Exercises</b>	<b>341</b>
<b>Case Problem Marion Dairies</b>	<b>344</b>
<b>Appendix 7.1 The Expected Value and Standard Deviation of <math>\bar{x}</math></b>	<b>344</b>
<b>Appendix 7.2 Random Sampling with Minitab</b>	<b>346</b>
<b>Appendix 7.3 Random Sampling with Excel</b>	<b>347</b>
<b>Chapter 8 Interval Estimation</b>	<b>348</b>
<b>Statistics in Practice: Food Lion</b>	<b>349</b>
<b>8.1 Population Mean: <math>\sigma</math> Known</b>	<b>350</b>
Margin of Error and the Interval Estimate	350
Practical Advice	354
<b>8.2 Population Mean: <math>\sigma</math> Unknown</b>	<b>356</b>
Margin of Error and the Interval Estimate	357
Practical Advice	360
Using a Small Sample	360
Summary of Interval Estimation Procedures	362
<b>8.3 Determining the Sample Size</b>	<b>365</b>
<b>8.4 Population Proportion</b>	<b>368</b>
Determining the Sample Size	370
<b>Summary</b>	<b>374</b>
<b>Glossary</b>	<b>375</b>
<b>Key Formulas</b>	<b>375</b>
<b>Supplementary Exercises</b>	<b>376</b>
<b>Case Problem 1 <i>Young Professional</i> Magazine</b>	<b>379</b>
<b>Case Problem 2 Gulf Real Estate Properties</b>	<b>380</b>
<b>Case Problem 3 Metropolitan Research, Inc.</b>	<b>380</b>
<b>Appendix 8.1 Interval Estimation with Minitab</b>	<b>382</b>
<b>Appendix 8.2 Interval Estimation Using Excel</b>	<b>384</b>

## **Chapter 9 Hypothesis Tests 387**

### **Statistics in Practice: John Morrell & Company 388**

#### **9.1 Developing Null and Alternative Hypotheses 389**

The Alternative Hypothesis as a Research Hypothesis 389

The Null Hypothesis as an Assumption to Be Challenged 390

Summary of Forms for Null and Alternative Hypotheses 391

#### **9.2 Type I and Type II Errors 392**

#### **9.3 Population Mean: $\sigma$ Known 395**

One-Tailed Test 395

Two-Tailed Test 401

Summary and Practical Advice 403

Relationship Between Interval Estimation and Hypothesis Testing 405

#### **9.4 Population Mean: $\sigma$ Unknown 410**

One-Tailed Test 410

Two-Tailed Test 411

Summary and Practical Advice 413

#### **9.5 Population Proportion 416**

Summary 418

#### **9.6 Hypothesis Testing and Decision Making 421**

#### **9.7 Calculating the Probability of Type II Errors 422**

#### **9.8 Determining the Sample Size for a Hypothesis Test About a Population Mean 427**

#### **Summary 430**

#### **Glossary 431**

#### **Key Formulas 432**

#### **Supplementary Exercises 432**

#### **Case Problem 1 Quality Associates, Inc. 435**

#### **Case Problem 2 Ethical Behavior of Business Students at Bayview University 437**

#### **Appendix 9.1 Hypothesis Testing with Minitab 438**

#### **Appendix 9.2 Hypothesis Testing with Excel 440**

## **Chapter 10 Inference About Means and Proportions with Two Populations 445**

### **Statistics in Practice: U.S. Food and Drug Administration 446**

#### **10.1 Inferences About the Difference Between Two Population Means: $\sigma_1$ and $\sigma_2$ Known 447**

Interval Estimation of  $\mu_1 - \mu_2$  447

Hypothesis Tests About  $\mu_1 - \mu_2$  449

Practical Advice 451

#### **10.2 Inferences About the Difference Between Two Population Means: $\sigma_1$ and $\sigma_2$ Unknown 454**

Interval Estimation of  $\mu_1 - \mu_2$  454

Hypothesis Tests About $\mu_1 - \mu_2$	456
Practical Advice	458
<b>10.3 Inferences About the Difference Between Two Population Means:     Matched Samples</b>	<b>462</b>
<b>10.4 Inferences About the Difference Between Two Population Proportions</b>	<b>468</b>
Interval Estimation of $p_1 - p_2$	468
Hypothesis Tests About $p_1 - p_2$	470
<b>Summary</b>	<b>474</b>
<b>Glossary</b>	<b>474</b>
<b>Key Formulas</b>	<b>475</b>
<b>Supplementary Exercises</b>	<b>476</b>
<b>Case Problem Par, Inc.</b>	<b>479</b>
<b>Appendix 10.1 Inferences About Two Populations Using Minitab</b>	<b>480</b>
<b>Appendix 10.2 Inferences About Two Populations Using Excel</b>	<b>482</b>
<b>Chapter 11 Inferences About Population Variances</b>	<b>485</b>
<b>Statistics in Practice: U.S. Government Accountability Office</b>	<b>486</b>
<b>11.1 Inferences About a Population Variance</b>	<b>487</b>
Interval Estimation	487
Hypothesis Testing	491
<b>11.2 Inferences About Two Population Variances</b>	<b>497</b>
<b>Summary</b>	<b>504</b>
<b>Key Formulas</b>	<b>504</b>
<b>Supplementary Exercises</b>	<b>504</b>
<b>Case Problem Air Force Training Program</b>	<b>506</b>
<b>Appendix 11.1 Population Variances with Minitab</b>	<b>507</b>
<b>Appendix 11.2 Population Variances with Excel</b>	<b>508</b>
<b>Chapter 12 Comparing Multiple Proportions, Test of Independence     and Goodness of Fit</b>	<b>509</b>
<b>Statistics in Practice: United Way</b>	<b>510</b>
<b>12.1 Testing the Equality of Population Proportions for Three     or More Populations</b>	<b>511</b>
A Multiple Comparison Procedure	516
<b>12.2 Test of Independence</b>	<b>521</b>
<b>12.3 Goodness of Fit Test</b>	<b>529</b>
Multinomial Probability Distribution	529
Normal Probability Distribution	532
<b>Summary</b>	<b>538</b>
<b>Glossary</b>	<b>538</b>
<b>Key Formulas</b>	<b>539</b>
<b>Supplementary Exercises</b>	<b>539</b>

**Case Problem A Bipartisan Agenda for Change 542**

**Appendix 12.1 Chi-Square Tests Using Minitab 543**

**Appendix 12.2 Chi-Square Tests Using Excel 544**

## **Chapter 13 Experimental Design and Analysis of Variance 546**

**Statistics in Practice: Burke Marketing Services, Inc. 547**

**13.1 An Introduction to Experimental Design and Analysis of Variance 548**

Data Collection 549

Assumptions for Analysis of Variance 550

Analysis of Variance: A Conceptual Overview 550

**13.2 Analysis of Variance and the Completely Randomized Design 553**

Between-Treatments Estimate of Population Variance 554

Within-Treatments Estimate of Population Variance 555

Comparing the Variance Estimates: The  $F$  Test 556

ANOVA Table 558

Computer Results for Analysis of Variance 559

Testing for the Equality of  $k$  Population Means:  
An Observational Study 560

**13.3 Multiple Comparison Procedures 564**

Fisher's LSD 564

Type I Error Rates 567

**13.4 Randomized Block Design 570**

Air Traffic Controller Stress Test 571

ANOVA Procedure 572

Computations and Conclusions 573

**13.5 Factorial Experiment 577**

ANOVA Procedure 579

Computations and Conclusions 579

**Summary 584**

**Glossary 585**

**Key Formulas 585**

**Supplementary Exercises 588**

**Case Problem 1 Wentworth Medical Center 592**

**Case Problem 2 Compensation for Sales Professionals 593**

**Appendix 13.1 Analysis of Variance with Minitab 594**

**Appendix 13.2 Analysis of Variance with Excel 596**

## **Chapter 14 Simple Linear Regression 600**

**Statistics in Practice: Alliance Data Systems 601**

**14.1 Simple Linear Regression Model 602**

Regression Model and Regression Equation 602

Estimated Regression Equation 603

<b>14.2 Least Squares Method</b>	<b>605</b>
<b>14.3 Coefficient of Determination</b>	<b>616</b>
Correlation Coefficient	619
<b>14.4 Model Assumptions</b>	<b>623</b>
<b>14.5 Testing for Significance</b>	<b>624</b>
Estimate of $\sigma^2$	625
<i>t</i> Test	625
Confidence Interval for $\beta_1$	627
<i>F</i> Test	628
Some Cautions About the Interpretation of Significance Tests	630
<b>14.6 Using the Estimated Regression Equation for Estimation and Prediction</b>	<b>633</b>
Interval Estimation	634
Confidence Interval for the Mean Value of <i>y</i>	635
Prediction Interval for an Individual Value of <i>y</i>	636
<b>14.7 Computer Solution</b>	<b>641</b>
<b>14.8 Residual Analysis: Validating Model Assumptions</b>	<b>645</b>
Residual Plot Against <i>x</i>	646
Residual Plot Against $\hat{y}$	647
Standardized Residuals	649
Normal Probability Plot	651
<b>14.9 Residual Analysis: Outliers and Influential Observations</b>	<b>654</b>
Detecting Outliers	654
Detecting Influential Observations	656
<b>Summary</b>	<b>662</b>
<b>Glossary</b>	<b>663</b>
<b>Key Formulas</b>	<b>664</b>
<b>Supplementary Exercises</b>	<b>666</b>
<b>Case Problem 1 Measuring Stock Market Risk</b>	<b>672</b>
<b>Case Problem 2 U.S. Department of Transportation</b>	<b>673</b>
<b>Case Problem 3 Selecting a Point-and-Shoot Digital Camera</b>	<b>674</b>
<b>Case Problem 4 Finding the Best Car Value</b>	<b>675</b>
<b>Case Problem 5 Buckeye Creek Amusement Park</b>	<b>676</b>
<b>Appendix 14.1 Calculus-Based Derivation of Least Squares Formulas</b>	<b>677</b>
<b>Appendix 14.2 A Test for Significance Using Correlation</b>	<b>678</b>
<b>Appendix 14.3 Regression Analysis with Minitab</b>	<b>679</b>
<b>Appendix 14.4 Regression Analysis with Excel</b>	<b>680</b>
<b>Chapter 15 Multiple Regression</b>	<b>683</b>
<b>Statistics in Practice: dunnhumby</b>	<b>684</b>
<b>15.1 Multiple Regression Model</b>	<b>685</b>
Regression Model and Regression Equation	685
Estimated Multiple Regression Equation	685

<b>15.2 Least Squares Method</b>	<b>686</b>
An Example: Butler Trucking Company	687
Note on Interpretation of Coefficients	690
<b>15.3 Multiple Coefficient of Determination</b>	<b>696</b>
<b>15.4 Model Assumptions</b>	<b>699</b>
<b>15.5 Testing for Significance</b>	<b>701</b>
<i>F</i> Test	701
<i>t</i> Test	704
Multicollinearity	705
<b>15.6 Using the Estimated Regression Equation for Estimation and Prediction</b>	<b>708</b>
<b>15.7 Categorical Independent Variables</b>	<b>711</b>
An Example: Johnson Filtration, Inc.	711
Interpreting the Parameters	713
More Complex Categorical Variables	715
<b>15.8 Residual Analysis</b>	<b>720</b>
Detecting Outliers	722
Studentized Deleted Residuals and Outliers	722
Influential Observations	723
Using Cook's Distance Measure to Identify Influential Observations	723
<b>15.9 Logistic Regression</b>	<b>727</b>
Logistic Regression Equation	728
Estimating the Logistic Regression Equation	729
Testing for Significance	732
Managerial Use	732
Interpreting the Logistic Regression Equation	733
Logit Transformation	736
<b>Summary</b>	<b>740</b>
<b>Glossary</b>	<b>740</b>
<b>Key Formulas</b>	<b>741</b>
<b>Supplementary Exercises</b>	<b>743</b>
<b>Case Problem 1 Consumer Research, Inc.</b>	<b>750</b>
<b>Case Problem 2 Predicting Winnings for NASCAR Drivers</b>	<b>751</b>
<b>Case Problem 3 Finding the Best Car Value</b>	<b>752</b>
<b>Appendix 15.1 Multiple Regression with Minitab</b>	<b>753</b>
<b>Appendix 15.2 Multiple Regression with Excel</b>	<b>753</b>
<b>Appendix 15.3 Logistic Regression with Minitab</b>	<b>755</b>
<b>Chapter 16 Regression Analysis: Model Building</b>	<b>756</b>
<b>Statistics in Practice: Monsanto Company</b>	<b>757</b>
<b>16.1 General Linear Model</b>	<b>758</b>
Modeling Curvilinear Relationships	758
Interaction	761

Transformations Involving the Dependent Variable	765
Nonlinear Models That Are Intrinsically Linear	769
<b>16.2 Determining When to Add or Delete Variables</b>	<b>773</b>
General Case	775
Use of $p$ -Values	776
<b>16.3 Analysis of a Larger Problem</b>	<b>780</b>
<b>16.4 Variable Selection Procedures</b>	<b>784</b>
Stepwise Regression	784
Forward Selection	786
Backward Elimination	786
Best-Subsets Regression	787
Making the Final Choice	788
<b>16.5 Multiple Regression Approach to Experimental Design</b>	<b>790</b>
<b>16.6 Autocorrelation and the Durbin-Watson Test</b>	<b>795</b>
<b>Summary</b>	<b>799</b>
<b>Glossary</b>	<b>800</b>
<b>Key Formulas</b>	<b>800</b>
<b>Supplementary Exercises</b>	<b>800</b>
<b>Case Problem 1 Analysis of PGA Tour Statistics</b>	<b>803</b>
<b>Case Problem 2 Rating Wines from the Piedmont Region of Italy</b>	<b>804</b>
<b>Appendix 16.1 Variable Selection Procedures with Minitab</b>	<b>805</b>
<b>Chapter 17 Time Series Analysis and Forecasting</b>	<b>807</b>
<b>Statistics in Practice: Nevada Occupational Health Clinic</b>	<b>808</b>
<b>17.1 Time Series Patterns</b>	<b>809</b>
Horizontal Pattern	809
Trend Pattern	811
Seasonal Pattern	811
Trend and Seasonal Pattern	812
Cyclical Pattern	812
Selecting a Forecasting Method	814
<b>17.2 Forecast Accuracy</b>	<b>815</b>
<b>17.3 Moving Averages and Exponential Smoothing</b>	<b>820</b>
Moving Averages	820
Weighted Moving Averages	823
Exponential Smoothing	823
<b>17.4 Trend Projection</b>	<b>830</b>
Linear Trend Regression	830
Nonlinear Trend Regression	835
<b>17.5 Seasonality and Trend</b>	<b>841</b>
Seasonality Without Trend	841
Seasonality and Trend	843
Models Based on Monthly Data	846

**17.6 Time Series Decomposition 850**

Calculating the Seasonal Indexes 851

Deseasonalizing the Time Series 855

Using the Deseasonalized Time Series to Identify Trend 855

Seasonal Adjustments 857

Models Based on Monthly Data 857

Cyclical Component 857

**Summary 860****Glossary 861****Key Formulas 862****Supplementary Exercises 862****Case Problem 1 Forecasting Food and Beverage Sales 866****Case Problem 2 Forecasting Lost Sales 867****Appendix 17.1 Forecasting with Minitab 868****Appendix 17.2 Forecasting with Excel 871****Chapter 18 Nonparametric Methods 873****Statistics in Practice: West Shell Realtors 874****18.1 Sign Test 875**

Hypothesis Test About a Population Median 875

Hypothesis Test with Matched Samples 880

**18.2 Wilcoxon Signed-Rank Test 883****18.3 Mann-Whitney-Wilcoxon Test 888****18.4 Kruskal-Wallis Test 899****18.5 Rank Correlation 903****Summary 908****Glossary 908****Key Formulas 909****Supplementary Exercises 910****Appendix 18.1 Nonparametric Methods with Minitab 913****Appendix 18.2 Nonparametric Methods with Excel 915****Chapter 19 Statistical Methods for Quality Control 918****Statistics in Practice: Dow Chemical Company 919****19.1 Philosophies and Frameworks 920**

Malcolm Baldrige National Quality Award 921

ISO 9000 921

Six Sigma 921

Quality in the Service Sector 924

**19.2 Statistical Process Control 924**

Control Charts 925

 $\bar{x}$  Chart: Process Mean and Standard Deviation Known 926

$\bar{x}$  Chart: Process Mean and Standard Deviation Unknown 928

*p* Chart 933  
*np* Chart 935  
 Interpretation of Control Charts 935

### **19.3 Acceptance Sampling 938**

KALI, Inc.: An Example of Acceptance Sampling 939  
 Computing the Probability of Accepting a Lot 940  
 Selecting an Acceptance Sampling Plan 943  
 Multiple Sampling Plans 945

**Summary 946**

**Glossary 946**

**Key Formulas 947**

**Supplementary Exercises 948**

**Appendix 19.1 Control Charts with Minitab 950**

## **Chapter 20 Index Numbers 952**

**Statistics in Practice: U.S. Department of Labor, Bureau of Labor Statistics 953**

**20.1 Price Relatives 954**

**20.2 Aggregate Price Indexes 954**

**20.3 Computing an Aggregate Price Index from Price Relatives 958**

**20.4 Some Important Price Indexes 960**

Consumer Price Index 960

Producer Price Index 960

Dow Jones Averages 961

**20.5 Deflating a Series by Price Indexes 962**

**20.6 Price Indexes: Other Considerations 965**

Selection of Items 965

Selection of a Base Period 965

Quality Changes 966

**20.7 Quantity Indexes 966**

**Summary 968**

**Glossary 968**

**Key Formulas 969**

**Supplementary Exercises 969**

## **Chapter 21 Decision Analysis (On Website)**

**Statistics in Practice: Ohio Edison Company 21-2**

**21.1 Problem Formulation 21-3**

Payoff Tables 21-4

Decision Trees 21-4

**21.2 Decision Making with Probabilities 21-5**

Expected Value Approach	21-5
Expected Value of Perfect Information	21-7
<b>21.3 Decision Analysis with Sample Information</b>	<b>21-13</b>
Decision Tree	21-14
Decision Strategy	21-15
Expected Value of Sample Information	21-18
<b>21.4 Computing Branch Probabilities Using Bayes' Theorem</b>	<b>21-24</b>
<b>Summary</b>	<b>21-28</b>
<b>Glossary</b>	<b>21-29</b>
<b>Key Formulas</b>	<b>21-30</b>
<b>Supplementary Exercises</b>	<b>21-30</b>
<b>Case Problem Lawsuit Defense Strategy</b>	<b>21-33</b>
<b>Appendix: Self-Test Solutions and Answers to Even-Numbered Exercises</b>	<b>21-34</b>

## **Chapter 22** Sample Survey (On Website)

<b>Statistics in Practice: Duke Energy</b>	<b>22-2</b>
<b>22.1 Terminology Used in Sample Surveys</b>	<b>22-2</b>
<b>22.2 Types of Surveys and Sampling Methods</b>	<b>22-3</b>
<b>22.3 Survey Errors</b>	<b>22-5</b>
Nonsampling Error	22-5
Sampling Error	22-5
<b>22.4 Simple Random Sampling</b>	<b>22-6</b>
Population Mean	22-6
Population Total	22-7
Population Proportion	22-8
Determining the Sample Size	22-9
<b>22.5 Stratified Simple Random Sampling</b>	<b>22-12</b>
Population Mean	22-12
Population Total	22-14
Population Proportion	22-15
Determining the Sample Size	22-16
<b>22.6 Cluster Sampling</b>	<b>22-21</b>
Population Mean	22-23
Population Total	22-25
Population Proportion	22-25
Determining the Sample Size	22-27
<b>22.7 Systematic Sampling</b>	<b>22-29</b>
<b>Summary</b>	<b>22-29</b>
<b>Glossary</b>	<b>22-30</b>
<b>Key Formulas</b>	<b>22-30</b>
<b>Supplementary Exercises</b>	<b>22-34</b>

<b>Appendix A</b>	<b>References and Bibliography</b>	<b>974</b>
<b>Appendix B</b>	<b>Tables</b>	<b>976</b>
<b>Appendix C</b>	<b>Summation Notation</b>	<b>1003</b>
<b>Appendix D</b>	<b>Self-Test Solutions and Answers to Even-Numbered Exercises</b>	<b>1005</b>
<b>Appendix E</b>	<b>Microsoft Excel 2016 and Tools for Statistical Analysis</b>	<b>1072</b>
<b>Appendix F</b>	<b>Computing <math>p</math>-Values Using Minitab and Excel</b>	<b>1080</b>
<b>Index</b>		<b>1084</b>
