Introduction	xxxiii
Part I: Getting Started with Adobe Photoshop CS5	1
Chapter 1: Introducing Adobe Photoshop CS5	3
The Versatile World of Photoshop	3
When to use Photoshop	4
When not to use Photoshop	5
What's New in Photoshop CS5	6
Summary	15
Chapter 2: Understanding the Photoshop Workspace	17
Workspace Overview	17
The document workspace	18
The application bar	22
Workspace presets	24
The Toolbox and tool options bar	25
Cruising the Main Menus	26
The File menu	26
The Edit menu	26
The Image menu	26
The Layer menu	27
The Select menu	27
The Filter menu	27
The Analysis menu	27
Ruler tool	27
Count tool	27
Record Measurements	28
Set Measurement Scale	28
Set Data Points	29
Place Scale Marker	29
The 3D menu	30
The View menu	30
Extras and Show	30
Ruler	30

Contents

Snap and Snap To	31
New Guide, Lock Guides, and Clear Guide	31
Lock Slice and Clear Slices	31
The Window menu	31
The Help menu	31
Photoshop Help	31
Deactivate	32
Understanding Panels	32
Understanding the Tools in the Toolbox	36
Using Presets	40
Selecting tool presets	40
Managing presets	41
Creating presets	42
Setting Preferences	44
General preferences	45
Interface preferences	48
File Handling preferences	49
Performance preferences	51
Cursors preferences	53
Transparency & Gamut preferences	54
Unit & Rulers preferences	55
Guides, Grid & Slices preferences	56
Plug-ins preferences	57
Type preferences	57
3D preferences	58
Customizing Shortcuts and Menus	58
Customizing menus	59
Customizing shortcuts	60
Summary	62

Chapter 3: Image Basics 63

Exploring File Types	63
Compressed versus uncompressed	64
Raster versus vector	64
HDR images	65
Image files	65
Photoshop (*.PSD, *.PDD)	65
TIFF (*.TIF, *.TIFF)	66
JPEG (*.JPG; *.JPEG; *.JPE)	66
JPEG 2000 (*.JP2; *.JPX)	66
CompuServ GIF (*.GIF)	66
PNG (*.PNG)	67
Bmp (*.BMP; *.RLE; *.DIB)	67
RAW (*.RAW; *.CR; *.CR2; *.DNG; and several others)	67
Portable bitmap (*.PBM; *.PGM; *.PPM; *.PNM; *.PFM; *.PAM)	68

Wireless bitmap (*.WBM;*.WBMP)	68
Encapsulated PostScript (*.EPS; *.AI3-*.AI8; *.PS; *.EPS; *.EPSF)	68
Photoshop PDF (*.PDF;*.PDP)	68
PCX (*.PCX)	69
PICT (*.PCT;*.PICT)	69
Pixar (*.PXR)	70
FXG (*.FXG)	70
Google Earth 4 (*.KMZ)	70
PSB (*.PSB)	70
OpenEXR (*.EXR)	70
Cineon	71
IFF (*.IFF;*.TDI)	71
Scitex CT (*.SCT)	71
Targa (*.TGA; *.VDA; *.ICB; *.VST)	71
Radiance (*.HDR; *.RGBE; *.XYZE)	71
Video files	71
3D files	72
DICOM files	72
Creating and Opening Images	73
Creating a new image	73
Opening an existing image	74
Opening an existing image as a specific file type	75
Saving an image	76
Resizing Files and Adjusting Resolution	78
Understanding resolution	78
Changing the image size and resolution	79
Understanding the resolution and size relationship	79
Understanding Photoshop's resizing algorithms	80
Adjusting the image size and resolution	81
Changing the canvas size	82
Cropping and Straightening Images	84
Guidelines for cropping a photo	84
Get rid of background clutter	84
Preserving aspect ratio	84
Rule of thirds	85
Give your subject somewhere to go	86
Closing in on your subject	86
Don't crop out the story	86
Cropping an image	87
Using the Crop tool	88
Cropping using the Selection tools	89
Straightening an image	90
Rotating and flipping images	90
Rotating while cropping	91

Contents

Using the Crop and Straighten tool	92
Using the Ruler tool.....	93
Trimming a border.....	94
Summary	95
Chapter 4: Understanding Colors, Histograms, Levels, and Curves	97
Color Basics	97
What is color?	97
Color, intensity, and the human eye.....	98
Understanding Channels and Levels	98
Adjusting with Histograms.....	99
Understanding histograms.....	99
Determining overexposure and underexposure in an image	100
Determining color balance in an image.....	101
Using the Histogram panel	102
Setting Histogram panel options.....	103
Selecting channels	103
Selecting a source	105
Understanding statistics.....	105
Adjusting images with the histogram tools	107
Using the handles to adjust the histogram	107
Using the eyedroppers to adjust the histogram	109
Adjusting levels with the Curves tool	109
Understanding curves.....	110
Using the Curves tool	111
Working in Different Color Modes.....	113
Understanding the different color modes	114
Bitmap.....	114
Grayscale.....	115
Duotone	116
Indexed color	117
RGB color.....	118
CMYK color.....	119
Lab color	119
Multichannel	120
Bits per channel.....	120
Choosing Colors	121
Using the Color Picker tool	121
Using the Color panel	123
Using the Swatches panel	125
Using the Eyedropper tool.....	126
Using the Color Sampler tool	127
Using the HUD Color Picker	128
Summary	129

Chapter 5: History and Actions	131
Photoshop: The Non-Destructive Application	131
Using the History Panel.....	133
Understanding the History panel.....	134
Configuring the History panel	134
Navigating through history states	136
Using snapshots	136
Creating documents	137
Deleting history	137
Painting from history.....	137
Using the Eraser tool in the History panel	138
Using the History Brush	140
Using the Art History Brush.....	140
Using selections when painting history.....	140
Creating and Using Automated Actions.....	141
Understanding the Actions panel.....	141
Action list.....	142
Actions panel menu.....	143
Toggle boxes	143
Quick Buttons	143
Changing the view of the Actions panel.....	143
Loading existing action sets.....	144
Creating custom actions.....	144
Editing actions	145
Adding a stop.....	145
Adding operations.....	146
Moving operations.....	146
Duplicating actions and operations.....	146
Modifying operations.....	146
Deleting an operation	147
Modifying the action name and function key.....	147
Saving actions.....	148
Temporarily adjusting action settings by using the toggle boxes	148
Playing actions	148
Managing the action list	148
Summary	149
Chapter 6: Using Bridge to Organize and Process Photos	151
Working in the Bridge Workspaces.....	151
Understanding the Bridge utility	151
Main menu.....	152
Toolbar.....	153
Window panes	154
Content view controls	155
Using the Bridge workspaces.....	156

Contents

Organizing Files in Bridge	157
Importing images from cameras and card readers	157
Get Photos From	158
Location	158
Create Subfolder(s)	158
Rename Files	158
Open Adobe Bridge	159
Convert to DNG	159
Delete Original Files	161
Save Copies To	161
Apply Metadata	161
Working with image metadata	161
Assigning ratings and labels to files	163
Assigning keywords to files	164
Adding an existing keyword to a file	164
Adding a new keyword	164
Adding a new sub-keyword	165
Finding a keyword in the list	165
Deleting and renaming keywords	166
Renaming files	166
Finding files	167
Using the Filter panel	167
Using the Find tool	167
Using the review mode	168
Using collections	170
Creating collections	170
Creating smart collections	171
Creating stacks	171
Deleting versus rejecting files	172
Processing Images Using Bridge and Photoshop	173
Opening images in Photoshop	173
Opening image in Photoshop	173
Placing images in Photoshop	173
Loading files as Photoshop layers	174
Opening in Camera Raw	174
Batch processing	174
Using the Image Processor	175
Merging photos	176
Using Photoshop Photomerge	177
Using Photoshop Merge to HDR	177
Auto-merging images into HDR and panoramic images	177
Creating PDFs and Web galleries	179
Creating a PDF	179
Creating a Web gallery	181

Using the Mini-Bridge Tool in Photoshop	183
Setting up Mini-Bridge	183
Browsing in Mini-Bridge.....	184
Summary	186

Part II: Working with Camera Raw Images 187

Chapter 7: Camera Raw Basics 189

Benefits of Camera Raw—More Is Better	189
Original CMOS information—more bits.....	190
Non-destructive editing—more metadata.....	191
Drawbacks of Camera Raw—Size Matters	193
Camera raw is not universal	193
Memory card and disk space	194
Time	194
Camera Raw File Types.....	195
XMP	195
DNG	195
Standardization	196
No XMP files	196
Those pesky proprietary vendors.....	196
Opening Images in Camera Raw	196
The Camera Raw Workspace and Workflow Options	197
Workflow options	199
Space.....	199
Choose a bit depth	200
Size	201
Resolution	201
Sharpen For/Amount.....	202
Open in Photoshop as Smart Objects	202
Setting Preferences.....	202
General	203
Save Image settings in.....	203
Apply Sharpening to.....	204
Default image settings	204
Apply auto tone adjustments	204
Apply Auto grayscale mix when converting to grayscale	204
Make defaults specific to camera serial number	205
Make defaults specific to camera ISO setting	205
Camera Raw cache	205
DNG file handling.....	205
Ignore sidecar “.xmp” files.....	205
Update embedded JPEG previews.....	205
JPEG and TIFF handling	205

Contents

The Camera Raw Panel Menu	206
Creating Snapshots	207
Saving Presets	209
Exporting Camera Raw Files	210
Summary	212

Chapter 8: Processing Photos in the Camera Raw Workspace 213

The Camera Raw Tools	213
Synchronizing Adjustments in Multiple Raw Images	217
Adjusting the White Balance	218
Using the White Balance tool	220
Changing the lighting settings	221
Using the Temperature and Tint sliders	221
Adjusting Lighting	222
Adjusting Color and Clarity	226
Clarity, vibrance, and saturation	226
Tone Curve	227
The Parametric panel	227
The Point tab	231
HSL adjustments	233
Hue adjustments	234
Saturation adjustments	234
Luminance adjustments	235
Creating a grayscale photo	235
Split Toning	237
Correcting and Retouching	238
Spot removal and cloning	238
Red-eye removal	240
Using the Adjustment Brush	241
Setting the Mask options	242
Using the pins	242
Setting the Brush options	243
Setting the Adjustment options	244
Creating a Graduated Filter	246
Creating Artistic Effects	249
Adding grain	249
Adding a vignette	251
Correcting Camera Quirks	252
Lens corrections	252
Camera calibration	252
Adjusting Sharpness and Reducing Noise	253
Noise reduction	254
Sharpening	254
Summary	255

Part III: Selections, Layers, and Channels **257**

Chapter 9: Creating Selections **259**

- The Select Menu 259
- Using the Selection Tools 262
 - Quick Selection tool 263
 - Quick Selection tool options 263
 - Using the Quick Selection tool 264
 - Magic Wand tool 266
 - Magic Wand tool options 266
 - Using the Magic Wand 267
 - Color Range 268
 - Selecting by shape 270
 - The Marquee options 270
 - The Rectangle Marquee tool 271
 - The Elliptical Marquee tool 272
 - Using the Lasso tools 272
 - Lasso tool options 272
 - Lasso tool 273
 - The Polygonal Lasso tool 274
 - The Magnetic Lasso tool 275
- Refining Your Selection 277
 - Adjusting a selection 277
 - Using the selection tools 277
 - By transforming a selection 278
 - Using paths 279
 - Using the Quick Mask mode 281
 - Refining the edges 285
 - View Mode 286
 - Edge Detection 288
 - Adjust Edge 289
 - Output 289
- Summary 291

Chapter 10: All about Layers **293**

- Working with Layers 294
 - Understanding multiple layers 294
 - Adding new layers 296
 - Adding another document as a new layer 296
 - Adding text or shapes as a new layer 297
 - Creating selections to make a new layer 297
- The Layer Menu and the Layers Panel Menu 298
 - The Layer menu 298
 - The Layers panel menu 301

Contents

The Layers Panel	303
Opacity and Fill settings.....	303
Lock settings	304
Blending modes.....	305
Normal and dissolve blending modes.....	306
Darkening blending modes.....	307
Lightening blending modes	307
Adding contrast blending modes.....	308
Using difference blending modes.....	308
Color blending modes	309
Using blending modes.....	309
Linking layers.....	312
Layer styles, Layer masks, and Fill and Adjustment layers	313
Grouping layers.....	313
Creating a blank layer	313
Throwing layers (or their components) away	313
Applying Worry-Free Fill and Adjustment Layers	313
Choosing a Fill or Adjustment layer	314
Fill layers	314
Adjustment layers.....	315
Editing a Fill or Adjustment layer.....	318
Moving a Fill or Adjustment layer	318
Editing the properties of a Fill or Adjustment layer	318
Layer Style Special Effects	319
Choosing a Layer Style	320
Adjusting Layer Style options.....	321
Creating a separate layer from a Layer Style.....	322
Creating Smart Objects	323
Converting a layer to a Smart Object.....	323
Adding Smart Filters	324
Making changes to the Smart Filters.....	325
Layer Masks	327
Creating masks.....	328
Using the Add Mask icon	328
Using the Refine Edge dialog box	329
Type masks	329
Clipping masks.....	330
Editing masks.....	332
Edit a mask by painting on the image.....	332
Edit masks using the Channels panel.....	332
Editing masks using the Masks panel.....	334
Unlinking and moving masks.....	335
The Layer Comps Panel	337
Merging Layers	338
Summary	339

Chapter 11: Channels	341
Understanding Color Channels	341
Using the Channel Mixer	343
Color mixing	344
Swapping colors	345
Converting color to grayscale	346
Using the Channels Panel	349
Selecting channels	350
Deleting channels	350
Duplicating channels	350
Splitting/Merging channels	351
Sharing channels between images	353
Making Channel Selections	353
The Alpha Channel	356
Creating alpha channels	356
Loading selections from alpha channels	357
Modifying alpha channels	358
Alpha channels versus layer masks	358
Changing the channel options for alpha channels	359
Spot Color Channels	360
Creating a spot color channel	361
Merging spot color channels	363
Removing ink overlap using spot color channels	363
Summary	364
Part IV: Enhancing, Correcting, and Retouching	367
Chapter 12: Adjustment Workflow	369
Understanding Workflow	369
Making Auto Adjustments	371
Using the Adjustments Panel	373
Adjustment icons	374
Adjustment panel icons	376
Adjustment presets	377
Summary	379
Chapter 13: Lighting and Color Adjustments	381
Applying Quick Adjustments to Light and Color	381
Brightness and contrast versus exposure	382
Using the Brightness/ Contrast tool to adjust lighting	382
Using the Exposure tool to adjust lighting	383
Changing the color balance	386
Making selective color adjustments	389
Applying photo filter to images	393

Contents

Replacing specific colors.....	394
Using the Variations tool.....	398
Changing the shadows and highlights in images	400
Fixing shadows.....	400
Fixing highlights	401
Adjusting after shadows or highlights are corrected.....	401
Creating customized black and white photos	403
Hue and Saturation.....	404
Using the Hue/Saturation tool	405
Adjusting the hue and saturation to make colors pop.....	408
Levels.....	411
Using the Levels Adjustment tool.....	412
Configuring the Auto Levels Adjustment.....	415
Adjusting levels to increase detail in images	416
Curves	420
Using the Curves Adjustment tool.....	420
Configuring the Curves Display tool	424
Configuring the Auto Curves Adjustment.....	425
Adjusting the curve to correct color and contrast in images.....	425
Using the Match Color Tool to Change Colors.....	430
Converting HDR Images to 8 Bits Per Channel.....	433
Summary	435

Chapter 14: Sharpness, Blur, and Noise Adjustments. 437

Using Sharpen Filters to Sharpen Images	438
Applying basic sharpening filters.....	438
Unsharp Mask.....	443
Smart Sharpen.....	445
Using Blur Filters to Soften Images	448
Automatic Blur filters	448
Shape Blur filters.....	449
Gaussian Blur	449
Box Blur	449
Shape Blur.....	450
Direction Blur filters.....	451
Adding a Motion Blur to an image.....	451
Radial Blur.....	453
Surface Blur.....	454
Smart Blur.....	454
Lens Blur.....	455
Preview	456
Depth Map	456
Iris.....	457
Specular Highlights	457
Noise.....	458

Reducing Noise in an Image..... 458
 Despeckle..... 458
 Median..... 459
 Dust & Scratches..... 460
 Reducing noise..... 460
 Add noise..... 462
Summary 462

Chapter 15: Using Cloning and Healing to Restore Digital Images 465

The Healing Brush Tools..... 465
 The Spot Healing Brush..... 466
 Proximity Match..... 466
 Create Texture..... 467
 Content-Aware..... 467
 The Healing Brush..... 471
 The Patch tool..... 475
 Content-Aware fill..... 478
 Fixing red-eye 480
The Clone Stamp Tool and Clone Source Panel 480
 Setting the Clone Stamp options 481
 Cloning basics..... 482
 Utilizing the Clone Source panel..... 485
Using the Clone and Healing Brushes Together for Optimal Effect..... 490
 Fixing damaged photos 490
 Face swapping with multiple images 493
Summary 497

Part V: Painting, Paths, Shapes, and Text 499

Chapter 16: Painting and Brushes. 501

Painting in Photoshop..... 501
Understanding the Painting Tools..... 502
 Painting tools and blending modes..... 502
 Basic blending modes..... 503
 Darkening blending modes..... 503
 Lightening blending modes 504
 Adding contrast blending modes 504
 Difference, Exclusion, Subtract and Divide blending modes 505
 Color blending modes 505
 Painting with painting tools..... 506
 Painting with editing tools..... 510
 Healing tools 511
 Clone Stamp and Pattern Stamp tool..... 511
 History tools..... 512

Contents

Eraser tools.....	512
Sharpen/Blur/Smudge tools	516
Dodge/Burn/Sponge tools	517
Painting with mixing tools.....	519
Using the Brush Panel.....	522
Selecting the brush tip shape.....	522
Selecting flat brush shapes.....	522
Selecting bristle brush shapes.....	524
Setting the brush behavior.....	526
Shape Dynamics	527
Scattering	528
Texture.....	530
Dual Brush	531
Color Dynamics.....	531
Transfer	532
Brush Presets panel	533
Painting with Non-Brush Painting Tools	534
Paint Bucket tool.....	535
Gradient tool.....	537
Gradient Editor	538
Example Painting Techniques	539
Painting from a blank canvas.....	539
Tracing edges from an existing image.....	543
Wet paint on an existing image	544
Summary	545

Chapter 17: Working with Paths and Vector Shapes. 547

Understanding Paths.....	547
Path components.....	548
Types of paths	549
Using Vector Path Tools to Create Paths	551
Using the Pen tools	551
Pen tools	552
Using the Pen tool options.....	554
Using the Path Selection tools	557
Path Selection tools	558
Using the Path Selection tool options	558
Paths panel.....	562
Using Paths.....	565
Creating a path.....	565
Creating vector shapes from paths.....	567
Creating a clipping mask.....	568

Creating vector masks	570
Vector Shape Layers	572
Using vector shape tools.....	573
Adding vector shape layers.....	577
Adding custom vector shapes.....	579
Editing vector shape.....	581
Summary	582
Chapter 18: Working with Text.	583
A Little Bit about Text.....	583
Using the Text Tools to Add Text to Images.....	584
Setting type preferences.....	584
Using the text tools to add text.....	585
Adding text as point type.....	588
Adding text as a paragraph type	588
Editing vector text layers.....	590
Edit Type.....	590
Check Spelling	591
Find and Replace Text.....	592
Rasterize Type	592
Create Work Path.....	592
Convert to Shape.....	593
Horizontal/Vertical	593
Anti-Alias adjustment	593
Faux options	593
Convert to Point Text/Paragraph Text.....	594
Warp Text	594
Layer Style.....	595
Using the Character panel	596
Using the Paragraph panel.....	602
Using the Character and Paragraph Styles panels	604
Character Styles.....	604
Paragraph Styles	605
Applying Text to Images	607
Adding text on a path.....	607
Applying text to a path.....	607
Editing text on a path.....	608
Constraining text using a vector shape	609
Adding text in a Smart Object	611
Applying text as a mask.....	614
Summary	617

Part VI: Artistic Effects

619

Chapter 19: Distorting Images Using Transformation Effects, Liquify, and Vanishing Point 621

Using Transformations	621
The importance of the reference point	622
Scale	623
Rotate	624
Skew	625
Distort	625
Perspective	626
Warp	627
Free transform	628
Content-Aware Scale	629
Using the all-new Puppet Warp	634
The Liquify Filter	639
The Liquify tools	639
Tool options	643
Mesh options	643
Reconstruct options	643
Mask options	645
View options	646
Vanishing Point	647
Summary	652

Chapter 20: Applying Filters 653

A Comprehensive Look at Artistic Effects Filters	654
Artistic	654
Brush Strokes	656
Distort	657
Pixelate	658
Render	660
Sketch	661
Stylize	662
Texture	663
Other	664
Using the Filter Gallery	665
The preview pane	665
The filter thumbnail pane	667
The options pane	667
Using Smart Objects to Make Non-Destructive Filter Adjustments	668
Creating a Custom Filter	672
Summary	675

Chapter 21: Combining Images 677

- Creating Seamless Composites 677
- Combining files 678
- Adjusting and transforming new layers 679
- Blending composite files 680
 - Refining edges 680
 - Creating a drop shadow 680
 - Changing Fill or Opacity settings 681
 - Changing the Blending mode 682
 - Creating a Fill or Adjustment layer 682
 - Using masks to “tuck in” a composite file 683
- Using Multiple Images to Create a Photo Collage 688
- Using Photomerge to Create a Panorama 693
- Summary 696

Part VII: Working with 3D Images 697

Chapter 22: Creating and Manipulating 3D Objects 699

- Understanding 3D File Formats 699
- Opening and Placing 3D Files in Photoshop 701
- Creating 3D Files in Photoshop 702
 - Selecting a source for a 3D object 703
 - Creating a 3D postcard 703
 - Creating a 3D shape from a preset 704
 - Using Repoussé to create a 3D object 705
 - Creating a 3D mesh from grayscale 711
 - Creating a 3D volume 713
- Creating 3D Objects in the Layers Panel 713
- Manipulating 3D Objects 714
 - Understanding static coordinates 715
 - Using the 3D object tools 715
 - The Home button 716
 - Turning 3D objects around a central point 716
 - Moving a 3D object through 3D space 718
 - Changing positions and saving a view 721
- Using the 3D Axis Widget 722
- Positioning the Camera on a 3D Object 724
- Summary 726

Chapter 23: Using the 3D Panel to Edit 3D Scenes and Settings 727

3D Panel Overview	727
3D {Scene} Panel.....	729
Changing the 3D preferences	729
Render settings.....	731
Render presets.....	732
Edit render settings	733
Quality	735
Paint On.....	735
Global Ambient Color	735
Creating cross sections	735
Toggle the 3D extras	737
3D {Mesh} Panel	739
3D {Materials} Panel.....	742
Editing textures.....	742
Editing materials	745
Material Drop tool.....	749
3D {Lights} Panel	750
Adding new lights	751
Positioning lights.....	753
Light settings.....	754
Summary	755

Chapter 24: Using Photoshop Tools to Change the Appearance of a 3D Layer 757

3D Paint Mode.....	757
Hiding areas on a 3D object	758
Painting on 3D objects	759
Adjustments, Layer Styles, and Filters.....	765
Applying an adjustment to a 3D layer	765
Applying a layer style to a 3D layer	766
Applying a filter to a 3D layer.....	767
3D layers as Smart Objects.....	768
Creating Composites.....	769
Flying a carpet over a lake.....	769
Creating a 3D rug.....	769
Placing the flying carpet into an image	772
Adding details to complete the flying carpet composite	775
Giving the moon away	777
Create a gift box	777
Creating the moon.....	780
Creating a present of the moon.....	781
Summary	785

Part VIII: Working with Video and Animation **787**

Chapter 25: Video Editing Basics **789**

- Working with Video Files 789
 - Setting aspect ratios..... 790
 - Correcting the pixel aspect ratio 790
 - Changing video aspect ratios 791
 - Correcting the aspect ratio of an image..... 793
 - Video filters..... 796
 - De-Interlace..... 797
 - NTSC Colors 797
- Features of the Animation (Timeline) Panel 798
 - Time adjustment 798
 - Work area 800
 - Icons 801
 - Defining the options found in the Animation (Timeline) panel menu..... 802
 - Accessing the Video Layers menu..... 805
 - Setting layer favorites 807
- Opening and Placing Video Files..... 808
 - Opening a video file 808
 - Adding additional video files..... 809
 - Importing image sequences 810
 - Importing an image sequence into one layer 811
 - Importing an image sequence into multiple layers 813
- Trimming Video Layers..... 815
 - Dragging the layer duration bar 816
 - Trimming layers using the menu option..... 816
 - Trimming the document duration to the work area..... 817
 - Looking at trimmed layers in the Animation (Timeline) panel..... 817
- Moving Video Layers..... 818
 - Changing the layer hierarchy..... 819
 - Dragging layers inside the layer duration bar..... 819
 - Changing the position of the layer in and layer end points 819
- Splitting Video Layers 820
- Lifting and Extracting Unwanted Sections of Video 822
 - Lifting a section of a video layer 822
 - Extracting a section of a video layer..... 822
- Performing Slip Edits 823
- Adding Still Shots or Other Elements to a Video Project 825
 - Adding a blank layer 826
 - Adding a text layer 826
 - Adding or placing an image file 827
 - Adding or placing a 3D model..... 828
- Summary 829

Chapter 26: Animating in the Animation (Timeline) Panel	831
Creating and Editing Keyframes.....	832
Creating keyframes.....	832
Editing keyframes.....	836
Setting interpolation.....	838
Linear interpolation.....	838
Hold interpolation.....	838
Creating comments.....	839
Animating the Position of a Layer.....	841
Keyframe placement.....	841
Animating positions in multiple layers.....	843
Animating the Opacity Setting.....	845
Animating Layer Styles.....	847
Animating the Global Lighting.....	850
Animating Text.....	851
Animating Masks.....	852
Rotoscoping Basics.....	853
Creating a new video layer.....	855
Creating modified frames.....	855
Utilizing onion skins.....	857
Onion Skin settings.....	858
Restoring frames.....	860
Animating DICOM Files.....	860
Summary.....	862
Chapter 27: Correcting Video Files and Adding Artistic Effects	863
Adding Fill or Adjustment Layers to Correct Tone and Color of Video Layers.....	863
Clipping an Adjustment layer to the layer below it.....	865
Adjusting the duration of a Fill or Adjustment layer.....	866
Merging layers.....	867
Adding a Fill or Adjustment layer to a Smart Object.....	868
Applying Smart Filters to Video Files.....	870
Cloning and Healing Over an Entire Video Layer.....	872
Frame-by-Frame Correction and Artistic Effects.....	874
Adding an adjustment to a single frame.....	875
Adding a filter to a single frame.....	876
Cloning and healing video files.....	876
Locking the source frame.....	879
Summary.....	880
Chapter 28: Animating Using the Animation (Frames) Panel	881
Working in the Animation (Frames) Panel.....	882
Panel features.....	882
Frame delay time.....	882
Disposal method.....	883

Looping options	883
Tweens animation frames icon	883
Duplicating selected frames	885
Convert to Animation (Timeline).....	885
The Animation (Frames) panel menu	885
Animation (Frames) panel menu	886
Layers panel features	888
Creating Tweened Frame Animations	889
Opening an image to animate.....	889
Creating keyframes.....	890
Tweening keyframes.....	892
Creating a Frame-by-Frame Animation	893
Creating an animation from a layered image.....	893
Building an animation in the Animation (Frames) panel.....	896
Rendering Video	899
Summary	900

Part IX: Advanced Output Techniques 901

Chapter 29: Printing and Color Management 903

Importance of Color Accuracy and Consistency	903
Understanding ICC color profiles.....	904
Embedding color profiles in image files.....	904
Device-independent color profiles.....	905
Color Calibrating Monitors and Printers	906
Using Color Management in Photoshop.....	907
Configuring color settings in Photoshop.....	907
Settings.....	907
Working Spaces.....	908
Color Management Policies	909
Conversion Options	910
Advanced Controls.....	912
Assigning color profiles to images	913
Converting images to other color profiles.....	914
Proofing images using color management.....	915
Printing Images from Photoshop.....	917
Configuring general printing options	918
Using color management to print accurate colors.....	918
Adding crop marks and additional output to printed images.....	920
Summary	922

Chapter 30: Creating Images for the Web and Mobile Devices 923

Preparing Images for the Web.....	923
Understanding Web image formats	924
Selecting the right color profile	925

Contents

Slicing images for Web use.....	925
Understanding slices	925
Creating slices	926
Configuring slices.....	928
Adding transparency to images.....	930
Animating images.....	931
Outputting Images Using the Save for Web & Devices Utility.....	933
Preview layout and toolbar.....	934
File output settings.....	936
Color Table	942
Image Size settings	942
Animation controls.....	943
Previewing output in a browser.....	944
Using Adobe Device Central to preview images on devices.....	944
Using Zoomify to Add Zoomable Images to Web Sites	946
Summary	948
Chapter 31: Digital Workflow and Automation.	949
Automating Workflow in Photoshop.....	949
Batch processing multiple images.....	950
Creating droplets to process images	954
Using Scripting to Speed Up Workflow.....	956
Using Photoshop's scripts.....	956
Using stack modes on multiple images to analyze images and reduce noise	959
Scripting workflow events	962
Summary	964
Appendix A: Keyboard Shortcuts	965
Appendix B: Extending Photoshop's Capabilities Through Plug-Ins	969
Appendix C: Resources	973
Index	977
