Introduction to Information Systems

Supporting and Transforming Business

Fifth Edition

R. Kelly Rainer Jr.
Brad Prince
Casey Cegielski

With contributions by
Alina M. Chircu, Bentley University
Marco Marabelli, Bentley University

WILEY

Brief Contents

[Chapter 1] Introduction to Information Systems 2

[Chapter 2] Organizational Strategy, Competitive Advantage, and Information Systems 34

[Chapter 3] Ethics and Privacy 72

[Chapter 4] Information Security 94

[Chapter 5] Data and Knowledge Management 132

[Chapter 6] Telecommunications and Networking 172

[Chapter 7] E-Business and E-Commerce 210

[Chapter 8] Wireless, Mobile Computing, and Mobile Commerce 242

[Chapter 9] Social Computing 274

[Chapter 10] Information Systems Within the Organization 312

[Chapter 11] Customer Relationship Management and Supply Chain Management 342

[Chapter 12] Business Analytics 378

[Chapter 13] Acquiring Information Systems and Applications 406

[Technology Guide 1] Hardware 438

[Technology Guide 2] Software 456

[Technology Guide 3] Cloud Computing 466

[Technology Guide 4] Intelligent Systems 488

[Technology Guide 5] Online-Only

[Index] 502

Contents

[Chapter 1] Introduction to Information Systems 2

- **1.1:** Why Should I Study Information Systems? 8
- **1.2:** Overview of Computer-Based Information Systems 14
- **1.3:** How Does IT Impact Organizations? 21
- **1.4:** Importance of Information Systems to Society 23

[Chapter 2] Organizational Strategy, Competitive Advantage, and Information Systems 34

- **2.1:** Business Processes 39
- **2.2:** Business Process Improvement, Business Process Reengineering, and Business Process Management 44
- **2.3:** Business Pressures, Organizational Responses, and Information Technology Support 48
- **2.4:** Competitive Advantage and Strategic Information Systems 58
- **2.5:** Business—Information Technology Alignment 64

[Chapter 3] Ethics and Privacy 72

- **3.1:** Ethical Issues 77
- **3.2:** Privacy 82

[Chapter 4] Information Security 94

- **4.1:** Introduction to Information Security 99
- **4.2:** Unintentional Threats to Information Systems 100
- **4.3:** Deliberate Threats to Information Systems 103
- **4.4:** What Organizations Are Doing to Protect Information Resources 110
- **4.5:** Information Security Controls 112

[Chapter 5] Data and Knowledge Management 132

- **5.1:** Managing Data 137
- **5.2:** Big Data 140
- **5.3:** The Database Approach 144
- **5.4:** Database Management Systems 149
- **5.5:** Data Warehouses and Data Marts 155
- **5.6:** Knowledge Management 162

[Chapter 6] Telecommunications and Networking 172

- **6.1:** What Is a Computer Network? 177
- **6.2:** Network Fundamentals 179
- **6.3:** The Internet and the World Wide Web 184
- **6.4:** Network Applications 188

[Chapter 7] E-Business and E-Commerce 210

- **7.1:** Overview of E-Business and E-Commerce 215
- **7.2:** Business-to-Consumer (B2C) Electronic Commerce 222
- **7.3:** Business-to-Business (B2B) Electronic Commerce 231
- **7.4:** Ethical and Legal Issues in E-Business 233

[Chapter 8] Wireless, Mobile Computing, and Mobile Commerce 242

- **8.1:** Wireless Technologies 247
- **8.2:** Wireless Computer Networks and Internet Access 253
- **8.3:** Mobile Computing and Mobile Commerce 260
- **8.4:** Pervasive Computing 264
- **8.5:** Wireless Security 267

[Chapter 9] Social Computing 274

- **9.1:** Web 2.0 280
- **9.2:** Fundamentals of Social Computing in Business 287
- **9.3:** Social Computing in Business: Shopping 289
- **9.4:** Social Computing in Business: Marketing 295
- **9.5:** Social Computing in Business: Customer Relationship Management 301
- **9.6:** Social Computing in Business: Human Resource Management 303

[Chapter 10] Information Systems Within the Organization 312
10.1: Transaction Processing Systems 316
10.2: Functional Area Information Systems 318
10.3: Enterprise Resource Planning Systems 324
10.4: ERP Support for Business Processes 330
10.5: Reports 335

[Chapter 11] Customer Relationship Management and Supply Chain Management 342
11.1: Defining Customer Relationship Management 347
11.2: Operational Customer Relationship Management Systems 351
11.3: Analytical Customer Relationship Management Systems 355
11.4: Other Types of Customer Relationship Management Systems 356
11.5: Supply Chains 358
11.6: Supply Chain Management 361
11.7: Information Technology Support for Supply Chain Management 366

[Chapter 12] Business Analytics 378
12.1: Managers and Decision Making 382
12.2: What Is Business Intelligence? 385
12.3: Business Intelligence Applications for Data Analysis 389
12.4: Business Intelligence Applications for Presenting Results 393
12.5: Business Intelligence in Action: Corporate Performance Management 399

[Chapter 13] Acquiring Information Systems and Applications 406
13.1: Planning for and Justifying IT Applications 410
13.2: Strategies for Acquiring IT Applications 413
13.3: The Traditional Systems Development Life Cycle 420
13.4: Alternative Methods and Tools for Systems Development 426
13.5: Online-Only

[Technology Guide 1] Hardware 438
TG 1.1: Introduction to Hardware 439
TG 1.2: Strategic Hardware Issues 440
TG 1.3: Computer Hierarchy 440
TG 1.4: Input and Output Technologies 443
TG 1.5: The Central Processing Unit 446

[Technology Guide 2] Software 456
TG 2.1: Introduction to Software 457
TG 2.2: Software Issues 458
TG 2.3: Systems Software 460
TG 2.4: Application Software 461

[Technology Guide 3] Cloud Computing 466
TG 3.1: Introduction 467
TG 3.2: What Is Cloud Computing? 469
TG 3.3: Different Types of Clouds 473
TG 3.4: Cloud Computing Services 474
TG 3.5: The Benefits of Cloud Computing 477
TG 3.6: Concerns and Risks with Cloud Computing 481
TG 3.7: Online-Only

[Technology Guide 4] Intelligent Systems 488
TG 4.1: Introduction to Intelligent Systems 489
TG 4.2: Expert Systems 491
TG 4.3: Neural Networks 495
TG 4.4: Fuzzy Logic 496
TG 4.5: Genetic Algorithms 496
TG 4.6: Intelligent Agents 497

[Technology Guide 5] Online-Only
