Table of Contents

Introduction	xi
How to Use This Book	xii

PART
1

Animation Techniques

1 After Effects 101	2
An overview of the major user interface elements in After Effects, as well as how projects are organized. Includes tips on how to customize the user interface and save the resulting layouts as Workspaces.	
2 Creating a Composition	14
Creating a new composition	14
A tour of the Comp and Timeline panels	16
Adding layers to a comp; the Layer panel	18
Managing multiple comps	20
Navigating in space	22
Solid Layers	23
Resolution and Quality	24
Navigating and zooming in time; the Work Area	26
Safe areas, rulers, grids, and guides	28
Frame rate; displaying time	30
Channel switches; color picker; background color; alpha appearance	32
<i>Preview Possibilities</i> sidebar (Interactive and RAM previews; OpenGL)	34
3 Basic Animation	42
Position, including spatial keyframes and motion paths; keyframe types	43
Keyframe navigation; editing values numerically	48
Opacity values and keyframing	50
Scale values and keyframing	51
Rotation values and keyframing; 3D Orientation	54
Working with the Anchor Point	58
Transitions, arcs, and orbits	60
Motion control moves	62
Keyboard shortcuts; keyframe tips	64
Quality issues; subpixel positioning; resampling	66

4 Keyframe Velocity	68
Easy Ease; Auto Bezier keyframes	68
Working with the Graph Editor; Value Graphs	70
Velocity (Speed) Graphs	74
Coordinating multiple values; keyboard shortcuts	76
Position graphs; graph gotchas	79
Hold interpolation	83
Roving keyframes	86
5 Animation Assistance	88
Keyframe tips and tricks; copying, nudging, and scaling motion paths	88
Motion Sketch and The Smoother keyframe assistants	92
Auto-Orient Rotation	95
The Wiggler keyframe assistant	96
Time-Reverse and Exponential Scale keyframe assistants	99

PART
2

Layer Management

6 The Layer Essentials	102
Selecting and moving layers	102
Duplicating, soloing, renaming, and replacing layers	104
Comp and layer markers	106
Snapshots; align and distribute; edit original; color-coding layers	108
<i>Beswitched</i> sidebar (layer property switches in the Timeline panel)	112
7 Trimming	114
Trimming in and out points; slip editing	114
Sequence Layers keyframe assistant; trimming by work area	120
Splitting layers	122
Overlay and Ripple Insert Edits	124
8 Motion Blur and More	126
Applying motion blur; Samples Per Frame and Adaptive Samples	126
Shutter Angle and Phase; blur and masks; Render Settings	128
Echo-style effects; Cycore time effects	130

PART
3

Modes, Masks, & Mattes

9 Blending Modes	134
Blending modes explained; applying blending modes	134
Overview and example of each mode	138
10 All About Masking	150
Masking basics; creating simple masks; shortcuts	150
Transforming masks; selecting mask points and segments	154

Mask Feather, Mask Expansion, and Mask Opacity	156
Creating and editing Bezier and RotoBezier masks	158
Animating masks; mask tips and gotchas	161
Inverting masks; mask seams	166
Managing multiple masks	167
Auto-trace	172
Rotoscoping advice; panning layers inside masks	173
Masks and effects; interchanging masks with other paths; Illustrator paths	176
Smart Mask Interpolation keyframe assistant	180
11 All About Track Mattes	184
Mattes explained; luma versus alpha mattes; inverting mattes	184
Improving matte contrast; choosing a matte channel; Set Matte effect	191
Animated mattes; using parenting and null objects	195
Mattes and effects; building a track matte hierarchy	197
Unmultiplying mattes and other tips; mattes for custom transitions	204
12 Stencils and the “T”	208
Stencils explained; luma versus alpha stencils; silhouettes	208
Preserve Transparency; glints; stencils versus mattes; Alpha Add mode	212

PART
4

Cameras! Lights! Action!

13 3D Space	214
The Z dimension; rotation and orientation in 3D	214
Z scale; offsetting the Anchor Point in 3D	218
Camera and orthogonal views; multiple comp views	220
Layer axes handles; Local, World, and View Axis Modes	224
3D motion paths; accelerated previews; auto-orient in 3D	226
Render order issues; intersections; mixing 2D and 3D layers	230
14 Cameras	236
Camera basics; using multiple cameras	236
Camera settings; angle of view; depth of field	240
Aiming the camera	245
Animating cameras; auto-orientation; one-point versus two-point cameras	248
Vanishing Point Exchange	254
15 Lighting in 3D	256
Light basics; rotating lights	256
Light parameters and types of lights	262
Layer Material Options	267
Creating and managing shadows	270
Light Transmission; creating gels and gobos; shadows on 2D layers	274
Adjustment Lights	280

Building Hierarchies

16 Parenting Skills	282
Parenting basics	282
Parenting exercises	284
<i>Under the Hood</i> sidebar (the math behind parenting)	286
Null Objects	289
Nonuniforming scaling issues; 3D issues	291
Jump parenting	293
17 Nesting Compositions	294
Nesting basics	294
Effects; nesting a video sequence	297
Comp Flowchart View	299
Using over-sized comps (motion control techniques)	300
Nesting options; nesting tips	302
Render order issues; problem solving	304
18 Precomposing	308
Precomposing to group layers	308
Leave All Attributes versus Move All Attributes	309
Render order issues	312
Clipped layers; trimming “empty calories”	314
19 Collapsing Transformations	316
Maintaining resolution	316
How collapsing changes the render order	318
Special cases including 3D issues	324
Continuous rasterization of vector artwork, text, and solids	327
Continuous rasterization and effects	329

Text Animation

20 Textacy	330
Creating, editing, and formatting text using the Type tool	330
<i>Cycling Text</i> sidebar (keyframing the Source Text parameter)	333
Paragraphs of text	334
Text along a path	335
Creating a Text Animator; the Range Selector	336
Randomize Order	338
More on animated properties	339
Cascade-style animations	340
Per-character 3D; text in 3D space	342
Animator Shapes; Ease High and Ease Low	346

More on the Advanced section; animating property values	348
Anchor Point Grouping and Alignment; Fill & Stroke options; blending modes . . .	349
The Wiggly Selector	350
<i>Modes of Confusion</i> sidebar (selector modes)	351
Managing multiple selectors and animators	353
Exporting text to SWF; converting Photoshop text	356
The Expression Selector	357

PART
7

Effects & Presets

21 Applying and Using Effects	358
Applying effects	358
The Effects & Presets panel; searching for effects	358
Common effect controls	361
Animating effects; effect point paths	365
Effects that use mask paths; Render Settings; CC Composite	368
Adjustment Layers, including masks and alpha channels	370
Applying effects to solids; dropping out the black	374
Layer Styles	376
22 Effects Roundup Overview	378
A quick reference for which chapters discuss which families of effects.	
22B Effects Roundup (<i>Bonus Chapter PDF on DVD</i>)	
Tips on 125 of the effects that come with After Effects CS3 Professional, organized by category. Includes a sidebar on 16-bit-per-channel mode and effects.	
22C Particle Playground (<i>Bonus Chapter PDF on DVD</i>)	
Tips on using this powerful – but daunting – particle system. <i>By JJ Gifford.</i>	
23 Compound Effects	380
How compound effects work	380
Compound Blur	382
Texturize; managing maps using nesting and precomposing	382
Displacement Map	386
Troubleshooting	388
24 Presets and Variations	390
Saving and applying Animation Presets	390
Presets and masks; presets and effects	394
Browsing the factory presets using Adobe Bridge	396
Text presets; saving text styles	398
Behaviors	400
Brainstorm	401

PART
8

Color & Keying

25	Color Management	404
	Overview of color management; Project Working Space	404
	Input profiles; output profiles; display management	406
	Luminance range issues; Match Legacy Gamma	410
	Linear blending modes	412
	32-bit floating point and HDR images; camera raw	414
	Cineon log space	418
	Broadcast safe colors	420
26	Keying	422
	Keying approaches	422
	An overview of the different keying plug-ins	424
	Keylight tutorial	427
	Color correction and edge improvements	430
26B	Color Difference Keyer (<i>Bonus Chapter PDF on DVD</i>)	
	A legacy tutorial on how to use the most powerful of the Adobe keyers.	

PART
9

Time & Tracking

27	Frame Rate Manipulation	434
	Time Stretching	434
	Reversing layers	436
	Time Remapping; freeze frames	438
	Manipulating the timing of clips	442
	Manipulating keyframed animation, sequenced layers, and frame sequences	445
	Step-frame animation	449
	Frame Blending, including Pixel Motion and Timewarp	450
28	Motion Stabilization	454
	Overview of the motion tracker/stabilizer, including settings	454
	Tracking; applying a track	459
	Masking and Motion Stabilization	461
	Stabilization practice and advice	462
29	Motion Tracking	466
	Tracking Position, including working with the Attach Point	466
	Tracking Scale and Rotation	469
	Applying a track to an effect point	470
	Exercise on multipart tracking; motion blur advice	471
	Corner pinning exercises	474

30	Shape Layers	478
	Shape tools and options	479
	Working with parametric shapes	480
	Working with pen path shapes	483
	Strokes, Fills, and Gradients	485
	Line caps, corners, and segments	487
	Managing multiple shapes	488
	Grouping; Merge Paths	490
	<i>Shapes from Other Places</i> sidebar (mask and Illustrator paths into shapes)	493
	Shape effects	494
	The Repeater	496
	Other tips including using Brainstorm with shapes	499
31	Paint and Clone	500
	Getting started, editing and managing strokes; Paint on Transparent	500
	Transforming Brush Strokes; Channels; Modes	504
	Eraser tool; erase Paint Only and erase Last Stroke Only options	506
	Animating strokes; using Write On mode; replacing strokes	508
	Rotoscoping frame by frame	510
	Brush Tips and tablets	511
	Interpolating strokes	511
	Using Paint with other effects	513
	Clone Stamp tool; Clone Presets; Clone Source Overlay; Source Time Shift	514
	Using motion tracking and expressions to automate cloning	518
	Other tips including painting in a straight line and revealing a title	521
32	Vector Paint	522
	Vector Paint overview	522
	Animating strokes; stroke speed; Quick Paint mode	524
	Compositing Modes	527
	Wiggling strokes; logo reveal exercise	528
	Transforming strokes; cleaning up keyed alpha channels	530
	Onion skinning	531
33	The Puppet Tools	532
	Puppet Pin tool	532
	Keyframing pins; motion sketching pins	534
	Overlap tool	536
	Starch tool	538
	Mesh issues	539
	Multiple shapes in a mesh; animating text exercise	540

PART
11

Working with Audio

34 Working with Audio	542
Reading audio waveforms; spotting audio	542
Controlling audio levels	546
Previewing audio	547
Mixing audio including fades; avoiding clipping distortion	549
Trimming audio layers	551
34B Audio Effects (<i>Bonus Chapter PDF on DVD</i>)	
An overview of the most useful audio effects.	

PART
12

Expressions

35 Expressions	552
Creating expressions, including using the pick whip	553
Convert audio to keyframes	555
Mixing and matching parameters, ranges, and dimensions	558
Interpolating values	559
Controlling expressions; saving expressions as presets	564
Building more complex expressions; Expression Language Menu	567
The wiggle expression	570
35B Deeper Modes of Expression (<i>Bonus Chapter PDF on DVD</i>)	
An extensive review of useful expression methods, JavaScript math functions, and programming tips. Includes numerous examples.	
35C Scripting Overview (<i>Bonus Chapter PDF on DVD</i>)	
Controlling After Effects with scripts. <i>By Dan Ebberts.</i>	

PART
13

Importing & Integration

36 Import and Interpret	572
Importing different media types; alpha channel types; missing codecs	573
Importing from Photoshop & Illustrator; video templates	580
Importing projects	584
Interpret Footage settings; Interpretation Rules	585
37 Integration 101	590
Web integration tips, including GIF, SWE, and FLV	590
Creating buttons for Adobe Encore	593
NLE integration tips, including Premiere Pro, Avid, and Final Cut Pro	594
Dynamic Link	596

38	Integration with 3D Applications	597
	Importing camera moves	598
	Aligning objects; creating mattes; frame rate and size issues	600
	Videowall exercise, including Cinema 4D export	604
	Multipass rendering	609
	Integrating shadows exercise	610
38B	3D Channel Effects (<i>Bonus Chapter PDF on DVD</i>)	
	A review of the 3D Channel Effects for file formats with extra data channels.	
39	Video Issues	612
	Fields and interlacing, including field flicker	612
	Frame rate and timecode issues; 3:2 Pulldown	614
	Frame sizes; non-square pixels; anamorphic widescreen; working square	616
	Converting between DV and D1	621
	Safe areas	622
	Moving between normal and widescreen aspect ratios	623
	Safe colors; previewing your work on a real video monitor	625

PART
14

Exporting & Rendering

40	Rendering Queue	628
	Rendering overview, including movies, stills and RAM Previews	628
	Render Settings	632
	Output Modules; Adobe Media Encoder	638
	Render Queue panel; creating and editing templates	644
41	Advanced Rendering	648
	Consolidating, removing unused footage, and reducing projects	648
	Collect Files	649
	Multiprocessor rendering; distributed network rendering	650
	Adobe Device Central	655
	Clip Notes	656
42	Prerendering and Proxies	658
	Creating and applying footage and comp proxies	659
	Working with proxies, including rendering	661
43	What's Your Preference?	664
	A review of each of the After Effects Preferences, including suggested settings.	
	Also includes a brief overview of the text preferences file.	
	Credits	672
	Index	673
	Resources	690
